We Are Coming Home Gerald T. Conaty 2015-03-01 In 1990, Gerald Conaty was hired as senior curator of ethnology at the Glenbow Museum, with the particular mandate of improving the museum's relationship with Aboriginal communities. That same year, the Glenbow had taken its first tentative steps toward repatriation by returning sacred objects to First Nations' peoples. These efforts drew harsh criticism from members of the provincial government. Was it not the museum's primary legal, ethical, and fiduciary responsibility to ensure the physical preservation of its collections? Would the return of a sacred bundle to ceremonial use not alter and diminish its historical worth and its value to the larger society? Undaunted by such criticism, Conaty oversaw the return of more than fifty medicine bundles to Blackfoot and Cree communities between the years of 1990 and 2000, at which time the First Nations Sacred Ceremonial Objects Repatriation Act (FNSCOR) — still the only repatriation legislation in Canada — was passed. "Repatriation," he wrote, "is a vital component in the creation of an equitable, diverse, and respectful society." *We Are Coming Home* is the story of the highly complex process of repatriation as described by those intimately involved in the work, notably the Piikani, Siksika, and Kainai elders who provided essential oversight and guidance. We also hear from the Glenbow Museum's president and CEO at the time and from an archaeologist then employed at the Provincial Museum of Alberta who provides an insider's view of the drafting of FNSCOR. These accounts are framed by Conaty's reflections on the impact of museums on First Nations, on the history and culture of the Niitsitapi, or Blackfoot, and on the path forward. With Conaty's passing in August of 2013, this

book is also a tribute to his enduring relationships with the Blackfoot, to his rich and exemplary career, and to his commitment to innovation and mindful museum practice.

The Humble Church Martyn Percy 2021-03-31 In this bold and provocative invitation, Martyn Percy imagines what the post-pandemic Church might look like and sets out what it needs to learn. It argues that the Church needs to stop obsessing about itself - its size, its strategies to shore up decline, its waning public influence - and rediscover how to live as the body of Christ. In other words, what does it need to do in order to become more like Christ? As Christ poured out his life for the sake of others, he considers ways in which the Church might imitate Christ in practice today. Whenever Jesus visited anywhere beyond the confines of the Jewish community he immediately became socially useful, and so this extols such virtues as humble service in the community, not because it is an effective way to grow the Church, but because it is faithful to Christ's own example. Avoiding responses such as exasperation, righteous anger at shortcomings or wishful thinking about returning to the past, he sets out a vision for the Church's future that is both biblical and christological. Incisive, imaginative and engagingly written, this will resonate deeply with many lay and ordained members of the Church.

All About Love bell hooks 2018-01-30 A New York Times bestseller and enduring classic, All About Love is the acclaimed first volume in feminist icon bell hooks' "Love Song to the Nation" trilogy. All About Love reveals what causes a polarized society, and how to heal the divisions that cause suffering. Here is the

truth about love, and inspiration to help us instill caring, compassion, and strength in our homes, schools, and workplaces. "The word 'love' is most often defined as a noun, yet we would all love better if we used it as a verb," writes bell hooks as she comes out fighting and on fire in *All About Love*. Here, at her most provocative and intensely personal, renowned scholar, cultural critic and feminist bell hooks offers a proactive new ethic for a society bereft with lovelessness--not the lack of romance, but the lack of care, compassion, and unity. People are divided, she declares, by society's failure to provide a model for learning to love. As bell hooks uses her incisive mind to explore the question "What is love?" her answers strike at both the mind and heart. Razing the cultural paradigm that the ideal love is infused with sex and desire, she provides a new path to love that is sacred, redemptive, and healing for individuals and for a nation. The *Utne Reader* declared bell hooks one of the "100 Visionaries Who Can Change Your Life." *All About Love* is a powerful, timely affirmation of just how profoundly her revelations can change hearts and minds for the better.

Beyond the Living Dead Bruce Peabody 2021-08-31 In 1968, George Romero's film *Night of the Living Dead* premiered, launching a growing preoccupation with zombies within mass and literary fiction, film, television, and video games. Romero's creativity and enduring influence make him a worthy object of inquiry in his own right, and his long career helps us take stock of the shifting interest in zombies since the 1960s. Examining his work promotes a better understanding of the current state of the zombie and where it is going amidst the political and social turmoil of the twenty-first century. These new essays document, interpret, and explain the meaning of the still-budding Romero legacy, drawing cross-disciplinary perspectives from such fields as literature, political science, philosophy, and comparative film studies. Essays consider some of the sources of Romero's inspiration (including comics, science fiction, and Westerns),

chart his influence as a storyteller and a social critic, and consider the legacy he leaves for viewers, artists, and those studying the living dead.

