**More Brilliant than the Sun** Kodwo Eshun 2020-02-04 The classic work on the music of Afrofuturism, from jazz to jungle More Brilliant than the Sun: Adventures in Sonic Fiction is one of the most extraordinary books on music ever written. Part manifesto for a militant posthumanism, part journey through the unacknowledged traditions of diasporic science fiction, this book finds the future shock in Afrofuturist sounds from jazz, dub and techno to funk, hip hop and jungle. By exploring the music of such musical luminaries as Sun Ra, Alice Coltrane, Lee Perry, Dr Octagon, Parliament and Underground Resistance, theorist and artist Kodwo Eshun mobilises their concepts in order to open the possibilities of sonic fiction: the hitherto unexplored intersections between science fiction and organised sound. Situated between electronic music history, media theory, science fiction and Afrodiasporic studies, More Brilliant than the Sun is one of the key works to stake a claim for the generative possibilities of Afrofuturism. Much referenced since its original publication in 1998, but long unavailable, this new edition includes an introduction by Kodwo Eshun as well as texts by filmmaker John Akomfrah and producer Steve Goodman aka kode9.

**Cycling and Cinema** Bruce Bennett 2019-04-30 A unique exploration of the history of the bicycle in cinema, from Hollywood blockbusters and slapstick comedies to documentaries, realist dramas, and experimental films. Cycling and Cinema explores the history of the bicycle in cinema from the late nineteenth century through to the present day. In this new book from Goldsmiths Press, Bruce Bennett examines a wide variety of films from around the world, ranging from Hollywood blockbusters and slapstick comedies to documentaries, realist dramas, and experimental films, to consider the complex, shifting cultural significance of the bicycle. The bicycle is an everyday technology, but in examining the ways in which bicycles are used in films, Bennett reveals the rich social and cultural importance of this apparently unremarkable machine. The cinematic bicycles discussed in this book have various functions. They are the source of absurd comedy in silent films, and the vehicles that allow their owners to work in sports films and social realist cinema. They are a means of independence and escape for children in melodramas and kids' films, and the tools that offer political agency and freedom to women, as depicted in films from around the world. In recounting the cinematic history of the bicycle, Bennett reminds us that this machine is not just a practical means of transport or a child's toy, but the vehicle for a wide range of meanings concerning individual identity, social class, nationhood and belonging, family, gender, and sexuality and pleasure. As this book shows, two hundred years on from its invention, the bicycle is a revolutionary technology that retains the power to transform the world.

**Eddy Merckx** Daniel Friebe 2012 For 14 years between 1965 and 1978, Edouard Louis Joseph Merckx simply devoured his rivals, their hopes and their careers. His legacy resides as much in the careers he ruined as the 445 victories; including five Tour de France wins and all the monument races; he amassed in his own right.

**Sex, Lies and Handlebar Tape** Paul Howard 2015-07-02 For the first time since his death in 1987, this astounding biography reveals the extraordinary truth behind the legend, the man, and the cyclist. His list of "firsts" alone makes him worthy of a place in the cycling pantheon: the first man to win the Tour de France five times; the first man to win all three grand tours--the Tour de France, Giro d'Italia, and Vuelta a España; and the first man to win both the Tour and Vuelta in the same year. However, the extraordinary life of Anquetil does not stop at his achievements on a bike. He candidly admitted to using drugs, offended legions of fans by confessing that his only motivation for riding was financial, and infamously indulged his enthusiasm for the high life. He also seduced and married his doctor's wife, had a child with her daughter, and then sustained a ménage à trois with both wife and stepdaughter under the same roof for 12 years. When this "family" eventually imploded, he attempted to inspire jealousy in his former lovers by having a child with his stepson's ex-wife. Containing exclusive contributions from Anquetil's family, friends, teammates, and rivals, Sex, Lies and Handlebar Tape untangles myth from reality and confirms that fact is definitely stranger than fiction.

**Anquetil, Alone** Paul Fournel 2017-09-07 Shortlisted for the Sports Book Awards 2018 for Biography of the Year and Cycling Book of the Year There are things he does alone, and things that he alone does. Jacques Anquetil was a cyclist with an aristocratic demeanor and a relaxed attitude to rules and morals. His womanising and frank admissions of doping appalled 1960s French society, even as his five Tour de France wins enthralled it. Paul Fournel was besotted with him from the start ("Too young to understand, I was nevertheless old enough to admire") and followed Anquetil's career with the passion of a fan and the eye of a poet. In this stunningly original biography of a complex and divisive character, Fournel - author of the seminal Vlo (or Need for the Bike)- blends the story of Anquetil's life with scenes from his own, to create a classic of cycling literature.

