Global Perspectives on Prostitution and Sex Trafficking Rochelle L. Dalla 2011-04-08 This book is part of a two-volume set that examines prostitution and sex trafficking on a global scale, with each chapter devoted to a particular country in one of seven "geo-cultural" areas of the world. Each of the 18 chapters in this volume provides a distinct perspective from which to contemplate the global commercial sex industry as well as a spectrum of implications for continued scholarship and research, legislative maneuvers and policy change, and suggestions for collaboration across NGOs, clinicians, and service providers.

Walking Prey Holly Austin Smith 2014-03-18 Today, two cultural forces are converging to make America's youth easy targets for sex traffickers. Younger and younger girls are engaging in adult sexual attitudes and practices, and the pressure to conform means thousands have little self-worth and are vulnerable to exploitation. At the same time, thanks to social media, texting, and chatting services, predators are able to ferret out their victims more easily than ever before. In *Walking Prey*, advocate and former victim Holly Austin Smith shows how middle class suburban communities are fast becoming the new epicenter of sex trafficking in America. Smith speaks from experience: Without consistent positive guidance or engagement, Holly was ripe for exploitation at age fourteen. A chance encounter with an older man led her to run away from home, and she soon found herself on the streets of Atlantic City. Her experience led her, two decades later, to become one of the foremost advocates for trafficking victims. Smith argues that these young women should

be treated as victims by law enforcement, but that too often the criminal justice system lacks the resources and training to prevent the vicious cycle of prostitution. This is a clarion call to take a sharp look at one of the most striking human rights abuses, and one that is going on in our own backyard.

The Heroes Thomas Trese 2022-08-09 What do a restaurateur from Seattle, an oil field foreman from west Texas, and a burned-out, ex-Chicago cop have in common? Not much to start with, but these and seven other everyday Americans meet in Nashville. They've all answered calls to action trusting that inner voice by combatting evil in their hometowns, seamlessly coordinating with law enforcement. All the feats seemed improbable but for the grace of God and the prompting of the spirit. Their heroic actions catch the attention of a Christian TV network that brings them to Nashville for the Faith Hero Awards. Stephanie, the restaurateur; Cody, the oil field roughneck; and Danny, the ex-Chicago cop, lead the heroes in three adventures. They combat a phony TV faith healer in Nashville, human and drug traffickers in Texas, and racial hate groups in Chicago while dealing with their own issues such as control, substance abuse, and angry outbursts. Mentors from their pasts help them deal with their personal demons. The Heroes, a work of religious fiction, offers stories of the real faith journeys of familiar people—a janitor, a social worker, an Uber driver, a diner waitress, and a pizza

A Warrior's Betrayal Cervantes Cervantes 2019-02-15 In January 1977, highly decorated Army Green Beret Major Chester Garrett's body was found in the desert outside El Pas, Texas; a victim of massive head trauma and multiple stab wounds. One night in El Paso did to Major Garrett what three tours in Viet Nam could not. The Sheriff's Department, Army CID, and FBI identified several suspects and followed leads of sex, drug trafficking, wide-scale theft, violence, and murder. A year later; no results. For the next twenty-nine years, the case went colder with each passing day. Then in 2006, the case was re-opened and detectives began to chip away at the mountain of greed, deceit, and evil that led to the murder of an American war hero, in the unlikeliest setting.

Downtown Juárez Howard Campbell 2021-11-09 At least 200,000 people have died in Mexico's so-called drug war, and the worst suffering has been in Ciudad Juárez, across the border from El Paso, Texas. How did it get so bad? After three decades studying that question, Howard Campbell doesn't believe there is any one answer. Misguided policies, corruption, criminality, and the borderland economy are all factors. But none explains how violence in downtown Juárez has become heartbreakingly "normal." A rigorous yet moving account, *Downtown Juárez* is

informed by the sex workers, addicts, hustlers, bar owners, human smugglers, migrants, and down-and-out workers struggling to survive in an underworld where horrifying abuses have come to seem like the natural way of things. Even as Juárez's elite northeast section thrives on the profits of multinational corporations, and law-abiding citizens across the city mobilize against crime and official malfeasance, downtown's cantinas, barrios, and brothels are tyrannized by misery.

