While Liddy's adventures are primarily intended for the reader who is struggling with mental illness to know that they are not alone, she also explains the disease and encourages their families to seek an early diagnosis and support.

MEMOIRS OF A MANIC-DEPRESSANT. MICHELLE. MCCONNELL,2021

Coping with Mania Nira Coleman,2021-04-04 Manic episodes can be scary and difficult to deal with. This book tells you all you need to know about this mental health symptom and way to cope with it. Manic episodes can vary from person to person. Some people can recognize they're heading toward a manic episode, while others may deny the seriousness of their symptoms. If you experience mania, in the heat of the moment, you probably won't realize you're having a manic episode. So, perhaps the best way to cope with mania is to plan ahead. Here we introduce you to some steps you can take to prepare.

Manic Mosaic Alexis Bear,2014-10-29 Living with someone who has a mental illness can be a daunting prospect for anyone to deal with. Manic mosaic aims to explain what is going on inside the head of a person with a depressive illness. Contained within these pages are many journal entries, experiences and explanations of what it is like to live with such an illness as well as a plethora of hints and tips as to how you can help both your loved one and yourself during those dark and frightening hours when depression has hit.

Rick Rikesh Tailor,2020-11-30 It all began on Thursday, March 14th, 2019. I woke up with suicidal thoughts. My mind was racing with negativity, which consumed me completely. I could no longer bear the pain; I needed an escape. That day changed everything. I was admitted to a hospital and kept in a psychiatric ward on constant observation. My life had been plagued with mental health problems. As a teen, I was diagnosed with social anxiety disorder; this time, however, felt different. I had an obsession I couldn't control: the obsession of another woman. The thoughts not of sexual nature but an emotional connection nonetheless. The book describes my journey after my diagnosis and the mood swings I have and how visits from healthcare professionals and family could trigger a swing in mood. It also tells the story of my childhood, growing up with anxiety and the impact it had.

We Heard the Angels of Madness Diane Berger,1991

Déjà Vu Angela Grey,2021-04-24 Déjà vu during a manic episode is a much better explanation than our daughter has bipolar disorder. Think about the stigma she'll have to endure when everyone has an adrenaline rush from time-to-time or gets depressed, is grief-stricken or is down in the dumps. Don't classify our daughter as one of them. She's not; she's different. Finn Lancaster says to his wife about their daughter, Ivy. Eighteen-year-old recent high school graduate, Ivy Lancaster now has some negatives to add to her blonde, svelte blue eyes, alabaster skin, and svelte body. She's recently started rapid cycling through manic and depressive episodes that leave her with guilt, embarrassment, and shame. Ivy now wakes up, looks around, and doesn't recognize evidence of what she's been up to for the last twenty-four hours. Add to that the fact that she's obsessed with a recent, local murder of one of her classmates. When Ivy's not scrolling online message boards about suicide then she's combing the internet for all that there is about the murdered high school senior and the suspected serial killer. But Ivy knows more than everybody else, she's awesome about tracking down the details and has her aim pointed in

the right direction. Will she save everyone from another possible murder? Or will she push an innocent man too far and end up the next tragedy in town?

Manic Memories Desiree D. Collier,2008-01 This is a fictional story of what it is like to have a psychotic break and acute manic episode, and the effect it can have on you and your family. There are over two million people in the United States diagnosed with this condition, so you probably know someone or know of someone who is bipolar. Having an acute manic episode is no fun, neither for you nor your family members, as mine can attest to. But when manic depressive people feel okay, they tend to go off their medications and wind up having another attack.

The Adventures of Mandy the Manic Judy K. Feder,2002

Bipolar in Barbados Christian Browne,2018-03-31 On the brink of insanitySomething happened to me over the last few months, something I can't explain. I don'teven know when exactly it happened. But the maddening question is why it happened, why it happened to me. Why do I only sleep 5 hrs at night? Why when I wake up is mymind racing? Why am I compelled to write it down and share it? Why would I do thisknowing that it will piss people off, knowing that others will see this as me trying to getattention or seek some unknown ulterior motive? How long will this last? Will I ever goback to plain old boring fading into the background me?I had an experience, something that changed me (forever?) and all I've been trying to dois to share that with those closest to me. All you've heard about is all the happy go luckystuff, and the pictures I send are all of good times, friends having fun, everyone smiling.What you don't see is me waking up in a basement all alone wondering why this is allhappening. Sitting at a computer screen at 5am typing away till my fingers hurt notknowing why hoping, and praying for answers so that this would all make sense. I'venever been so scared in my entire life. When I look in the mirror the face that looks backseem familiar but something about it is different. There's something in the eyes that'schanged. Is it a holy fire? The fires of hell? Or something more tangible and real, thestruggles of one on the brink of insanity? I don't know, and that's what scares the helloutta me, that basic innate human fear of the unknown. I was only hoping that my friendsand family would be able to comfort me, guide me, do anything so I didn't feel so lost, confused and lonely.Christian was a normal

young man in his early twenties living a regular life in Toronto with a great job, until something unexpected happened when on vacation in Barbados. It was as if a bolt of lightning had struck his brain, changing it forever and completely altering his perception of reality. *Bipolar in Barbados: A Memoir of My First Manic Episode* is a personal recollection of the events leading up to an unknown illness which was later identified as Bipolar Type 1.

Heavy Light Horatio Clare, 2021-03-04 *Heavy Light* is the story of a breakdown, a journey through mania, psychosis and treatment in a psychiatric hospital and onwards to release, recovery and healing. After a lifetime of ups and downs, Horatio Clare was committed to hospital under Section 2 of the Mental Health Act. From hypomania in the Alps, to a complete breakdown and a locked ward in Wakefield, this is a gripping account of how the mind loses touch with reality, how we fall apart and how we can be healed - or not - by treatment. A story of the wonder and intensity of the manic experience, as well as its peril and strangeness, it is shot through with the love, kindness, humour and care of those who deal with someone who becomes dangerously ill. Partly a tribute to those who cared for Horatio, from family and friends to strangers and professionals, and partly an investigation into how we understand and treat acute crises of mental health, *Heavy Light's* beauty, intensity and compassion illuminate a fundamental part of human experience. It asks urgent questions about how we understand and treat mental health that affect each and every one of us.
