*Me, Her, Us* Yen-Rong Wong 2023-08-29 Memoir-essays from an award-winning writer, exploring race, sex, familial expectation and identity. Raised by strict, religious, Malaysian Chinese parents in Brisbane's southern suburbs, Yen-Rong Wong internalised an idealised image of a Chinese-presenting girl at a young age. As she grew into young adulthood, she began to bristle against the weight of these expectations and the pressure to conform to cultural notions of family and future. However, she couldn't find any stories to help her forge her own path &- so she decided to write one for herself. In this compelling collection of essays, Wong blends memoir and cultural criticism to interrogate perceptions around sex, racism, and familial dynamics. Laying bare her own life, she examines the joys and difficulties that lie at the intersections of her identity. Brave, unflinching, and with a dash of wry humour, *Me, Her, Us* is a provocative book for our times.

**Chinese American Masculinities** Jachinson Chan 2020-04-03 This book is one of the first scholarly analyses of the current social constructions of Chinese American masculinities. Arguing that many of these notions are limited to stereotypes, Chan goes beyond this to present a more complex understanding of the topic. Incorporating historical references, literary analysis and sociological models to describe the construct a variety of masculine identities, Chan also examines popular novels (Fu Manchu and Charlie Chan), films (Bruce Lee), comic books (Master of Kung Fu), and literature (M. Butterfly).

**Migrant and Diasporic Film and Filmmaking in New Zealand** Arezou Zalipour 2019-01-01 This book is the first ever collection on diasporic screen production in New Zealand. Through contributions by a diverse range of local and international scholars, it identifies the central characteristics, histories, practices and trajectories of screen media made by and/or about migrant and diasporic peoples in New Zealand, including Asians, Pacific Islanders and other communities. It addresses issues pertinent to representation of migrant and diasporic life and experience on screen, and showcases critical dialogues with directors, scriptwriters, producers and other key figures whose work reflects experiences of migration, diaspora and multiculturalism in contemporary New Zealand. With a foreword by Hamid Naficy, the key theorist of accented cinema, this comprehensive collection addresses essential questions about migrant, multicultural and diasporic screen media, policies of representation, and the new aesthetic styles and production regimes emerging from New Zealand film and TV. *Migrant and Diasporic Film and Filmmaking in New Zealand* is a touchstone for emerging work concerned with migration, diaspora and multiculturalism in New Zealand's screen production and practice.

**Bidding for the Mainstream?** Barbara Korte 2021-07-26 This book looks at a sector of black and Asian British film and television as it presented itself in the 1990s and early 2000s. For this period, a 'mainstreaming' of black and Asian British film has been observed in criticism and theory and articulated by an increasing number of practitioners themselves, referring to changing modes of production, distribution and reception and implying a more popular and commercial orientation of certain media products. This idea is a leitmotif for the authors' readings of recent films and examples of television drama, including such diverse products as *Young Soul Rebels* and *Babymother*, *East Is East* and *Bend It Like Beckham*, *The Buddha of Suburbia* and *White Teeth*. These analyses are supplemented with a look at earlier landmark productions (like *Pressure*) as well as relevant social, institutional and aesthetic frameworks. The book closes with a selection of statements by black and Asian media practitioners who operate from within Britain's cultural industries: Mike Phillips, Horace Ov , Julian Henriques, Parminder Vir and Gurinder Chadha.

It was from observing my roommate and learning the secrets she used to attract White men that I was able to have a date every weekend with different White guys. And you can too. You see, the secrets Asian women know that cause them to win at swirling can be applied to Black women and work just as well. *Anti-Muslim Prejudice* Maleiha Malik 2013-09-13 This collection makes a unique contribution to the study of anti-Muslim prejudice by placing the issue in both its past and present context. The essays cover historical and contemporary subjects from the eleventh century to the present day. They examine the forms that anti-Muslim prejudice takes, the historical influences on these forms, and how they relate to other forms of prejudice such as racism, antisemitism or sexism, and indeed how anti-Muslim prejudice becomes institutionalized. This volume looks at anti-Muslim prejudice from a wide range of disciplinary perspectives, including politics, sociology, philosophy, history, international relations, law, cultural studies and comparative literature. The essays contribute to our understanding of the different levels at which anti-Muslim prejudice emerges and operates - the local, the national and the transnational - by also including case studies from a range of contexts including Britain, Europe and the US. This book contributes to a deeper understanding of contemporary political problems and controversial topics, such as issues that focus on Muslim women: the 'headscarf' debates, honour killings and forced marriages. There is also analysis of media bias in the representation of Muslims and Islam, and other urgent social and political issues such as the social exclusion of European Muslims and the political mobilisation against Islam by far-right parties. This book was published as a special issue of *Patterns of Prejudice*.

