**The Map of Consciousness Explained** David R. Hawkins, M.D., Ph.D., 2020-10-20 An accessible exploration of best-selling author's most famous work, The Map of Consciousness, that helps readers experience healing and transcendence. We are all born with a level of consciousness, an energetic frequency within the vast field of consciousness. And with The Map of Consciousness, we can truly understand the total spectrum of human consciousness. Using a unique muscle-testing method, Dr. David R. Hawkins conducted more than 250,000 calibrations during 20 years of research to define a range of values, attitudes, and emotions that correspond to levels of consciousness. This range of values-along with a logarithmic scale of 1 to 1,000-became the Map of Consciousness, which Dr. Hawkins first wrote about in his best-selling book, Power vs. Force. With the Map, Dr. David R. Hawkins laid out the entire spectrum of consciousness, from the lower levels of Shame, Guilt, Apathy, Fear, Anger, and Pride; to Courage, Acceptance, and Reason; all the way up to the more expanded levels of Love, Ecstasy, Peace, and Enlightenment. These higher energy fields are a carrier wave of immense life energy. An essential primer on the late Dr. David R. Hawkins's teachings on human consciousness and their associated energy fields, The Map of Consciousness Explained offers readers an introduction and deeper understanding of the Map, with visual charts and practical applications to help them heal, recover, and evolve to higher levels of consciousness and energy. This book is a light unto the path of any individual who wants to become more effective in any area of life.

**The Body's Map of Consciousness, Volume 1: Movement** Lansing Barrett Gresham, Julie J. Nichols, 2000-07

**Maps of Consciousness** Ralph Metzner, 2023-09-19 A classic guide to expanding perception and consciousness development • Explores six ancient yet timeless systems for exploring the mind: the I Ching, Tantra, Tarot, astrology, alchemy, and the yoga philosophy of Actualism • Shares exercises from each system and illuminates the key stages in the journey of consciousness development • Shows how each of these disciplines can help you become a fully aware and conscious participant in your own spiritual evolution In this highly acclaimed classic, psychedelic elder Ralph Metzner presents a guide to six ancient systems, once known only to the initiated few, to expand awareness and free your consciousness from exterior limitations and cultural conditioning. Metzner begins with the I Ching, revered by the Chinese as the oldest and wisest book in the world. He explains how it reveals change as the evolutionary constant and offers a hands-on method of divination and guidance. He explores the Hindu and Buddhist Tantras of medieval India, ancient practices celebrating the union of male and female energies that transmute ordinary sense experience into ecstatic ritual worship. He examines the Tarot, revealing how the cards act as culture-transcending mirrors, bringing us through worlds of darkness and light in a complex journey. He looks at the practice of alchemy, explaining how it is a “psychic chemistry” of inner union through which we can transform planetary and cosmic energies. He explores the esoteric aspects of astrology, revealing the rhythmic cycles of the planets and how their phases may be experienced in terms of motion and emotion. He then examines in depth the yoga philosophy of Actualism, centered on the techniques of Agni Yoga, which allow you to use your living “inner fire” to illuminate the shadow parts of consciousness and burn out that which obstructs the free flow of energy. With a new foreword by UC Berkeley professor of neurobiology David E. Presti and featuring all of the original diagrams, this edition of Metzner’s classic text shows how each of these disciplines can help the modern individual become a fully aware and conscious participant in their own spiritual evolution.

**Summary of David R. Hawkins's The Map of Consciousness Explained** Everest Media,2022-03-24T22:59:00Z

Please note: This is a companion version & not the original book. Sample Book Insights: #1 Betty was 34 years old, but she looked much older because she was thin and drawn. She had developed a fear of muggers, rapists, and air pollution. She was too afraid of talking about psychological matters to improve. #2 The Map of Consciousness is a reference guide to the spectrum of consciousness, charting the calibrated levels of energy. It ranges from 1 to 1,000, where 1 indicates existence and 1,000 indicates the highest level that has ever graced the planet. #3 The level of Courage, which is the shift from negative to positive energy, is the energy of integrity, self-honesty, and real empowerment. The levels below Courage are antilife, whereas the levels above it are supportive of life. #4 All living things react positively to what is life-supporting and negatively to what is life-threatening. This is the fundamental mechanism of survival. In humans, the capacity to detect change and react appropriately is far more developed than in trees.

*The Highest Level of Enlightenment* DAVID R. HAWKINS,2024-02-06 In this profound book, based on a popular audio program, Dr. David Hawkins gives a primer on his world-famous map of consciousness that will help the reader embark on their own journey to an advanced state of consciousness.

