*Sexuality and Psychoanalysis - Jens de Vleminck
2010*

The relationship between sexuality and psychoanalysis can be described in terms of an old and stormy love affair. The same can be said about the relationship between psychoanalysis and philosophy. It is precisely this fascinating

'love triangle' that the present volume of essays aims to explore. A diverse group of philosophers and psychoanalysts reflected on the concept of sexuality in Freud-Lacanian psychoanalysis. The result is a stimulating collection of essays where the role of sexuality in psychoanalysis is scrutinized from a philosophical point of view.

Female Infanticide in India - Rashmi Dube

Bhatnagar 2012-02-01

Examines female infanticide in colonial and postcolonial India.

On Feminine Sexuality - Jacques Lacan 1998

In his psycholinguistic exploration of the relationship between the desire for love and the attainment of knowledge, Jacques Lacan leads into a new way of interpreting the two most fundamental human drives.

Jacques Lacan - Sean Homer 2004-11-04

Jacques Lacan is one of the most challenging and controversial of contemporary thinkers, as well as the most influential psychoanalyst since Freud. Lacanian theory has reached far beyond the consulting room to engage with such diverse disciplines as literature, film, gender and social theory. This book covers the full extent of Lacan's career and provides an accessible guide to Lacanian concepts and his writing on: the imaginary and the symbolic; the Oedipus Complex and the meaning of the phallus; the

subject and the unconscious; the real; sexual difference. Locating Lacan's work in the context of contemporary French thought and the history of psychoanalysis, Sean Homer's Jacques Lacan is the ideal introduction to this influential theorist.

The History of Continental Philosophy - Alan D. Schrift 2013-04-12

From Kant to Kierkegaard, from Hegel to Heidegger, continental philosophers have indelibly shaped the trajectory of Western thought since the eighteenth century. Although much has been written about these monumental thinkers, students and scholars lack a definitive guide to the entire scope of the continental tradition. The most comprehensive reference work to date, this eight-volume History of Continental Philosophy will both encapsulate the subject and reorient our understanding of it. Beginning with an overview of Kant's philosophy and its initial reception, the History traces the evolution of continental philosophy through

major figures as well as movements such as existentialism, phenomenology, hermeneutics, and poststructuralism. The final volume outlines the current state of the field, bringing the work of both historical and modern thinkers to bear on such contemporary topics as feminism, globalization, and the environment. Throughout, the volumes examine important philosophical figures and developments in their historical, political, and cultural contexts. The first reference of its kind, *A History of Continental Philosophy* has been written and edited by internationally recognized experts with a commitment to explaining complex thinkers, texts, and movements in rigorous yet jargon-free essays suitable for both undergraduates and seasoned specialists. These volumes also elucidate ongoing debates about the nature of continental and analytic philosophy, surveying the distinctive, sometimes overlapping characteristics and approaches of each tradition. Featuring helpful overviews of major topics and

plotting road maps to their underlying contexts, *A History of Continental Philosophy* is destined to be the resource of first and last resort for students and scholars alike.

On Feminine Sexuality - Jacques Lacan 1988

Rūmī and the Hermeneutics of Eroticism - Mahdi Tourage 2007-11-30

Drawing on relevant postmodern theories, and exploring the link between the dynamics of eroticism and esotericism, this book establishes the esoteric significance of the bawdy tales in Rūmī's (d. 1273) *Mathnawī*, a masterpiece of medieval Perso-Islamic mystical literature.

The Seminar of Jacques Lacan: On Feminine Sexuality, The Limits of Love and Knowledge, Encore 1972-1973 - Jacques Lacan 1988

The Cambridge Companion to Lacan - Jean-Michel Rabaté 2003-07-31

This collection of specially commissioned essays

by academics and practising psychoanalysts, first published in 2003, explores key dimensions of Jacques Lacan's life and works. Lacan is renowned as a theoretician of psychoanalysis whose work is still influential in many countries. He refashioned psychoanalysis in the name of philosophy and linguistics at the time when it underwent a certain intellectual decline. Advocating a 'return to Freud', by which he meant a close reading in the original of Freud's works, he stressed the idea that the unconscious functions 'like a language'. All essays in this Companion focus on key terms in Lacan's often difficult and idiosyncratic developments of psychoanalysis. This volume will bring fresh, accessible perspectives to the work of this formidable and influential thinker. These essays, supported by a useful chronology and guide to further reading will prove invaluable to students and teachers alike.

Paradigms of Jouissance - Jacques-Alain Miller
2019

The Seminar of Jacques Lacan - Jacques Lacan
1988

Often controversial, always inspired, French intellectual Jacques Lacan begins the twentieth year of his famous Seminar by weighing theories of the relationship between the desire for love and the attainment of knowledge from such influential and diverse thinkers as Aristotle, Marx, and Freud. From here he leads us through mathematics, philosophy, religion, and, naturally, psychoanalysis into an entirely new and unexpected way of interpreting the two most fundamental human drives. Anticipated by English-speaking readers for more than twenty years, this annotated translation presents Lacan's most sophisticated work on love, desire, and jouissance.

