Flirting Tips for Guys Kevin Love 2015-03-17 The art of flirting is all about letting a person you fancy know that you are interested in her, without saying it openly. When done right, it is a choreographed dance where each person lets the other one know just how interested he is in getting to know the other, under the safety of it all being a game. If one person is interested but the other one is not, nobody is hurt because there never was a real proposition; it was all just a game. Flirting is a playground where a man and a woman can express their desire to pursue the acquaintance in hopes that it develops into a relationship or back down and leave things as they are. Flirting is a ritual based on communication, above all. But communication can take many forms, and flirting is, believe it or not, mostly a non-verbal form of communication. Most men get nervous when it comes to talking to a woman they have just met, they don't know what to say to her. But the funny thing is, you could spend a whole night flirting with a woman without ever having to say a word to her. Ninety percent of human communication is body language and the same applies for flirting. The most vital means with which to flirt are your eyes, and they are the ones that will always tell you whether a flirt is serious or just a game. The Machiavellian's Guide to Flirting Nick Casanova 2008-11-18 The key to being successful at love is to be playful: playfully suggestive, playfully romantic, and playfully bantering. Flirting is how you send the message that you're interested without saying so directly. If you do it well, you can keep your prospect amused, giddy, titillated, flattered, and insulted all at the same time. Flirting is also how you establish that you have a sense of humor, that you're smart, and that you're sane. And it's how you tell whether your prospect has those same qualities. If both of you are in the right mood, these routines can be great fun. The book is divided into two sections, one for women and the other for men. Since it is usually the man who does the chasing and the woman who does the choosing; these different roles lend themselves to different styles of flirting. Despite gender differences, however, most (but not all) of the chapters can be adapted for use by the opposite sex.

The Art of Flirting Anthony Ekanem 2016-07-20 What do you know about flirting? This question might seem easy since we've all at least tried to get it done properly a couple of times. Dressing up to impress the opposite sex, complimenting them, and sending cheesy pickup lines their way are all various techniques created to attract women, but do you really know what flirting entails? In a nutshell, flirting refers to a sort of mating ritual that isn't exclusive to human beings alone. Take animals, for example. Do you ever wonder if the songs that birds sing have any meaning to them? Do you think it's only a coincidence that peacock feathers are so colorful and stylish? Have you ever wondered why apes beat their chests like that? Well, there is a simple answer to all of that: they are a small part of these animals' mating rituals. Although flirting tactics tend to be one-of-a-kind for every species out there, their goals aren't. Human beings need to use non-verbal and verbal cues to attract potential mates. Men, for one, need to take certain actions in order to impress their choice of women: humor, intelligence, money, confidence and social status are all a part of this. Just like male apes beating their chests, these are merely several signals that we emit to show how worthy and desirable we can be to women. This is why flirting is considered a mating ritual. Moreover, flirting is actually done unconsciously, just like with the animals. Do animal mating rituals look pre-planned to you? Well, they aren't. The truth is: these rituals all come from nature and are done to keep the life cycle going. Each creature on this planet was bred for this particular purpose, after all - human beings included. And, as with animals, human beings do not think before they flirt; they simply flirt. As a matter of fact, we only become aware of flirting when it ends up backfiring. Each guy on earth has come across a situation where some girl flirted with him and ended up acting annoyed after he flirted back.
