

The Munich Girl A Novel Of The Legacies That Outlast War

The Politics of the Nazi Past in Germany and Austria - David Art 2005-12-19

This book argues that Germans and Austrians have dealt with the Nazi past very differently and these differences have had important consequences for political culture and partisan politics in the two countries. Drawing on different literatures in political science, Art builds a framework for understanding how public deliberation transforms the political environment in which it occurs. The book analyzes how public debates about the 'lessons of history' created a culture of contrition in Germany that prevented a resurgent far right from consolidating itself in German politics after unification. By contrast, public debates in Austria nourished a culture of victimization that provided a hospitable environment for the rise of right-wing populism. The argument is supported by evidence from nearly two hundred semi-structured interviews and an analysis of the German and Austrian print media over a twenty-year period.

Snow Fence Road - Phyllis Edgerly Ring 2013-06

A village on the coast of Maine holds painful secrets- the kind only the miracle of new love can heal. Tormented by her fiance's death, Tess Johansen escapes to the only place that can still comfort her-the Spinnaker Inn in coastal Maine. Here in this place by the sea she feels close enough to the man she lost to numb the pain, if not the guilt. For local craftsman, Evan Marston, the ramshackle inn serves only as a grim reminder of the accident that shattered his life and killed the woman he once loved. But while the Spinnaker's walls may hold guilt and grief and suspicion, they might also house a bright new spark. Drawn together by a love they never expected, Tess and Evan begin to unravel the mysteries of their pasts and question the miracle at work in their wounded hearts-until one fateful evening along a snow fence road ...

From Puritanism to Postmodernism - Richard Ruland 2016-04-14

Widely acknowledged as a contemporary classic that has introduced thousands of readers to American literature, *From Puritanism to Postmodernism: A History of American Literature* brilliantly charts the fascinating story of American literature from the Puritan legacy to the advent of postmodernism. From realism and romanticism to modernism and postmodernism it examines and reflects on the work of a rich panoply of writers, including Poe, Melville, Fitzgerald, Pound, Wallace Stevens, Gwendolyn Brooks and Thomas Pynchon. Characterised throughout by a vibrant and engaging style it is a superb introduction to American literature, placing it thoughtfully in its rich social, ideological and historical context. A tour de force of both literary and historical writing, this Routledge Classics edition includes a new preface by co-author Richard Ruland, a new foreword by Linda Wagner-Martin and a fascinating interview with Richard Ruland, in which he reflects on the nature of American fiction and his collaboration with Malcolm Bradbury. It is published here for the first time.

A People's History of the World - Chris Harman 2017-05-02

The best-selling comprehensive history of the world, from the perspective of struggling peoples throughout the ages—now with new material and a foreword by Howard Zinn From the earliest human societies to the Holy Roman Empire, from the Middle Ages to the Enlightenment, from the Industrial Revolution to the end of the twentieth century, Chris Harman provides a brilliant and comprehensive history of the human race. Eschewing the standard accounts of “Great Men,” of dates and kings, Harman offers a groundbreaking counter-history, a breathtaking sweep across the centuries in the tradition of “history from below.” In a fiery narrative, he shows how ordinary men and women were involved in creating and changing society and how conflict between classes was often at the core of these developments. While many scholars see the victory of capitalism as now safely secured, Harman explains the rise and fall of societies and civilizations throughout the ages and demonstrates that history moves ever onward in every age. This magisterial study is essential reading for anyone interested in how society has changed and developed and the possibilities for further radical progress. “I have had many people ask me if there is a book which does for world history what my book *A People's History of the United States* does for this country. I always responded that I know

of only one book that accomplishes this extremely difficult task, and that is Chris Harman's *A People's History of the World*.” —Howard Zinn

The Company of Strangers - Paul Seabright 2004

This is a wonderful book, very well written and accessible to a wide audience.

RAND in Southeast Asia - Mai Elliott 2010-02-08

This volume chronicles RAND's involvement in researching insurgency and counterinsurgency in Vietnam, Laos, and Thailand during the Vietnam War era and assesses the effect that this research had on U.S. officials and policies. Elliott draws on interviews with former RAND staff and the many studies that RAND produced on these topics to provide a narrative that captures the tenor of the times and conveys the attitudes and thinking of those involved.