Artistic Research in Music: Discipline and Resistance - Jonathan Impett 2017-12-04

The Orpheus Institute celebrates 20 years of artistic research in music Artistic research has come of age, and with it the Orpheus Institute.

Founded twenty years ago, the Institute's purpose from the start has been to pursue research through the practice of musicians. The Orpheus Institute is of the same generation as the field it was established to explore. Like many young adults, artistic research and its structures are still constructing their identity within a wider world. How have they developed? How will they mature? How can they negotiate relationships with institutions, disciplines, and bodies of theory and yet retain the essence of their work—the critical perspective of the artist? In the last two decades there have been major changes in the dynamics and structures of culture, its institutions and constituencies. How can artistic research maintain a productive dialectic between its potential status as a discipline and its core as radical practice? These and related questions are the threads woven through this collection of essays and assessments by present and past members of the Orpheus community—researchers, scholars,

administrators, advisors. Together and separately they weave a tapestry of past accomplishments, current research, and future perspectives. They celebrate the twentieth anniversary of Orpheus not with congratulations but with challenges and questions—a job for research, a job for the Institute, a job for the future. The wide range of contributors to this volume includes practitioner-researchers, theorists, and academic leaders from institutions at the forefront of artistic research in music. Contributors Tom Beghin (Orpheus Institute, Ghent), Paulo de Assis (Orpheus Institute, Ghent), Leonella Grasso Caprioli (Conservatorio di Vicenza), Jonathan Impett (Orpheus Institute, Ghent), Esa Kirkkopelto (University of the Arts, Helsinki), Kari Kurkela (University of the Arts, Helsinki), Susan Melrose (Middlesex University, London), Stefan Östersjö (Orpheus Institute, Ghent), Gertrud Sandqvist (Malmö Art Academy), Huib Schippers, Vanessa Tomlinson, Paul Draper (Queensland Conservatorium

Research Centre, Griffith University), Luk Vaes (Orpheus Institute, Ghent), Janneke Wesseling/Kitty Zijlmans (Leiden University)

Reading Seminar XX - Suzanne Barnard

2012-02-01

Examines Lacan's key seminar on sexual difference, knowledge, desire, and love.

Inheritance in Psychoanalysis - Joel Goldbach

2018-02-15

Anthology of recent, cutting-edge work in psychoanalysis and philosophy on the concept of inheritance. In contrast to the way inheritance is understood in scientific discourse and culture more broadly, inheritance in psychoanalysis is a paradox. Although it's impossible, strictly speaking, for the unconscious to be inherited, this volume demonstrates how the concept of inheritance can occasion a rich reassessment and reinvention of psychoanalytic theory and practice. The collection enacts a critical traversal of inheritance for psychoanalysis: from the most basic assumptions of natural or

biological inheritance, such as innateness, heredity, evolution, and ontogenesis, to analysis of the ways cultural traditions can be challenged and transformed, and finally to the reinvention of psychoanalytic practice, in which the ethics of inheritance is fully realized as the individual's responsibility to transform the social bond.

Featuring strong interdisciplinary analysis rooted in both psychoanalysis and philosophy, this volume further engages science, politics, and cultural studies, and addresses contemporary political challenges such as autism and transgenderism. Joel Goldbach is a recent graduate of the PhD program in English at the University at Buffalo, State University of New York. James A. Godley is a recent graduate of the PhD program in English at the University at Buffalo, State University of New York.

Machinic Assemblages of Desire - Paulo de Assis

2021-03-01

The concept of assemblage has emerged in recent decades as a central tool for describing,

analysing, and transforming dynamic systems in a variety of disciplines. Coined by Deleuze and Guattari in relation to different fields of knowledge, human practices, and nonhuman arrangements, “assemblage” is variously applied today in the arts, philosophy, and human and social sciences, forming links not only between disciplines but also between critical thought and artistic practice. Machinic Assemblages focuses on the concept’s uses, transpositions, and appropriations in the arts, bringing together the voices of artists and philosophers that have been working on and with this topic for many years with those of emerging scholar-practitioners. The volume embraces exciting new and reconceived artistic practices that discuss and challenge existing assemblages, propose new practices within given assemblages, and seek to invent totally unprecedented assemblages.

