Textbook of Female Sexual Function and Dysfunction - Irwin Goldstein 2018-07-02

A comprehensive text on female sexual function and dysfunction that offers a multi-disciplinary, biopsychosocial approach to diagnosis and treatment. Textbook of Female Sexual Function and Dysfunction offers a multi-disciplinary, biopsychosocial approach and provides guidance for the safe and effective diagnosis and treatment of various sexual health issues. With contributions from an international panel of experts, the text provides the scientific basis of the clinical recommendations for dealing with problems of sexual, desire, arousal, orgasm and pain. The text is clearly organised around the four major disease states in female sexual dysfunction (FSD) and is officially endorsed by the International Society for the Study of Women's Sexual Health (ISSWSH). The authors cover a wealth of topics such as hypoactive sexual desire disorder, psychological management of sexual disorders, anatomy and physiology of sexual dysfunction and pain and information on future developments and research. In addition, the text reviews all FDA approved medications for sexual dysfunction and contains consideration of off-label treatments for FSDs. This important text:

- Offers the only textbook to highlight female sexual dysfunction in light of recently approved FDA medications
- Contains a unique biopsychosocial approach from a collaborative team of physicians, psychologists, physical therapists as well as other sexual health professionals
- Presents a comprehensive text led by one of the foremost global experts in Women's Sexual Health, Irwin Goldstein, founder of ISSWSH, with three other past presidents and one president-elect

Written for any professional dealing with women's sexual health, Textbook of Female Sexual Function and Dysfunction offers an invaluable guide to the most safe and effective diagnosis and treatment.

The Virility Factor - Robert Bahr 1992

The first up-to-date book for the laymen on testosterone.

Androgen Deficiency in The Adult Male - Malcolm Carruthers 2004-08-30

Just what is the andropause? Although acceptance of the andropause concept by the medical community is growing, it is still a hotly debated issue. But as a busy clinician you have patients to treat and you need information. So where can you find the information you need to understand, diagnose, and treat this condition? *Androgen Deficiency in the Adult Male: Causes, Diagnosis and Treatment* distills the knowledge acquired by author Dr. Malcolm Carruthers in his 25 years of research and clinical experience in diagnosing and treating the andropause into a comprehensive, detailed clinical resource. Dr. Carruthers documents the history of the search for testosterone treatment from antiquity to the awarding of the Nobel Prize to Adolf Butenandt and Leopold Ruzicka for synthesizing testosterone and patenting its production some 4,000 years later. He discusses the causes of androgen deficiency, the male menopause or andropause, and recent advances in its diagnosis. The text includes reviews of the literature in each section and a fund of bibliographic references gleaned from the author's years of research in this field. This combination of features makes *Androgen Deficiency in the Adult Male: Causes, Diagnosis and Treatment* an invaluable and practical clinical guide, a complete and detailed reference volume, and a cohesive and readable textbook.

Drug Facts and Comparisons 2000 - Facts and Comparisons 1999

This is the pocket version of 'Drugs fact and comparisons' (DFC), a loose-leaf drug information service published in the USA. This version is designed to provide an easy to use, concise, portable tool for daily practice at the point of care. Aimed at professionals, it gives information on over 600 generic drugs, with 2000 plus representative trade names. It is organised in twelve therapeutic categories to enable identification and comparison of similar agents. The categories are nutritionals, blood modifiers, hormones, cardiovasculars, respiratories, CNS drugs, gastrointestinal, anti-infectives, biologicals, topicals, antieoplastics and miscellaneous. Product tables which list trade names, methods of dosage, strengths and manufacturers are given at the beginning of each drug description. Actions, indications, contraindications, warnings, drug interactions and significant adverse reactions are also included.

Prevalence of Low Serum Testosterone in Men with Type 2 Diabetes Attending Two Diabetes Clinics in Durban, South Africa - Paruk Imran 2017

Aim: Data on the prevalence of low serum testosterone in men with type 2 diabetes mellitus (T2DM) from sub-Saharan Africa are scanty. The aim of this study was to determine the prevalence and associated risk factors of low serum testosterone in South African men with T2DM; the prevalence of androgen deficiency symptoms was also assessed. **Methods:** This was a cross-sectional study in men with T2DM attending two diabetes clinic in Durban. Androgen deficiency symptoms (ADS) were assessed using the Ageing Maleu2019s Symptom Scale (AMS) questionnaire. Serum total testosterone (TT), sex-hormone binding globulin (SHBG), leutinising hormone (LH), HbA1c, fructosamine and serum lipids were measured; free-testosterone (fT) was calculated with a standard formula. The control group included men without a history of diabetes. Low serum fT (LSFT) was defined as 180 pmol/l and low TT (LSTT) as

