Madness in Literature Lillian Feder 2020-10-06 To probe the literary representation of the alienated mind, Lillian Feder examines mad protagonists of literature and the work of writers for whom madness is a vehicle of self-revelation. Ranging from ancient Greek myth and tragedy to contemporary poetry, fiction, and drama, Professor Feder shows how literary interpretations of madness, as well as madness itself, reflect the very cultural assumptions, values, and prohibitions they challenge.

Footbinding and Women's Labor in Sichuan Hill Gates 2014-12-05 When Chinese women bound their daughters' feet, many consequences ensued, some beyond the imagination of the binders and the bound. The most obvious of these consequences was to impress upon a small child's body and mind that girls differed from boys, thus reproducing gender hierarchy. What is not obvious is why Chinese society should have evolved such a radical method of gender-marking. Gendering is not simply preparation for reproduction, rather its primary significance lies in preparing children for their places in the division of labor of a particular political economy. Drawing on extensive fieldwork and interviews with almost 5,000 women, this book examines footbinding as Sichuan women remember it from the final years of the empire and the troubled times before the 1949 revolution. It focuses on two key questions: what motivated parents to maintain this custom, and how significant was girls' work in China's final pre-industrial century? In answering these questions, Hill Gates

shows how footbinding was a form of labor discipline in the first half of the twentieth century in China, when it was a key institution in a now much-altered political economy. Countering the widely held views surrounding the sexual attractiveness of bound feet to Chinese men, footbinding as an ethnic boundary marker, its role in female hypergamy, and its connection to state imperatives, this book instead presents a compelling argument that footbinding was in fact a crucial means of disciplining of little girls to lives of early and unremitting labor. This vivid and fascinating study will be of huge interest to students and scholars working across a wide range of fields including Chinese history, oral history, anthropology and gender studies.

Revolution Plus Love Liu Jianmei 2003-09-30 In the aftermath of the May Fourth movement, a growing expectation of revolution raised important intellectual issues about the position of the individual within a society in turmoil and the shifting boundaries of political and sexual identities. The theme of "revolution plus love," a literary response to the widespread insurrections and upheaval, was first popularized in the late 1920s. In her examination of this popular but understudied literary formula, Liu Jianmei argues that revolution and love are culturally variable entities, their interplay a complex and constantly changing literary practice that is socially and historically determined. Liu looks at the formulary writing of "revolution plus love" from the 1930s to the 1970s as a case study of literary politics. Favored by leftist writers during the early period of revolutionary literature, it continued to influence mainstream Chinese literature up to the 1970s. By drawing a historical picture of the articulation and rearticulation of this theme, Liu shows how changes in revolutionary discourse force unpredictable representations of gender rules and power relations, and how women's bodies reveal the complex interactions between political representation and gender roles. *Revolution Plus Love* is a nuanced and carefully considered work on gender and

modernity in China, unmatched in its broad use of literary resources. It will be of considerable interest to scholars and students of modern Chinese literature, women's studies, cultural studies, and comparative literature.

A Modern Miscellany Paul Bevan 2015-11-02 In *A Modern Miscellany* Paul Bevan demonstrates that in the 1930s the Chinese cartoon was not only important in the sphere of Shanghai popular culture but that it occupied a central place in the primary discourse of Chinese modern art history.

Citizens of Beauty Louise Edwards 2020-05-15 In the early twentieth century China's most famous commercial artists promoted new cultural and civic values through sketches of idealized modern women in journals, newspapers, and compendia called One Hundred Illustrated Beauties. This genre drew upon a centuries-old tradition of books featuring illustrations of women who embodied virtue, desirability, and Chinese cultural values, and changes in it reveal the foundational value shifts that would bring forth a democratic citizenry in the post-imperial era. The illustrations presented ordinary readers with tantalizing visions of the modern lifestyles that were imagined to accompany Republican China's new civic consciousness. *Citizens of Beauty* is the first book to explore the One Hundred Illustrated Beauties in order to compare social ideals during China's shift from imperial to Republican times. The book contextualizes the social and political significance of the aestheticized

female body in a rapidly changing genre, showing how progressive commercial artists used images of women to promote a vision of Chinese modernity that was democratic, mobile, autonomous, and free from the crippling hierarchies and cultural norms of old China.