Campbell's is a chilling perspective, suggesting that, over time, violent acts feed off each other, losing their connection to any specific cause. Downtown Juárez documents this banality of evil—and confronts it—with the stories of those most affected. Today's FBI 2013 Book Description: Today's FBI—an intelligence-driven and threat focused national security organization with both intelligence and law enforcement responsibilities—staffed by a dedicated cadre of 35,000 agents, analysts, and other professionals—who work around the clock and across the globe—to protect the U.S. from terrorism, espionage, cyber attacks, and major criminal threats—and to provide its many partners with services, support, training, and leadership.

Handbook of Research on Present and Future Paradigms in Human Trafficking Essien, Essien D. 2022-05-20

Human trafficking is currently regarded as a contemporary form of slavery. However, despite many initiatives undertaken over the last two decades to tackle the problem, there seems to be a disproportionate emphasis on the social phenomenon. Trafficking in persons remains a little-explored area in scholarship with many inconsistencies and ambiguities yet to be attended to. Human trafficking is a multifaceted issue that requires a multidisciplinary approach that must be studied and considered thoroughly and with heavy regard to the many layers of the issue. The *Handbook of Research on Present and Future Paradigms in Human Trafficking* presents a comprehensible view of what constitutes the underpinning of human trafficking, the means of combating it, its moral implications, and offers possible solutions toward curbing its excesses, inconsistencies, and ambiguities. Covering a range of topics such as social change, human rights, and ethics, this major reference work is ideal for researchers, scholars, practitioners, government officials, policymakers, instructors, academicians, and students.

Gangs of the El Paso-Juárez Borderland Mike Tapia 2019-12-15

This thought-provoking book examines gang history in the region encompassing West Texas, Southern New Mexico, and Northern Chihuahua, Mexico. Known as the El Paso-Juárez borderland region, the area contains more than three million people spanning 130 miles from east to west. From the badlands—the historically notorious eastern Valle de Juárez—to the Puerto Palomas port of entry at Columbus, New Mexico, this area has become more

militarized and politicized than ever before. Mike Tapia examines this region by exploring a century of historical developments through a criminological lens and by studying the diverse subcultures on both sides of the law. Tapia looks extensively at the role of history and geography on criminal subculture formation in the binational urban setting of El Paso–Juárez, demonstrating the region’s unique context for criminogenic processes. He provides a poignant case study of Homeland Security and the apparent lack of drug-war spillover in communities on the US-Mexico border.

Sex Trafficking in the United States Andrea J. Nichols 2016-08-23
Sex Trafficking in the United States is a unique exploration of the underlying dynamics of sex trafficking. This comprehensive volume examines the common risk factors for those who become victims, and the barriers they face when they try to leave. It also looks at how and why sex traffickers enter the industry. A chapter on buyers presents what we know about their motivations, the prevalence of bought sex, and criminal justice policies that target them. *Sex Trafficking in the United States* describes how the justice system, activists, and individuals can engage in advocating for victims of sex trafficking. It also offers recommendations for practice and policy and suggestions for cultural change. Andrea J. Nichols approaches sex-trafficking-related theories, research, policies, and practice from neoliberal, abolitionist, feminist, criminological, and sociological perspectives. She confronts competing views of the relationship between pornography, prostitution, and sex trafficking, as well as the contribution of weak social institutions and safety nets to the spread of sex trafficking. She also explores the link between identity-based oppression, societal marginalization, and the risk of victimization.