Natural Hormone Balance for Women - Uzzi Reiss 2001-10-26

A pioneering gynecologist and antiaging specialist with a successful Beverly Hills practice, Dr. Uzzi Reiss shows the way for women who want to turn back the effects of time through natural hormone therapy, but who wonder: is it safe? Does it work? Is hormone therapy right for me? *Natural Hormone Balance for Women* is Dr. Reiss's breakthrough, step-by-step program for women who want to take control of their lives by restoring hormonal balance. This revolutionary, commonsense natural hormone replacement program is designed to meet the individual needs of most women looking to rejuvenate body and mind—and offers astounding benefits for women of all ages: More energy and stamina * Improved memory * Healthier, more youthful skin * Balanced moods * Less depression and anxiety * Stabilization of weight and more muscle definition * Better sleep patterns * PMS and menopausal symptoms reduced or eliminated * Enhanced sexuality. Dr. Reiss takes the confusion out of the medical information you need to know. In clear, nontechnical language, he thoroughly explains: -the important difference between standard chemical hormone prescriptions and natural hormone replacements -which hormone replacements are best for you and how to adjust them to your maximum individual benefit -how to take hormones without worry -how to choose the most effective hormonal gel, cream, pill, or sublingual drops, and when to use them. Dr. Reiss has helped thousands of women transform their lives by achieving natural hormone balance. Now you can tap into the replenishing "fountain of youthfulness" that is not only essential for better life, but easier and safer to achieve than ever before.

The Treatment of Epilepsy - Simon Shorvon 2008-04-15

In recent years, there have been rapid advances both in medical and surgical treatments of epilepsy. This book provides a comprehensive textbook on medical and surgical treatment of epilepsy, and acts as a clinical reference book with a strong practical bias.

A Pilot Study on Investigation of Chinese Medicinal Classification and Its Relationship with Hormones in Menopausal Women - Lam Lam 2017-01-26

This dissertation, "A Pilot Study on Investigation of Chinese Medicinal Classification and Its Relationship With Hormones in Menopausal Women" by Lam, Lam, [], was obtained from The University of Hong Kong (Pokfulam, Hong Kong) and is being sold pursuant to Creative Commons: Attribution 3.0 Hong Kong License. The content of this dissertation has not been altered in any way. We have altered the formatting in order to facilitate the ease of printing and reading of the dissertation. All rights not granted by the above license are retained by the author. **Abstract:** Objective: To develop a validated questionnaire for the assessment of menopausal syndrome in Chinese Medicine and through the analysis of the basic menopausal syndrome classification in Chinese Medicine to explore the use of objective hormone markers as one of the evidence for the Chinese Medicinal classification and guidance for application of herbal medicines by Chinese Medicine Practitioners. **Methods:** The major symptoms related to typical syndromes of menopause were extracted from Chinese Medicine textbook, international diagnostic guide of Chinese Medicine, classic and contemporary literature of Chinese Medicine and subjective symptoms were eliminated to facilitate the administration of a self-reported outcome questionnaire. The symptoms related to menopause in Chinese Medicine were identified and redefined to improve the content validity. A total of 353 menopausal women were included in the study. Participants were assessed through face-to-face interview by registered Hong

Kong Chinese Medicine Practitioner to complete the questionnaire and serum samples for hormones measurement were collected after an overnight fast in the morning of the assessment day. Serum Estradiol (E2), Testosterone (T), Progesterone (P), Luteinizing Hormone (LH), Follicle Stimulating Hormone (FSH) and Sex-Hormone Binding Globulin (SHBG) were measured by electrochemiluminescence immunoassays (ECLIA). Free estradiol (fE2), non-Sex-Hormone Binding Globulin bound Estradiol (non-SHBG-E2), free Testosterone (fT), and non-Sex-Hormone Binding Globulin bound Testosterone (non-SHBG-T) were calculated to assess hormone availability and activity. E2/T ratio was also calculated to investigate the balance of E2 and T in the body. Results: Principal Component Analysis (PCA) was conducted. Symptoms related to Deficiency of Yin and symptoms related to Deficiency of Yang were extracted and the relationship between the syndromes and E2, T, P, LH, FSH, SHBG, fT, non-SHBG-T, fE2, non-SHBG-E2 and E2/T ratio were investigated. For symptoms related to Deficiency of Yin, E2 (ppppor little with moderate and severe presentation of symptoms. For symptoms related to Deficiency of Yang, SHBG (p=0.042, p=0.002, pshowed an increase, fT (p=0.044, p=0.049, p=0.003) and non-SHBG-T (p=0.044, p=0.049, p=0.003) showed a decrease which was significant for other three groups while comparing to the no or little group. Conclusion: Menopausal Syndrome Questionnaire was developed and validated in the study. Major syndromes and symptoms involved in the diagnosis of menopausal syndrome in Chinese Medicine were identified and good test-retest reliability was also demonstrated. From the result, we hypothesize that the presentation of symptoms related to Deficiency of Yin may be closely correlated with the menopausal transition in Western Medicine and the presentation of symp