*Doubled Plots* Susan Strehle Mary Paniccia Carden 2009-09-28 In art, myth, and popular culture, romance is connected with the realm of emotions, private thought, and sentimentality. History, its counterpart, is the seemingly objective compendium of public fact. In theory, the two genres are

diametrically opposed, offering widely divergent views of human experience. In this collection of essays, however, the writers challenge these basic assumptions and consider the two as parallel and as reflections of each other. Looking closely at specific narratives, they argue that romance and history share expectations and purposes and create the metaphors that can either hold cultures and institutions together or drive them apart. The writers explore the internal contradictions of both genres, as seen in works in which the elements of both romance and history are present. The theme that flows throughout this collection is that romance literature and art frequently engage with or comment on actual historical events or histories. Included among the contributions are discussions of romance and race in James Fenimore Cooper's *The Last of the Mohicans*, the Rudolph Valentino film classic *The Sheik*, the series of English "Regency Romance" novels, the constructs of love and history in two of Alice McDermott's novels, and a feminist reading of African American women's historical romances. Moreover, the essays approach romance and history from a variety of critical and political perspectives and examine a wide selection of romances from the 1800s to contemporary times. They look at bestsellers and literary classics, at texts by and for white audiences, and at works created by writers on the margins of Western culture. The anthology is a radical approach to romance, a genre often dismissed as diversionary and reactionary. It explores how well this genre serves for critical examinations of history.

**Shortcomings** Adrian Tomine 2021-05-04 From the pre-eminent cartoonist of his generation, the most anticipated graphic novel of 2007

*Shortcomings*, Adrian Tomine's first long-form graphic novel, is the story of Ben Tanaka, a confused, obsessive, Japanese-American male in his late-twenties, and his cross-country search for contentment (or at least the perfect girl). Along the way, Tomine tackles modern culture, sexual mores, and racial politics with brutal honesty and lacerating, irreverent humor, while deftly bringing to life a cast of painfully real anti-hero characters. A frequent contributor to *The New Yorker*, Tomine has acquired a cult-like fan following and has earned a status as one of the most widely-acclaimed cartoonists of our time. *Shortcomings* was serialized in Tomine's iconic comic book series *Optic Nerve* and was excerpted in *McSweeney's Quarterly Concern* #13.

**White Man's Work** Joseph O. Jewell 2023-11-07 In the financial chaos of the last few decades, increasing wealth inequality has shaken people's expectations about middle-class stability. At the same time, demographers have predicted the "browning" of the nation's middle class—once considered a de facto "white" category—over the next twenty years as the country becomes increasingly racially diverse. In this book, Joseph O. Jewell takes us back to the turn of the twentieth century to show how evidence of middle-class mobility among Black, Mexican American, and Chinese men generated both new anxieties and varieties of backlash among white populations. Blending cultural history and historical sociology, Jewell chronicles the continually evolving narratives that linked whiteness with middle-class mobility and middle-class manhood. In doing so, Jewell addresses a key issue in the historical sociology of race: how racialized groups demarcate, defend, and alter social positions in overlapping hierarchies of race, class, and gender. New racist narratives about non-white men occupying middle-class occupations emerged in cities across the nation at the turn of the century. These stories helped to shore up white supremacy in the face of far-reaching changes to the nation's racialized economic order.

