*International Maoism in the Developing World* Robert J. Alexander, 1999-11-30 The Maoist movement was the most important dissident force within International Communism in the period following World War II. Based on first-hand observation as well as the scattered research on the Maoist movements, Alexander examines the circumstances that attracted people to the movement in each country and the evolution of the movement. Scholars and researchers interested in Marxism in the developing world will be able to trace the origins and fate of Maoist groups in Latin America, Albania, Africa, the Middle East, and Asia.

**Mao's Little Red Book** Alexander C. Cook, 2014-03-06 Mao Zedong's Little Red Book (Quotations from Chairman Mao) - a compilation of the Chinese leader's speeches and writings - is one of the most visible and ubiquitous symbols of twentieth-century radicalism. Published for the first time in 1964, it rapidly became the must-have accessory for Red Guards and revolutionaries from Berkeley to Bamako. Yet, despite its worldwide circulation and enduring presence there has, until now, been no serious scholarly effort to understand this seminal text as a global historical phenomenon. Mao's Little Red Book brings together a range of innovative scholars from around the world to explore the fascinating variety of uses and forms that Mao's Quotations has taken, from rhetoric, art and song, to talisman, badge, and weapon. The authors of this pioneering volume use Mao's Quotations as a medium through which to re-examine the history of the twentieth-century world, challenging established ideas about the book to reveal its remarkable global impact.

**Revolution in the Air** Max Elbaum, 2018-04-10 The first in-depth study of the long march of the US New Left after 1968 The sixties were a time when radical movements learned to embrace twentieth-century Marxism. Revolution in the Air is the definitive study of this turning point, and examines what the resistance of today can learn from the legacies of Lenin, Mao and Che. It tells the story of the "new communist movement" which was the most racially integrated and fast-growing movement on the Left. Thousands of young activists, radicalized by the Vietnam War and Black Liberation, and spurred on by the Puerto Rican, Chicano and Asian-American movements, embraced a Third World oriented version of Marxism. These

admirers of Mao, Che and Amilcar Cabral organized resistance to the Republican majorities of Nixon and Ford. By the 1980s these groups had either collapsed or become tiny shards of the dream of a Maoist world revolution. Taking issue with the idea of a division between an early “good sixties” and a later “bad sixties,” Max Elbaum is particularly concerned to reclaim the lessons of the new communist movement for today’s activists who, like their sixties’ predecessors, are coming of age at a time when the Left lacks mass support and is fragmented along racial lines. With a new foreword by Alicia Garza, cofounder of #BlackLivesMatter.

*Mao Zedong and China in the Twentieth-Century World* Rebecca E. Karl, 2010-08-13 Throughout this lively and concise historical account of Mao Zedong’s life and thought, Rebecca E. Karl places the revolutionary leader’s personal experiences, social visions and theory, military strategies, and developmental and foreign policies in a dynamic narrative of the Chinese revolution. She situates Mao and the revolution in a global setting informed by imperialism, decolonization, and third worldism, and discusses worldwide trends in politics, the economy, military power, and territorial sovereignty. Karl begins with Mao’s early life in a small village in Hunan province, documenting his relationships with his parents, passion for education, and political awakening during the fall of the Qing dynasty in late 1911. She traces his transition from liberal to Communist over the course of the next decade, his early critiques of the subjugation of women, and the gathering force of the May 4th movement for reform and radical change. Describing Mao’s rise to power, she delves into the dynamics of Communist organizing in an overwhelmingly agrarian society, and Mao’s confrontations with Chiang Kaishek and other nationalist conservatives. She also considers his marriages and romantic liaisons and their relation to Mao as the revolutionary founder of Communism in China. After analyzing Mao’s stormy tenure as chairman of the People’s Republic of China, Karl concludes by examining his legacy in China from his death in 1976 through the Beijing Olympics in 2008.

**A Critical Introduction to Mao** Timothy Cheek, 2010-08-23 Mao Zedong’s political career spanned more than half a century. The ideas he championed transformed one of the largest nations on earth and inspired revolutionary movements across the world. Even today Mao lives on in China, where he is regarded by many as a near-mythical figure, and in the West, where a burgeoning literature continues to debate his memory. In this book, leading scholars from different generations and around the world offer a critical evaluation of the life and legacy of China's most famous - some would say infamous - son. The book brings the scholarship on Mao up to date, and its alternative perspectives equip readers to assess for themselves the nature of this mercurial figure and his significance in modern Chinese history.

*Maoism in the Developed World* Robert J. Alexander, 2001-07-30 Alexander surveys the most important dissident movement within International Communism in the developed world since World War II. He traces its origins, the issues that differentiated the movement from Moscow-oriented communism, and shows why the movement had an attraction for both traditional communists and others of the left. Examining the movement by region and then by country, he describes the appearance and evolution of the Maoist Communist parties throughout North America, Europe, Japan and Oceania. An important resource for all scholars and researchers involved with the history of communism.