Contemporary Treatment of Erectile Dysfunction - Tobias S. Köhler 2016-08-12

Now in a revised and expanded second edition, this comprehensive clinical guide remains a state-of-the-art synthesis of the literature, covering all aspects of treating erectile dysfunction (ED) and other related male sexual dysfunctions. Cardiovascular, hormonal, psychological and lifestyle factors are each considered in diagnosis and treatment, which includes pharmacological, surgical and prosthetic management strategies. The effects of prostate cancer and its treatment are also discussed, as are Peyronie's disease, priapism and ejaculatory disorders. New chapters in this edition discuss the profound effects of lifestyle change on sexual function, alternative and internet drugs that affect sexual function, endovascular approaches to ED, penile length considerations, the effect of radiation on erectile function, and optimizing ED research. Presenting a better understanding of what causes erectile dysfunction and the effective medications and non-medication treatments used to treat the condition, this invaluable title offers all physicians, residents, and fellows - and even medical students and other health professionals such as nurse practitioners and physician assistants - an essential reference for enhancing diagnosis and treatment of this common and debilitating disorder.

Arteriosclerosis—Advances in Research and Treatment: 2013 Edition - 2013-06-21

Arteriosclerosis—Advances in Research and Treatment: 2013 Edition is a ScholarlyEditions™ book that delivers timely, authoritative, and comprehensive information about Atherosclerosis. The editors have built Arteriosclerosis—Advances in Research and Treatment: 2013 Edition on the vast information databases of ScholarlyNews.™ You can expect the information about Atherosclerosis in this book to be deeper than what you can access anywhere else, as well as consistently reliable, authoritative, informed, and relevant. The content of Arteriosclerosis—Advances in Research and Treatment: 2013 Edition has been produced by the world's leading scientists, engineers, analysts, research institutions, and companies. All of the content is from peer-reviewed sources, and all of it is written, assembled, and edited by the editors at ScholarlyEditions™ and available exclusively from us. You now have a source you can cite with authority, confidence, and credibility. More information is available at <http://www.ScholarlyEditions.com/>.

Women's Sexual Function and Dysfunction - Irwin Goldstein 2005-11-17

The first, definitive text on female sexual dysfunction, this major new book summarizes the current body of knowledge in the field, traces the history of developments in the area, and identifies work still needed in the future. Reflecting a multidisciplinary approach to the subject, the book details the methods and materials for ensuring the appropriate management of women with sexual health problems, and concentrates on the presentation of evidence-based data concerning the physiology, pathophysiology, diagnosis and treatment of sexual function and dysfunction in women. The inclusion of 'difficult cases' also enhances the use of text as a practical guide to all disciplines concerned with the field of female sexual

dysfunction. This important work will become a key resource for basic science researchers, endocrinologists, gynecologists, psychologists, urologists, health care clinicians, and anyone else interested in women's sexual health. All proceeds are donated to the International Society for the Study of Women's Sexual Health.

Effect of a Soy Dietary Supplement on Menopausal Symptoms and Hormones in Women at High Risk of Breast Cancer - 1999

The usefulness of a dietary soy supplement resulting in an intake of 45 mg/day of phytoestrogens, was tested in a randomized cross-over design in menopausal women aged 45-58 years of age who reported a high level of menopausal hot flashes (>5/day). Women were on the soy or placebo bars for 3 months. A 22 and 26% reduction in the frequency of hot flashes was reported during both the soy and placebo supplemented phases of the study, respectively, compared to baseline, but no difference was observed in the reported number or intensity of the hot flashes when the soy and placebo phases were compared. Endogenous hormones, however, were altered with a significant decrease in serum estradiol (p=0.003) on the soy phase compared to baseline and compared to the placebo (p=0.03). Decreases in Sex-Hormone Binding Globulin were also seen (P=0.0001) compared to baseline and increases in Follicle-Stimulating Hormone and Leutinizing Hormone (p=0.03 for both). Levels of serum phytoestrogen achieved in the women while on the soy supplement were comparable and probably higher than levels seen in the Asian population. A significant inverse association was observed between levels of estrone-sulfate and the number of hot flashes reported (p=0.02).

