Jeff Apter

Chasing the Dragon Jeff Apter,2023-02-01 He had it all: the heroin chic thing before it was chic, the scars, the swagger, an incredible stage presence. After bursting on to the Australian music scene in 1975, Dragon fast developed a reputation for both hard rocking and hard living. As the highly visible and charismatic lead singer, Marc Hunter was the voice behind such timeless hits as 'April Sun in Cuba', 'Are You Old Enough?' and 'Rain'. Yet Hunter was also a maverick whose destructive genius and serious heroin addiction led to a turbulent relationship with his bandmates, including older brother Todd. And it contributed to his early death at just 44. Originally published in 2011, this intimate portrait was written with full co-operation from Marc's mother Voi and his brother and former bandmate Todd, as well as contributions from many high-profile Australian music personalities such as James Reyne, John Paul Young, Kate Fitzpatrick, Richard Clapton, Don Walker, Kevin Borich, Tommy Emmanuel and Robert Forster.

Brunswick Amber Dalakas,2005 Settlers from the East Coast began arriving in the Brunswick area, then part of the Western Reserve, in 1815 in search of better lives and land to farm. Through backbreaking labor, these courageous pioneers cleared the land and built their homesteads and mills. Eventually, churches, general stores, blacksmith shops, and other businesses began to sprout up in what would become known as Brunswick Center. In 1901, the Cleveland Southwestern Interurban was built through the township, creating jobs and revenue, as well as a new source of fun, as families traveled to Cleveland for shopping and recreation. Brunswick became a city on October 2, 1960, and in 1965, residents celebrated the city's sesquicentennial. Interstate 71 opened, connecting Brunswick with Cleveland in 1974. What was once a quiet farming community has now burgeoned into a lively city, boasting one of the oldest churches in the Western Reserve and Hiram Miller's Underground Railroad station.

The Self-Donation of God Jack D. Kilcrease,2013-03-20 In *The Self-Donation of God*, Jack Kilcrease argues that the speech-act of promise is always an act of self-donation. A person who unilaterally promises to another is bound to take a particular series of actions to fulfill that promise. Being that creation is grounded in God's promising speech, the divine-

human relationship is fundamentally one of divine self-donation and human receptivity. Sin disrupts this relationship and therefore redemption is constituted by a reassertion of divine promise of salvation in the face of the condemnation of the law (Gen 3:15). As a new and effective word of grace, the promise of a savior begins the process of redemption within which God speaks forth a new narrative of creation. In this new narrative, God gives himself in an even deeper manner to humanity. By donating himself through a promise, first to the protological humanity and then to Israel, he binds himself to them. At the end of this history of self-binding, God in Christ enters into the condemnation of the law, neutralizes it in the cross, and brings about a new creation through his omnipotent word of promise actualized in the resurrection.

Disease Hans M Hirschi, 2017-10-26 When journalist Hunter MacIntyre is diagnosed with early-onset Alzheimer's, he realizes that his life is about to change, not to mention that he's been handed a certain death sentence. Alzheimer's is a disease affecting the patient's loved ones as much, if not more, than the patient themselves. In Hunter's case, that's his partner Ethan and their five-year-old daughter Amy. How will they react to, and deal with, Hunter's changing behavior, his memory lapses, and the consequences for their everyday lives? Disease is a story of Alzheimer's, seen through the eyes of one affected family.

Broadway Musicals, 1943-2004 John Stewart, 2012-11-22 On March 31, 1943, the musical Oklahoma! premiered and the modern era of the Broadway musical was born. Since that time, the theatres of Broadway have staged hundreds of musicals--some more noteworthy than others, but all in their own way a part of American theatre history. With more than 750 entries, this comprehensive reference work provides information on every musical produced on Broadway since Oklahoma's 1943 debut. Each entry begins with a brief synopsis of the show, followed by a three-part history: first, the pre-Broadway story of the show, including out-of-town try-outs and Broadway previews; next, the Broadway run itself, with dates, theatres, and cast and crew, including replacements, chorus and understudies, songs, gossip, and notes on reviews and awards; and finally, post-Broadway information with a detailed list of later notable productions, along with important reviews and awards.

