[Dry Glass Eyes](#) - Amul C. Kasundra 2020-06-24

It is 1936 and Savji is a wealthy, influential landowner who is heir to a vast farmland cultivated by generations of Kanjias since before the British occupation. Savji, who does not support the racist caste system, has a big heart, a beautiful wife, and four children. Unfortunately, his somewhat normal existence is about to be thrown into turmoil. When the British decide to appoint a new Muslim king to govern this rural farm country, Savji becomes deeply concerned about the state of balance in nature that is being disturbed by the greedy ruler. After Savji confronts the might of the king, he is exiled from his home, left destitute, and forced to move to the city. Here, he discovers that there are far greater dangers in the men of ambition than there were on his utopian farmland. One fateful evening he is forced to step outside his character and commit a horrific act that will leave his family scrambling in desperation. Dry Glass Eyes is the compelling story of a humble Indian farmer and landowner who wagers everything he knows and loves to confront the new ruler of his land.

Ilocano An Arab Sheikh was admitted to the Philippine Heart Center in Manila for a heart transplant, but prior to the surgery, the doctors needed to store his blood in case need arises. As the gentleman had a rare type of blood, it couldn't be found locally, so, the call went out to a number of provinces. Finally an Ilocano was located who had a similar type of blood. The Ilocano willingly donated his blood for the Arab. After the surgery, the Arab sent the Ilocano as appreciation for giving his blood, a new Toyota Prado, diamonds, jewelry, and a million US dollars. Once again the Arab had to go through a corrective surgery. His doctor telephoned the Ilocano who was more than happy to donate his blood again. After the second surgery, the Arab sent the Ilocano a thank you card and a jar of Almond halwa sweets.. The Ilocano was shocked that the Arab this time did not reciprocate his kind gesture as he had anticipated. He phoned the Arab and asked him: "I thought that you would be generous again, that you would again give me a Toyota Prado, Money, Diamonds and Jewelry...but you only gave me a thank you card and a jar of Almond sweets!" To this the Arab replied: "Manong....I now have Ilocano blood in my veins." Arab Interview An Arab was being interviewed at a US check-point. 'Your name please?' 'Abdul Aziz ' 'Sex?' See You in Frankfurt! - Peter Weidhaas 2010-05-08

In 1975, Peter Weidhaas was elected as the Director of The Frankfurt Book Fair. It was a surprise choice. Little did he know that he would preside over revolutionary changes in one of the most important cultural expositions in the world. But first he had to answer the question of his

own identity. Born in 1938, Weidhaas was forced to confront the horrors of his German past, to live and learn through the tumultuous events on 1968, and finally to find his own place among the leading lights of the literary world. He held the reins at the Frankfurt Book Fair during every major cultural shift of the last quarter of the 20th century: from the explosion of world literature to the collapse of Communism, from the advent of globalization to the triumph of information technology. Through it all, Peter Weidhaas has proven himself to be one of the world's most sensitive bibliophiles and an astute pupil of cultural history. See *You In Frankfurt!* is the story of how the Frankfurt Book Fair found its soul.

Sexual Harassment of Women - National Academies of Sciences, Engineering, and Medicine 2018-09-01

Over the last few decades, research, activity, and funding has been devoted to improving the recruitment, retention, and advancement of women in the fields of science, engineering, and medicine. In recent years the diversity of those participating in these fields, particularly the participation of women, has improved and there are significantly more women entering careers and studying science, engineering, and medicine than ever before. However, as women increasingly enter these fields they face biases and barriers and it is not surprising that sexual harassment is one of these barriers. Over thirty years the incidence of sexual harassment in different industries has held steady, yet now more women are in the workforce and in academia, and in the fields of science, engineering, and medicine (as students and faculty) and so more women are experiencing sexual harassment as they work and learn. Over the last several years, revelations of the sexual harassment experienced by women in the workplace and in academic settings have raised urgent questions about the specific impact of this discriminatory behavior on women and the extent to which it is limiting their careers. *Sexual Harassment of Women* explores the influence of sexual harassment in academia on the career advancement of women in the scientific, technical, and medical workforce. This report reviews the research on the extent to which women in the fields of science, engineering, and medicine are victimized by sexual harassment and examines the existing information on the extent to which sexual harassment in academia negatively impacts the recruitment, retention, and advancement of women pursuing scientific, engineering, technical, and medical careers. It also identifies and analyzes the policies, strategies and practices that have been the most successful in preventing and addressing sexual harassment in these settings.
