Legacies of the Comfort Women of World War II -

Margaret D. Stetz 2015-02-12

The stories of the former comfort women have galvanized both Asian and non-Asian intellectuals working in a variety of fields. Scholars of Asian history and politics, feminists, human rights activists, documentary filmmakers, visual artists, and

novelists have begun to address the subject of the comfort system; to take up the cause of the surviving comfort women's struggles; to call attention to sexual violence against women, especially during wartime; to consider the links among militarism, racism, imperialism, and sexism; and to include this history into 20th-century political history. This

Comfort Women Sexual Slavery In The Japanese Military During World War II

volume contains a cross-section of responses to the issues raised by the former comfort women and their new visibility on the international stage. Its focus is on how theorists, historians, researchers, activists, and artists have been preserving, interpreting, and disseminating the legacies of the comfort women and also drawing lessons from these. The essays consider the impact and influence of the comfort women's stories on a wide variety of fields and describe how those stories are now being heard or read and used in Asian and in the West. *Korean "Comfort Women"* - Pyong Gap Min 2021-03-26 Arguably the most brutal crime committed by the Japanese military during the Asia-Pacific war was the forced mobilization of 50,000 to 200,000 Asian women to military brothels to sexually serve Japanese soldiers. The majority of these women died, unable to survive the ordeal. Those survivors who came back home kept silent about their brutal experiences for about

fifty years. In the late 1980s, the women's movement in South Korea helped start the redress movement for the victims, encouraging many survivors to come forward to tell what happened to them. With these testimonies, the redress movement gained strong support from the UN, the United States, and other Western countries. Korean "Comfort Women" synthesizes the previous major findings about Japanese military sexual slavery and legal recommendations, and provides new findings about the issues "comfort women" faced for an English-language audience. It also examines the transnational redress movement, revealing that the Japanese government has tried to conceal the crime of sexual slavery and to resolve the women's human rights issue with diplomacy and economic power.

Comfort Women Sexual Slavery In The Japanese Military

During World War II

This book examines the redress movement for the victims of Japanese military sexual slavery in South Korea, Japan, and the U.S. comprehensively. The Japanese military forcefully mobilized about 80,000-200,000 Asian women to Japanese military brothels and forced them into sexual slavery during the Asian-Pacific War (1932-1945). Korean "comfort women" are believed to have been the largest group because of Korea's colonial status. The redress movement for the victims started in South Korea in the late 1980s. The emergence of Korean "comfort women" to society to tell the truth beginning in 1991 and the discovery of Japanese historical documents, proving the responsibility of the Japanese military for establishing and operating military brothels by a Japanese historian in 1992 accelerated the redress movement for the victims. The movement has received strong support from UN human rights bodies, the U.S. and other Western countries. It has also greatly

contributed to raising people's consciousness of sexual violence against women at war. However, the Japanese government has not made a sincere apology and compensation to the victims to bring justice to the victims.

Denying the Comfort Women - Rumiko Nishino
2018-01-12

Planned, instituted and run by the Japanese Imperial Military during the Asia-Pacific War, the 'comfort women' system remains hugely controversial. Although political leaders often contest the role of coercion, many argue that the 'comfort women' were mobilized forcibly, through processes of abduction and deception. Utilising archival research, court testimonies and eyewitness accounts of both survivors and military and civilian personnel, this book argues its case in three ways. Part I analyses the modalities of coercion employed by the authorities and investigates the

During World War II

historical differences and ~~Contributing to the continuing~~ continuities between licensed peacetime prostitution and wartime sexual slavery. Part II then examines the failures of the Asian Women's Fund to resolve the 'comfort women' issue, whilst Part III explores the removal of 'comfort women' content from school history texts after the late 1990s and details Japan's diplomatic efforts to prevent war victims from using the post-war state. Presenting a strong argument in opposition to the revisionist school of thought, this book ultimately concludes that a realistic settlement would see a victim-oriented solution that the survivors can accept. Written by leading Japanese and zainichi Korean scholars, Denying the Comfort Women will be of huge interest to students and scholars of modern Japanese studies, gender studies, women's studies and Asian history.

