Bad Blood - Don Davis 2017-09-26

They were golden boys who killed with sudden savagery. The trial revealed a dark drama too evil to believe. Handsome, rich, bronzed champion athletes, Erik and Lyle Menendez were the stunning symbols of the California dream. The sons of a high-powered Hollywood executive and his beautiful wife, they lived in a pampered world of Beverly Hills mansions, swimming pools, and private tennis coaches. But the dream became a nightmare when police found the butchered bodies of the boys' parents, Jose and Kitty, in the family room of their five-million dollar mansion. Only days after the couple was laid to rest, the brothers began an appalling spending spree, buying Rolex watches, designer clothes and a new Porsche. Seven months later, all of Hollywood was stunned when the 18- and 21-year-old brothers were arrested for the horrendous killings. In wrenching testimony, Lyle & Erik accused their father of sexually brutalizing them since they were children—claiming his sadistic acts of perversion and cruel violence drove them to their unspeakable crime. Bestselling author Don Davis takes you inside one of the most riveting cases in California's history, laying to bare the shattering secrets of a tormented family.

**Listening to Killers** - James Garbarino 2015-03-12

Listening to Killers offers an inside look at twenty years' worth of murder files from Dr. James Garbarino, a leading expert psychological witness who listens to killers so that he can testify in court. The author offers detailed accounts of how killers travel a path that leads from childhood innocence to lethal violence in adolescence or adulthood. He places the emotional and moral damage of each individual killer within a larger

scientific framework of social, psychological, anthropological, and biological research on human development. By linking individual cases to broad social and cultural issues and illustrating the social toxicity and unresolved trauma that drive some people to kill, Dr. Garbarino highlights the humanity we share with killers and the role of understanding and empathy in breaking the cycle of violence.

*Preventing the Sexual Victimization of Children* - Charles Patrick Ewing 2014

"Preventing the Sexual Victimization of Children is the first book to critically evaluate national and international efforts to reduce child sexual abuse (CSA) and ameliorate its effects. Until now, input from social science and mental health experts has been accepted for the most part uncritically, as have the programs and laws that have been developed in reliance upon that advice. Here Dr. Ewing utilizes empirical data, policy considerations, cost-benefit analyses, psychological theory, legal reasoning, and common sense to undertake the often difficult and sometimes controversial task of distinguishing prevention strategies that are likely to prevent CSA from those that are not."--

*Psychological Experts in Divorce Actions* - Marc J. Ackerman 2005-01-01  
Emotionally charged issues abound in matrimonial practice, especially in custody disputes. Expert testimony can have a dramatic impact on the outcome of a case, and when matters are highly sensitive or sensational the seeming objectivity of an expert can be dispositive. To effectively reinforce or question that testimony, certain specialized knowledge is

essential. Scientifically accepted standards and theories are constantly evolving. Keeping up with the data had been a challenge, but one integrated resource has made it simple. Aspen Publishers' Psychological Experts in Divorce Actions pulls all the research together into the definitive guide to understanding the role of psychological evaluations in divorce and custody actions. Focused on providing the best approach to protecting your client's interests, this work explains all the leading testing instruments, what conclusions may be drawn and how to challenge or support those conclusions. In addition to offering effective examination and cross-examination strategies, it assists you in handling the gamut of psychological factors that affect clients in divorce and custody cases. Authors Marc J. Ackerman, Ph.D., and Andrew W. Kane, Ph.D., are licensed psychologists who have been involved in hundreds of custody cases. Drawing on their extensive experience—testing parties to a divorce and treating psychological patients in the clinic—and as psychological experts in the courtroom, they identify the most important psychological evaluation research used in divorce and custody decision-making and distill the information into clear terms lawyers can readily apply. They also examine vital issues including: Ethics —confidentiality, privilege, duty to warn or protect (Tarasoff), sharing raw data, test integrity Sexual abuse —bona fide or fabricated allegations, psychological effects of sexual abuse, profiles of abuser and abused Testing —personality tests (including MMPI-2, And The new MMPI-2-RF, Rorschach, Millon, TAT); intelligence tests (Wechsler scales, Kaufman scales, Stanford Binet); custody tests (ASPECT, PCRI, PASS, BPS); and many more How divorce affects families —custody, placement, age and gender differences, grandparents, sexual preference, psychological problems

