Straight Hanne Blank 2012-01-31 It's surprising that the term "heterosexuality" is less than 150 years old and that heterosexuality's history has never before been written, given how obsessed we are with it. In *Straight*, independent scholar Hanne Blank delves deep into the contemporary psyche as well as the historical record to chronicle the realm of heterosexual relations--a subject that is anything but straight and narrow. Consider how Catholic monasticism, the reading of novels, the abolition of slavery, leisure time, divorce, and constipation of the bowels have all at some time been labeled enemies of the heterosexual state. With an extensive historical scope and plenty of juicy details and examples, *Straight* provides a fascinating look at the vagaries, schisms, and contradictions of what has so often been perceived as an irreducible fact of nature.

Victims and Survivors' Own Stories of Intrafamilial Child Sexual Abuse Steve Broome 2019-11-25 In the UK today, it is estimated that nearly one in twenty children are subjected to sexual abuse, with the overwhelming majority being abused within the family environment. However, despite its prevalence, intrafamilial child sexual abuse remains largely shrouded in silence, shame and stigma. Taking a phenomenological approach, this book presents ten retrospective first-person accounts from adult victims and survivors, exploring the impact of such abuse throughout the life course. These stories illustrate how child sexual abuse can cause trauma affecting almost every aspect of life: emotionally, psychologically, interpersonally, behaviourally and cognitively. However, they also demonstrate the remarkable resilience of the human spirit; of how adverse experiences can be lived with, processed, and assimilated. These accounts address a gap in what academics, practitioners and policy makers know about child sexual abuse; give victims and survivors a voice; and open up a conversation about one of the most enduring societal and cultural problems.

Sex When You Don't Feel Like It Cyndi Darnell 2022-06-10 "Distinguishes between love and desire to breakdown myths around sex and help readers cultivate an authentic sex life"--

Lesbians, Women & Society E M Ettorre 2022-09-01 First published in 1980, *Lesbians, Women and Society* presents an analysis of lesbianism as a phenomenon that developed from a 'personal problem' or 'individual deviance' to a social movement with political ambitions. Social lesbianism, an important concept introduced in the text, refers to the emergence of a public expression of lesbianism and is a stage in the process of establishing a lesbian group identity. It thrusts the issue into the public eye, and lends vitality to society's awareness. Two groups of 'social lesbians' are visible: those fearful of change who cling to traditional and social views, 'sick but not sorry'; and those who wish to challenge such traditional views in favour of a more public approach, 'sorry, but we're not sick.' But regardless of their relationships to the dominant sexual ideology, as a group, 'social lesbians' threaten the structure of power in society. This critical analysis thus challenges many people's views of lesbianism, and points out to the uninformed observer the complexities which are involved in the contemporary lesbian experience. This book will be of interest to students of sociology, gender studies, feminist theory, and sexuality studies.

Through the Black Mirror Terence McSweeney 2019-07-26 This edited collection charts the first four seasons of Black Mirror and beyond, providing a rich social, historical and political context for the show. Across the diverse tapestry of its episodes, Black Mirror has both dramatized and deconstructed the shifting cultural and technological coordinates of the era like no other. With each of the nineteen chapters focussing on a single episode of the series, this book provides an in-depth analysis into how the show interrogates our contemporary desires and anxieties, while simultaneously encouraging audiences to contemplate the moral issues raised by each episode. What if we could record and replay our most intimate memories? How far should we go to protect our children? Would we choose to live forever? What does it mean to be human? These are just some of the questions posed by Black Mirror, and in turn, by this volume. Written by some of the foremost scholars in the field of contemporary film and television studies, Through the Black Mirror explores how Black Mirror has become a cultural barometer of the new millennial decades and questions what its embedded anxieties might tell us.

Living in Love and Faith The Church of England 2020-11-09 Issues of gender and sexuality are intrinsic to people's experience: their sense of identity, their lives and the loving relationships that shape and sustain them. The life and mission of the Church of England - and of the worldwide Anglican Communion - are affected by the deep, and sometimes painful, disagreements about these matters, divisions brought into sharper focus because of society's changing perspectives and practices, especially in relation to LGBTBI+ people. *Living in Love and Faith* sets out to inspire people to think more deeply both about what it means to be human, and to live in love and faith with one another. It tackles the tough questions and the divisions among Christians about what it means to be holy in a society in which understandings and practices of gender, sexuality and marriage continue to change. Commissioned and led by the Bishops of the Church of England, the *Living in Love and Faith* project has involved many people across the Church and beyond, bringing together a great diversity and depth of expertise, conviction and experience to explore these matters by studying what the Bible, theology, history and the social and biological sciences have to say. After a Foreword from the Archbishops of Canterbury and York, the book opens with an invitation from the Bishops of the Church of England to embark on a learning journey in five parts: Part One sets current questions about human identity, sexuality, relationships and marriage in the context of God's gift of life. Part Two takes a careful and dispassionate look at what is happening in the world with regard to identity, sexuality, relationships and marriage. Part Three explores current Christian thinking and discussions about human identity, sexuality, and marriage. In the light of the good news of Jesus Christ, how do Christians understand and respond to the trends observed in Part Two? Part Four considers what it means for us as individuals and as a church to be Christ-like when it comes to matters of identity, sexuality, relationships and marriage. Part Five invites the reader into a conversation between some of the people who have been involved in writing this book who, having engaged with and written Parts One to Four, nevertheless come to different conclusions. Amid the biblical, theological, historical and scientific exploration, each part includes Encounters with real, contemporary disciples of Christ whose stories raise questions which ask us to discern where God is active in human lives. The book ends with an appeal from the Bishops to join them in a period of discernment and decision-making following the publication of *Living in Love and Faith*. The *Living in Love and Faith* book is accompanied by a range of free digital resources including films, podcasts and an online library, together with *Living in Love and Faith: The Course*, a 5-session course which is designed to help local groups engage with the resources, also published by Church House Publishing.