Comfort Women Speak - Sangmie Choi Schellstede 2000

~~Contributing to the continuing~~ revelations, 19 women tell their stories of being forced into sexual service for Japanese soldiers during World War II. Also included are excerpts of United Nations reports and other recent commentary. The account begins the series Science and Human Rights. From *Comfort Woman*: "We began the day with breakfast, after which we swept and cleaned our rooms. Then we went to the bathroom downstairs to wash the only dress we had and to bathe. The bathroom did not even have a door, so the soldiers watched us. We were all naked, and they laughed at us, especially me and the other young girl who did not have any pubic hair. "At two, the soldiers came. My work began, and I lay down as one by one the soldiers raped me. Every day, anywhere from twelve to over twenty soldiers assaulted me. There were times when there

were as many as thirty, they came to the garrison in truckloads." "I lay on the bed with my knees up and my feet on the mat, as if I were giving birth. Whenever the soldiers did not feel satisfied, they vented their anger on me. Every day, there were incidents of violence and humiliation. When the soldiers raped me, I felt like a pig. Sometimes they tied up my right leg with a waist band or a belt and hung it on a nail in the wall as they violated me. "I shook all over. I felt my blood turn white. I heard that there was a group called the Task Force on Filipino Comfort Women looking for women like me. I could not forget the words that blared out of the radio that day: 'Don't be ashamed, being a sex slave is not your fault. It is the responsibility of the Japanese Imperial Army. Stand up and fight for your rights.'" In April 1943, fifteen-year-old Maria Rosa Henson was taken by Japanese soldiers occupying the Philippines and forced into prostitution as a "comfort woman." In this simply told yet

powerfully moving autobiography, Rosa recalls her childhood as the illegitimate daughter of a wealthy landowner, her work for Huk guerrillas, her wartime ordeal, and her marriage to a rebel leader who left her to raise their children alone. Her triumph against all odds is embodied by her decision to go public with the secret she had held close for fifty years. Now in a second edition with a new introduction and foreword that bring the ongoing controversy over the comfort women to the present, this powerful memoir will be essential reading for all those concerned with violence against women.

Comfort Women - Yoshiaki Yoshimi 2000

Available for the first time in English, this is the definitive account of the practice of sexual slavery the Japanese military perpetrated during World War II by the researcher principally responsible for exposing the Japanese government's responsibility for these atrocities. The large scale imprisonment and rape of

Comfort Women Sexual Slavery In The Japanese Military During World War II

thousands of women, who were euphemistically called "comfort women" by the Japanese military, first seized public attention in 1991 when three Korean women filed suit in a Toyko District Court stating that they had been forced into sexual servitude and demanding compensation. Since then the comfort stations and their significance have been the subject of ongoing debate and intense activism in Japan, much if it inspired by Yoshimi's investigations. How large a role did the military, and by extension the government, play in setting up and administering these camps? What type of compensation, if any, are the victimized women due? These issues figure prominently in the current Japanese focus on public memory and arguments about the teaching and writing of history and are central to efforts to transform Japanese ways of remembering the war. Yoshimi Yoshiaki provides a wealth of documentation and testimony to prove the existence of some 2,000

centers where as many as 200,000 Korean, Filipina, Taiwanese, Indonesian, Burmese, Dutch, Australian, and some Japanese women were restrained for months and forced to engage in sexual activity with Japanese military personnel. Many of the women were teenagers, some as young as fourteen. To date, the Japanese government has neither admitted responsibility for creating the comfort station system nor given compensation directly to former comfort women. This English edition updates the Japanese edition originally published in 1995 and includes introductions by both the author and the translator placing the story in context for American readers. *Non-Western Colonization, Orientalism, and the Comfort Women* - Ako Inuzuka 2021-06 *Non-Western Colonization, Orientalism, and the Comfort Women* examines the collective memory of sexual slavery under the Japanese Imperial Military, a topic euphemistically known as the "comfort women." Examining

various artifacts in Japan over the past decades, the author argues that Korean women were exoticized similarly to "Orientals" by Western Orientalists.

War Crimes on Asian Women - 1998

Chinese Comfort Women - Peipei Qiu 2014

From 1932 to 1945, the Japanese military forced hundreds of thousands of women across Asia into "comfort stations" where they were repeatedly raped and tortured. This volume features the personal narratives of twelve women who were kidnapped and forced into sexual slavery. In exposing previously hidden aspects of the system, it also exposes the full extent of the injustices suffered by these women, and the conditions that caused them.