Rewire Your Brain John B. Arden 2010-03-22 How to rewire your brain to improve virtually every aspect of your life-based on the latest research in neuroscience and psychology on neuroplasticity and evidence-based practices Not long ago, it was thought that the brain you were born with was the brain you

would die with, and that the brain cells you had at birth were the most you would ever possess. Your brain was thought to be “hardwired” to function in predetermined ways. It turns out that's not true. Your brain is not hardwired, it's "softwired" by experience. This book shows you how you can rewire parts of the brain to feel more positive about your life, remain calm during stressful times, and improve your social relationships. Written by a leader in the field of Brain-Based Therapy, it teaches you how to activate the parts of your brain that have been underactivated and calm down those areas that have been hyperactivated so that you feel positive about your life and remain calm during stressful times. You will also learn to improve your memory, boost your mood, have better relationships, and get a good night sleep. Reveals how cutting-edge developments in neuroscience, and evidence-based practices can be used to improve your everyday life Other titles by Dr. Arden include: Brain-Based Therapy-Adult, Brain-Based Therapy-Child, Improving Your Memory For Dummies and Heal Your Anxiety Workbook Dr. Arden is a leader in integrating the new developments in neuroscience with psychotherapy and Director of Training in Mental Health for Kaiser Permanente for the Northern California Region Explaining exciting new developments in neuroscience and their applications to daily living, Rewire Your Brain will guide you through the process of changing your brain so you can change your life and be free of self-imposed limitations.

Ecological Footprints Dawn M. Nothwehr 2012-11-01 The Franciscan Vision offers a powerful antidote to the moral malaise that prevents ordinary Christians from making the necessary choices to live more simply and share the world's goods more equitably. This is the driving conviction behind Ecological Footprints. Dawn M. Nothwehr unfolds the theological, spiritual, and ethical treasure trove of Christianity—especially as it has been

developed and lived in Franciscan theology and tradition—as it relates to our efforts to achieve sustainable living. She succeeds admirably in presenting it all in a style that makes this book both accessible and compelling to no specialist readers.

The Emotionally Abusive Relationship Beverly Engel 2003-08-13

"Engel doesn't just describe—she shows us the way out." -Susan Forward, author of *Emotional Blackmail* Praise for the emotionally abusive relationship "In this book, Beverly Engel clearly and with caring offers step-by-step strategies to stop emotional abuse. . . helping both victims and abusers to identify the patterns of this painful and traumatic type of abuse. This book is a guide both for individuals and for couples stuck in the tragic patterns of emotional abuse." -Marti Loring, Ph.D., author of *Emotional Abuse* and coeditor of *The Journal of Emotional Abuse* "This groundbreaking book succeeds in helping people stop emotional abuse by focusing on both the abuser and the abused and showing each party what emotional abuse is, how it affects the relationship, and how to stop it. Its unique focus on the dynamic relationship makes it more likely that each person will grasp the tools for change and really use them." -Randi Kreger, author of *The Stop Walking on Eggshells Workbook* and owner of *BPDcentral.com* The number of people who become involved with partners who abuse them emotionally and/or who are emotionally abusive themselves is phenomenal, and yet emotional abuse is the least understood form of abuse. In this breakthrough book, Beverly Engel, one of the world's leading experts on the subject, shows us what it is and what to do about it. Whether you suspect you are being emotionally abused, fear that you might be emotionally abusing your partner, or think that both you and your partner are emotionally abusing each other, this book is for you. *The Emotionally Abusive Relationship* will tell you how to identify

emotional abuse and how to find the roots of your behavior. Combining dramatic personal stories with action steps to heal, Engel provides prescriptive strategies that will allow you and your partner to work together to stop bringing out the worst in each other and stop the abuse. By teaching those who are being emotionally abused how to help themselves and those who are being emotionally abusive how to stop abusing, *The Emotionally Abusive Relationship* offers the expert guidance and support you need.

Emotional Wisdom Mantak Chia 2011-02-09 A groundbreaking book, *Emotional Wisdom* reveals powerful ancient tools for transforming our painful emotions into happiness and health. So-called negative emotions are valuable messages that let us know we are out of balance. With compassion and humor, Taoist authors Mantak Chia and Dena Saxer explain the messages that anger, depression, fear, worry, and stress offer us. They present three easy-to-learn twenty-minute internal energy practices, with helpful illustrations, to turn these imbalances into harmony and joy. They provide unusual nutritional advice for emotional healing and a Taoist First Aid section with proven natural remedies for minor ailments such as insomnia, indigestion, headaches, and overeating. Relevant quotes from the *Tao Te Ching* add inspiration to this practical, life-changing book.