**On the Take** Tony Joel 2019-09-15 On The Take shines a light on one of the VFL's earliest stars, Carlton's Alex 'Bongo' Lang, a three-time Premiership player, and his sudden and unexpected fall from grace following his central role in one of the Victorian Football League's most scandalous episodes-when Lang was convicted by the League of taking a bribe to play 'dead' in the semi-final of 1910. '

**Brand Royalty** Matt Haig 2006 More than simply a comprehensive collection of brand success stories, this text will also help businesses and students to easily identify the factors behind these successes, and to place them into a broader business and social context.

*Road to Valour* Aili McConnon 2012-06-28 An Italian SCHINDLER'S LIST, this is the inspirational story of Gino Bartali, who made the greatest comeback in Tour de France history and secretly aided the Italian Resistance during the Second World War. ROAD TO VALOUR is the inspiring, against-the-odds story of Gino Bartali, the cyclist who made the greatest comeback in Tour de France history and still holds the record for the longest gap between victories. Yet it was his actions during the Second World War, when he secretly aided the Resistance, rather than his remarkable exploits on a bike, that truly cemented his place in the hearts and minds of the Italian people. Based on nearly ten years of research, and including fascinating new interviews, this is the only book written that fully explores the scope of Bartali's wartime work. A breathtaking account of one man's unsung heroism and his resilience in the face of adversity, this is an epic tale of courage, comeback and redemption, and the untold story of one of the greatest athletes of the twentieth century.

**Two Wheels on my Wagon** Paul Howard 2011-04-15 As bicycle races go, the attractions of the Tour Divide are not immediately apparent. For a start, it is the longest mountain-bike race in the world, running nearly 3,000 miles down the Rockies from Canada to Mexico. But the distance is not the only challenge - the total ascent of 200,000 ft is the equivalent of scaling Mount Everest nearly seven times. Then there are the dangerous animals likely to be encountered on the route: grizzly bears, mountain lions and wolves, not to mention rattlesnakes and tarantulas. Worse, the rewards for all this effort are strictly limited. Unlike in the Tour de France, there is no fabled yellow jersey and no prize money. Yet, undaunted, and in spite of never having owned a mountain bike, Paul Howard signed up. Battling the worst weather for generations, drinking whiskey with a cowboy and singing karaoke with the locals, Howard's journey turned into more than just a race - it became the adventure of a lifetime.

**Cybersexualities** Jenny Wolmark 1999 Cyberspace, the cyborg and cyberpunk have given feminists new imaginative possibilities for thinking about embodiment and identity in relation to technology. This is the first anthology of the key essays on these potent metaphors. Divided into three sections (Technology, Embodiment and Cyberspace; Cybersubjects: Cyborgs and Cyberpunks; Cyborg Futures), the book addresses different aspects of the human-technology interface. The extensive introduction surveys the ways cyborg and cyberspace metaphors have been used in relation to current critical theory and indicates the context for the specific essays. This is an invaluable guide for students studying any aspects of contemporary theory and culture.\* Brings together in a unique collection the work of key authors in feminist and cyber theory\* Demonstrates the wide range of contemporary critical work\* Challenges constructions of gender, race and class\* An extensive introduction surveys the ways cyborg and cyberspace metaphors have been used in relation to current critical theory\* Brief section introductions indicate the context for the specific essays

*Real Frank Zappa Book* Frank Zappa 1989 Recounts the career of the rock music performer.