**Insanity** - Charles Patrick Ewing 2008-04-07

The insanity defense is one of the oldest fixtures of the Anglo-American legal tradition. Though it is available to people charged with virtually any crime, and is often employed without controversy, homicide defendants who raise the insanity defense are often viewed by the public and even the legal system as trying to get away with murder. Often it seems that

legal result of an insanity defense is unpredictable, and is determined not by the defendant's mental state, but by their lawyers and psychologists influence. From the thousands of murder cases in which defendants have claimed insanity, Doctor Ewing has chosen ten of the most influential and widely varied. Some were successful in their insanity plea, while others were rejected. Some of the defendants remain household names years after the fact, like Jack Ruby, while others were never nationally publicized. Regardless of the circumstances, each case considered here was extremely controversial, hotly contested, and relied heavily on lengthy testimony by expert psychologists and psychiatrists. Several of them played a major role in shaping the criminal justice system as we know it today. In this book, Ewing skillfully conveys the psychological and legal drama of each case, while providing important and fresh professional insights. For the legal or psychological professional, as well as the interested reader, *Insanity* will take you into the minds of some of the most incomprehensible murderers of our age.

Collects entries on domestic violence that cover topics that include ritual abuse-torture and domestic violence against women with disabilities.

*Introduction to Criminal Justice* - Joseph J. Senna 1999

This best-selling book is a highly comprehensive but approachable text. Its hallmarks are extensive and extremely thorough research, and up-to-the-minute citations and presentation of legal issues written in an accessible manner. The book also focuses on the portrayal of the criminal justice system by the media and how our opinions of the system are shaped by media.

*Minds on Trial* - Charles Patrick Ewing 2006-03-16

*Minds on Trial: Great Cases in Law and Psychology* gives you an inside view of 20 of the highest profile legal cases of the last 50 years. The

authors skillfully convey the psychological and legal drama of each case, while providing important and fresh professional insights. Mental health and legal professionals, as well as others with an interest in psychology and the law will have a hard time putting this scholarly, yet readable book down.

#### **Family Abuse** - Sylvia I. Mignon 2002

Both conceptual and practical, this book examines the relationship between family abuse and deviant behavior using an approach that integrates theory, research findings, and programmatic efforts. Family Abuse: Consequences, Theories, and Responses is unique in that it places family abuse within a theoretical context covering sociological, psychological, and biological theories. Topic coverage is comprehensive and includes an assessment of the quality of current treatment and prevention efforts, and also proposes various solutions to family abuse. For social workers, sociologists, and students of these disciplines.

#### **Banished** - G. Cledwyn Jenkins 2020-08-01

Banished is dedicated to sex offender research, and its issues regarding society, mental health, and the law equally. It focuses on this problem in cultural, legal and scientific terms, specifically from the clinical point-of-view, though it is written for the general public. It offers an up-to-date and all-inclusive look into the mind and habits of the pedophile and child molester. This book offers current research into one of the most controversial subjects in society to date, discussing topics of mental illness and various psychological disorders, the law and how this problem is legally dealt with. It focuses on this problem in cultural, legal and scientific terms that are readily comprehensible, both from the clinical standpoint and the layman's point-of-view. The book offers a detailed review of the sex offender; the pedophile and the child molester, and directly explores his thinking processes, reasoning and related issues that offer a clear and concise exposé in these most hated people. In

addition to covering the adult offender, this work also exemplifies the thought processes of child and adolescent offenders in order to offer cues for parents and educators of possible abuse or illicit behavior. Through direct examples of client art, case histories and offender testimonies, the book's purpose will surely educate, as well as in purposing methods for positive change in the process. The research and findings are based on a journalistic foundation, as well as from an experiential point-of-view, where the author had worked with and had interviewed the subjects exemplified in the case studies section directly. One could view this book as a documentary in text form to that of a simple scientific assessment or exposé. Some examples; such as statistical data and related state and government laws, national and international legal information, as well as properly devised case study examples are utilized to help illustrate the intent of the book's overall purpose. Moreover, because there are sections regarding internet deviancy and its major influence on the human psyche, and that these sections offer raw information, the reader should be aware of the content and the reasoning for using it. It is done so to educate and to hopefully illustrate the realities of this global problem. In addition to a selection of thoroughly researched interviews with said offenders, in the form of case studies reminiscent to the current style of the American Psychological Association (APA) formats, I also highlight a selection of documented artwork, specifically by children and young adults while working as a therapist in various hospitals. This section may serve as an alert for parents and educators for possible cues of sexual abuse in or outside of the home, but such will also illustrate the sheer potency sexual abuse can cause upon its victims, and how it will be viewed from their unconscious psyche and conscious viewpoints.
