Don't Get Angry - Howard X. Geoghegan

2003-09-19

Convinced there is a connection between Middle East narcotics, and gun smuggling in Northern Ireland, US Treasury Agent Frank Donovan is instructed to meet police officials in Belfast and Dublin. He subsequently returns to Washington, only to find his car and apartment bombed and destroyed. [The End of Outrage](#) - Breandán Mac Suibhne

2017

This work tells the absorbing story of post-

famine Donegal, the Molly Maguires - a secret society who had set themselves up against the exploitation of the rural poor - and Patrick McGlynn - an avaricious schoolmaster who turned informer on them, availing of hunger, disease, debt, hardship, and death to expand his holding at the expense of his neighbours
Wabash Lass - Gertrude E. Luce 2009-09-02
This story takes place in the early 1900's, on a farm near the Wabash River in northeastern Indiana. Gertie and her older brother, Bruce, are called upon to help around the farm and the house. They also find time to have adventures, some a bit dangerous. Travel back to a time when foods were canned at home, butter made in a churn, eggs collected warm from under the

hens and food kept cold in water in a pit under the well house. Join them as they ride in the family's new Model T, learn to bake a cake, attend the Bluffton Street Fair and travel with their family to Eastern Pennsylvania on a train. This book gives a look at a close family in which the members care about each other and sit down to meals together.

Blokes in Donegal - John Martin 2020-01-08

Three old men get more than they bargained for when they fly to Ireland, expecting to trace family history and inherit a castle. St Patrick might have been so busy chasing snakes out of the Emerald Isle that he overlooked banishing Tasmanian Tigers from Donegal. This might explain how one ends up under the kitchen sink

in Book 4 of the Windy Mountain series of novels.

The Second Hill - Jon Gegenheimer 2011-06-17
The Second Hill is a historical, futuristic novel that takes the reader from September 11, 2001 to June 7, 2043. The settings are Washington, D.C., London, San Francisco, New Orleans, Manhattan, and Paris. The unusual tale begins on that infamous day when terrorism reached Americas shore and ends almost forty-two years later with a startling revelation about the Creators reaction to (1) the carnage of 9/11 and (2) the evil that caused it. The Second Hill examines the eternal conflicts between good and evil, theism and atheism, moral absolutism and moral relativism, individualism and collectivism, capitalism and socialism, and honesty and deceit conflicts that, in the final analysis, are about the same thing. The main characters speak and behave much unlike ordinary people. That is as it should be; extraordinary individuals do not carry on in ordinary fashion. The protagonists

are uncommonly intellectual, but they are by no means elitist. They are not of the intelligentsia. Though danger and death continually threaten them, Christa Joyner, Jack Joyner, Alan John, and their cohorts never cower. They are as valiant as they are brilliant. They are as fearless as they are pure. The Second Hill is atypical of fiction in that it contains copious historical and expository endnotes. Endnotes are requisite here because the narrative is grounded in history, and explanation is absolutely necessary to help the reader understand the philosophical, theological, and political aspects of the plot. Essentially, The Second Hill is about Western civilization, Western values, and Western heroes. Hopefully, it will cause most of those who peruse its pages to think deeply about where the world is and where it most certainly will wind up if it continues down the slippery slope of relativism. Many will see this compelling novel as a conservative manifesto. That is what it is.

THE DEMONS OF DISCORD - Kenneth R Dodds
2014-02

Jamie Vance, a Presbyterian married to a Catholic girl, plays a leading part in Donegal Unionism. His fiercest enemy is Diamuid O'Mara, a hard-bitten IRA fighter. The novel details assassination, murder, bombings, arson, and conspiracies in Ireland and England. Amid this disorder, the strained relationship between Jamie and his wife, Caitlin, and his obsession with an Anglo-Irishwoman is played out. Diarmuid develops a passionate relationship with a young Dublin girl and then a tough fellow IRA activist, Máire. During World War II, the two strands of Unionism and Republicanism clash head-on in a deadly struggle and reach an explosive climax in the Fermanagh Lakelands over a critically important Allied base in the forefront of the war against Nazi control of the Atlantic.