Essays on Russian Novelists - William Lyon Phelps 2004

The great Russian novelists of the 19th century are often considered unmatched as a group in literature and perhaps only approached by the 19th century composers of classical music. But who were these masters of image as portrayed through the written word? What made them tick and what makes their works keep on ticking? Professor William Lyon Phelps offers us a delicious beginning with a superb analysis of the Russian character in fiction and follow with a cogent presentation of the lives and works of Gogol, Turgenev, Dostoevsky, Tolstoi, Gorki, Chekhov, Artsbashev, Andreev and Kuprin. This book, originally published in 1915 by the MacMillan Company, has been completely retyped and indexed for this publication.

Here in Our Auschwitz and Other Stories - Tadeusz Borowski 2021-09-14

The most complete English-language collection of the prose of Tadeusz Borowski, the most challenging chronicler of Auschwitz, with a foreword by Timothy Snyder, author of *On Tyranny* In 1943, the twenty-year-old Polish poet Tadeusz Borowski was arrested and deported to Auschwitz as a political prisoner. What he experienced in the camp left him convinced that no one who survived Auschwitz was innocent. All were complicit; the camp regime depended on this. Borowski's tales present the horrors of the camp as reflections of basic human nature and impulse, stripped of the artificial boundaries of culture and custom. Inside the camp, the strongest of the prisoners form uneasy alliances with their captors and one another, watching unflinchingly as the weak scabble and struggle against their inevitable fate. In the last analysis, suffering is never ennobling and goodness is tantamount to suicide. Bringing together for the first time in English Borowski's major writings and many previously uncollected works, this is the most complete collection of stories in a new, authoritative translation, with a substantial foreword by Timothy Snyder that speaks to its enduring relevance.

Under the Shadow of the Swastika - R. Bennett 1999-05-28

This book is a study in the ethics of war. It is the only work which focuses on the moral dilemmas of resistance and collaboration in Nazi-occupied Europe, including a detailed examination of Jewish resistance. It presents a comprehensive guide to the harrowing ethical choices that confronted people in response to the German doctrine of collective responsibility: reprisal killings and hostage-taking. Also included: discussion of violations of the Laws of War (especially torture) by the resistance.

Goodbye, Antoura - Karnig Panian 2015-04-08

“This searing account of a little boy wrenched from family and innocence” during the Armenian genocide “is a literary gem” (*Financial Times*). When World War I began, Karnig Panian was only five years old, living among his fellow Armenians in the Anatolian village of Gurin. Four years later, American aid workers found him at an orphanage in Antoura, Lebanon. He was among nearly a thousand Armenian and four hundred Kurdish children who had been abandoned by the Turkish administrators, left to survive at the orphanage without adult care. This memoir offers the extraordinary story of what he endured in those years—as his

people were deported from their Armenian community, as his family died in a refugee camp in the deserts of Syria, as he survived hunger and mistreatment in the orphanage. The Antoura orphanage was another project of the Armenian genocide: Its administrators, some benign and some cruel, sought to transform the children into Turks by changing their Armenian names, forcing them to speak Turkish, and erasing their history. Panian's memoir is a full-throated story of loss, resistance, and survival, but told without bitterness or sentimentality. His story shows us how even young children recognize injustice and can organize against it, how they can form a sense of identity that they will fight to maintain. He paints a painfully rich and detailed picture of the lives and agency of Armenian orphans during the darkest days of World War I. Ultimately, Karnig Panian survived the Armenian genocide and the deprivations that followed. Goodbye, Antoura assures us of how humanity, once denied, can be again reclaimed.