*Becoming Holyfield* Evander Holyfield 2008-02-19 History's only four-time world heavyweight boxing champion and one of America's most admired and beloved athletes reveals the dramatic story of his rise from poverty to the very pinnacle of the toughest sport on earth. Barely able to make it into the heavyweight division and almost always the smaller fighter in the ring, Holyfield spent his professional career proving the naysayers wrong. Along the way he provided some of the twentieth century's most thrilling sports moments, not all of them on purpose. In *Becoming Holyfield*, he gives us the exciting inside story of defeating Mike Tyson, the self-proclaimed "Baddest Man on Earth," and then getting a piece of his ear bitten off in the rematch. We learn how it felt to become the undisputed champion of the world by knocking out the man who knocked out Tyson, and we find out what it was really like to be in the middle of a title fight and see a motorized parachute fly right into the ring. There is heartbreak to go along with triumph, beginning with Holyfield's loss of an Olympic gold medal because of a highly controversial disqualification and continuing through his short-lived retirement following a misdiagnosed heart condition. Along the way we're treated to glimpses of such colorful figures as Don King and Howard Cosell and we come to understand the extra-ordinary power of love in shaping a young boy's life, and the love he tried to return. Holyfield made more money in the ring than any other fighter in history, and gave away millions to support the dreams of underprivileged kids looking for the same kinds of breaks that allowed him to become a champion. Holyfield's immense popularity cannot be overstated, and it cuts across all ethnicities and socioeconomic classes. The top three highest-grossing sporting events in Las Vegas history were all Holyfield fights, and his highly rated appearances on *Dancing with the Stars* helped to ensure that show's success. Other fighters may have been bigger, stronger, or more flamboyant, but few could match Evander Holyfield's poise, grace under pressure, or commitment to serve as an inspiration to others.

**Slaughterhouse 5 (Vintage Past)** Kurt Vonnegut 2016-10-06 "Prisoner of war, optometrist, time-traveller - these are the life roles of Billy Pilgrim, hero of this miraculously moving, bitter and funny story of innocence faced with apocalypse. *Slaughterhouse 5* is one of the world's great anti-war books. Centring on the infamous fire-bombing of Dresden in the Second World War, Billy Pilgrim's odyssey through time reflects the journey of our own fractured lives as we search for meaning in what we are afraid to know."

*The Elusive Quest for Growth* William R. Easterly 2002-08-02 Why economists' attempts to help poorer countries improve their economic well-being have failed. Since the end of World War II, economists have tried to figure out how poor countries in the tropics could attain standards of living approaching those of countries in Europe and North America. Attempted remedies have included providing foreign aid, investing in machines, fostering education, controlling population growth, and making aid loans as well as forgiving those loans on condition of reforms. None of these solutions has delivered as promised. The problem is not the failure of economics, William Easterly argues, but the failure to apply economic principles to practical policy work. In this book Easterly shows how these solutions all violate the basic principle of economics, that people—private individuals and businesses, government officials, even aid donors—respond to incentives. Easterly first discusses the importance of growth. He then analyzes the development solutions that have failed. Finally, he suggests alternative approaches to the problem. Written in an accessible, at times irreverent, style, Easterly's book combines modern growth theory with anecdotes from his fieldwork for the World Bank.

*Change; Principles of Problem Formation and Problem Resolution* Paul Watzlawick 1974 This classic book, available in paperback for the very first time, explores why some people can successfully change their lives and others cannot. Here famed psychologist Paul Watzlawick presents what is still often perceived as a radical idea: that the solutions to our problems are inherently embedded in the problems themselves. Tackling the age-old questions surrounding persistence and change, the book asks why problems arise and are perpetuated in some instances but easily resolved in others. Incorporating ideas about human communication, marital and family therapy, the therapeutic effects of paradoxes and of action-oriented techniques of problem resolution, Change draws much from the field of psychotherapy.

*Indurain* Alasdair Fotheringham 2017-05-25 Miguel Indurain is Spain's greatest cyclist of all time and one of the best Tour racers in history. He is the only bike rider to have won five successive Tours de France, as well as holding the title for the youngest ever race leader in the Tour of Spain. This is his story. As the all-conquering hero of the 90s, Indurain steadfastly refused to be overwhelmed by fame; remaining humble, shy and true to his country roots. Along with his superhuman calmness, iron will-power and superb bike handling skills, he was often described as a machine. Yet 1996 saw Indurain, the Tour's greatest ever champion, spectacularly plummet, bringing his career and supremacy to an abrupt end. In Indurain, Alasdair Fotheringham gets to the heart of this enigmatic character, reliving his historic accomplishments in vibrant colour, and exploring how this shaped the direction taken by generations of Spanish racers - raising Spanish sport to a whole new level.