**Asian American Sexual Politics** Rosalind S. Chou 2012-06-07 *Asian American Sexual Politics* explores the topics of beauty, self-esteem, and sexual attraction among Asian Americans. The book draws on sixty in-depth interviews to show how constructions of Asian American gender and sexuality tend to reinforce the social and political dominance for whites, particularly white males, even in the supposed "post-racial" United States. Drawing on established scholarship on the intersection of race, gender, and sexuality, *Asian American Sexual Politics* shows how power dynamics shape the lives of young Asian Americans today. Asian American women are often constructed as hyper-sexual docile bodies, while Asian American men are often racially "castrated." The book's interview excerpts show the range of frames through which Asian Americans approach the world, as well as the counter-frames they construct. In the final chapter, author Rosalind S. Chou offers strategies for countering racialized and sexualized oppression. This provocative book shows how persistent racism affects Asian American body image, self-esteem, and intimate relationships.

*The Hypersexuality of Race* Celine Parreñas Shimizu 2007-07-30 A study of the Asian woman as sexual icon in visual culture.

*Fade to Black and White* Erica Chito Childs 2009-06-16 There is no teasing apart what interracial couples think of themselves from what society shows them about themselves. Following on her earlier ground-breaking study of the social worlds of interracial couples, Erica Chito Childs considers the larger context of social messages, conveyed by the media, that inform how we think about love across the color line. Examining a range of media, from movies to music to the web, *Fade to Black and White* offers an informative and provocative account of how the perception of interracial sexuality as "deviant" has been transformed in the course of the 20th century and how race relations are understood today.

**Kissing Outside the Lines** Diane Farr 2011-05-10 Relates the author's experiences with her interracial marriage, describing the social and cultural issues she faced while dating and subsequently marrying her South Korean husband.

**Multifaceted Identity of Interethnic Young People** Dr Sultana Choudhry 2012-12-28 The number of interethnic individuals is one of the most striking demographic changes in Britain over the last decade. Demonstrating both that identity is fluid and multifaceted rather than fixed, and that people of Asian, Black, Chinese and White interethnic backgrounds do not necessarily experience identity conflict as proposed by some social scientists, *Multifaceted Identity of Interethnic Young People* explores the manner in which interethnic young people define their identities. In doing so, it also looks at their parents and their experiences as interethnic couples in society. Presenting rich new empirical information relating to young people of Black, White, Asian and Chinese interethnic backgrounds, this book also examines the impact that inter-religious relationships have upon young people's sense of identity, whilst also discussing the implications of the election of America's first interethnic president. As such, it will be of interest to social scientists working in the fields of race, ethnicity and identity.

*Women and the Economy: A Reader* Ellen Mutari 2015-03-26 This reader is designed for use as a primary or supplementary text for courses on women's role in the economy. **Black Men in Interracial Relationships** Kellina Craig-Henderson 2017-07-28 Why is it that successful black men--black men who are "at the top of their game" in the arts, entertainment, politics and athletics--are four times as apt to be married to or dating a woman who is not an African American than they were only thirty years ago? And why are twice as many black men involved in interracial relationships as black women? In addition to their celebrity status, which includes widespread popularity and wealth, black men from Charles Barkley to James Earl Jones to Russell Simmons to Bryant Gumbel share something else in common; something that also characterizes the experiences of more than 250,000 less well-known black men in the United States. They happen to be involved in interracial intimate relationships. Less than fifty years ago such relationships were next to impossible, leading to severe social sanctions. The fact that this is no longer the case is concrete evidence of changes in the quality and character of contemporary race relations. Drawing on her own observations, and her examination of the responses of a small, diverse group of black men who date (in some cases exclusively), have sexual relations with, and marry women who are not of African descent, the book provides insight

into the continuing ways that race and ethnic status affect the choices people make in their lives. Until this book, though, these types of relationships have received scant serious attention. Craig-Henderson forthrightly addresses the taboo, interspersing analysis with verbatim accounts from black men involved in such relationships. Grounded in serious research, interviews, and analysis of census data, *Black Men in Interracial Relationships* examines why such relationships appear to be so popular among black male elites. In the process, the author unravels the mystery behind the apparent absence of black women in black men's lives. It will be of interest to specialists in race, gender, family, and sexual issues, and appropriate for courses in these areas. It is also highly readable and thought-provoking for the general public, who will find its observations and findings fascinating.