The Munich Girl - Phyllis Edgerly Ring 2015-11-14

Anna Dahlberg grew up eating dinner under her father's war-trophy portrait of Eva Braun. Fifty years after the war, she discovers what he never did that her mother and Hitler's mistress were friends. The secret surfaces with a mysterious monogrammed handkerchief, and a man, Hannes Ritter, whose Third Reich family history is entwined with Anna's. Plunged into the world of the Munich girl who became her mother's confidante and a tyrant's lover? Anna retraces the friendship forged by two lonely women in Nazi Germany, even though the men they loved had opposing ambitions. Anna's journey will uncover long-buried secrets and unknown reaches of her heart to reveal the enduring power of love in the legacies that outlast war.

Life at First Sight - Phyllis Edgerly Ring 2009

Phyllis Ring divulges in this collection of personal essays how to "see the spiritual" in everyday moments and everyday life. Like love at first sight, "life at first sight" focuses on instant recognition and irresistible attraction, a sense of something mysteriously familiar, and a sense of spiritual connection. The essays show how to develop a new sense of being during daily activities and everyday interactions, as well as through engagement with the natural world. As a jumping-off point for spiritual conversation, these compositions offer food for thought on how to lead a more spiritual life. Book jacket.

The Making of Saint Louis - Marianne Cecilia Gaposchkin 2008

M. Cecilia Gaposchkin reconstructs and analyzes the process that led to King Louis IX of France's canonization in 1297 and the consolidation and spread of his cult.

Paris 1919 - Margaret MacMillan 2002

Describes the six months following the end of the First World War when leaders of the great powers, as well as men and women from all over the world, all with their own agendas, converged on Paris to shape the peace.

Hitler 1936-1945 - Ian Kershaw 2001-10-25

Following the enormous success of HITLER: HUBRIS this book triumphantly completes one of the great

modern biographies. No figure in twentieth century history more clearly demands a close biographical understanding than Adolf Hitler; and no period is more important than the Second World War. Beginning with Hitler's startling European successes in the aftermath of the Rhineland occupation and ending nine years later with the suicide in the Berlin bunker, Kershaw allows us as never before to understand the motivation and the impact of this bizarre misfit. He addresses the crucial questions about the unique nature of Nazi radicalism, about the Holocaust and about the poisoned European world that allowed Hitler to operate so effectively.

With Thine Own Eyes - Ronald Tomanio 2015-09-07

In this wonderfully practical and human book, we are invited to turn our attention towards investigating our spiritual reality. Ronald Tomanio, Diane Iverson and Phyllis Ring describe how that experience is met and encountered and why it is indescribably fulfilling - the very purpose for which we were created. Drawing on a letter of the Universal House of Justice of 19 November 1974 that provides a possible sequence that such an investigation of reality might follow, the authors explore the process - and pitfalls - that we can encounter along the way. Some of the steps identified by the authors that can guide the soul safely along the road of development include: * setting aside blind imitation of the past * learning to build the good rather than fighting evil * choosing acts of service commensurate with our spiritual understanding * listening carefully to our intuitive voice * knowing our purpose * regarding our fears as illusory and * acquiring a sin-covering eye.

The Arcades Project - Walter Benjamin 1999

Focusing on the arcades of 19th-century Paris--glass-roofed rows of shops that were early centers of consumerism--Benjamin presents a montage of quotations from, and reflections on, hundreds of published sources. 46 illustrations.

Feathers for Arrows; Or, Illustrations for Preachers and Teachers, from My Note Book - Charles Haddon Spurgeon 1883

The Anatomy of Fascism - Robert O. Paxton 2011-12-01

Fascism was the major political invention of the twentieth century and the source of much of its pain. How can we try to comprehend its allure and its horror? Is it a philosophy, a movement, an aesthetic experience? What makes states and nations become fascist? Acclaimed historian Robert O. Paxton shows that in order to understand fascism we must look at it in action - at what it did, as much as what it said it was about. He explores its falsehoods and common threads; the social and political base that allowed it to prosper; its leaders and internal struggles; how it manifested itself differently in each country - France, Britain, the low countries, Eastern Europe, even Latin America as well as Italy and Germany; how fascists viewed the Holocaust; and, finally, whether fascism is still possible in today's world. Offering a bold new interpretation of the fascist phenomenon, this groundbreaking book will overturn our understanding of twentieth-century history.
