Red Carpet - Erich Schwartzel 2022-02-08

"This is a fascinating book. It will educate you. Schwartzel has done some extraordinary reporting." — The New York Times Book Review "In this highly entertaining but deeply disturbing book, Erich Schwartzel demonstrates the extent of our cultural thrall to China. His depiction of the craven characters, American and Chinese, who have enabled this situation represents a significant feat of investigative journalism. His narrative is about not merely the movie business, but the new world order." —Andrew Solomon, author of *Far from the Tree* and *The Noonday Demon* An eye-opening and deeply reported narrative that details the surprising role of the movie business in the high-stakes contest between the U.S. and China From trade to technology to military might, competition between the United States and China dominates the foreign policy landscape. But this battle for global influence is also playing out in a strange and unexpected arena: the movies. The film industry, Wall Street Journal reporter Erich Schwartzel explains, is the latest battleground in the tense and complex rivalry between these two world powers. In recent decades, as China has grown into a giant of the international economy, it has become a crucial source of revenue for the American film industry. Hollywood studios are now bending over backward to make movies that will appeal to China's citizens—and gain approval from severe Communist Party censors. At the same time, and with America's unwitting help, China has built its own film industry into an essential arm of its plan to export its national agenda to the rest of the world. The competition between these two movie businesses is a Cold War for this century, a clash that determines whether democratic or authoritarian values will be broadcast most powerfully around the world. *Red Carpet* is packed with memorable characters who have—knowingly or otherwise—played key roles in this tangled industry web: not only A-list stars like Matt Damon, Angelina Jolie, and Richard Gere but also eccentric Chinese billionaires, zany expatriate filmmakers, and starlets who disappear from public life without explanation or trace. Schwartzel combines original reporting, political history, and show-biz intrigue in an exhilarating tour of global entertainment, from propaganda film sets in Beijing to the boardrooms of Hollywood studios to the living rooms in Kenya where families decide whether to watch an American or Chinese movie. Alarming, occasionally absurd, and wildly entertaining, *Red Carpet* will not only alter the way we watch movies but also offer essential new perspective on the power struggle of this century.

Supremacy Games - MidGard

Welcome to Supremacy Games! The greatest entertainment platform in the universe that was created specifically to entertain and ease the boredom of the commoners all around the universe. The platform was made out of tens of formats, each containing hundreds of deadly games that allowed the use of elemental abilities. Sports format had games, like football, rugby, track running, and many more of such sports. Battles format had games, like battle royals, bounty hunt, points collection...etc There was even a lifestyle

competition format, that had games like potion concoctions, fishing...etc. As long as a game was well received by the spectators, it would be added to the Supremacy Games platform. The Universal Virtual Reality that had 100% realism, made it easy for those games to be hosted inside it, and watched on a daily basis by every spectator in the universe. Whether live by entering the UVR and attending the stadiums, or through a live stream. Felix Maxwell was just an average joe, who wasn't really a popular player nor had a fanbase to support him in the games. He was just like the majority of the players. Add on, whose role was to make famous players shine even brighter. However, his fate was completely changed after joining a clan mission with 54 other clanmates. The mission was completed successfully. But, on their way back to the clan, their spaceship radar picked up a large amount of energy coming from a destroyed planet. His fate flipped upside down inside that said planet. What happened exactly on it? How did he end up after leaving it? Did he even leave it in the first place? PS: This novel isn't a space exploration novel (Not in the first 8 volumes at least). It's mostly focused on the Universal Virtual Reality and the 'Supremacy Games' as the name implies, with some real-life situations as well of course!

The Maddest Obsession - Danielle Lori 2019-04-16

She fears the dark. He rules it. Her dresses are too tight, her heels too tall. She laughs too loudly, eats without decorum, and mixes up most sayings in the book. Little do most know it's just a sparkly disguise, there to hide one panic attack at a time. Nobody can crack Gianna's facade . . . no one anyway, until he comes along. Most see a paragon of morality; a special agent upholding the law. In the New York underworld, others know him as a hustler, a killer, his nature as cold as the heart of ice in his chest. Christian Allister has always followed the life plan he'd envisioned in his youth, beneath the harsh lights of a frigid, damp cell. With a proclivity for order and the number three, he's never been tempted to veer off course. But perhaps one should never say never . . . One winter night and their lives intertwine. She hates him--his stone-cold demeanor, his arrogance and too-perceptive eye--but over the years, even as their games consist of insulting each other's looks and intelligence, she begins to live to play with him. Nowhere in Christian's plans had he ever prepared for Gianna. She's chaos embodied, not his type, and married, but none of that can stop his eyes from following her wherever she goes. All along, she doesn't even know that she's his--his frustration, his fascination. His maddest obsession. *Can be read as a standalone

Bodyguard. Babysitter. Chauffeur. Not what I thought I'd be doing with my life. Especially not for a spoiled Hollywood actress on location in Miami Beach. The Marines trained me to be Force Recon—intimidation and crowd control was child's play compared to four tours. This assignment should've been easy money. But the doe-eyed starlet with the perfect smile dragged me down her rabbit hole. Living for the spotlight, she leaked the ultimate scandal. The Alpha King - Victoria Sue 2017-01-16

The Kingdom of Askara has been torn apart by conflict for centuries, where humans exist as subservient beings to their werewolf masters. Legend says it will only be able to heal itself when an Alpha King and a pure omega are mated and crowned together, but a pure omega hasn't been born in over a thousand

years. Luca is an Alpha-heir eagerly awaiting the choosing ceremony on his twenty-fifth birthday and the gifts granted by whichever omega he mates. His small pack is destitute due to the decisions of its ruling council, but being only an Alpha-heir, he has no authority to challenge them. Not until now—this moment he has waited a long time for. Kit grew up as a street-rat, an unlicensed human who would never be more than a slave for whichever master owns him. Then one day he came across a young Alpha-heir, attacked and dying of poison, and found out their fates were suddenly entwined. Luca needs to take over his pack and save his people. He cannot afford to be distracted. But when he meets Kit, he develops abilities indicating he is not just a pack Alpha, but the King his world has needed for a thousand years. Is Kit really the cause of Luca's newfound power, the true mate he needs? How is it possible when the young man isn't even a werewolf, and as merely a human, a mating is not only forbidden, but for Kit, a sentence of death?
