The Divine Matrix Gregg Braden, 2010 THE DIVINE MATRIX Are the miracles that we see in the quantum world actually showing us our greatest possibilities rather than our scientific limits? Could the spontaneous healing of disease, an instant connection with everyone and everything, and even time travel, be our true heritage in the universe? There is a place where all things begin, the place of pure energy that simply "is." In this quantum incubator for reality, everything is possible. In 1944, Max Planck, the father of quantum theory, shocked the world by saying that this "matrix" is where the birth of stars, the DNA of life, and everything between originates. Recent discoveries reveal dramatic evidence that Planck's matrix - The Divine Matrix - is real. It is this missing link in our understanding that provides the container for the universe, the bridge between our imagination and our reality, and the mirror in our world for what we create in our beliefs. To unleash the power of this matrix in our lives, we must understand how it works and speak the language that it recognizes. For more than 20 years, Gregg Braden, a former senior aerospace computer systems designer, has searched for the understanding to do just that. From the remote monasteries of Egypt, Peru, and Tibet to the forgotten texts that were edited by the early Christian church, the secret of the Divine Matrix was left in the coded language of our most cherished traditions. It is verified in today's science. In this paradigm-shattering book, Gregg shares what he's found. Through 20 keys of conscious creation, we're shown how to translate the miracles of our imagination into what is real in our lives. With easy-to-understand science and real-life stories, Gregg shows us that we're limited only by our beliefs, and what we once believed is about to change!

understand the actual science to put it to use. The Physics of Miracles utilizes advanced scientific concepts while remaining accessible to everyone, from children to medical professionals. Discussing seemingly implausible topics, such as time travel, alternate universes, and invisibility, this book is fascinating and instantly applicable. The Physics of Miracles will reshape the way people think about their place in the universe and their capacity for health and healing.

Playing the Matrix Mike Dooley,2019-07-23 From the New York Times bestselling author of Infinite Possibilities and Life on Earth Playing the Matrix is a master class for creating the life you want to live. Tried and true, delivered and perfected over a decade while being shared live with tens of thousands of students in 132 cities, in 34 countries, upon 6 continents. This is Mike Dooley's advanced course on living deliberately and creating consciously. The concepts he shares were born of material he's delivered to live audiences the world over, culminating in his most impactful, most transformational program ever. Now, for the first time in 17 years of touring, these ideas are to be shared in book form. At the heart of the Matrix lies a simple yet highly unexpected concept for creating major life change that's unlike anything shared by other teachers, past and present. It clearly reveals why "manifesting" sometimes works with incredible ease, why it sometimes doesn't work at all, and why, on occasion, it works, and yet in hindsight we wish it hadn't. Readers will not only learn about the "Bermuda Triangle of Manifesting" that too often leads to heartbreak and loss, they'll learn how to navigate around it, under full sail, with their own new "a-ha" moments that will teach them: • How to achieve clarity in purpose and desire and thereby avoid contradictions and self-sabotage • How to fuel their dreams with passion while not attaching to unimportant details and outcomes • How to plan and take action on their dreams without "messing with the cursed how's"! And so much more...

The Universe and Multiple Reality M. Franks,2003 Understand the nature of your mind and exactly how it interacts with matter at the quantum level to produce manifestations, magick and miracles. Learn the nature of the universe in which we live and the exact process by which you can change your destiny by mere faith and imagination. Understand how modern physics demonstrates the absolute immortality of your consciousness, your mind, your spirit. *The Universe and Multiple Reality* presents a viewpoint dramatically different from the currently fashionable scientific interpretation of modern physics, an interpretation that denies the most important part of recent scientific discoveries: the mind and its effect on reality. *The Universe and Multiple Reality* explains the exact physical processes by which paranormal events operate, including how miracles, magick and manifesting occur. This book is a must for any person curious about the place their mind occupies in the cosmic scheme of things. *The Universe and Multiple Reality* breaks new ground. There are a great many books on parallel universes, on quantum physics and multiple reality--but none that proffers an understandable theory on how the human mind interacts with multiple realities at the quantum level to produce palpable physical effects.

Everyday Miracles David Spangler, 2008-10-01 This is a new edition of David Spangler's classic book on manifestation. It has been out of print for some time but the comments of Willis W. Harman, Former President, Institute of Noetic Sciences are still relevant: A number of recent writers have set out to unveil our amazing power to manifest what we want; none have made it so clear that true effectiveness comes from choosing to align what we want with the transpersonal will, as Spangler terms it. His book is lively and easy to read; his clarity, simplicity, and deep wisdom are inspiring.

The Universe Always Delivers Twice - Manifesting with Energy and the Law of Attraction Sarah Hertz, 2022-01-15 Everything we experience in this world is energy, and everything we experience has an energy in it. If you understand the language of energy, you can change everything. This book is about the energy, that you can use to create your life. Many spiritual books often leave out the most important tool in manifesting: energy! Each of us has manifestation powers, you just need to learn to use them within the framework of the 12 Laws of the Universe, and most importantly, speak the same language as the Universe. In this book, the author shows you how to use the infinite energy of the universe to manifest and make wishes to the universe. If you are wondering why you have not been able to create miracles so far, you will learn about

the influence of the development of your consciousness, how energetic blockages can sabotage your wishes and, above all, how you can dissolve them in minutes. The book contains many practical exercises that will enable you to better understand the language of the universe and proven tricks to manifest faster. You'll also learn why the universe doesn't know time, how to stretch time, and how to program a new future. The book concludes with a 21-day Miracle Challenge that gives you the opportunity to exercise your manifestation muscles. You will make a wish to the universe every day for three weeks and practice manifesting with energy. When your energetic level is right, you can achieve your goals much easier. It's no secret that when you are in flow and full of energy, you can almost automatically manifest more money, love, a thriving business or other miracles in your life. You dive into a universe full of energy and choose the miracles that already exist as a possibility - by simply asking for it and choosing that miracle. In this book, you will discover a new way of manifesting and learn to playfully use energetic frequencies to attract your desires from the universe. You learn how to attract the right circumstances, people and opportunities into your life to conjure small and big miracles into your everyday life. You'll find out for yourself in the end: the universe always delivers twice! Now dive into the world of energy and learn to use the magic you had as a child again. Welcome to the school for miracle makers! What is possible that you think isn't, that if you allowed the possibilities to happen, would change everything? Read the book and find out!

The Moses Code James F. Twyman,2010-03 Is it possible that nearly 3,500 years ago, Moses was given the secret for attracting everything you've ever desired? The Moses Code was first used to create some of the greatest miracles in the history of the world, but then it was hidden away, and only the highest initiates were allowed to practice it. In this book, James F. Twyman reveals the Code for the first time, showing how it can be used to create miracles in your life . . . and in the world. By practicing the principles presented within these pages, you'll discover how you can integrate the most powerful manifestation tool in the history of the world into your own life. At the very heart of the Moses Code is the true function and practice of the Law of Attraction. You may have been told that this Law is all about getting the things you want--things that you think will make your life more satisfying. But what if that's just the first step, and cracking the Moses Code depends more on what you're willing to give rather than get. That would mean that you have the power to create miracles in your life right now! It would also mean that you have the ability, even the responsibility, to use that power for more than just attracting money, a better car, or the perfect relationship. You're here to use the power of Divinity itself to create a world based on the laws of compassion and peace. That's the task that lies before us.