Red at Heart Elizabeth McGuire 2017 Presents a multigenerational history of the people who experienced Sino-Soviet affairs most intimately: prominent Chinese revolutionaries who traveled to Russia in their youths to study, often falling in love and having children there. Their personal memoirs, interviews with their children, and a collection of documents from the Russian archives allow McGuire to reconstruct the sexually-charged, physically difficult, and politically dangerous lives of Chinese communists in the Soviet Union. She brings to life a cast of transnational characters--including a son of Chiang Kai-shek and a wife of Mao Zedong--who connected the two great communist revolutions in human terms. Weaving personal stories and cultural interactions into political history, McGuire shows that the Sino-Soviet relationship was not a brotherhood or a friendship, but rather played out in phases like many lifelong love affairs - from first love, early betrayal, and love children; through eventual marriage with its conveniences and annoyances, guarded optimism, and official heirs; to divorce, reconciliation, and a nostalgia that lingers even today. --From publisher description.

The Columbia Sourcebook of Literary Taiwan Sung-sheng Yvonne Chang 2014-09-02 This sourcebook contains more than 160 documents and writings that reflect the development of Taiwanese literature from the early modern period to the twenty-first century. Selections include seminal essays in literary debates, polemics, and other landmark events; interviews, diaries, and letters by major authors; critical and retrospective essays by influential writers, editors, and scholars; transcripts of historical speeches and conferences; literary-society manifestos and inaugural journal prefaces; and governmental policy pronouncements that have significantly influenced Taiwanese literature. These texts illuminate Asia's experience with modernization, colonialism, and postcolonialism; the character of Taiwan's Cold War and post-Cold War cultural production; gender and environmental issues; indigenous movements; and the changes and challenges of the digital revolution. Taiwan's complex history with Dutch, Spanish, and Japanese colonization; strategic geopolitical position vis-à-vis China, Japan, and the United States; and status as a hub for the East-bound circulation of technological and popular-culture trends make the nation an excellent case study for a richer understanding of East Asian and modern global relations.

China at War Hans van de Ven 2018-02-12 China's mid-twentieth-century wars pose extraordinary interpretive challenges. The issue is not just that the Chinese fought for such a long time—from the Marco Polo Bridge Incident of July 1937 until the close of the Korean War in 1953—across such vast territory. As Hans van de Ven explains, the greatest puzzles lie in understanding China's simultaneous external and internal wars. Much is at stake, politically, in how this story is told. Today

in its official history and public commemorations, the People's Republic asserts Chinese unity against Japan during World War II. But this overwrites the era's stark divisions between Communists and Nationalists, increasingly erasing the civil war from memory. Van de Ven argues that the war with Japan, the civil war, and its aftermath were in fact of a piece—a singular process of conflict and political change. Reintegrating the Communist uprising with the Sino-Japanese War, he shows how the Communists took advantage of wartime to increase their appeal, how fissures between the Nationalists and Communists affected anti-Japanese resistance, and how the fractious coalition fostered conditions for revolution. In the process, the Chinese invented an influential paradigm of war, wherein the Clausewitzian model of total war between well-defined interstate enemies gave way to murky campaigns of national liberation involving diverse domestic and outside belligerents. This history disappears when the realities of China's mid-century conflicts are stripped from public view. China at War recovers them.