Playing to Win Jeff Apter, 2023-02-01 In this deeply personal and insightful biography, author and music industry insider Jeff Apter provides a rare glimpse inside Farnsies world. Thanks to the support of those close to John its unlike any other book about the man. A family man at heart and the most loyal of friends, John was sometimes uncomfortable with the spotlight and for many years struggled to make his music career as successful as those close to him - including Glenn Wheatley and Molly Meldrum - could see it could be. He finally hit his stride with 1986s Whispering Jack and the breakaway success of Youre the Voice, which became the anthem of a generation. Jeff reveals the drama behind John being named Australian of the Year, how the cassette demo of Youre the Voice was nearly overlooked, and how John once accidentally sparked the attention of ASIO. And he explores Farnhams relationships with the figures who have been instrumental in

making him The Voice: his first manager, Daryl Sambell; his wife of 40-plus years, Jill; and longtime friend and manager Glenn Wheatley.

Plateau Marc Hunter,2020-06-25 Antwerp, Belgium - 1926 Pinkerton Todd, a young veteran prepares to return home. While waiting at the train station he witnesses his friend bring mugged and taken by two strangers. Todd has no other choice but to hold on to the mysterious package he was supposed to deliver. The significance of its contents will not be discovered until 65 years later. Salt Lake City, Utah - 1991 When University of Utah Professor Michael Hartford's office is broken into, he suspects little of it. But when his grandfather's journal is one of the only things missing from the break-in, his curiosity is piqued. Why would the contents of the journal be appealing to anyone outside the family? Amongst the myriad of entries, there are a few where Calvin Hartford, Michael's grandfather, wrote of a dear friend, Pinkerton Todd, and of a convoluted riddle whose solution seemed to involve hidden treasure and the Grand Canyon...

Mechanics of Sandwich Structures A. Vautrin,2013-06-29 The main advantages of sandwiches as structural components are now well known and well-established. Due to the progress in polymer science and engineering and advances in manufacturing processes, sandwich structures can blend various functional and structural properties and therefore lead to highly innovating systems. The current difficulty to overcome is to provide designers with proper methodologies and tools that could enable them to design improved sandwich structures. Such dedicated design tools should be efficient, reliable, flexible and user-friendly. They should be based on advanced knowledge of sandwich behaviour at global and local scales. Such approach relies on our capability to test, identify, control and model structure performances. The impressive variety of core and face materials and the rapid developments in forming processes give new opportunities to design components which have more complex shapes and higher integrated functional and structural properties. Interest in sandwiches is permanently growing in industry and refined testing and modelling approaches should be encouraged to set up relevant guidelines to design reliable advanced structures. The European Society for Mechanics sponsored the EUROMECH 360 Colloquium on the 'Mechanics of Sandwich Structures' in Saint-Etienne, France, on 13 - 15 May 1997. The main purpose of EUROMECH 360 was to go into the most recent progresses in sandwich analysis and design, including mechanical modelling and testing. It was expected that the Colloquium should contribute to define new research directions to support development of advanced applications in strategic industrial sectors such as ground transportations or building and civil engineering.

Dig David Nichols,2016-10-11 David Nichols tells the story of Australian rock and pop music from 1960 to 1985 - formative years in which the nation cast off its colonial cultural shackles and took on the world. Generously illustrated and scrupulously researched, *Dig* combines scholarly accuracy with populist flair. Nichols is an unfailingly witty and engaging guide, surveying the fertile and varied landscape of Australian popular music in seven broad historical chapters, interspersed with shorter chapters on some of the more significant figures of each period. The result is a compelling portrait of a music scene that evolves in dynamic interaction with those in the United States and the UK, yet has always retained a strong sense of its own identity and continues to deliver new stars - and cult heroes - to a worldwide audience. *Dig* is a unique achievement. The few general histories to date have been highlight reels, heavy on illustration and short on detail. And while there have been many excellent books on individual artists, scenes and periods, and a couple of first-rate encyclopedias, there's never been a book that told the whole story of the irresistible growth and sweep of a national music culture. Until now . . .