***Black Men in Interracial Relationships*** Kellina M. ***Culturally Responsive Counseling with Asian American Men*** William Ming Liu 2011-01-19 Asian American men represent a complex group with distinct psychological and mental health concerns, yet the current counseling literature is lacking in resources for clinicians working with this population. The purpose of this text is to provide practitioners with a comprehensive overview of the current research and theory related to the important and unique issues that Asian American men experience. It offers clinicians culturally-responsive, practical counseling techniques and strategies to help inform them on how to work effectively with this group. Chapters are written by leading figures in the field and explore such topics as intergenerational conflict, racism, challenges associated with masculinity and fatherhood, sexual orientation identity development, substance abuse, and career counseling. Numerous clinical vignettes and case conceptualizations are included to assist clinicians who work with Asian American men and to demonstrate appropriate treatment responses.

***Chinese America*** Birgit Zinzius 2005 *Chinese America - Stereotype and Reality* is a comprehensive and fascinating textbook about the Chinese in America. Covering more than 150 years of history, the book documents the increasing importance of the Chinese as a social group: from immigration history to the latest immigration legislation, from educational achievements to socio-cultural and political accomplishments. Employing the author's detailed knowledge of the Chinese Diaspora, combined with her meticulous research, the book explores the history, diversity, socio-cultural structures, networks, and achievements of this often-overlooked ethnicity. It highlights how, based on their current position, Chinese Americans are well-placed to play a major role in future relations between China and the United States - the two largest economies of the twenty-first century.

***Biracial Families*** Roudi Nazarinia Roy 2018-12-12 This interdisciplinary volume surveys the diverse experiences of biracial families, both across and outside the black/white binary. The book examines the deep-rooted social contexts that inform the lifespan of interracial families, from dating and marriage through the stages of parenthood, as well as families' unique responses and realities. Through a variety of structures and settings including blended and adoptive families, contributors describe families' strengths and resilience in meeting multiple personal and larger social challenges. The intricacies of parenting and family development are also revealed as an ongoing learning process as parents and children construct identity, culture, and meaning. Among the topics covered: Social constitutionality of race in America: some meanings for biracial/multiracial families. Interracial marriages: historical and contemporary trends. Racial socialization: a developmental perspective. Biracial families formed through adoption. Diverse family structures within biracial families. Racial identity: choices, context, and consequences. Addressing lingering gaps in the existing literature and highlighting areas for future study, *Biracial Families* gives readers a fuller understanding of a growing and diversifying population. Its depth and breadth of coverage makes the book an invaluable reference not only for practitioners and researchers, but also for educators and interracial families across the spectrum.

***Microaggressions and Modern Racism*** Charisse C. Levchak 2018-02-28 *Microaggressions and Modern Racism: Endurance and Evolution* explores the causes, manifestations, and consequences of microaggressions, macroaggressions, and modern racism within society. Using surveys and interview data alongside examples in mainstream media, Levchak provides a comprehensive analysis of modern racism on college campuses, in workplaces, and in various media. In so doing, she expands microaggression theory and explores race-based aggression and race relations through sociological and social justice frameworks. The resources offered here have the potential to inform anti-racism policy, programming, and practice that can impact the lives and well-being of all people.

***Cultural Migrants from Japan*** Yuiko Fujita 2009-05-16 In recent years, a large number of young Japanese have been migrating to New York and London for the purpose of engaging in cultural production in areas such as dance, fashion, DJing, film, and pop arts in the hope of 'making it' as artists. In the past, this kind of cultural migration was restricted to relatively small, elite groups, such as American artists in Paris in the 1920's, but *Cultural Migrants from Japan* looks at the phenomenon of tens of thousands of ordinary, middle-class Japanese youths who are moving to these cities for cultural purposes, and it questions how this shift in cultural migration can be explained. Following Appadurai's theory of the relation between electronic media and mass migration, and using ethnographies of twenty-two young migrants over a five year period, Fujita examines how television, film, and the internet influence this mobility. She challenges emerging orthodoxies in the general discussion of transnationalism, demonstrating the disjunction migrants experience between the pre-existing expectations created by media exposure, and the reality of creating and living as a 'transnational' artist participating in a global community. Intersecting long-term, multi-sited ethnography with emerging transnational and globalization theory, *Cultural Migrants from Japan* is a timely look at the emerging shift in concepts of national identity and migration.

