Land's End - Edwin Paul 2020-11-20

Middle-aged Troy Banalia is a burned-out lawyer from South Jersey who vacations in Baja California where he is entertained by the professional women of Tijuana. The wares of many ladies of the night are sampled by him until he meets the blonde bombshell Angelita. The sexual passion between them ignites immediately, and he soon falls madly in love with her as does she for him. When he returns to his law practice, a duplicitous client sells him out by telling the assistant district attorney a bunch of lies, which implicate Troy, in exchange for leniency. The beloved barrister becomes disbarred and is imprisoned. While serving a brief sentence, the broken Banalia decides to leave his former life behind and vows to return to Angelita and free her from the evil Hector, a.k.a. Solo, Lobo, her pimp. When he finds Angelita, the struggle between Troy and his armed entourage, the fearless private investigator Gary Brody and brave Mexican guide Jose Bravo, and the brutal gang of Solo Lobo, the gargantuan bodyguard Negro and cunning assistant Bruto, begins. Fueled by the backup of Brody and apt tutelage of Jose, Troy devises a series of plans to conquer Lobo once and for all and free Angelita forever. His affection for and friendship with his amigo nuevo grows during this learning process until his crestfallen companion eventually confides in him regarding the dark secret of why this honorable Mexican hombre is called El Bravo by those who know him. The battles for Angelita between the two warring camps commence at the top of Baja in this first novel, and continue south throughout the rest of the elongated peninsula to its inevitable end at the twin capes, Cabo San Lucas and San José del Cabo, in the sequel, Land's End, Cabo. Along the way from Tijuana to Los Cabos, Troy drives with Angelita always by his side in their desperate trip of escape. The surreal landscapes abound during their journey across this magical land. And all the adventure takes place against the background of beauty that prevails in this pristine peninsula. An ode to Baja so to speak. The unexpected and perilous predicaments that transpire on this spectacular sojourn will test the fullest measure of their collective resolve and spiritual union. The Baja Expatriate and Land's End, Cabo, both speak to the indomitable human spirit and the power of love. It is a story of personal redemption and the undeniable human need for freedom. An epic allegory about the never-ending battle between good and evil bestowed upon us by the master storyteller, Edwin Paul. It will inspire the reader to fight the good fight in one's life, and to strive for what we all need in our lives, reciprocal love.

The End of Sexual Identity - Jenell Williams Paris 2011-03-21

Sexual identity has become an idol in both the culture at large and in the Christian subculture. And yet concepts like "gay" or "straight" are relatively recent developments in human history. We let ourselves be defined by socially constructed notions of sexual identity and sexual orientation--even though these may not be the only or best ways to think about sexuality. Anthropologist Jenell Williams Paris offers a Christian framework for sexual holiness that accounts for complex postmodern realities. She assesses problems with popular cultural and Christian understandings of heterosexuality and homosexuality alike. The End of Sexual Identity moves beyond culture-war impasses to open up new space for conversations in diverse communities both inside and outside the church.

The Myth of the Great Ending - Joseph M. Felser 2011-04-01

From Christian believers in the Apocalypse and the Rapture to New Age enthusiasts of prophecies concerning the year 2012, Doomsday lore has been a part of culture, a myth that colors how we perceive the world. Why do we remain obsessed with Doomsday myths even when they fail to

materialize? What if we haven't recognized the true message of these myths? Blending history, psychology, metaphysics, and story, philosopher and author Joseph Felser explores the spiritual questions raised by these enduring myths. Along the way he consults the work of Joseph Campbell, Carl Jung, Marie-Louise von Franz, Black Elk, Wovoka, Itzhak Bentov, Jane Roberts, Seth, Hermann Hesse, Ingo Swann, David Bohm, Fred Alan Wolf, J. Allen Boone, William James, and Robert Monroe through ever-widening circles of understanding. Felser suggests that our obsession with "The End of the World" hides a repressed, healthy longing for reconciliation with our inner and outer worlds--with nature and our own natural spirituality. He urges us to recognize and act upon that longing. When we begin to listen to nature's voice and pay heed to our own dreams--including visions, intuitions, and instinctive promptings--the greatest revolution in all history will unfold. We can create a future of our own choosing, a beginning rather than an ending.

Where Does Mind End? - Marc Seifer 2011-11-28

A new comprehensive model of mind and its nearly infinite possibilities • Recasts psychology as a vehicle not for mental health but for higher consciousness • Shows that we have consciousness for a reason; it is humanity's unique contribution to the cosmos • Integrates the work of Freud, Jung, Gurdjieff, Tony Robbins, Rudolf Steiner, the Dalai Lama as well as ESP, the Kabbalah, tarot, dreams, and kundalini yoga The culmination of 30 years of research, *Where Does Mind End?* takes you on an inward journey through the psyche--exploring the highest states of consciousness; the insights and theories of ancient and modern philosophers, psychologists, and mystics; the power of dreams, chi energy, tarot, and kundalini yoga; and proof of telepathy and other facets of parapsychology--to explain the mystery of consciousness and construct a comprehensive model of mind and its nearly infinite possibilities. Starting with the ancients and early philosophers such as Zoroaster, Aristotle, Descartes, and Leibniz, the author examines models of mind that take into account divine and teleological components, the problem and goal of self-understanding, the mind/body conundrum, and holographic paradigms. Seifer then moves to modern times to explain the full range of Freud's psychoanalytic model of mind, exploring such ideas as the ego, superego, and id; the unconscious; creativity; and self-actualization. Using Freud's psychoanalytical model as framework, he reveals an overarching theory of mind and consciousness that incorporates such diverse concepts as Jung's collective psyche; ESP; the Kabbalah; Gurdjieff's ideas on behaviorism and the will; the philosophies of Wilhelm Reich, P. D. Ouspensky, and Nikola Tesla; the personality redevelopment strategies of Tony Robbins; and the Dalai Lama's and Rudolf Steiner's ideas on the highest states of consciousness. Recasting psychology as a vehicle not for mental health but for higher consciousness, he shows that by casting off the mechanical mental operation of day-to-day life, we naturally attain the self-integration to which traditional psychology has long aspired. By entering the true path to fulfillment of the soul's will, we help the planet by transforming ourselves and raising our energy to a higher realm.

Girl Boner - August McLaughlin 2018-08-07

In a culture where female empowerment is used to sell everything from sex toys to soap, most sex education continues to bypass pleasure. The results are stark; we've grown accustomed to slut- and prude-shaming and allowed others to dictate how a "good girl" is meant to feel, act, and look. In *Girl Boner: The Good Girl's Guide to Sexual Empowerment*, August McLaughlin offers an inclusive, unfiltered blend of personal narrative and practical tips on relationships, solo play, journaling, gender issues, and more. The End of Rationality and Selfishness - Rui-Wu Wang 2023-05-16

This book reviews the antinomy of rationality and selfishness raised from egoism, though rationality and selfishness are understood as basic evolutionary dynamics of humans and other organisms in both classical economics and evolutionary biology. Based on the research and a comparison with human's social cooperative behavior, the author presents his belief that the social cooperative system, in its essence, cooperation and conflict are of uncertain stochasticity resulting from their intrinsic asymmetric interaction between cooperative partners. The book then discusses limitations of Newton's methodology of monism in both biology and social science. The understanding of the asymmetric and uncertain characteristics found in cooperation system needs perspective of quantum physics of pluralism. At the end of the book, the author undertakes a review of consistency of Newtonian and monism philosophy and the links between quantum physics and pluralism philosophy.