Just Sex? Nicola Gavey 2013-10-14 Winner of the Association for Women In Psychology 2006 Distinguished Publication Award! The past two decades have witnessed a significant shift in how rape is understood in Western societies. This shift in perception has revealed the startling frequency of occurrences of date rape, obscuring the divide between rape and what was once just sex. *Just Sex?* combines an overview of the existing literature with an analysis of recent research to examine the psychological and cultural implications of this new epidemic. The result is the conclusion that feminist theory on sexual victimisation has gone both too far and not far enough. The reader is presented with a challenging and original perspective on the issues of rape, sex and the body, incorporating subjects including: * rape as a social problem * the social constructionism of sex, subjectivity and the body * heterosexuality under the microscope This book succeeds in making a valuable contribution to feminist and social constructionist work on rape that will be of interest to those studying psychology, gender studies, cultural studies and sociology. *Just Sex? The Cultural Scaffolding of Rape* was selected as a 2005 winner of AWP's (Association for Women in Psychology) distinguished publication award.

Conversations with Nalo Hopkinson Isiah Lavender III 2022-12-28 A key figure in contemporary speculative fiction, Jamaican-born Canadian Nalo Hopkinson (b. 1960) is the first Black queer

woman as well as the youngest person to be named a Grand Master by the Science Fiction and Fantasy Writers of America. Her Caribbean-inspired narratives—Brown Girl in the Ring, Midnight Robber, The Salt Roads, The New Moon's Arms, The Chaos, and Sister Mine—project complex futures and complex identities for people of color in terms of race, sex, and gender. Hopkinson has always had a vested interest in expanding racial and ethnic diversity in all facets of speculative fiction from its writers to its readers, and this desire is reflected in her award-winning anthologies. Her work best represents the current and ongoing colored wave of science fiction in the twenty-first century. In twenty-one interviews ranging from 1999 until 2021, *Conversations with Nalo Hopkinson* reveals a writer of fierce intelligence and humor in love with ideas and concerned with issues of identity. She provides powerful insights on code-switching, race, Afrofuturism, queer identities, sexuality, Caribbean folklore, and postcolonial science fictions, among other things. As a result, the conversations presented here very much demonstrate the uniqueness of her mind and her influence as a writer.

The Erotic Mind Jack Morin 2012-11-13 Challenging accepted theories about what makes for terrific sex, *The Erotic Mind* is a breakthrough exploration of the least understood dimensions of human sexuality—the psychology of desire, arousal, and fulfillment. Nationally known sex therapist Dr. Jack Morin offers a bold new perspective that celebrates the joys of Eros without denying its risks. Based on an in-depth analysis of over 1,000 provocative stories of peak sexual experiences, *The Erotic Mind* offers clear, accessible guidance on how anyone can utilize his or her own peak encounters and fantasies as powerful tools of self-discovery. *The Erotic Mind* explains the many paradoxes of erotic life, such as: why we're most excited when we must overcome obstacles; how anxiety, guilt, and anger—generally thought to have a negative impact on sexual arousal—often turn out to be aphrodisiacs; how we use unresolved issues from our early lives to intensify passion; and why the best sex is dynamic and unpredictable, rather than static and safe. These and other insights, combined with concrete suggestions for increasing our enjoyment, overcoming our problems, and revitalizing our relationships, will change forever the way we think about our eroticism.

Unspeakable Acts Doug W. Pryor 1999 A holistic sociological approach that explores why offenders sexually abuse children The sexual abuse of children is one of the most morally unsettling and emotionally inflammatory issues in American society today. It has been estimated that roughly one out of every four girls and one in ten boys experience some form of unwanted sexual attention either inside or outside the family before they reach adulthood. How should society deal with the sexual victimization of children? Should known offenders be released back into our communities? If so, where, and with what rights, should they be allowed to live? In *Unspeakable Acts*, Douglas W. Pryor argues that much of this debate, designed to deal with abusers after they have offended, ignores the important issue of why men cross these forbidden sexual boundaries to molest children in the first place and how the behavior can possibly be prevented before it starts. Incorporating in-depth interviews with more than thirty convicted child molesters, Pryor explores how men become involved with breaking sexual boundaries with children. He looks at how their lives prior to offending contributed to and led up to what they did, the ways that initial interest in sex with children began, the tactics offenders employed to molest their victims over time, how they felt about and reacted to their behavior between offending episodes, and how they were ultimately able to stop. The author expands our understanding of this often reviled, little understood group, leaving us with the uneasy conclusion that the moral wall separating us from what is defined as extreme, sick behavior is not as opaque as we would like to believe.