She clearly accounts for the role of race, ethnicity, immigrant status, LGBTQ identities, age, sex, and intellectual disability in heightening the risk of trafficking and how social services and the criminal justice and healthcare systems can best respond. This textbook is essential for understanding the mechanics of a pervasive industry and curbing its spread among at-risk populations. Injustice, Inc Daniel L. Hatcher 2023 "In Injustice, Inc., Daniel L. Hatcher exposes how justice systems are harnessing America's history of racial and economic inequality into revenue-generating operations. Courts, prosecutors, probation, policing departments, and detention facilities are trading away ethics and justice to churn vulnerable children and adults into an unconstitutional factory enterprise. These justice institutions are entering contracts to make money removing children from their homes, monetizing harm from juvenile delinquency, child welfare and child support proceedings, extorting fines and fees, collaborating with private debt collectors, enforcing unpaid child labor, seizing property, incentivizing arrests and evictions, maximizing occupancy in detention and 'treatment' centers, and more.

Hatcher details the disproportionately racialized harm and unconstitutionality of the injustice enterprise, and calls for opened eyes to our justice system failings--to walk a better path toward instilling truth into the words 'Equal Justice Under Law'"--
Sex Trafficking in Postcolonial Literature Laura Barberán Reinares 2014-08-27 At present, the bulk of the existing research on sex trafficking originates in the social sciences. *Sex Trafficking in Postcolonial Literature* adds an original perspective on this issue by examining representations of sex trafficking in postcolonial literature. sex trafficking, as analyzed through literary theory, anthropology, sociology, history, trauma theory, journalism, and globalization studies. It encompasses postcolonial theory and literature's aesthetic analysis of sex trafficking together with research from social sciences, psychology, anthropology, and economics with the intention of offering a comprehensive analysis of the topic beyond the type of Orientalist discourse so prevalent in the media. This is an important and innovative resource for scholars in literature, postcolonial studies, gender studies, human rights and global justice.

White Supremacy, Racism and the Coloniality of Anti-Trafficking Kamala Kempadoo 2022-09-15 Global efforts to combat human trafficking are ubiquitous and reference particular ideas about unfreedoms, suffering, and rescue. The discourse has, however, a distinct racialized legacy that is lodged specifically in fears about "white slavery," women in prostitution and migration, and the defilement of white womanhood by the criminal and racialized Other. *White Supremacy, Racism and the Coloniality of Anti-Trafficking* centers the legacies of race and racism in contemporary anti-trafficking work and examines them in greater detail. A number of recent arguments have suggested that race and racism are not only visible, but vital, to the success of contemporary anti- trafficking discourses and movements. The contributors offer recent scholarship grounded in critical anti-racist perspectives that reveal the historical and contemporary racial working of anti- trafficking discourses and practices globally—and how these intersect with gender, citizenship, sexuality, caste and class formations, and the global political economy.

solutions that researchers have discovered for ethical dilemmas that pose themselves at studying disadvantaged, vulnerable and victimized populations. Ethical codes prescribe that the scholar should in all circumstances avoid potential harm, that informed consent is necessary and that the limits of confidentiality should always be respected. However, in the practice of research among women involved in prostitution, illegal immigrant workers, enslaved children, people who sell their organs and all the traffickers thereof, the ethical rules cannot always be followed. This book shows that there is a surprising variety of arguable possibilities in dealing with ethical dilemmas in the field. Authors reflect on concrete experiences from their own fieldwork in a wide variety of settings such as the USA, Singapore, Kosovo and The Netherlands. Some choose to work on the basis of conscientious partiality, others negotiate the rules with their informants and still others purposely break the rules in order to disclose and damage the exploiters. Researchers may find themselves in a vulnerable position. Their experiences, as presented in this volume, will help field workers, university administrators, representatives of vulnerable groups, philosophers of ethics and most of all students to go into the field well-prepared. This is a book that every researcher planning to do fieldwork in the difficult field of hidden, illicit and victimized people should read in advance. Dr. Frank Bovenkerk, Professor (Emeritus), Willem Pompe Institute for Criminal Law and Criminology, Universiteit Utrecht, The Netherlands This book allows a peek in the kitchen of empirical fieldwork, going into not only “best practices,” but mistakes made, in a frank, courageous and honest way.
