A Life in Three Acts Bette Bourne 2010-04-16 With honesty, humour and occasional anger, performer Bette Bourne tells the playwright Mark Ravenhill about his brave and flamboyant life. Crafted from transcripts of a series of long, private conversations, actor Bette Bourne reminisces and replays scenes from his life from a postwar childhood, a stint as a classical actor in the late 60s, to living in a drag commune in Notting Hill and being an active member of the Gay Liberation Front. Bette then talks about his touring with the New York based Hot Peaches cabaret group and founding his own cabaret troop, Bloolips, which redefined the term gay theatre by creating their very own unique celebration of dramatic and colourful homosexuality. The piece, in three parts, marks a different series of events in Bette's life to reveal both a portrait of a pioneering, radical individual and a historical document of the struggles and achievements of gay liberation.

Hollywood's Eve Lili Anolik 2020-03-19 The goddaughter of Igor Stravinsky and a graduate of Hollywood High, Eve Babitz posed in 1963, at age twenty, playing chess with the French artist Marcel Duchamp. She was naked; he was not. The photograph made her an instant icon of art and sex. Babitz spent the rest of the decade rocking and rolling on the Sunset Strip, honing her notoriety. There were the album covers she designed: for Buffalo Springfield and the Byrds, to name but a few. There were the men she seduced: Jim Morrison, Ed Ruscha, Harrison Ford, to name but a very few. Then, at nearly thirty, her It girl days numbered, Babitz was discovered—as a writer—by Joan Didion. She would go on to produce seven books, usually billed as novels or short story collections, always autobiographies and confessionals. Under-known and under-read during her career, she's since experienced a breakthrough. Now in her mid-seventies, she's on the cusp of literary stardom and recognition as an essential—as the essential—LA writer. Her prose achieves that American ideal: art that stays loose, maintains its cool, and is so simply enjoyable as to be mistaken for simple entertainment. What Hollywood's Eve has going for it on every page is its subject's utter refusal to be dull... It sends you racing to read the work of Eve Babitz." The New York Times "Read Lili Anolik's book in the same spirit you'd read a new Eve Babitz, if there was one: for the gossip and for the writing. Both are extraordinary." Jonathan Lethem "There's no better way to look at Hollywood in that magic decade, the 1970s, than through Eve Babitz's eyes. Eve knew everyone, slept with everyone, used, amused, and abused everyone. And then there's Eve herself: a

cult figure turned into a legend in Anolik's electrifying book. This is a portrait as mysterious, maddening-and seductive-as its subject.” —Peter Biskind, author of *Easy Riders, Raging Bulls* For Babitz, life was slow days, fast company until a freak fire turned her into a recluse, living in a condo in West Hollywood, where author Lili Anolik tracked her down in 2012. Hollywood’s Eve, equal parts biography and detective story “brings a ludicrously glamorous scene back to life, adding a few shadows along the way” (*Vogue*) and “sends you racing to read the work of Eve Babitz” (*The New York Times*).

Contemporary Nordic Literature and Spatiality Kristina Malmio 2019-10-14 This open access collection offers a detailed mapping of recent Nordic literature and its different genres (fiction, poetry, and children’s literature) through the perspective of spatiality. Concentrating on contemporary Nordic literature, the book presents a distinctive view on the spatial turn and widens the understanding of Nordic literature outside of canonized authors. Examining literatures by Danish, Norwegian, Swedish, and Finnish authors, the chapters investigate a recurrent theme of social criticism and analyze this criticism against the welfare state and power hierarchies in spatial terms. The chapters explore various narrative worlds and spaces—from the urban to parks and forests, from textual spaces to spatial thematics, studying these spatial features in relation to the problems of late modernity.

Pyrite David Rickard 2015-04-08 Most people have heard of pyrite, the brassy yellow mineral sometimes known as fool's gold. Pyrite behaves like stone and shines like metal, and its dual nature makes it a source of both metals and sulfur. Despite being the most common sulfide mineral on the earth's surface, pyrite's bright crystals have attracted the attention of many different cultures, and its nearly identical visual appearance to gold has led to tales of fraud, trickery, and claims of alchemy. Pyrite occupies a unique place in human history: it became an integral part of mining culture in America during the 19th century, and it has a presence in ancient Sumerian texts, Greek philosophy, and medieval poetry, becoming a symbol for anything overvalued. In *Pyrite*, geochemist and author David Rickard blends basic science and historical narrative to describe the many unique ways pyrite is integral to our world. He explains the basic science of oxidation, showing us why the mineral looks like gold, and inspects death zones of present oceans where pyrite-related hydrogen sulfide destroys oxygen in the waters. Rickard analyzes pyrite's role in manufacturing sulfuric acid

and discusses the significant appearance of the mineral in literature, history, and the development of societies. The mineral's influence extends from human evolution and culture, through science and industry, to our understanding of ancient, modern, and future earth environments. Energetic and accessible, *Pyrite* is the first book to show readers the history and science of a mineral that helped make the modern world.