***Clinical Issues with Interracial Couples*** Volker Thomas 2014-02-25 Go beyond cookie-cutter therapy and interventions to provide culturally relevant therapy that works for your clients in interracial relationships! With this book, you'll explore an array of relational issues faced by various configurations of interracial couples. Then you'll learn specific intervention strategies for treating these couples in therapy. The first section presents research and theoretical chapters on issues faced by interracial couples who are heterosexual; the second focuses on issues facing racially mixed gay and lesbian couples; and the third provides you with specific interventions to use with couples in interracial relationships. *Clinical Issues with Interracial Couples: Theories and Research* is an important addition to the collection of any therapist who counts an interracial couple among his or her clients. From the editors: "Although interracial couples face challenges related to differences in their racial backgrounds, couple and family theories have had little to say about how to work with these differences. Not all couples are white, married, and heterosexual, and there is a growing understanding that clinical practices based on these assumptions may not be adequate when working with interracial couples. Recognizing the diversity of our clients, the intent of this book is to contribute to more respectful and inclusive clinical practices that can address the treatment issues we face in the first decade of the twenty-first century." The first section of this book examines challenges faced by heterosexual interracial couples, focusing on: how black/white couples experience and respond to racism and how they negotiate the racial and ethnic differences they face in their relationships the significance of race—or lack of it—in white women's relationships with black men, with suggestions on how to create a therapeutic space for discussing race without over-determining its significance marriages where one partner is of Latino/a descent and the other of non-Latino/a white descent—a pilot study of a rarely investigated population! approaches, interventions, and strategies to use when treating multicultural Muslim couples Hawaii's unusual history of interracial ties and relationships, the common challenges that face interracial couples there, and therapeutic interventions that can benefit them The second section of *Clinical Issues with Interracial Couples* looks at the issues faced by same-sex interracial couples. Here is a sample of what you'll find: clinical considerations for working with interracial/intercultural lesbian couples pitfalls to avoid in therapy as well as suggestions for a conceptual approach for gay Latino men in cross-cultural relationships The book's final section presents interventions for use with interracial couples. Here you'll find: assessment techniques and interventions geared toward black-white couples information on doing effective therapy with Latino/a-white couples a case study of the therapeutic process as applied to an Asian-American woman married to a white man seven therapists' perspectives on working with interracial couples—focusing on the historical context of intermarriage,

specific concerns and issues that interracial couples experience in their relationships, and the experiences of therapists working with this diverse and challenging client population

**Affirmative Action at Work** Bron Raymond Taylor 1991-10-15 Bron Taylor unites theoretical and applied social science to analyze a salient contemporary moral and political problem. Three decades after the passage of civil rights laws, criteria for hiring and promotion to redress past discrimination and the sensitive "quota" question are still unresolved issues. Taylor reviews the works of prominent social scientists and philosophers on the moral and legal principles underlying affirmative action, and examines them in light of his own empirical study. Using participant observation, in-depth interviewing, and a detailed questionnaire, he examines the attitudes of four groups in the California Department of Parks and Recreation: male and female, white and nonwhite workers. Because the department has implemented a strong program for ten years, its employees have had firsthand experience with affirmative action. Their views about the rights of minorities in the economy are often surprising. This work presents a comprehensive picture of the cross-pressures—the racial fears and antagonisms, the moral, ethical, and religious views about fairness and opportunity, the rigid ideas that guide popular attitudes.