*Investigating Phenomenal Consciousness* Max Velmans,2000-01-01 How can one investigate phenomenal consciousness? As in other areas of science, the investigation of consciousness aims for a more precise knowledge of its phenomena, and the discovery of general truths about their nature. This requires the development of appropriate first-person, second-person and third-person methods. This book introduces some of the creative ways in which these methods can be applied to different purposes, e.g. to understanding the relation of consciousness to brain, to examining or changing consciousness as such, and to understanding the way consciousness is influenced by social, clinical and therapeutic contexts. To clarify the strengths and weaknesses of different methods and to demonstrate the interplay of methodology and epistemology, the book also suggests a number of [maps] of the consciousness studies terrain that place different approaches to the study of consciousness into a broader, interdisciplinary context. (Series A).

*I* David R. Hawkins, M.D., Ph.D.,2014-03-03 Experience spiritual enlightenment and personal transformation from world-renowned author, psychiatrist, clinician, spiritual teacher, and researcher of consciousness, David R. Hawkins, M.D., Ph.D. This book combines consciousness studies with transpersonal psychology, providing an accessible gateway into the deeper dimensions of self and reality. It concludes the presentation of a long-predicted major advance in critical human knowledge. It explains and describes the very substrate and essence of consciousness as it evolved from its primordial appearance as life on earth on up through evolution as the human ego, and hence, to the ego’s transcendence as the spiritual Reality of Enlightenment and the Presence of Divinity. It completes the description of the evolution of human consciousness from the level of approximately 800 to its peak experience at 1,000, which historically has been the ultimate possibility in the human domain. This is the realm of the mystic whose truth stems solely from the radical subjectivity of divine revelation. The text of the material is taken from lectures, dissertations, and dialogues with students, visitors, and spiritual aspirants from around

the world who have different spiritual and religious backgrounds and varying levels of consciousness. On the referenced Scale of the Levels of consciousness, which calibrates the levels of Truth from 1 to 1,000, Power versus Force calibrates at 850, The Eye of the I at 980, and the final volume of the trilogy, I, calibrates at a conclusive 999.8. The uncommon clarity and lucidity with which the highly evolved subject matter is presented facilitates understanding. As with the reading of Power versus Force or The Eye of the I, the reader's level of consciousness increases measurably as a consequence of exposure to this material itself, which is presented from a powerful field of exposition. Conflict is resolved within the mind of the student by means of recontextualization, which solves the dilemma. Argument and adversity are resolvable by identifying the positionalities of the ego which are the basis of human suffering. Some Chapters Include: The Process Spiritual Purification The 'Ego' and Society Spiritual Reality Realization The Realization of Divinity The Radical Reality of the Self The Mystic The Levels of Enlightenment The Nature of God The Obstacles Transcending the World The Emotions "Mind" Considerations Karma The Final Doorway The Transcendence The Inner Path "No Mind" The Way of the Heart The Recontextualization Spiritual Research Homo Spiritus This masterpiece is a revolutionary tool for personal transformation, blending quantum physics with spirituality, and a perfect read for anyone seeking enlightenment and a deeper understanding of the universe.

This is the second volume of a trilogy that began with Power vs. Force and came before the third volume entitled I: Reality and Subjectivity. The intrinsic power of the information in this classic will elevate the consciousness of the reader. Included are verbatim dialogues with advanced students, instructions, and explanations that illuminate the spiritual teachings. **Human and Machine Consciousness** David Gamez,2018-03-07 Consciousness is widely perceived as one of the most fundamental, interesting and difficult problems of our time. However, we still know next to nothing about the relationship between consciousness and the brain and we can only speculate about the consciousness of animals and machines. Human and Machine Consciousness presents a new foundation for the scientific study of consciousness. It sets out a bold interpretation of consciousness that neutralizes the philosophical problems and explains how we can make scientific predictions about the consciousness of animals, brain-damaged patients and machines. Gamez interprets the scientific study of consciousness as a search for mathematical theories that map between measurements of consciousness and measurements of the physical world. We can use artificial intelligence to discover these theories and they could make accurate predictions about the consciousness of humans, animals and artificial systems. Human and Machine Consciousness also provides original insights into unusual conscious experiences, such as hallucinations, religious experiences and out-of-body states, and demonstrates how 'designer' states of consciousness could be created in the future. Gamez explains difficult concepts in a clear way that closely engages with scientific research. His punchy, concise prose is packed with vivid examples, making it suitable for the educated general reader as well as philosophers and scientists. Problems are brought to life in colourful illustrations and a helpful summary is given at the end of each chapter. The endnotes provide detailed discussions of individual points and full references to the scientific and philosophical literature.

