

Harmful To Minors The Perils Of Protecting Children From Sex

The Fear of Child Sexuality - Steven Angelides
2019-08-28

Continued public outcries over such issues as young models in sexually suggestive ads and intimate relationships between teachers and students speak to one of the most controversial fears of our time: the entanglement of children and sexuality. In this book, Steven Angelides confronts that fear, exploring how emotional vocabularies of anxiety, shame, and even contempt not only dominate discussions of youth sexuality but also allow adults to avoid acknowledging the sexual agency of young people. Introducing case studies and trends from Australia, the United Kingdom, and North America, he challenges assumptions on a variety of topics, including sex education, age-of-consent laws, and sexting. Angelides contends that an unwillingness to recognize children's sexual agency results not in the protection of young people but in their marginalization.

Caught in the Web of the Criminal Justice System - Lawrence A. Dubin, J.D. 2017-06-21

Increasing numbers of people with autism and other developmental disabilities are being convicted of sex offences, resulting in draconian and public punishment. Yet even when evidence shows that people with these conditions often pose little threat to society, or lack a core understanding as to why their actions break the law, the "sex offender legal regime" doesn't allow any room to take the disability into account. This ground-breaking book offers a multi-disciplinary examination of how unjust sex offense laws trap vulnerable groups such as those with developmental disabilities. Drawing on research, empirical evidence and including case studies, experts from the fields of law, ethics, psychology and sociology explore what steps should be taken in order to ensure that laws are just and take into consideration factors such as the vulnerability of the perpetrators. Investigating the consequences caused by public

hysteria over sex offenses, this book highlights the judicial failure to protect defendants with developmental disabilities in the context of the unjust and hyper-punishment of all those charged with sex offenses. Proposing a new way forward based on research and evidence-based sentencing for sex offenses, and elimination of the sex offender registry, this book offers an informed and compassionate view that is essential for all professionals working in this field.

Public Sex - Pat Califia 2000-07-01

The most intelligent and outspoken commentator on sexual politics writing today, Pat Califia has been "fuming and fussing" about censorship and the rights of perverts for more than two decades. Whether writing about gender bending and transsexuality, lesbian relationships, S/M and leather sex, sex between lesbians and gay men, eroticizing latex and safer sex, prostitution, or sex in public, Califia's essays—clear consistent, provocative and eminently readable—set the standard for writing about sex.

The Feminist and the Sex Offender - Judith Levine 2020-04-23

In the era of #MeToo and mass incarceration, *The Feminist and the Sex Offender* makes a powerful feminist case for accountability without punishment and sexual safety and pleasure without injustice. With analytical clarity and narrative force, *The Feminist and the Sex Offender* contends with two problems that are typically siloed in the era of #MeToo and mass incarceration: sexual and gender violence, on the one hand, and the state's unjust, ineffective, and soul-destroying response to it on the other. Is it possible to confront the culture of abuse? Is it possible to hold harm-doers accountable without recourse to a criminal justice system that redoubles injuries, fails survivors, and retrenches the conditions that made such abuse possible? Drawing on interviews, extensive research, reportage, and history, *The Feminist*

and the Sex Offender develops an intersectional feminist approach to ending sexual violence. It maps with considerable detail the unjust sex offender regime while highlighting the alternatives we urgently need.

Do You Remember Me? - Judith Levine
2010-05-11

In her award-winning book *Harmful to Minors*, Judith Levine radically upended our fixed ideas about childhood. Now, she tackles the other end of life in this poignant memoir of a daughter coming to terms with a difficult father who is sinking into dementia, presenting an insightful exploration of the ways we think about disability, aging, and the self as it resides in the body and the world. In prose that is unsentimental yet moving, serious yet darkly funny, complex in emotion and ideas yet spare in diction, Levine reassembles her father's personal and professional history even as he is losing track of it. She unpeels the layers of his complicated personality and uncovers information that surprises even her mother, to whom her father has been married for more than sixty years. As her father deteriorates, the family consensus about who he was and is and how best to care for him constantly threatens to collapse. Levine recounts the painful discussions, mad outbursts, and gingerly negotiations, and dissects the shifting alliances among family, friends, and a changing guard of hired caretakers. Spending more and more time with her father, she confronts a relationship that has long felt bereft of love. By caring for his needs, she learns to care about and, slowly, to love him. While Levine chronicles these developments, she looks outside her family for the sources of their perceptions and expectations, deftly weaving politics, science, history, and philosophy into their personal story. A memoir opens up to become a critique of our culture's attitudes toward the elderly. A claustrophobic account of Alzheimer's is transformed into a complex lesson about love, duty, and community. What creates a self and keeps it whole? Levine insists that only the collaboration of others can safeguard her father's self against the riddling of his brain. Embracing interdependence and vulnerability, not autonomy and productivity, as the seminal elements of our humanity, Levine challenges herself and her readers to find new meaning,

even hope, in one man's mortality and our own.

