**Health Education** - Lurna Rubinson 1988

**Talk Sex Today** - Saleema Noon 2016-08-05

Not sure what – or how much – information to share with children and teens regarding sex and sexual health? Do you fear what they might ask? Or how to respond to their questions? Or whether you even know the “answers” yourself? Saleema Noon knows all about these fears and concerns. An expert in sexual health education and stepparent to two teenage daughters herself, she understands the challenges adults face when addressing sensitive topics with their kids. In *Talk Sex Today*, Noon delivers an intelligent and sensible blend of current, inclusive, and practical information for children and teens – and the adults who love them. Noon builds on the foundational work of iconic sexual health educator Meg Hickling and her bestselling *Speaking of Sex* books to offer adults a break-through guide on teaching “body science.” Together, with a combined 40 years of experience, Noon and Hickling broach a host of topics including: gender identity and stereotypes sexual diversity sexual consent bullying and harassment fostering healthy body image internet safety managing media influence pornography sexual decision-making teaching sexual health to children and teens with special needs Not afraid of controversy and firm in her belief that knowledge is power, Noon’s broadly inclusive approach shines with the affirmation that every person – regardless of race, religion, age, ability, gender identity, gender expression and sexual attraction – deserves respect and the information that will keep them safe. This is the ultimate guide to teaching children about sexual health and is ideal for educators and parents alike.

[Distributing Condoms and Hope](#) - Chris A. Barcelos 2020-12-01

*Distributing Condoms and Hope* is a feminist ethnographic account of how youth sexual health programs in the racially and economically stratified city of “Millerston” reproduce harm in the marginalized communities they are meant to serve. Chris A. Barcelos makes space for the stories of young mothers, who often recognize the narrow ways that public health professionals respond to pregnancies. Barcelos's findings show that teachers, social workers, and nurses ignore systemic issues of race, class, and gender and instead advocate for individual-level solutions such as distributing condoms and promoting “hope.” Through a lens of reproductive justice, *Distributing Condoms and Hope* imagines a different approach to serving marginalized youth—a support system that neither uses their lives as a basis for disciplinary public policies nor romanticizes their struggles.

**Community Health Education: Settings, Roles, and Skills** - Mark J. Minelli 2009-10-06

Now in its Fifth Edition, *Community Health Education: Settings, Roles, and Skills* has been a mainstay in public health education and has been used to train thousands in the field. This thorough revision features all new information on the latest concepts and strategies in health education. Each chapter will include a new section “Field Site Experiences”. These examples will provide real life experiences matching the chapter content material helping students connect theory with practice. Tips from “Practicing Health Educators” will also provide working examples from people with years of field experience. New public health challenges such as emergency response, Avian Flu, SARS, and designer drugs of abuse, have been woven into appropriate chapter materials. An all new chapter on creativity has also been added.

**Mexican Americans & Health : Sana! Sana!** - Adela de la Torre 2001-08

By the middle of the twenty-first century, one out of every six Americans will be of Mexican descent; and as health care becomes of increasing concern to all Americans, the particular needs of Mexican Americans will have to be more thoroughly addressed. *Mexican Americans and Health* explains how the health of Mexican-origin people is often related to sociodemographic conditions and genetic factors, while historical and political factors influence how Mexican Americans enter the health care system and how they are treated once they access it. It considers such issues as occupational hazards for Mexican-origin agricultural workers?including pesticide poisoning, heat-related conditions, and musculoskeletal disorders?and women's health concerns, such as prenatal care, preventable cancers, and domestic violence. The authors clearly discuss the health status of Mexican Americans relative to the rest of the U.S. population, interweaving voices of everyday people to explain how today's most pressing health issues have special relevance to the Mexican American community: ? how values such as machismo, familismo, and marianismo influence care-seeking decisions and treatment of illness; ? how factors such as cultural values, socioeconomic status, peer pressure, and family concerns can contribute to substance abuse; ? how cultural attitudes toward sex can heighten the risk of AIDS?and how approaches to AIDS prevention and education need to reflect core cultural values such as familismo, respeto, and confianza. The book also addresses concerns of Mexican Americans regarding the health care system. These include not only access to care and to health insurance but also the shortage of bilingual and bicultural health care professionals. This coverage stresses not only the importance of linguistic competency but also the need to understand folklore illnesses, herbal remedies, and spiritual practices that can delay the treatment of illness and either complement or compromise treatment. Of all the issues that face the contemporary Mexican American community, none is as important to its very survival as health and health care. This timely book gives readers a broad understanding of these complex issues and points the way toward a healthier future for all people of Mexican origin. *Mexican Americans and Health* and *Chicano Popular Culture* are the first volumes in the series *The Mexican American Experience*, a cluster of modular texts designed to provide greater flexibility in undergraduate education. Each book deals with a single topic concerning the Mexican American population. Instructors can create a semester-length course from any combination of volumes, or may choose to use one or two volumes to complement other texts.

*An Intersectional Approach to Sex Therapy* - Reece M. Malone 2021-12-20

When a Black, Indigenous, or racialized individual or relationship works with a sex therapist, a host of cultural circumstances can contribute to intimacy discord and sexual dysfunction. This collection brings together clinicians and educators who share their approaches, bridging sex therapy with a client’s relationship to their racial, cultural, and ethnic identity. This essential book aims to enhance therapists’ supervisory practices and clinical treatments when working with culturally diverse and marginalized populations, fostering greater understanding and awareness. Innovative tools that integrate the impacts of acculturation, minority status, intersectionality, and minority stress are discussed, with case studies,

demonstrations, and critical questions included. This collection is a necessary read for anyone who is training to be or who is an established sex therapist, marriage and family therapist, relationship counselor, or sexuality educator and consultant.

Sexuality Education Theory And Practice - Clint E. Bruess 2013-05-30

Sexuality Education prepares students planning to be sexuality educators and administrators, as well as seasoned teaching professionals seeking current information and successful methods for teaching elementary, secondary and college students about sexuality with confidence. Sexuality Education Theory and Practice strikes a balance between content and instructional strategies that help students assess their own attitudes and knowledge of human sexuality. Emphasizing that sex education is an integral part of a comprehensive health education program, the text is ideal for helping students from a variety of backgrounds teach sexuality to learners of all ages.