Healthy Past 100 - Steven M. Teagarden DC 2023-08-10

Healthy Past 100 was written explicitly for those longing to be extraordinarily healthy—even past their 100th birthday. This breakthrough book is based on thousands of cutting-edge science articles identifying the causes of optimal health vs sickness and disease. Healthy Past 100 puts a wealth of cutting-edge, science-based healthcare information at your fingertips, empowering you to make the healthiest choices for you and your family. Healthy Past 100 is several books in one, and it also contains a mouthwatering keto cookbook that's exclusively based on the most nourishing ingredients you can consume. This life-changing book is based on the Short List, i.e., a distillation of the core factors involved in being healthy past 100. The Short List includes: The Metabolic Masterplan Diet: the Metabolic Masterplan Diet may be the world's most advanced ketogenic diet. Nothing improves your health as much as following this research-based, anti-inflammatory, gut-healing ketogenic diet. Nutrition and Supplements: providing your cells with all the nutrients they require to function optimally is key to a long, healthy life. Healthy Past 100 shows you exactly which nutrients you need and which ones to supplement with. Metabolism: carbohydrates and sugar damage your metabolism (the process of creating energy in your cells), causing serious health issues. Healthy Past 100 teaches you to heal and optimize your metabolism, and which tests to rely on to know—not guess—that your metabolism is as healthy as can be. Chronic Inflammation: this widespread health issue underlies all diseases, and must be healed to experience optimal health. Healthy Past 100 rids you of chronic inflammation—now and forever—paving the way to lasting health. Gut Health: most humans deal with significant gut issues. Fortunately, Healthy Past 100's innovative gut healing method leads to lifelong optimized gut health. Psychology: psychology is how you think, feel, act, behave and respond to life's circumstances. Healthy Past 100 provides the tools to heal and optimize your psychology, which is foundational to a healthy, fulfilling life. Thyroid Physiology: inefficient thyroid physiology impairs your body and mind, zaps your energy and causes many diseases. Healthy Past 100 explains how thyroid physiology works, how to heal it, and the tests determining if it's in tip-top shape. Exercise: crucial to your health and well-being, exercise must be performed regularly. Healthy Past 100 teaches you which exercises help you become healthy past 100. Detoxification: humans are routinely exposed to dangerous heavy metal toxins. Healthy Past 100 shows you how to rid these harmful metals from your body and minimize your exposure to them in the future. Oxidative Stress: oxidative stress is a primary cause of aging, sickness, disease and death. It has many causes, including carbohydrates, sugar, poor nutrition and impaired gut health. Healthy Past 100 helps you optimize oxidative stress where it matters most: within the mitochondria in your cells. Spiritual/Religious Life: extraordinary health stems from optimal physical, psychological and spiritual well-being. It's just as important to focus on your spiritual fitness as it is to heal your physical body, and Healthy

Past 100 helps you do both. This pioneering book has been written to help you experience extraordinary health past your 100th birthday. If you're ready to be healthy past 100, this is the book you've been waiting for!

Hyperandrogenism in Women - R. Pasquali 2019-09-09

Hyperandrogenism profoundly affects women's lives from lowering self-esteem to changing cognition and affective motivation. The polycystic ovary syndrome (PCOS) is the most common androgen excess disorder worldwide. While it is not the focus of this book, some aspects are discussed. The aim of this book is to improve understanding of androgen excess and its impact on several conditions. Topics include development of adipose tissue in females, insulin sensitivity, congenital adrenal hyperplasia, and Cushing's disease/syndrome. There is also a discussion of PCOS with emphasis on in utero origins and specific genetic and epigenetic factors. This book provides a wealth of relevant information for every endocrinologist and gynecologist who wants to broaden their knowledge of androgens in various conditions.

Cumulated Index Medicus - 1991

MEN'S HORMONES MADE EASY!: How to Treat Low Testosterone, Low Growth Hormone, Erectile Dysfunction, BPH, Andropause, Insulin Resistance, Adrenal Fatigue, Thyroid, Osteoporosis, High Estrogen, and DHT! - J.M. Swartz M.D. 2015-03-09

[Learn how to] prevent and reverse menopause, prostate issues, heart disease, and cancer. See how hormone issues at any age may wreck your relationship, make you fat, and accelerate aging and death. Learn how to safely improve your sexual performance, increase your energy, motivation, and sex drive, and strengthen muscles and bones. ... [This book] will show you how to create the kind of lifelong health that will allow you to pursue your passions in life. You will look great, feel great, lose weight, and have better sex! --Page 4 of cover.