*Marxism in a Lost Century* Gary Roth 2014-12-22 Marxism in a Lost Century retells the history of the radical left during the twentieth century through the words and deeds of Paul Mattick. Three biographical themes receive special attention -- the self-taught nature of left-wing activity, Mattick's publishing endeavors, and the nexus of men, politics, and friendship.

**The Great Influenza** John M Barry 2020-08-27 THE #1 NEW YORK TIMES BESTSELLER 'Everything you need to know about one of the deadliest outbreaks in human history' Bill Gates 'Easily our fullest, richest, most panoramic history of the subject' New York Times Book Review In 1918, the world faced the deadliest pandemic in human history. What can the story of the so-called Spanish Flu teach us about the fight against present day crises, and how to prepare for future outbreaks? At the height of WWI, history's most lethal influenza virus erupted in an army camp in Kansas, moved east with American troops, then exploded, killing as many as 100 million people worldwide. It killed more people in twenty-four months than AIDS killed in twenty-four years, more in a year than the Black Death killed in a century. But this was not the Middle Ages, and 1918 marked the first collision of science and epidemic disease. Magisterial in its breadth of perspective and depth of research, The Great Influenza is ultimately a tale of triumph amid tragedy, which provides us with a precise and sobering model as we confront the aftermath of Covid-19 and future pandemics looming on the horizon.

But twelve years later the prophecy comes true when her partner, ABC's South Asia correspondent, is posted to New Delhi, the most polluted city on earth. Having given up a blossoming radio career in Sydney to follow her new boyfriend to India, it seems like the ultimate sacrifice and it almost kills Sarah - literally. After being cursed by a sadhu smeared in human ashes, she nearly dies from double pneumonia. It's enough to send a rapidly balding atheist on a wild rollercoaster ride through India's many religions in search of the meaning of life and death. From the 'brain enema' of a meditation retreat in Dharamsala to the biggest Hindu festival on earth on the steps of the Ganges in Varanasi, and with the help of the Dalai Lama, a goddess of healing hugs and a couple of Bollywood stars - among many, many others - Sarah discovers a hell of a lot more.

**King Leopold's Ghost** Adam Hochschild 2019-05-02 Winner of the Duff Cooper Prize, King Leopold's Ghost is the true and haunting account of Leopold's brutal regime and its lasting effect on a ruined nation. With an introduction by award-winning novelist Barbara Kingsolver. In the late nineteenth century, when the great powers in Europe were tearing Africa apart and seizing ownership of land for themselves, King Leopold of Belgium took hold of the vast and mostly unexplored territory surrounding the Congo River. In his devastatingly barbarous colonization of this area, Leopold stole its rubber and ivory, pummelled its people and set up a ruthless regime that would reduce the population by half. While he did all this, he carefully constructed an image of himself as a deeply feeling humanitarian. King Leopold's Ghost is the inspiring and deeply moving account of a handful of missionaries and other idealists who travelled to Africa and unwittingly found themselves in the middle of a gruesome holocaust. Instead of turning away, these brave few chose to stand up against Leopold. Adam Hochschild brings life to this largely untold story and, crucially, casts blame on those responsible for this atrocity. 'All the tension and drama that one would expect in a good novel' - Robert Harris, author of Fatherland

**The Gift Nobody Wants** Paul Brand 1995 Inspirational cassette on the dramatic career of Paul Brand, a famous surgeon

**The Digital Turn** Wim Westera 2012-12-20 Awarded with the US National Indie Excellence Award 2014 in Social Media. This book is about digital media. Even more, the book is about us. It explains how the ever-growing flood of digital media affects our perceptions of the world, change our behaviors and eventually transform our very existence. In the era of Facebook, Twitter, Google, and Apple, being online is the standard. We spend many hours a day gazing at our screens, traversing the virtual realm, and posting our tweets, tags, and likes. Billions of years of evolution have prepared us for life at the savannas. It took us less than two decades to radically transform our biotope. Being online is no less than a fundamentally different mode of being. It is likely to produce a fragmented, detached, and distorted view of the world. What will be our understanding of the world when all certainties that result from living in a material world become useless? What will be our role and position when computer intelligence surpasses human intelligence? How can we avoid losing grip of the significance of identity, friendship, social engagement, and eventually life at large? The book explains the mechanisms and consequences of engaging in online spaces. It offers an accessible means for attaining a better understanding of the ways digital media influence our lives. It is a compact guide to becoming media literate and to preparing us for the advanced digital services that are yet to come. This makes the book an indispensable aid for every twenty-first-century citizen.