The Cambridge History of China: Volume 2, The Six Dynasties, 220-589 Albert E. Dien
2019-11-07 The Six Dynasties Period (220–589 CE) is one of the most complex in Chinese history. Written by leading scholars from across the globe, the essays in this volume cover nearly every aspect of the period, including politics, foreign relations, warfare, agriculture, gender, art, philosophy, material culture, local society, and music. While acknowledging the era's political chaos, these essays indicate that this was a transformative period when Chinese culture was significantly changed and enriched by foreign peoples and ideas. It was also a time when history and literature became recognized as independent subjects and religion was transformed by the domestication of Buddhism and the formation of organized Daoism. Many of the trends that shaped the rest of imperial China's history have their origins in this era, such as the commercial vibrancy of southern China, the separation of history and literature from classical studies, and the growing importance of women in politics and religion.

Salt and State Cecilia Chien 2020-08 *Salt and State* is an annotated translation of a treatise on salt from Song China. From its inception in the Han dynasty (206 B.C.-220 A.D.), the salt monopoly was a key component in the Chinese government's financial toolkit. Salt, with its highly localized and large-scale production, was an ideal target for bureaucratic management. In the Song dynasty (960-1279), fiscal pressures on the government had intensified with increased centralization and

bureaucratization. A bloated administration and an enormous standing army maintained against incursions by aggressive steppe neighbors placed tremendous strain on Song finances. Developing the salt monopoly seemed a logical and indeed urgent strategy, but each actor in this plan--the emperor, local officials, monopoly administrators, producers, merchants, and consumers--had his own interests to protect and advance. Thus attempts to maximize the effectiveness of the monopoly meant frequent policy swings and led to levels of corruption that would ultimately undo the Song. Unlike other contemporary sources, the Songshi treatise organizes its subject into an intelligible and detailed narrative, elucidating special terminology, the bureaucracy and its processes, and debates relating to Chinese finance and politics, as well as the salt industry itself. Professor Chien's extensive annotation relies on parallel histories that corroborate and supplement the Songshi account, together providing a comprehensive study of this important institution in China's premodern political economy.

War and Popular Culture Chang-tai Hung 2023-12-22 This is the first comprehensive study of popular culture in twentieth-century China, and of its political impact during the Sino-Japanese War of 1937-1945 (known in China as "The War of Resistance against Japan"). Chang-tai Hung shows in compelling detail how Chinese resisters used a variety of popular cultural forms—especially dramas, cartoons, and newspapers—to reach out to the rural audience and galvanize support for the war cause. While the Nationalists used popular culture as a patriotic tool, the Communists refashioned it into a socialist propaganda instrument, creating lively symbols of peasant heroes and joyful images of village life under their rule. In the end, Hung argues, the Communists' use of popular culture contributed to their victory in revolution.

Dunhuang Manuscript Culture Imre Galambos 2020-12-07 "Dunhuang Manuscript Culture" explores the world of Chinese manuscripts from ninth-tenth century Dunhuang, an oasis city along the network of pre-modern routes known today collectively as the Silk Roads. The manuscripts have been discovered in 1900 in a sealed-off side-chamber of a Buddhist cave temple, where they had lain undisturbed for almost nine hundred years. The discovery comprised tens of thousands of texts, written in over twenty different languages and scripts, including Chinese, Tibetan, Old Uighur, Khotanese, Sogdian and Sanskrit. This study centres around four groups of manuscripts from the mid-ninth to the late tenth centuries, a period when the region was an independent kingdom ruled by local families. The central argument is that the manuscripts attest to the unique cultural diversity of the region during this period, exhibiting—alongside obvious Chinese elements—the heavy influence of Central Asian cultures. As a result, it was much less 'Chinese' than commonly portrayed in modern scholarship. The book makes a contribution to the study of cultural and linguistic interaction along the Silk Roads.

