Your Child's First Crush - What It Means and How To Talk About It Cynthia Malu 2012-03-04 ABOUT THE BOOK From the giggly four-year old who proclaims that he wants to marry his teacher to the pre-teen who gushes over the cute boy who sits next to her in class, your child's first crush is a new frontier, and its best to prepare yourself long before it happens. As a parent, you can take an active part in helping your child navigate his or her romantic feelings. To be a positive part of your child's first experience with puppy love, the most important thing you can do is help your child feel comfortable communicating with you. A crush is no more than an infatuation. Unlike a true romantic relationship, when two individuals acknowledge their deep feelings for one another, a crush is often a one-sided attraction. When children have a crush, they are not focused on loving the object of their affection as an entire person, flaws and all. Instead, they build up a fantasy of sorts in their minds, and spend time daydreaming about what it would be like to be together. EXCERPT FROM THE BOOK Try to find out how your child's crush is responding to him. Ask him if his crush talks to him at school. This will help you gauge the level of intensity and the direction things are headed. If his crush returns his feelings, he may be on the verge of a relationship. While you won't be able to change the eventual outcome of your son's crush, you can guide him as he navigates the unfamiliar waters of romantic feelings. The way you approach the subject will depend on your child's age. For a young child, be positive but truthful when you talk about the crush. Explain that it's normal to have strong feelings for people when you like their looks and behavior, but make sure your child knows that it's not necessary to act on those feelings. Guide him or her in making appropriate decisions. For instance, if your daughter wants to give a gift to a boy she likes on Valentine's Day, help her choose something that won't be overwhelming for either party. If the object of your young child's affection is an adult, don't be overly concerned. According to Dr. Laura Rucker, a pediatric physician, children often experience their first crush on a celebrity or an adult they find attractive. This behavior is normal, and as a child grows older, he or she will become interested in peers his or her own age... Buy a copy to keep reading! Crush Samuel E. Stone 2000-06-23 The author is a retired police sergeant with twenty five-years experience in all aspects of law enforcement. He has a story to tell which he believes the public will not only find interesting and entertaining, but equally educational, concerning the communities in which they live. His message is contained within the fictitious novels he writes. This is one such story. The story line of Crush centers around the Sarge, who in late 1988, was a sergeant with the local Sheriffs Office in the rural county of Kingston. He was assigned the task of setting up and overseeing an undercover sting operation. The Sarges supervisor directed him to locate a store front in the business community, where the officers assigned to work undercover could conceal their false identities under the premise of a legitimate business. The Sarge was allowed free reins to implement the undercover operation. He summoned the aid of his long time friend and Vietnam war buddy, Zeke. Zeke was an ex-cop, who was currently the aid to the local Congressman. The Sarge and Zeke decided to open a military surplus store as the undercover store front. Together with the assistance of the Congressman, they obtained an unlimited supply of military surplus and opened Wild Willies surplus store. The Sarge was assigned two police officers from his own department to work the operation and personally recruited four other officers, from different departments. All of the officers involved in the undercover endeavor were independent thinkers and veteran police officers. They each believed that they could make a difference in the war against drugs and were dedicated to that very cause. The irony of the situation was the actual fact that each one of them was addicted to a drug. They were all adrenalin junkies. They got off on a natural high of facing life and death situations. These people made the best undercover operatives, but also created a supervising nightmare for the Sarge. The squads mission was to infiltrate the drug community and purchase illegal drugs. Their goal was to develop criminal cases against the drug dealers from the street peddlers through the network up to the major suppliers. The plot thickened as the squad became accepted into the drug community. Personal relationships developed between the members of the squad and the drug dealers which provided complications to the operation. There is a weaving of interpersonal subplots which give the reader a better understanding of the human qualities and feelings of the characters. Action and conflict lurked in the shadows of each drug deal, as the realities of the drug world unfolded before the squads eyes. In the midst of their life and death struggles, the Sarge questioned his own superiors motives. He started to wonder if the Sheriff, himself, had his own hidden agenda, as he found himself at odds with his own boss. The Sheriff claimed the operation was too successful. The number of cases made against the drug dealers was such that it would significantly impact the courts. The Sheriff decided after only six months, the undercover operation which originally was scheduled to run for a years time, had to be closed down immediately. The Sarge argued unsuccessfully his reasons why the operation should have been allowed to continue. After realizing that they had no choice in the matter of closing down Wild Willies surplus store and ending the operation, the squad set up the final drug deals with the major players. The emphasis was on severely impacting the drug trade within the community. The squad was successful in their endeavors, but it was not without paying a costly price. The underlying theme of this story is the real life tribulation and trauma endured by police off

What's Love Got to Do With It Dr. John Chirban 2012-06-04 Having trouble talking to your kids about sex? Their friends at school don't...

Unfortunately, for many parents, the most important conversations are the hardest. Dr. Chirban helps parents know when, how, and how much. He uses humor, compassion, and real-life examples to prepare parents for a healthy and ongoing conversation that will equip their kids to own their own sexuality and an understanding of the larger issues of relationships, love, commitment, and intimacy. In addition, parents understand how helping their children understand these veiled yet critical keys of a fulfilling life deepens their own connection with their children.

Mean Streets Crush, Jonathan 2015-11-16 This book powerfully demonstrates that some of the most resourceful entrepreneurs in the South African informal economy are migrants and refugees. Yet far from being lauded, they take their life into their hands when they trade on South Africa's "mean streets". The book draws attention to what they bring to their adopted country through research into previously unexamined areas of migrant entrepreneurship. Ranging from studies of how migrants have created agglomeration economies in Jeppe and Ivory Park in Johannesburg, to guanxi networks of Chinese entrepreneurs, to competition and cooperation among Somali shop owners, to cross-border informal traders, to the informal transport operators between South Africa and Zimbabwe, the chapters in this book reveal the positive economic contributions of migrants. These include generating employment, paying rents, providing cheaper goods to poor consumers, and supporting formal sector wholesalers and retailers. As well, Mean Streets highlights the xenophobic responses to migrant and refugee entrepreneurs and the challenges they face in running a successful business on the streets.

The Crush Syndrome (and Lessons Learned from the Marmara Earthquake) Mehmet Şükrü Sever 2005 ARF induced by traumatic rhabdomyolysis and crush syndrome is a well-known complication occurring in the wake of natural or manmade disasters. As a matter of fact, it is the second most frequent cause of death, following the direct traumatic impact. Early recognition of the crush syndrome and rapid initiation of fluid replacement is essential as this can dramatically reduce the incidence of ARF. After the Marmara earthquake of 1999, the Turkish Society of Nephrology, in collaboration with the Renal Disaster Relief Task Force of the International Society of Nephrology, prepared special questionnaires to obtain patient data and follow-up information to analyze the extent of the nephrological problems. This book is based on the 639 cases consequently documented, constituting an unprecedented collection of first-hand experience on crush syndrome-related ARF following earthquakes. In addition to the data / analysis gained from the Marmara earthquake, each chapter also summarizes classical information on crush syndrome. In every major natural catastrophe, a rapid, appropriate and effective international response is essential to minimize losses and be able to adequately treat victims. This can be achieved only by rational planning and the establishment of an infrastructure composed of trained personnel, equipment, supplies and transportation that can be mobilized at a few hours' notice is essential. This book has been written with the intent to make use of the experiences made after the Marmara earthquake to save more lives in similar future disasters.