On Loss and Losing Melvyn L. Fein 2011-12-31 All people suffer instances of personal loss that cause distress. All too often, their discomfort is treated as a medical issue requiring treatment—usually through medication. Melvyn L. Fein argues for

a broader understanding of loss and losing that offers another approach, which he characterizes as “resocialization.” Indeed, how a person thinks, feels, and acts may all need to be reorganized if personal distress is to be overcome. Fein urges that we distinguish between the loss of something we once possessed and losing something that never came to fruition. Thus, it is possible never to achieve vital social roles, social statuses, and/or personal bonds, despite our individual efforts. While some of these losses are not necessarily problematic, others are extremely painful. Unfortunately, rather than investigate the source of this discomfort, distraught individuals frequently seek refuge in simplistic solutions. As a consequence, one of the reasons the medical model remains dominant is that the alternative is imperfectly understood. Fein presents a compelling case for a sociological interpretation of personal distress. Although he acknowledges that some personal suffering derives from biological sources, and that mental illnesses can spill over to cause social dysfunctions, he argues that it is important to recognize the social causes of human suffering. In thereby recognizing the limitations of the human condition, most of us can do better than blindly accept an inherited dedication to the medical model. *On Loss and Losing* offers a legitimate option without denying the reality of human suffering.

Parenting Matters National Academies of Sciences, Engineering, and Medicine 2016-12-21 Decades of research have demonstrated that the parent-child dyad and the environment of the

family"which includes all primary caregivers"are at the foundation of children's well- being and healthy development. From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. Parenting Matters identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research,

and practice in the United States.

Adlerian Psychotherapy Ursula E. Oberst 2014-01-02 Adlerian Psychotherapy gives an account of Adlerian therapy and counselling from its origins to the present day, and proposes an advanced version of the theory. The main principles and concepts of Adler's thinking are re-examined from a contemporary perspective, placing them in the context of other contemporary approaches. Adler's techniques are described then applied to an understanding of what an Adlerian approach to family life would look like, using clinical examples throughout. The authors analyse the possible contribution of Adlerian theory in the context of the challenges of postmodern thought and postmodern society. It will be invaluable to professionals, practitioners and students of counselling and psychotherapy.

Changing Church Jann Aldredge-Clanton 2011-11-01 Through the fascinating stories of pioneering ministers, this book reveals a unique picture of progressive changes occurring in the Christian tradition. Meeting challenges and overcoming obstacles, these twelve diverse ministers are changing the church as they take prophetic stands on gender, race, interfaith cooperation, ecology, sexual orientation, economic opportunity, and other social justice issues. Believing in the power of sacred symbolism to shape social reality and to provide a foundation for justice and freedom for all people, these ministers lead worship with inclusive language and imagery for humanity and divinity. They include multicultural female and male images of the Divine. Their stories affirm the connection between this expansive theology and an ethic of justice and equality in human relationships. In working from within to change the church, these ministers have risked censure by denominational authorities, loss of opportunities for promotion to larger congregations or to prestigious denominational positions, and even loss of their jobs. They have found creative ways to balance advocating for change and working to support the church, using their positions as ordained clergy to bring liberating change to the church and the wider culture.

Making Eye Health a Population Health Imperative National Academies of Sciences, Engineering, and Medicine 2017-01-15
The ability to see deeply affects how human beings perceive and interpret the world around them. For most people, eyesight is part of everyday communication, social activities, educational and professional pursuits, the care of others, and the maintenance of personal health, independence, and mobility. Functioning eyes and vision system can reduce an adult's risk of chronic health conditions, death, falls and injuries, social isolation, depression, and other psychological problems. In children, properly maintained eye and vision health contributes to a child's social development, academic achievement, and better health across the lifespan. The public generally recognizes its reliance on sight and fears its loss, but emphasis on eye and vision health, in general, has not been integrated into daily life to the same extent as other health promotion activities, such as teeth brushing; hand washing; physical and mental exercise; and various injury prevention behaviors. A larger population health approach is needed to engage a wide range of stakeholders in coordinated efforts that can sustain the scope of behavior change. The shaping of socioeconomic environments can eventually lead to new social norms that promote eye and vision health. Making Eye Health a Population Health Imperative: Vision for Tomorrow proposes a new population-centered framework to guide action and coordination among various, and sometimes competing, stakeholders in pursuit of improved eye and vision health and health equity in the United States. Building on the momentum of previous public health efforts, this report also introduces a model

for action that highlights different levels of prevention activities across a range of stakeholders and provides specific examples of how population health strategies can be translated into cohesive areas for action at federal, state, and local levels.
