### **Herman Heijermans and His Dramas -**

Seymour L. Flaxman 2012-12-06

During the last two decades of the nineteenth century the Dutch drama, which had lapsed into a state of somnolence since the glorious days of Vondel, suddenly awoke to vigorous life. Not only did gifted dramatists appear, but talented directors, actors, and actresses brought new splendor to the theatre. Yet this brilliant flame did not burst forth in a vacuum, and to appreciate the quality of its light, it must be viewed against the background of its origins in the European drama. After the middle of the century the emphasis in literary creation had shifted

from a subjective, emotional point of view to a more objective and rationalistic attitude. If this seems only a roundabout way of saying that Romanticism yielded its dominance to Realism and Naturalism, the conclusion is justified, but we should not yield too readily to the pseudo-scientific mania which urges us to force literature into a genus and species type of classification. It is customary to say that in the eighties and nineties, Naturalism won a decisive victory over Romanticism and drove the partisans of the older movement from the field. At first glance this does, indeed, appear to be true. Hugo yields to Zola, Pushkin to Tolstoy, Tieck to Hauptmann. It is all quite simple.

Rumor has it Brannigan hates playing by the rules and has used up all his strikes with the NYPD vice squad. So now this cop's paying his dues with a temporary assignment as babysitter. a brief foreword will suffice to explain the scope of the following pages. As will be apparent at a glance, the selections are all from modern, and largely from living poets; the dominant chord is lyrical; and in the general unisance the minor prevails over the major key. No excuse seems called for in presenting a new anthology; for, given the same theme, each compiler must of necessity present a different score, subject to individual taste and preferences. "To apologize for a new anthology is but one degree less sensible than to prepare it," pertinently remarks the editor of *Ballades and Rondeaux*. Such were but another case of *qui s'excuse, s'accuse*. It may be observed, nevertheless, that the path of the compiler is far from being strewn with flowers. Indeed, it has been truly said that *Æsop's* old man and boy with the donkey had not a harder task than the maker of selections and collections of verses. Of recent years a number of excellent anthologies have been published on a similar theme. But these deal mainly with the

rhythmic fancies of the elder bards, or in fewer instances, combine the older and the younger schools. In the present instance the editor has been guided solely by his own taste or predilections, having had no recourse to other collections, beyond that of avoiding excerpts too oft repeated; the aim being so far as possible to include such examples of merit as are not generally familiar to the average lover of poetry. Whether these be by well-known authors, or by those who are little known, has not entered into consideration, the prime object being to present as intrinsically meritorious a collection, by both British and American modern lyrists, as is possible within the limits of the space at command. The writer is not aware of a similar compilation having been previously attempted, there being few who would care to brave the "omissions" that must naturally be thrust at one's door, more especially in the case of an abstract from the works of living writers. Yet while fault may be found, perchance, on the

score of selection both by those who may be excluded, as well as by those who are included, the editor of an anthology should at least be thanked for placing many selections before the reader that in the ordinary course of things he would miss,—either through lack of time, or the inability to possess or consult the multitudinous volumes he would be called upon to peruse.

Melville by Virginia Woolf The Biography Herman Melville: Man, Mariner and Mystic by Raymond Weaver *Herman Melville's Malcolm Letter* - Hennig Cohen 1992

The Malcolm Letter was written by Melville in 1849 on the birth of his son. This letter is one of thirty-six to be retrieved since the publication of *The Letters of Herman Melville* (1960) and has earned a place in the New York Public Library's Gansevoort-Lansing Collection. Addressed to Melville's brother, the letter entices critics to read it on several levels. It reveals Melville's serious consideration of his own father's influence on his upbringing as he anticipates undertaking the role of father himself. It is not a literary work, but a deeply personal outpouring distinguished by dark underpinnings barely hidden by his light-hearted tone. In a bit of dramatic irony, Melville reflects on the responsibility looming ahead of him as the reader notes the tragedy that Melville cannot

possibly foresee - his son Malcolm's suicide eighteen years later. Cohen's and Yannella's careful study relives for the reader this and other events which shaped the clannish Melville family history. They also show how the author's struggle with these pressures are manifested in his writing. This volume is published in cooperation with the New York Public Library.