**The Ethics and Poetics of Alterity in Asian American Poetry** Xiaojing Zhou 2006-05-01 Poetry by Asian American writers has had a significant impact on the landscape of contemporary American poetry, and a book-length critical treatment of Asian American poetry is long overdue. In this groundbreaking book, Xiaojing Zhou demonstrates how many Asian American poets transform the conventional "I" of lyric poetry—based on the traditional Western concept of the self and the Cartesian "I"—to enact a more ethical relationship between the "I" and its others. Drawing on Emmanuel Levinas's idea of the ethics of alterity—which argues that an ethical relation to the other is one that acknowledges the irreducibility of otherness—Zhou offers a reconceptualization of both self and other. Taking difference as a source of creativity and turning it into a form of resistance and a critical intervention, Asian American poets engage with broader issues than the merely poetic. They confront social injustice against the other and call critical attention to a concept of otherness which differs fundamentally from that underlying racism, sexism, and colonialism. By locating the ethical and political questions of otherness in language, discourse, aesthetics, and everyday encounters, Asian American poets help advance critical studies in race, gender, and popular culture as well as in poetry. The Ethics and Poetics of Alterity is not limited, however, to literary studies: it is an invaluable response to the questions raised by increasingly globalized encounters across many kinds of boundaries. The Poets Marilyn Chin, Kimiko Hahn, Myung Mi Kim, Li Young Lee, Timothy Liu, David Mura, and John Yau

**Asian American Women and Men** Yen Le Espiritu 1997 What is the "Asian American experience"? What role does gender play within that experience? How do race and economics factor in? Asian American women and men answers these questions and examines how Asian American culture is shaped by a variety of forces. This groundbreaking volume in the new Gender lens series is among the first to explore the Asian experience from a gendered perspective. Author Yen Le Espiritu documents how the historical and contemporary oppression of Asian Americans has structured gender relationships among them and has contributed to the creation of social institutions and systems of meaning. In so doing, she illustrates how race, class, and gender do not merely run parallel to each another, but rather intersect and confirm one another. Some of the topics discussed include Asian Americans and immigration, labor recruitment, education, relationships, and stereotypes. Asian American women and men has an exceptionally broad audience including students and professionals in gender studies, Asian American studies, race and ethnicity studies, sociology, political science, anthropology, and American studies.

**Working Girls in the West** Lindsey McMaster 2008-07-01 As the twentieth century got under way in Canada, young wage-earning women "working girls" embodied all that was unnerving and unnatural about modern times: the disintegration of the family, the independence of women, and the unwholesomeness of city life. Long after eastern Canada was considered settled and urbanized, the West continued to be represented as a frontier where the idea of the region as a society in the making added resonance to the idea of the working girl as social pioneer. Using an innovative interpretive approach that centres on literary representation, Lindsey McMaster heightens our understanding of a figure that fired the imagination of writers and observers.

**Geisha of a Different Kind** C. Winter Han 2015-05-08 In gay bars and nightclubs across America, and in gay-oriented magazines and media, the buff, macho, white gay man is exalted as the ideal—the most attractive, the most wanted, and the most emulated type of man. For gay Asian American men, often viewed by their peers as submissive or too 'pretty,' being sidelined in the gay community is only the latest in a long line of racially-motivated offenses they face in the United States. Repeatedly marginalized by both the white-centric queer community that values a hyper-masculine sexuality and a homophobic Asian American community that often privileges masculine heterosexuality, gay Asian American men largely have been silenced and alienated in present-day culture and society. In *Geisha of a Different Kind*, C. Winter Han travels from West Coast Asian drag shows to the internationally sought-after Thai kathoey, or "ladyboy," to construct a theory of queerness that is inclusive of the race and gender particularities of the gay Asian male experience in the United States. Through ethnographic observation of queer Asian American communities and Asian American drag shows, interviews with gay Asian American men, and a reading of current media and popular culture depictions of Asian Americans, Han argues that gay Asian American men, used to gender privilege within their own communities, must grapple with the idea that, as Asians, they have historically been feminized as a result of Western domination and colonization, and as a result, they are minorities within the gay community, which is itself marginalized within the overall American society. Han also shows that many Asian American gay men can turn their unusual position in the gay and Asian American communities into a positive identity. In their own conception of self, their Asian heritage and sexuality makes these men unique, special, and, in the case of Asian American drag queens, much more able to convey a convincing erotic femininity. Challenging stereotypes about beauty, nativity, and desirability, *Geisha of a Different Kind* makes a major intervention in the study of race and sexuality in America.