Maoism Julia Lovell, 2019-03-14 'A landmark work giving a global panorama of Mao's ideology filled with historic events and enlivened by striking characters' Jonathan Fenby, author of *The Penguin History of China Since the 1980s*, China seems to have abandoned the utopian turmoil of Mao's revolution in favour of authoritarian capitalism. But Mao and his ideas remain central to the People's Republic. With disagreements between China and the West on the rise, the need to understand the political legacy of Mao is urgent and growing. A crucial motor of the Cold War: Maoism shaped the course of the Vietnam War and brought to power the Khmer Rouge in Cambodia; it aided anti-colonial resistance movements in Africa; it inspired terrorism in Germany and Italy, and wars and insurgencies in Peru, India and Nepal, some of which are still with us today. Starting with the birth of Mao's revolution in northwest China in the 1930s and concluding with its violent afterlives in South Asia and resurgence in the People's Republic today, Julia Lovell re-evaluates Maoism as both a Chinese and an international force, linking its evolution in China with its global legacy. 'Wonderful' Andrew Marr, *New Statesman*

**Trotskyism and Maoism** A. Belden Fields, 1988 The theory and practice of communism today does not adhere rigidly to the dogma of the Communist Party. This book provides a systematic comparison of Trotskyist and Maoist politics in theory and practice. Pulling together material from widely scattered sources into a comprehensive framework, *Trotskyism and Maoism* follows the development of the Trotskyist and Maoist movements in France and in the United States from the 1930s to the present. Scholars of political theory, Western European studies, and social history will applaud its publication.

Marx and Lenin in Africa and Asia Harry Verhoeven, 2021-11-29 The spectres of Marx and Lenin have long loomed prominently in Africa and Asia and they still do so in the 21st century. Many of the founding fathers of postcolonial republics believed socialism could transform their societies. Yet what socialism meant in theory and in practice has always been highly heterogeneous and differed markedly from the European experience. African and Asian movements did not simply mimic the ideas and institutions of Soviet or European Marxists, but endeavoured to define their own, experimenting with a variety of interpretations and in the process adapting doctrines and templates to their unique contexts. This volume brings together anthropologists, historians and political scientists from around the world to reflect on three great challenges which various types of socialists in Africa and Asia have had to simultaneously contend with in their articulations of liberation: how to build up empirical and juridical statehood, how to forge a nation after colonial divide-and-rule, and how to position themselves in

an international order not of their making. In a post-colonial world, this helps centre a key question running through the different chapters: what can African and Asian imaginaries, institutions and practices tell us about socialism as a global phenomenon? The chapters in this book were originally published as a special issue of Third World Quarterly.

**Maoist Insurgency Since Vietnam** Thomas A. Marks, 2012-12-06 This is an analysis of revolutions based on the Maoist Mode. These insurgencies failed, having been successfully contained by their governments. How did the world's strongest power - America - fail where Third World governments have succeeded?

**National Liberation** Norman Miller, Roderick Aya, 1971

*The Little Red Book: Quotations from Chairman Mao Tse-tung* Mao Tse-tung, 2024-03-17 Quotations from Chairman Mao Tse-tung is a book of statements from speeches and writings by Mao Zedong (Mao Tse-tung), the former Chairman of the Communist Party of China, published from 1964 to about 1976 and widely distributed during the Cultural Revolution. The most popular versions were printed in small sizes that could be easily carried and were bound in bright red covers, becoming commonly known in the West as the Little Red Book. Quotations from Chairman Mao Tse-tung was originally compiled by an office of the PLA Daily (People's Liberation Army Daily) as an inspirational political and military document. The initial publication covered 23 topics with 200 selected quotations by the Chairman of the Chinese Communist Party, and was entitled 200 Quotations from Chairman Mao. It was first given to delegates of a conference on 5 January 1964 who were asked to comment on it. In response to the views of the deputies and compilers of the book, the work was expanded to address 25 topics with 267 quotations, and the title was changed simply to Quotations from Chairman Mao Tse-Tung.

**Shadow Cold War** Jeremy Friedman, 2015-10-15 The conflict between the United States and the Soviet Union during the Cold War has long been understood in a global context, but Jeremy Friedman's *Shadow Cold War* delves deeper into the era to examine the competition between the Soviet Union and the People's Republic of China for the leadership of the world revolution. When a world of newly independent states emerged from decolonization desperately poor and politically disorganized, Moscow and Beijing turned their focus to attracting these new entities, setting the stage for Sino-Soviet competition. Based on archival research from ten countries, including new materials from Russia and China, many no longer accessible to researchers, this book examines how China sought to mobilize Asia, Africa, and Latin America to seize the revolutionary mantle from the Soviet Union. The Soviet Union adapted to win it back, transforming the nature of socialist revolution in the process. This groundbreaking book is the first to explore the significance of this second Cold War that China and the Soviet Union fought in the shadow of the capitalist-communist clash.