**A Blueprint for the Hard Problem of Consciousness** Paulo J. Negro,2019-02-11 A Blueprint for the Hard Problem of Consciousness addresses the fundamental mechanism that allows physical events to transcend into subjective experiences, termed the Hard Problem of Consciousness. Consciousness is made available as the abstract product of self-referent realization of information by strange loops through the levels of processing of the brain. Readers are introduced to the concept of the Hard Problem of Consciousness and related concepts followed by a critical discourse of different theories of consciousness. Next, the author identifies the fundamental flaw of the Integrated Information Theory (IIT) and proposes an alternative that avoids the cryptic intelligent design and panpsychism of the IIT. This author also demonstrates how something can be created out of nothing without resorting to quantum theory, while pointing out neurobiological alternatives to the bottom-up approach of quantum theories of consciousness. The book then delves into the philosophy of qualia in different physiological knowledge networks (spatial, temporal and olfactory, cortical signals, for example) to explain an action-based model consistent with the generational principles of Predictive Coding, which maps prediction and predictive-error signals for perceptual representations supporting integrated goal-directed behaviors. Conscious experiences are considered the outcome of abstractions realized out of map overlays and provided by sustained oscillatory activity. The key

feature of this blueprint is that it offers a perspective of the Hard Problem of Consciousness from the point of view of the subject; the experience of 'being the subject' is predicted to be the realization of inference inversely mapped out of hidden causes of global integrated actions. The author explains the consistencies of his blueprint with ideas of the Global Neuronal Workspace and the Adaptive Resonance Theory of consciousness as well as with the empirical evidence supporting the Integrated Information Theory. A Blueprint for the Hard Problem of Consciousness offers a unique perspective to readers interested in the scientific philosophy and cognitive neuroscience theory in relation to models of the theory of consciousness.

Presented are discoveries of an enormous amount of crucial and significant information of great importance to mankind. Truth and Reality, Dr. Hawkins states, have no secrets, and everything that exists now or in the past- even a thought- is identifiable and calibratable from the omnipresent field of Consciousness itself.

intended for his private diaries to be made public. In order to make 1000 as helpful and powerful as possible, he decided to leave no secrets hidden. All is exposed in the hope that it might help to clear up confusion for the earnest sincere seeker or established spiritual teacher. Ramaji and Ananda Devi have been able to assist many seekers via the RASA transmission in support of non-dual awakening. They document some of the RASA recipients who have stabilized in non-duality and successfully attained enlightenment after receiving RASA in person or online. Ramaji gives an overview of the lower levels of consciousness (LOC 30 through LOC 499). He explains the emergence of pure spirituality (as opposed to conventional religion) at LOC 500 through LOC 559. He describes advanced seeker stages (LOC 560 through LOC 589) ready to leap into non-duality. Ramaji covers the non-dual stages in considerable depth. The new non-dual sage goes from local space spontaneity (LOC 600s) to cosmic or universal consciousness (LOC 700s) to divine unknowing (LOC 800s) to, for a few, the hesitant hermit (LOC 900s). Then the sage arrives at and stabilizes in the Self or Absolute (LOC 1000). Ramaji offers case studies, quotes and in-depth research to show how each major non-dual stage is different from the others. He does all he can to describe the nature and experience of the Absolute, helped by quotes from Meister Eckhart, Francis Lucille and Karl Renz. There has never been a book like 1000 before. If you are on the spiritual path in any way, this is a book that you simply cannot be without. Ramaji also points you to his website where you can listen for free to high-energy music he has programmed to support your enlightenment. The complete Map of Awakening with Levels of Consciousness and a condensed Map are included. Complementing the Map of Awakening are studies of 7 traditional spiritual maps of awakening: the Seven Valleys of Sufism, the Five Ranks of Tozan, the 10 Zen Oxherding Pictures, Patanjali's Yoga Sutras, Stages of Advaita Vedanta, the Major Arcana of the Tarot and the Hero's Journey. 1000 is a spirited, candid and passionately comprehensive major work. One of their students jokingly referred to 1000 as the Bible 2.0. You will want YOUR copy of 1000 by Ramaji and Ananda Devi to accompany you on your path!