Critical Theory to Structuralism - David Ingram 2014-09-11

Philosophy in the middle of the 20th Century,

between 1920 and 1968, responded to the cataclysmic events of the time. Thinkers on the Right turned to authoritarian forms of nationalism in search of stable forms of collective identity, will, and purpose. Thinkers on the Left promoted egalitarian forms of humanism under the banner of international communism. Others saw these opposed tendencies as converging in the extinction of the individual and sought to retrieve the ideals of the Enlightenment in ways that critically acknowledged the contradictions of a liberal democracy racked by class, cultural, and racial conflict. Key figures and movements discussed in this volume include Schmitt, Adorno and the Frankfurt School, Arendt, Benjamin, Bataille, French Marxism, Black Existentialism, Saussure and Structuralism, Levi Strauss, Lacan and Late Pragmatism. These individuals and schools of thought responded to this 'modernity crisis' in different ways, but largely focused on what they perceived to be liberal democracy's betrayal of

its own rationalist ideals of freedom, equality, and fraternity.

Woman in Lars von Trier's Cinema, 1996-2014 - Ahmed Elbeshlawy 2016-10-11

This book discusses the figure of Woman in Lars von Trier's distinctive cinematic productions from 1996 to 2014. It takes the notorious legacy of violence against women in von Trier's cinema beyond the perceived gender division, elevating the director's image above being a mere provocateur. By raising fundamental questions about woman, sexuality, and desire, Elbeshlawy shows that Trier's cinematic Woman is an attempt at creating an image of a genderless subject that is not inhibited by the confines of ideology and culture. But this attempt is perennially ill-fated. And it is this failure that not only fosters viewing enjoyment but also gives the films their political importance, elevating them above both commendations and condemnations of feminist discourse.

Reader's Guide to the Social Sciences - Jonathan

Michie 2014-02-03

This 2-volume work includes approximately 1,200 entries in A-Z order, critically reviewing the literature on specific topics from abortion to world systems theory. In addition, nine major entries cover each of the major disciplines (political economy; management and business; human geography; politics; sociology; law; psychology; organizational behavior) and the history and development of the social sciences in a broader sense.

Hollywood's (m)Other Aperture - Jaime Bihlmeyer 2019-10-07

This study explores how mainstream movies lend themselves to the portrayal of imagery that reflects the earliest stages of human development. Filmmakers take full advantage of this rich, body-centered source of human experience. Avatar, Minority Report, and Annihilation, among the other movies explored in this book, incorporate patterns of images that (re)present pre-Oedipal (m)Others,

FEMININITY, and the originary maternal authority. The book explores how mainstream movies increasingly expose mass audiences to signs and resonances from our prelingual intrauterine and extrauterine psychological experiences. In addition, it compares and contrasts how the prelingual experience as depicted in these movies relates to themes of inclusivity that encompass diverse film inquiry, including queer theory, as well as human/nonhuman animal kinship and hybridity. In sum, the text analyses how Hollywood movies depict and integrate the prelingual experience into the commercial cinematic apparatus and how this inspires new understanding of plurality, FEMININITY and originary maternal authority in culture and society.

Melancholy Acts - Nouri Gana 2023-08-01

How do the literatures and cultures of oppressed societies survive and flourish in spite of the overdetermining conditions of precarity and injustice of which they are a product and against

which they protest? Might the symptom of oppression become simultaneously the agent of its critique? *Melancholy Acts* offers richly nuanced reflections on these questions through a series of wide-ranging engagements with Arab thought, literature, and film in the aftermath of the 1948 dispossession of Palestinians and the 1967 military defeat of Arab armies. *Melancholy Acts* offers a psychoaffective theory of cultural production that arises out of the disjunction between political impoverishment and cultural resistance to colonial and neoliberal oppression. Such a theory allows the author to trace the melancholy disposition of Arabic literary and filmic productions and to discern the precarious rhetorical modes of their critical intervention in a culture that is continually strained to its breaking point. Across six chapters, *Melancholy Acts* reads with rigor and sensitivity contentious topics of Arab contemporaneity such as secular modernity and manhood, Arab nationalism and leftism, literary and artistic *iltizām*, or

commitment, Islamism, and martyrdom. The book tracks the melancholy politics that inform the literary and cultural projects of a multitude of Arab novelists (Ghassan Kanafani and Naguib Mahfouz); poets and playwrights (Mahmoud Darwish, Nizar Qabbani, and Saadallah Wannous); filmmakers (Nouri Bouzid, Moufida Tlatli, Youssef Chahine, and Hany Abu Assad); alongside the work of such intellectuals as Hussein Muruwwa, Malek Bennabi, Karima

Lazali, George Tarabishi, and Fethi Benslama, from within the Arab world, as well as such non-Arab thinkers as Freud, Lacan, Adorno, Fanon, Spivak, Butler, and Žižek. *Melancholy Acts* charts a fresh and bold new approach to Arabic and comparative literature that combines in interlaced simultaneity a high sensitivity to local idioms, as they swerve between symptom and critique, with nuanced knowledge of the geopolitics of theory and psychoanalysis.
