Springfield, Ohio: a Summary of Two Centuries Tom Dunham,2012-08-27 This survey highlights Springfields beginnings as an industrial oriented settlement growing into a city with an increasingly diversified industrial base well into the 20th century. Discussed in this connection is the role of railroads as a necessary condition to industrial success. As industry grew, commercialism expanded, and became centralized in the downtown. The text traces the citys viable and lively downtown from the mid-19th century to the mid-20th century. The background for the decline following World War II is covered, as well as the downtowns changing role in the modern era. Not all, however, is industry and commerce. The citys wealth and the wealth of individual citizens led to the construction of many fine buildings of architectural merit as venues for cultural, entertainment, and religious functions. Many of these structures are treated in relation to their cultural functions. Not the lease of the topics discussed is Springfields saga with infrastructure problems and their eventual correction.

A History of the City of Cairo, Illinois John M. Lansden,2009-06-25 Long out of print and much sought after by collectors,

Lansden's classic 1910 history of Cairo remains valuable for the early history of the city. Its reprinting here, with a new Foreword by Clyde C. Walton, former Illinois State Historian, thus makes available again one of the finest examples of local history ever written, stressing as it does Cairo's important relations with its area and with the country—in Lansden's words, "this part of the Valley of the Mississippi—this Illinois Country."
