**Burning Midnight** Will McIntosh 2016-02-11 For fans of *The Maze Runner* and *The 5th Wave*, this debut YA novel from Hugo Award-winner Will McIntosh pits four teens against an evil billionaire in the race of a lifetime. Sully is a sphere dealer at a flea market. It doesn't pay much - Alex Holliday's stores have muscled out most of the independent sellers - but it helps him and his mum make the rent. No one knows where the brilliant-coloured spheres came from. One day they were just there, hidden all over the earth like huge gemstones. Burn a pair and they make you a little better: an inch taller, skilled at maths, better-looking. The rarer the sphere, the greater the improvement - and the more expensive the sphere. When Sully meets Hunter, a girl with a natural talent for finding spheres, the two start searching together. What they find will change more than just their lives . . . Because the entire world fights over spheres, but no one knows why they're here or what their powers are . . . until now.

**The Burning Girls** C. J. Tudor 2021-02-09 An unconventional vicar must exorcise the dark past of a remote village haunted by death and disappearances in this explosive and unsettling thriller from the acclaimed author of *The Chalk Man*. A dark history lingers in Chapel Croft. Five hundred years ago, Protestant martyrs were betrayed—then burned. Thirty years ago, two teenage girls disappeared without a trace. And a few weeks ago, the vicar of the local parish hanged himself in the nave of the church. Reverend Jack Brooks, a single parent with a fourteen-year-old daughter and a heavy conscience, arrives in the village hoping for a fresh start. Instead, Jack finds a town rife with conspiracies and secrets, and is greeted with a strange welcome package: an exorcism kit and a note that warns, "But there is nothing covered up that will not be revealed and hidden that will not be known." The more Jack and daughter, Flo, explore the town and get to know its strange denizens, the deeper they are drawn into the age-old rifts, mysteries, and suspicions. And when Flo begins to see specters of girls ablaze, it becomes apparent there are ghosts here that refuse to be laid to rest. Uncovering the truth can be deadly in a village with a bloody past, where everyone has something to hide and no one trusts an outsider.

[Burning Girls and Other Stories](#) Veronica Schanoes 2021-03-02 A Most Anticipated in 2021 Pick for *The Independent* | *Buzzfeed* | *The Nerd Daily* When we came to America, we brought anger and socialism and hunger. **Burning the Books** Richard Ovenden 2020-10-13 The director of the famed Bodleian Libraries at Oxford narrates the global history of the willful destruction—and surprising survival—of recorded knowledge over the past three millennia. Libraries and archives have been attacked since ancient times but have been especially threatened in the modern era. Today the knowledge they safeguard faces purposeful destruction and willful neglect; deprived of funding, libraries are fighting for their

very existence. *Burning the Books* recounts the history that brought us to this point. Richard Ovenden describes the deliberate destruction of knowledge held in libraries and archives from ancient Alexandria to contemporary Sarajevo, from smashed Assyrian tablets in Iraq to the destroyed immigration documents of the UK Windrush generation. He examines both the motivations for these acts—political, religious, and cultural—and the broader themes that shape this history. He also looks at attempts to prevent and mitigate attacks on knowledge, exploring the efforts of librarians and archivists to preserve information, often risking their own lives in the process. More than simply repositories for knowledge, libraries and archives inspire and inform citizens. In preserving notions of statehood recorded in such historical documents as the Declaration of Independence, libraries support the state itself. By preserving records of citizenship and records of the rights of citizens as enshrined in legal documents such as the Magna Carta and the decisions of the US Supreme Court, they support the rule of law. In *Burning the Books*, Ovenden takes a polemical stance on the social and political importance of the conservation and protection of knowledge, challenging governments in particular, but also society as a whole, to improve public policy and funding for these essential institutions.