Bioidentical Hormone Replacement Therapy - Rudy Dragone 2014-02-21

All through our lives we are plagued with certain truths, we are born, we live and we die. Many of us live life never really having great health. Everywhere you turn these days you hear and see more and more news and advertising about Hormone Replacement Therapies (HRTs). From large pharmaceuticals marketing the latest synthetic low testosterone replacement roll-on to celebrities extolling the virtues of Bioidentical Hormone Replacement Therapy, (BHRT) as a virtual fountain of youth. The truth is there are a lot of mistruths about the role bioidentical hormones can have in the cure of several severe symptoms; the overall wellbeing of your patients and safety concerns about their use. This book is to serve as a guide to understanding the role hormones have in assessing symptoms that may be aggravated by hormonal imbalances or deficiencies. The last half of this book contains a clinical reference guide to help healthcare practitioners check for hormonal imbalances and recommend dosing of bioidentical hormones in the treatment of their patients. The goals of this book are to: 1. Educate healthcare professionals about the role of hormones in the wellness of their patients. 2. Educate the public of the significant role hormonal imbalances can play in their overall wellness. 3. Provide the necessary tools to determine if bioidentical

hormone replacement therapies are appropriate for your patients. 4. Help expand healthcare practices through referrals by happy, healthy patients and bioidentical hormone replacement therapies that improve patient lives while making sound business sense to your practice. The roll that bioidentical hormone replacement therapy has in overall wellbeing for millions of people is simply remarkable.

Cancer and Sexual Health - John P Mulhall 2011-04-23

The average physician and even cancer care-givers are not knowledgeable about the effects of cancer treatment on sex and reproductive life. They are even less aware of the options available for treatment of such patients. *Cancer and Sexual Health* fills a great need for a reference work devoted to the link between cancer and human sexuality. The volume is designed to give a comprehensive and state-of-the-art review of the sexual and reproductive consequences of cancer diagnosis and treatment. It will prove an invaluable resource for those clinicians caring for cancer patients as well as acting as a reference text for the sexual medicine clinician who may not see a large number of cancer patients.

Hormones and Breast Cancer - Malcolm C. Pike 1981

The Endogenous Hormonal Milieu Associated with Thrombosis in Postmenopausal Women - Laura B. Harrington 2014

Although the use of exogenous hormones, such as hormone therapy (HT) and oral contraceptives (OC), is known to be positively associated with the risk of venous thrombosis (VT), the endogenous hormonal environment associated with thrombotic biomarkers and endpoints is incompletely characterized. This dissertation aimed to elucidate further the relation between endogenous sex hormones as well as events associated with changes in these hormones (vasomotor symptoms [VMS] and hysterectomy and oophorectomy) and thrombotic risk in postmenopausal women. In the setting of the Seattle Heart and Vascular Health (HVH) study, we evaluated the cross-sectional association between 9 measures of endogenous hormone levels and 8 hemostatic factor levels using separate multiple linear regression analyses among 131 postmenopausal women. Also in the setting of the HVH study, we used multiple logistic regression to estimate VT risk associated with prior hysterectomy/oophorectomy status and current HT use status, compared with no prior hysterectomy and no current HT use, among a population of postmenopausal cases of incident VT (n=1,358) and their matched controls (n=4,112). In the setting of the Women's Health Initiative (WHI), we evaluated the cross-sectional association of 9 measures of hemostatic factor levels with VMS presence and severity among 2,149 postmenopausal women using multiple linear regression. We also evaluated the association between VMS presence, severity, menopausal status at VMS onset, and VMS duration and the risk of VT among postmenopausal participants in the WHI-HT trials (n=24,508) and the WHI-Observational Study (WHI-OS) (n=87,783) using Cox proportional hazards models. For our first aim, after accounting for multiple comparisons, we found no statistically significant evidence of any hormone-hemostatic factor associations (P-min p=0.10). In analyses without correction for multiple comparisons, there was some suggestion that higher levels of estradiol (pg/mL), estrone (pg/mL), sex hormone binding globulin (nmol/L), total testosterone (ng/dL), and dehydroepiandrosterone (DHEA) (ng/dL) may be associated with lower total protein S levels (%) and that higher estrone levels may be associated with lower antithrombin levels (%) (all p-values