[Changing Clothes in China](#) Antonia Finnane 2008-01-24 Based largely on nineteenth and twentieth-century representations of Chinese dress as traditional and unchanging, historians have long regarded fashion as something peculiarly Western. But in this surprising, sumptuously illustrated book, Antonia Finnane proves that vibrant fashions were a vital part of Chinese life in the late

imperial era, when well-to-do men and women showed a keen awareness of what was up-to-date. Though foreigners who traveled to China in the early decades of the twentieth century came away with the impression that Chinese dress was simple and monotone, the key features of modern fashion were beginning to emerge, especially in Shanghai. Men in blue gowns donned felt caps and leather shoes, girls began to wear fitted jackets and narrow pants, and homespun garments gave way to machine-woven cloth, often made in foreign lands. These innovations marked the start of a far-reaching vestimentary revolution that would transform the clothing culture in urban and much of rural China over the next half century. Through Finnane's meticulous research, we are able to see how the close-fitting jacket and high collar of the 1911 Revolutionary period, the skirt and jacket-blouse of the May Fourth era, and the military style popular in the Cultural Revolution led to the variegated, globalized wardrobe of today. She brilliantly connects China's modernization and global visibility with changes in dress, offering a vivid portrait of the complex, subtle, and sometimes contradictory ways the people of China have worn their nation on their backs.

China's War Reporters Parks M. Coble 2015-03-09 When Japan invaded China in 1937, Chinese journalists greeted the news with euphoria, convinced their countrymen, led by Chiang Kai-shek, would triumph. Parks Coble shows that correspondents underplayed China's defeats for fear of undercutting morale and then saw their writings disappear and themselves denounced after the Communists came to power.

Women's Literary Feminism in Twentieth-Century China A. Dooling 2005-02-18 This is a critical inquiry into the connections between emergent feminist ideologies in China and the production of 'modern' women's writing from the demise of the last imperial dynasty to the founding of the PRC. It accentuates both well-known and under-represented literary voices who intervened in

the gender debates of their generation as well as contextualises the strategies used in imagining alternative stories of female experience and potential. It asks two questions: first, how did the advent of enlightened views of gender relations and sexuality influence literary practices of 'new women' in terms of narrative forms and strategies, readership, and publication venues? Second, how do these representations attest to the way these female intellectuals engaged and expanded social and political concerns from the personal to the national?

Intimate Communities Nicole Elizabeth Barnes 2018-10-23 A free ebook version of this title is available through Luminos, University of California Press's Open Access publishing program. Visit www.luminosoa.org to learn more. When China's War of Resistance against Japan began in July 1937, it sparked an immediate health crisis throughout China. In the end, China not only survived the war but emerged from the trauma with a more cohesive population. *Intimate Communities* argues that women who worked as military and civilian nurses, doctors, and midwives during this turbulent period built the national community, one relationship at a time. In a country with a majority illiterate, agricultural population that could not relate to urban elites' conceptualization of nationalism, these women used their work of healing to create emotional bonds with soldiers and civilians from across the country. These bonds transcended the divides of social class, region, gender, and language.

The Economy of Western Xia Jinbo Shi 2021 "This is the first introduction to the economic history of the Tangut Empire (1038-1227). Built on a wealth of economic data and evidence, it studies the economic lives and activities, laws and institutions, trade and transactions in the "Great State White and High". It interprets primary sources written in the mysterious Tangut cursive script: taxes, registers, and contracts, alongside archives, chronicles, and law codes. By weaving Song, Liao, and Jin materials with Khara-Khoto, Wuwei, and Dunhuang manuscripts into a historical narrative, the book offers a gateway to the outer shape and inner life of the Western Xia (Xixia) economy and society, and rethinks the Tanguts' influence on the Hexi Corridor and the Silk Road"--

A Woman Soldier's Own Story Bingying Xie 2001-09-18 For the first time, a complete version of the autobiography of Xie Bingying (1906-2000) provides a fascinating portrayal of a woman fighting to free herself from the constraints of ancient Chinese tradition amid the dramatic changes that shook China during the 1920s, '30s, and '40s. Xie's attempts to become educated, her struggles to escape from an arranged marriage, and her success in tricking her way into military school reveal her persevering and unconventional character and hint at the prominence she was later to attain as an important figure in China's political culture. Though she was tortured and imprisoned, she remained committed to her convictions. Her personal struggle to define herself within the larger context of political change in China early in the last century is a poignant testament of determination and a

striking story of one woman's journey from Old China into the new world.