The Descent of Man Grayson Perry 2016-10-20 'Grayson Perry for King and Queen of England' Caitlin Moran Grayson Perry has been thinking about masculinity - what it is, how it operates, why little boys are thought to be made of slugs and snails - since he was a boy. Now, in this funny and necessary book, he turns round to look at men with a clear eye and ask, what sort of men would make the world a better place, for everyone? What would happen if we rethought the old, macho, outdated version of manhood, and embraced a different idea of what makes a man? Apart from giving up the coronary-inducing stress of always being 'right' and the vast new wardrobe options, the real benefit might be that a newly fitted masculinity will allow men to have better relationships - and that's happiness, right? Grayson Perry admits he's not immune from the stereotypes himself - as the psychoanalysts say, 'if you spot it, you've got it' - and his thoughts on everything from power to physical appearance, from emotions to a brand new Manifesto for Men, are shot through with

ATHENA thematic network, ATGENDER brings together specialists in women's and gender studies, feminist research, women's and gender studies, feminist research, women's rights, gender equality and diversity. In book series "Teaching with Gender" the partners in this network have collected articles on a wide range of teaching practices in the field of gender. The books in this series address challenges and possibilities of teaching about women and gender in a wide range of educational contexts. The authors discuss pedagogical, theoretical and political dimensions of learning and teaching about women and gender. The books contain teaching material, reflections on feminist pedagogies, and practical discussions about the development of gender-sensitive curricula in specific fields. All books address the crucial aspects of education in Europe today: increasing international mobility, the growing importance of interdisciplinarity, and the many practices of life-long learning and training that take place outside the traditional programmes of higher education. These books are indispensable tools for educators who take seriously the challenge of teaching with gender. (For titles see series page.) Teaching "Race" with a Gendered Edge responds to the need to approach the idea of race from a feminist perspective. This collection of essays aims to broaden our understanding of both race and gender by highlighting the intersections and intertwinedness of race, gender, and other axes of inequality. The book also points to the important of taking colonial legacies into account when it comes to the understanding of contemporary forms of racisms. In an increasingly globalised and interconnected world this perspective is essential for understanding the dynamics of identity politics but also for pointing towards possible ways of intervention and change. The essays in the book discuss historically contextualized examples of the intersections of race and gender from different localities in Europe and beyond and provide readers with a rich body of resources and teaching material. In Sensorium Tanaïs 2022-02-22 The 2022 Kirkus Prize Winner for Nonfiction *Fragrance* has long been used to mark who is civilized and who is barbaric, who is pure and who is polluted, who is free and who is damned— Focusing their gaze on our most primordial sense, writer and perfumer Tanaïs weaves a brilliant and expansive memoir, a reckoning that offers a critical, alternate history of South Asia from an American Bangladeshi Muslim femme perspective. From stories of their childhood in the South, Midwest, and New York; to transcendent experiences with lovers, psychedelics, and fragrances; to trips home to their motherland, Tanaïs builds a universe of memories and scent: a sensorium. Alongside their personal history, and at the very heart of this work, is an interrogation of the ancient violence of caste, rape culture, patriarchy, war, and the inherited ancestral trauma of being from a lush land constantly denuded, a land still threatened and disappearing because of colonization, capitalism, and climate change. Structured like a perfume—moving from base to heart to head notes—IN SENSORIUM interlaces eons of South Asian perfume history, erotic and religious texts, survivor testimonies, and material culture with memoir. In *Sensorium* is archive and art, illuminating the great crises of our time with the language of Liberation.

Literary Translator Studies Klaus Kaindl 2021-04-15 This volume extends and deepens our understanding of Translator Studies by charting new territory in terms of theory, methods and concepts. The focus is on literary translators, their roles, identities, and personalities. The book introduces pertinent translator-centered approaches in four sections: historical-biographical studies, social-scientific and process-oriented methods, and approaches that use paratexts or translations to study literary translators. Drawing on a variety of concepts, such as identity, role, self, posture, habitus, and voice, the various chapters showcase forgotten literary translators and shed new light on some well-known figures; they examine literary translators not as functioning units but as human beings in their uniqueness. *Literary Translator Studies* as a subdiscipline of Translation Studies demonstrates how exploring the cultural, social, psychological, and cognitive facets of translatorial subjects contributes to a holistic understanding of translation.