*Theoretical Perspectives on Autobiographical Memory* M.A. Conway 2013-04-17 The meeting Theoretical Perspectives on Autobiographical Memory was held at the Grange Hotel, Grange-over-Sands, in the Lake District region of North Western England, July 1991. The workshop was financed by a generous grant from the NATO Scientific Affairs Division under the Advanced Research Workshop programme and without this funding the meeting would not have been possible: the organisers and delegates gratefully acknowledge the support of the NATO Advanced Research Workshops programme. Thirty-five scientists from five different NATO countries

attended the workshop and twenty-seven delegates presented papers. The two aims of the workshop were to bring together in one forum a number of comparatively separate approaches to autobiographical memory and to promote theory in the area generally. These aims were fulfilled in the presentations and discussions, particularly the final discussion session, in which delegates focussed on the central issues of the nature, structure, and functions of autobiographical memory and how these emerge in different research areas. The present volume contains the papers arising from the workshop. We thank Mrs. Sheila Whalley for secretarial help and Fiona Hirst and Stephen Anderson für practical assistance in coordinating registration for the workshop.

**The Annotated Mona Lisa** Carol Strickland 2007-10 Like music, art is a universal language. *Eat, Sleep, Ride* Paul Howard 2011-02-15 For a man who has ridden the entire Tour de France route during the race itself - setting off at 4 a.m. each day to avoid being caught by the pros - riding a small mountain-bike race far removed from cycling's European heartland should hold no fear. But, although there may only be a dozen or so participants, this isn't just any mountain-bike race. This is the Tour Divide. Running from Banff in Canada to the Mexican border, the Tour Divide is, at more than 2,700 miles, the longest mountain-bike race in the world. Not only is it 500 miles farther than the Tour de France, its route along the cont.

*Geek Love* Katherine Dunn 2014-12-04 A National Book Award Finalist: This 'wonderfully descriptive' novel from an author with a 'tremendous imagination' tells the unforgettable story of the Binewskis, a carny family whose mater- and paterfamilias have bred their own exhibit of human oddities. (The New York Times Book Review) The Binewskis are a circus-geek family whose matriarch and patriarch have bred their own exhibit of human oddities (with the help of amphetamine, arsenic, and radioisotopes). Their offspring include Arturo the Aquaboy, who has flippers for limbs and a megalomaniac ambition worthy of Genghis Khan, Iphy and Elly, the lissome Siamese twins, albino hunchback Oly, and the outwardly normal Chick, whose mysterious gifts make him the family's most precious - and dangerous - asset. As the Binewskis take their act across the backwaters of the US, inspiring fanatical devotion and murderous revulsion; as its members conduct their own Machiavellian version of sibling rivalry, *Geek Love* throws its sulfurous light on our notions of the freakish and the normal, the beautiful and the ugly, the holy and the obscene. Family values will never be the same. Praise for *Geek Love* 'If Flannery O'Connor had consumed vast quantities of LSD, she might have written like this' Literary Review 'The most romantic novel about love and family I have read. It made me ashamed to be so utterly normal' Terry Gilliam 'I felt electrocuted when I read that first page with Crystal Lil and her freak brood. I stood there in the bookstore and my jaw came unhinged. No book I've read, before or since, has given me that specific jolt' Karen Russell, author of *Swamplandia*

*Lanterne Rouge* Max Leonard 2014-04-17 *lanterne rouge* (French | noun): The competitor who finishes last in the Tour de France Froome, Wiggins, Merckx - we know the winners of the Tour de France, but what about the men who finish last? *Lanterne Rouge* tells the forgotten, often inspirational and occasionally absurd stories of the last-placed rider. We learn of stage winners and former yellow jerseys who tasted life at the other end of the bunch; the breakaway leader who stopped for a bottle of wine and then took a wrong turn; the dooper whose drug cocktail accidentally slowed him down and the rider who was recognised as the most combative despite finishing at the back. Flipping the Tour de France on its head and examines what these stories tell us about ourselves, the 99% who don't win the trophy, *Lanterne Rouge* forces us to re-examine the meaning of success, failure and the very nature of sport. 'A lively account of largely forgotten men... It's not easy to come up with an original angle on Le Tour, but with this rear view Leonard has managed the feat in style' Independent on Sunday