Sex Panic and the Punitive State - Roger N. Lancaster
2011-03-15

One evening, while watching the news, Roger N. Lancaster was startled by a report that a friend, a gay male school teacher, had been arrested for a sexually based crime. The resulting hysteria threatened to ruin the life of an innocent man. In this passionate and provocative book, Lancaster blends astute analysis, robust polemic, ethnography, and personal narrative to delve into the complicated relationship between sexuality and punishment in our society.

Drawing on classical social science, critical legal studies, and queer theory, he tracks the rise of a modern suburban culture of fear and develops new insights into the punitive logic that has put down deep roots in everyday American life.

Not Buying It - Judith Levine
2007-02-27

A journalist traces a year during which she and her partner struggled to stop consumer spending practices in spite of their American conditioning, an effort that had an impact on their careers, family relationships, and personal identities.

Sex And Sensibility - Deborah Roffman
2001-12-20

With a rare directness and clarity about sex and reproduction, sexual values, and cultural influences on sexuality, Deborah Roffman challenges and teaches readers how to develop a blueprint for opening the lines of communication with children of all ages. *Sex and Sensibility* introduces the five core parenting skills that parents need to confidently interpret and comfortably respond to virtually any question a child might pose or any situation that arises. Powerfully instructive and thought provoking, it should be required reading for parents; it will inspire honest talk about sex and sexuality, helping all of us be better parents for the effort.

Social Dynamics of Adolescent Fertility in Sub-Saharan Africa - National Research Council
1993-02-01

This examination of changes in adolescent fertility emphasizes the changing social context within which adolescent childbearing takes place.

The Allure of Nymphets - Mo Ibrahim
2017-05-09

Did you know that 44-year-old Frank Sinatra had

an affair with 14-year-old Tuesday Weld? And that Elvis started dating Priscilla when she was 14? The Allure of Nymphets chronicles famous and infamous age-discrepant relationships from Emperor Augustus to Woody Allen and man's fascination with very young women (i.e., nymphets) as shown in literature, films, plays, television, music and the advertising industry.

Perils of Protection - Susan Honeyman

2018-12-18

Unrecognized in the United States and resisted in many wealthy, industrialized nations, children's rights to participation and self-determination are easily disregarded in the name of protection. In literature, the needs of children are often obscured by protectionist narratives, which redirect attention to parents by mythologizing the supposed innocence, victimization, and vulnerability of children rather than potential agency. In *Perils of Protection: Shipwrecks, Orphans, and Children's Rights*, author Susan Honeyman traces how the best of intentions to protect children can nonetheless hurt them when leaving them unprepared to act on their own behalf.

Honeyman utilizes literary parallels and discursive analysis to highlight the unchecked protectionism that has left minors increasingly isolated in dwindling social units and vulnerable to multiple injustices made possible by eroded or unrecognized participatory rights. Each chapter centers on a perilous pattern in a different context: "women and children first" rescue hierarchies, geographic restriction, abandonment, censorship, and illness. Analysis from adventures real and fictionalized will offer the reader high jinx and heroism at sea, the rush of risk, finding new families, resisting censorship through discovering shared political identity, and breaking the pretenses of sentimentality.

Harmful to Minors - Judith Levine 2003

Explores the highly sensitive issue of children and sex, offers advice on separating harmful from safe information about sex, and offers parents a guide to presenting the topic to their children.

Pedophilia and Adult-Child Sex - Stephen Kershner 2015-05-20

This book provides a philosophical analysis of adult-child sex and pedophilia. This sex intuitively strikes many people as sick,

disgusting, and wrong. The problem is that it is not clear whether these judgments are justified and whether they are aesthetic or moral. By analogy, many people find it disgusting to view images of obese people having sex, but it is hard to see what is morally undesirable about such sex: here the judgment is aesthetic. This book looks at the moral status of such adult-child sex. In particular, it explores whether those who engage in adult-child sex have a disease, act wrongly, or are vicious. In addition, it looks at how the law should respond to such sex given the above analyses.

A Long, Dark Shadow - Allyn Walker 2021-06-22

Challenging widespread assumptions that persons who are preferentially attracted to minors—often referred to as "pedophiles"—are necessarily also predators and sex offenders, this book takes readers into the lives of non-offending minor-attracted persons (MAPs). There is little research into non-offending MAPs, a group whose experiences offer valuable insights into the prevention of child abuse. Navigating guilt, shame, and fear, this universally maligned group demonstrates remarkable resilience and commitment to living without offending and to supporting and educating others. Using data from interview-based research, *A Long, Dark Shadow* offers a crucial account of the lived experiences of this hidden population.