The Comfort Women - George Hicks 1995-02-01

Over 100,000 women across Asia were victims of enforced prostitution by the Japanese Imperial Forces during World

War II. Until as recently as 1993 the Japanese government continued to deny this shameful aspect of its wartime history. In 1938 the Japanese Imperial Forces established a 'comfort station' in Shanghai. This was the first of many officially sanctioned brothels set up across Asia to service the needs of the Japanese forces. It was also the first comfort station where women, many in their early teens, were coaxed, tricked and forcibly recruited to act as prostitutes for the Japanese military. Using official documents and other original sources never before available, George Hicks tells how well-established and well-organised the comfort system was across the Japanese Empire, and how complete was its cover-up. He also traces the fight by Japanese and Korean feminist and liberal groups to expose the truth and tells of the complicity of the Japanese government in maintaining the lie. The Comfort Women is an account of a shameful aspect of Japanese racial and gender politics. The Comfort Women

Japan's Comfort Women - Yuki Tanaka 2003-08-29

Japan's Comfort Women tells the harrowing story of the "comfort women" who were forced to enter prostitution to serve the Japanese Imperial army, often living in appalling conditions of sexual slavery. Using a wide range of primary sources, the author for the first time links military controlled

prostitution with enforced prostitution. He uncovers new and controversial information about the role of the US' occupation forces in military controlled prostitution, as well as the subsequent "cover-up" of the existence of such a policy. This groundbreaking book asks why US occupation forces did little to help the women, and argues that military authorities organised prostitution to prevent the widespread incidence of GI rape of Japanese women, and to control the spread of sexually transmitted diseases.

The Comfort Women - C.

Sarah Soh 2020-05-15

In an era marked by atrocities perpetrated on a grand scale, the tragedy of the so-called comfort women—mostly Korean women forced into prostitution by the Japanese army—endures as one of the darkest events of World War II. These women have usually been labeled victims of a war crime, a simplistic view that makes it easy to pin blame on the policies of imperial Japan and therefore easier to consign

~~the episode to a war-torn past.~~

In this revelatory study, C. Sarah Soh provocatively disputes this master narrative. Soh reveals that the forces of Japanese colonialism and Korean patriarchy together shaped the fate of Korean comfort women—a double bind made strikingly apparent in the cases of women cast into sexual slavery after fleeing abuse at home. Other victims were press-ganged into prostitution, sometimes with the help of Korean procurers. Drawing on historical research and interviews with survivors, Soh tells the stories of these women from girlhood through their subjugation and beyond to their efforts to overcome the traumas of their past. Finally, Soh examines the array of factors— from South Korean nationalist politics to the aims of the international women's human rights movement—that have contributed to the incomplete view of the tragedy that still dominates today. What would it be like if your existence was erased for half a century? This is the reality for the Korean comfort girls-women whose lives had been erased since the time of the expansion of comfort stations by the Japanese military in 1937. This book is an effort to bring these women back to life and to make their voices, experiences and memories available to future generations. The experiences of Korean comfort girls-women are a paradigmatic example of how military sexual violence can obliterate the dignity of women and shame them into nonexistence. This book examines how the turning of their innocence into inadequacy, actively by the Japanese government and passively by the Korean government and its people, and also by the world, compounded their long, miserable suffering for half a century until Kim Hak-sun broke the silence in 1991 with the support of Korean activists. The relentless and courageous efforts of Korean comfort girls-women

and activists on the road to healing and justice are shared here. These efforts made it possible for us to hear their horrific stories, which are embedded with numerous and intense traumas, allowing them to unfold and be shared on the road to justice and healing.

Whose Comfort?: Body, Sexuality And Identity Of Korean 'Comfort Women' And Japanese Soldiers During Wwii - Yonson Ahn
2019-10-17

In recent years, international attention has been recurrently drawn to violence against civilians including sexual violence during war as a means of furthering military or political goals. The ongoing issue of comfort women has been debated not only among Asian countries including Japan, Korea, China, Indonesia, and the Philippines but also in numerous international forums. This book examines the system of military comfort women in Asia and the Pacific created and maintained by Japan during World War II. It uses the comfort women

Comfort Women Sexual Slavery In The Japanese Military During World War II

system as a lens for exploring the ways in which body, sexuality and identity are deployed in the creation of patriarchal relations, ethnic hierarchies, and colonial/nationalist power. This book analyzes the role and nature of the comfort women system as a mechanism of social control by the colonial state. This requires the

~~examining of sexuality and~~ body politics, the social background of the victims, wartime working conditions, and regulation of soldiers' sexuality. This book aims to contribute to both the academic community and the community of civic groups through a work that spans the dimensions of history, theory and activism.
