Water, Electricity, and the Poor - Kristin Komives 2005

This book reviews the prevalence and variants of consumer subsidies found in the developing world and the effectiveness of these subsidies for the poor. It places consumer subsidies in a broader social protection framework and compares them with poverty-focused programmes in other sectors using a common metric. It concludes that the most common subsidy instruments perform poorly in comparison with most other transfer mechanisms. Alternative consumption and connection subsidy mechanisms show more promise, especially when combined with complementary non-price approaches to making utility services accessible and affordable to poor households. The many factors contributing to those outcomes are dissected, identifying those that can be controlled and used to improve performance.

Art and Agency - Alfred Gell 1998

In *Art and Agency*, Alfred Gell formulates an anthropological theory of visual art that focuses on the social context of art production, circulation, and reception. As a theory of the nexus of social relations involving works of art, this work suggests that in certain contexts, art-objects substitute for persons and thus mediate social agency. Diversely illustrated--and based on European, Polynesian, Melanesian, and Australian sources--*Art and Agency* was completed just before Gell's death at the age of fifty-one in January 1997. It embodies the intellectual bravura, lively wit, vigor, and erudition for which he was admired, and will stand as an enduring testament to one of the most gifted anthropologists of his generation.

Advanced Calculus - Lynn Harold Loomis 2014-02-26

An authorised reissue of the long out of print classic textbook, *Advanced Calculus* by the late Dr Lynn Loomis and Dr Shlomo Sternberg both of Harvard University has been a revered but hard to find textbook for the advanced calculus course for decades. This book is based on an

honors course in advanced calculus that the authors gave in the 1960's. The foundational material, presented in the unstarred sections of Chapters 1 through 11, was normally covered, but different applications of this basic material were stressed from year to year, and the book therefore contains more material than was covered in any one year. It can accordingly be used (with omissions) as a text for a year's course in advanced calculus, or as a text for a three-semester introduction to analysis. The prerequisites are a good grounding in the calculus of one variable from a mathematically rigorous point of view, together with some acquaintance with linear algebra. The reader should be familiar with limit and continuity type arguments and have a certain amount of mathematical sophistication. As possible introductory texts, we mention Differential and Integral Calculus by R Courant, Calculus by T Apostol, Calculus by M Spivak, and Pure Mathematics by G Hardy. The reader should also have some experience with partial derivatives. In overall plan the book divides roughly into a first half which develops the calculus (principally the differential calculus) in the setting of normed vector spaces, and a second half which deals with the calculus of differentiable manifolds.

Memoirs of My Services in the World War, 1917-1918 - George Catlett Marshall 1976
George C. Marshall was an American military leader, Chief of Staff of the Army, Secretary of State, and the third Secretary of Defense. Once noted as the "organizer of victory" by Winston Churchill for his leadership of the Allied victory in World War II, Marshall served as the United States Army Chief of Staff during the war and as the chief military adviser to President Franklin D. Roosevelt. As Secretary of State, his name was given to the Marshall Plan, for which he was awarded the Nobel Peace Prize in 1953. He drafted this manuscript while he was in Washington, D.C., between 1919 and 1924 as aide-de-camp to General of the Armies John J. Pershing. However, given the growing bitterness of the "memoirs wars" of the period he decided against publication, and the draft sat unused until the 1970s when Marshall's step-daughter

and her husband decided to publish it.

Naming A Love - AuthorHouse 2014-04-02

I read this Journal against the background of a visit that I had with Ben just before his transfer to the church eternal. After some pleasant conversation, we shuffled out of the house and climbed into a golf cart. As Ben shuttled us around his beloved farm, he shared story after story about the land and the mortals who had populated the environs in and around Adams, Tennessee. He was doing something that is not easy for many of us to do. He was verbally and visually taking me back to his roots. As we carted around the farm, he was introducing me to a whole web of his roots: historical, natural, cultural, spiritual, land, history, nature, family, community, and church. His relationship to his roots was dearer to him than I had imagined. This Journal takes the reader into the well lived life of a husband, father, grandfather, pastor and friend. As you turn the pages you will get a glimpse into how the Reverend Dr. Ben Alford reflected on life from the vantage point of faith ? roots and all. Bishop Joseph E. Pennel, Jr. United Methodist Church Martin