Curiouser - Steven Bruhm 2004

Our culture has a dominant narrative about children: they are (and should stay) innocent of sexual desires and intentions. At the same time, children are officially, tacitly, assumed to be heterosexual. *Curiouser* is a book about this narrative and what happens when it takes an unexpected, or queer, turn—when the stories of childhood must confront a child whose play does not conform to the ideal of child (a)sexuality. The contributors to *Curiouser* examine the ostensibly simple representations of children that circulate through visual images, life narrative, children's literature, film, and novels. At issue in these essays are the stories we tell to children, the stories we tell about children, and the stories we tell ourselves as children-stories that ultimately frame what is normative and what is queer. From the fiction of Horatio Alger, Henry James, Djuna Barnes, and Guy Davenport to the

spectacles of Michael Jackson, Calvin Klein, and The Exorcist; from the narrative structure of pedophilia to evangelical Christianity; from punk tomboyism to queer girl-scouting: these scholars of childhood and sexuality scrutinize queer childhood energies in an impressive range of cultural forms. Steven Bruhm is associate professor of English at Mount St. Vincent University. He is the author of *Reflecting Narcissus: A Queer Aesthetic* (Minnesota, 2000) and *Gothic Bodies: The Politics of Pain in Romantic Fiction* (1994). Natasha Hurley has taught children's literature and queer theory at Mount St. Vincent University and St. Mary's University in Halifax.

The War on Sex - David M. Halperin
2017-03-03

The past fifty years are conventionally understood to have witnessed an uninterrupted expansion of sexual rights and liberties in the United States. This state-of-the-art collection tells a different story: while progress has been made in marriage equality, reproductive rights, access to birth control, and other areas, government and civil society are waging a war on stigmatized sex by means of law, surveillance, and social control. The contributors document the history and operation of sex offender registries and the criminalization of HIV, as well as highly punitive measures against sex work that do more to harm women than to combat human trafficking. They reveal that sex crimes are punished more harshly than other crimes, while new legal and administrative regulations drastically restrict who is permitted to have sex. By examining how the ever-intensifying war on sex affects both privileged and marginalized communities, the essays collected here show why sexual liberation is indispensable to social justice and human rights. The Trauma Myth - Susan A Clancy 2009-12-15
Drawing on the latest research on memory and traumatic experience, Susan Clancy, an expert in experimental psychopathology, demonstrates that children describe abuse and molestation encounters in ways that don't fit the conventional trauma model. In fact, the most common feeling reported is not fear but confusion. Clancy calls for an honest look at sexual abuse and its aftermath, and argues that the reactions of society and the healing professions -- however well meaning -- actually shackle the victims of abuse in chains of guilt, secrecy, and shame. Pathbreaking and controversial, *The Trauma Myth* radically reshapes our understanding of sexual abuse and its consequences.

Erotic Innocence - James Russell Kincaid 1998
Explores the current preoccupation with child molesting and children's sexuality and the ways that this degree of fascination is itself suspect.

Sex and Harm in the Age of Consent - Joseph J. Fischel 2016-05-15

Sex and Harm in the Age of Consent cautions against the adoption of consent as our primary determinant of sexual freedom. For Joseph J. Fischel, consent is not necessarily always ethically sound. It is, he argues, a moralized fiction, and it churns out figures for its normativity: the predatory sex offender and the innocent child. Examining the representation of consent in U.S. law and media culture, Fischel contends that the figures of the sex offender and the child are consent's alibi, its negative space, enabling fictions that allow consent to do the work cut out for it under late modern sexual politics. Engaging legal, queer, feminist, and political theory, case law and statutory law, and media representations, Fischel proposes that we change our adjudicative terms from innocence, consent, and predation to vulnerability, sexual autonomy, and "peremption," which he defines as the uncontrolled disqualification of possibility.

Such a shift in theory, law, and life would be less damaging for young people, more responsive to sexual violence, and better for sex.

Ambivalent Childhoods - Jacob Breslow

2021-07-20

Explores childhood in relation to blackness, transfeminism, queerness, and deportability to interrogate what “the child” makes possible. The concept of childhood contains many contested and ambivalent meanings that have extraordinary implications, particularly for those staking their claim for belonging and justice on the wish for inclusion within it. In *Ambivalent Childhoods*, Jacob Breslow examines contemporary U.S. social justice movements (including Black Lives Matter, transfeminism, queer youth activism, and antideportation movements) to discover and reveal how childhood operates within and against them. *Ambivalent Childhoods* brings together critical

race, trans, feminist, queer, critical migration, and psychoanalytic theories to explore the role of childhood in shaping and challenging the disposability of young black life, the steadfastness of the gender binary, the queer life of children’s desires, and the precarious status of migrants. Through an engagement with “the psychic life of the child” that combines theoretical discussions of childhood, blackness, transfeminism, and deportability with critical readings of films, narrative, images, and social justice movements, Breslow demonstrates how childhood requires sustained attention as a complex and ambivalent site for contesting the workings of power, not only for the young. *Ambivalent Childhoods* is a forward-thinking and intersectional analysis of how childhood affects activism, national belonging, and the violence directed against queer, trans, and racialized people.