Children's Literature in Translation Jan Van Coillie 2014-07-16 Children's classics from Alice in Wonderland to the works of Astrid Lindgren, Roald Dahl, J.K. Rowling and Philip Pullman are now generally recognized as literary achievements that from a translator's point of view are no less demanding than 'serious' (adult) literature. This volume attempts to explore the various challenges posed by the translation of children's literature and at the same time highlight some of the strategies that translators can and do follow when facing these challenges. A variety of translation theories and concepts are put to critical use, including Even-Zohar's polysystem theory, Toury's concept of norms, Venuti's views on foreignizing and domesticating translations and on the translator's (in)visibility, and Chesterman's prototypical approach. Topics include the ethics of translating for children, the importance of child(hood) images, the 'revelation' of the translator in prefaces, the role of translated children's books in the establishment of literary canons, the status of translations in the former East Germany; questions of taboo and censorship in the translation of adolescent novels, the collision of norms in different translations of a Swedish children's classic, the handling of 'cultural intertextuality' in the Spanish translations of contemporary British fantasy books, strategies for translating cultural markers such as juvenile expressions, functional shifts caused by different translation strategies dealing with character names, and complex translation strategies used in dealing with the dual audience in Hans Christian Andersen's fairy tales and in Salman Rushdie's *Haroun and the Sea of Stories*.

feminism" marks a thematic red thread throughout; it is a call to students and scholars of feminism to take seriously and engage with the task of analyzing war. Contributors analyze how war-making is intertwined with the making of gender in a diversity of empirical case studies, organized around four themes: gender, violence and militarism; how the making of gender is connected to a (re)making of the nation through military practices; UN SCR 1325 and gender mainstreaming in institutional practices; and gender subjectivities in the organization of violence, exploring the notion of violent women and non-violent men.

Late Fame Arthur Schnitzler 2015-10-08 First English publication of a recently rediscovered novella by one of the greatest European writers One seemingly ordinary evening, Eduard Saxberger arrives home to find the fulfilment of a long-forgotten wish in his sitting room: a visitor has come to tell him that the youth of Vienna have discovered his poetic genius. Saxberger has written nothing for thirty years, yet he now realises that he is more than merely an Unremarkable Civil Servant, after all: a Venerable Poet, for whom Late Fame is inevitable - if, that is, his new acolytes are to be believed... Arthur Schnitzler was one of the most admired, provocative European writers of the twentieth century. The Nazis attempted to burn all of his work, but his archive was miraculously saved, and with it, *Late Fame*. Never published before, it is a treasure, a perfect satire of literary self-regard and charlatanism. Arthur Schnitzler (b. 1862 in Vienna) was one of the most influential European writers of the twentieth century, perhaps best known here for his novellas *Dream Story* and *Fräulein Else*. He qualified as a doctor but was increasingly driven to a career in writing, resulting in several celebrated plays, novellas and novels which explore the great existential subjects of the modern age: relationships, love, sex, ageing and death. Because his work dealt with subjects considered taboo, he frequently attracted the hostility of the authorities, consequently losing his position as Chief Medic

in the Reserve Army and being tried for disorderly conduct. Schnitzler was close friends with Stefan Zweig and Sigmund Freud, who both admired him greatly, and a member of the 'Young Vienna' circle of writers who regularly met at a café nicknamed 'Café Megalomania' - the very same clique and café he satirises so deliciously in *Late Fame*. Schnitzler died in 1931. Pushkin Press also publishes his novellas *Fräulein Else*, *Dying* and *Casanova's Return to Venice*.

DETERRITORIALIZING THE FUTURE 2020

HBO's Girls Betty Kaklamanidou 2014-03-25 Young women today have achieved as much as, and in many cases far exceeded, males in both educational and occupational terms. While this presents many opportunities, it also creates confusion in terms of re-negotiating traditional gender roles. The fictional representation of young women in recent film and television shows demonstrates how these tensions, created by the specific sociopolitical climate of the post-recession era, are being worked out. One specific television show focused on intelligent young women caught up in these contradictions is *Girls*. The show explores the lives of four female friends living in Brooklyn, two years after their college graduation, as they try to support themselves with low-paying jobs, and deal with various struggles around relationships, careers, and friendships. The HBO half-hour sitcom, created, written by and starring Lena Dunham, premiered on April 15th 2012 after receiving a flood of initial buzz and criticism, both positive and negative. This collection is the first to discuss the cultural, political and social implications of this innovative series. The contributors examine *Girls* through a variety of lenses: sexual, racial, gender, relationships between the male and female characters, as well as friendships between the young women. This variety of perspectives explains why *Girls* has had the profound cultural impact it has made, in the short time it has been on the air.