The Oracle Bone Inscriptions from Huayuanzhuang East Adam C. Schwartz 2019-11-18 Since 1899 more than 73,000 pieces of inscribed divination shell and bone have been found inside the moated enclosure of the Anyang-core at the former capital of the late Shang state. Nearly all of these divinations were done on behalf of the Shang kings and has led to the apt characterization that oracle bone inscriptions describe their motivations, experiences, and priorities. There are, however, much smaller sets of divination accounts that were done on behalf of members of the Shang elite other than the king. First noticed in the early 1930's, grouped and periodized shortly thereafter, oracle bone inscriptions produced explicitly by or on behalf of "royal family groups" reveal information about key aspects of daily life in Shang society that are barely even mentioned in Western scholarship. The newly published Huayuanzhuang East Oracle Bone inscriptions are a spectacular addition to the corpus of texts from Anyang: hundreds of intact or largely intact turtle shells and bovine scapulae densely inscribed with records of the divinations in which they were used. They were produced on the behalf of a mature prince of the royal family whose parents, both alive and still very much active, almost certainly were the twenty-first Shang king Wu Ding (r. c. 1200 B.C.) and his consort Lady Hao (fu Hao). The Huayuanzhuang East corpus is an unusually homogeneous set of more than two thousand five hundred divination records, produced over a short

period of time on behalf of a prince of the royal family. There are typically multiple records of divinations regarding the same or similar topics that can be synchronized together, which not only allows for remarkable access into the esoteric world of divination practice, but also produce micro-reconstructions of what is essentially East Asia's earliest and most complete "day and month planner." Because these texts are unusually linguistically transparent and well preserved, homogeneous in orthography and content, and published to an unprecedentedly high standard, they are also ideal material for learning to read and interpret early epigraphic texts. The Huayuanzhuang East oracle bone inscriptions are a tremendously important Shang archive of "material documents" that were produced by a previously unknown divination and scribal organization. They expose us to an entirely fresh set of perspectives and preoccupations centering on a member of the royal family at the commencement of China's historical period. The completely annotated English translation of the inscriptions is the first of its kind, and is a vibrant new source of Shang history that can be accessed to rewrite and supplement what we know about early Chinese civilization and life in the ancient world. Before the discerning reader are the motives, preoccupations, and experiences of a late Shang prince working simultaneously in service both for his Majesty, his parents, and his own family.

When "I" was Born Jing M. Wang 2008 In the period between the 1920s and 1940s, a genre emerged in Chinese literature that would reveal crucial contradictions in Chinese culture that still exist today. At a time of intense political conflict, Chinese women began to write autobiography, a genre that focused on personal identity and self-exploration rather than the national, collective identity that the country was championing. When "I" Was Born: Women's Autobiography in Modern China reclaims the voices of these particular writers, voices that have been misinterpreted and overlooked for decades. Tracing women writers as they move from autobiographical fiction, often self-revelatory and personal, to explicit autobiographies that focused on women's roles in public life, Jing M. Wang reveals the factors that propelled this literary movement, the roles that liberal translators and their renditions of Western life stories played, and the way in which these women writers redefined writing and gender in the stories they told. But Wang reveals another story as well: the evolving history and identity of women in modern Chinese society. When "I" Was Born adds

Worshipping the Ancestors Jan Stuart 2001 Despite their powerful presence and exquisite quality, Chinese ancestor portraits have never been studied as a genre. This illustrated text explores the artistic, historical, and religious significance of these paintings and places them in context with other types of commemorative portraiture. During the late Ming (1368-1644) and Qing (1644-1911) dynasties, full-length portraits of individual men and women came into vogue. These ancestor portraits were important objects of veneration, and the practice continued into the 20th century, when paintings were gradually replaced by photographs. The authors explore the works in depth, presenting a fascinating glimpse of Chinese life and culture and providing biographies of the sitters. *Worshipping the Ancestors* should appeal to connoisseurs of Chinese art and to all those interested in social history, portraiture, and devotional art.
