30 Over 40 Holly O. Brien 2011-05 Holly O'Brien began her fitness career in her early 20's in several fitness clubs, worked with pro ball players then gave it up for stunt work in film. She later migrated her entertainment career into behind the scenes technical operations in television broadcasting, post production and animation. That was until one day while managing a video-on-demand control room arguing over the picture quality of a movie she had an epiphany; why was she doing that which would only keep people on the couch? She wanted people to get off the couch and go exercise and she realized her own career certainly wasn't helping. After careful review of the challenges involved she gave up her 23 year entertainment career and re-certified her pedigrees with International Sports Sciences Association, teamed up as a coach for a Fitness Boot Camp and took on a roster of private clients only to discover what seemed to be a unilateral problem. Folks were stuck, really stuck and she was more stunned by why. She decided to approach a fix from a very different angle; one that folks could do on their own. A Fitness Guide written with a light hearted spirit to assist folks who wish to train themselves. A guide that covers free weights, aerobics, understanding your own metabolic rate, utilizing food for fitness and tackles the continually frustrating mission of how to lose stored body fat. It's fun, fast with plenty of tools to create your own program, lose stored body fat and pursue a sport or two. As a labor of love she hopes you'll drag this book around with you and use it often to assist with clearing up the confusion, inspire new activities where they may not be any, bury old frustrations forever and have some fun along the way.

The Soulmate Equation Christina Lauren 2021-05-18 The New York Times bestselling author of *The Unhoneymooners* returns with a witty and effervescent novel about what happens when two people with everything on the line are thrown together by science—or is it fate? Perfect for fans of *The Rosie Project* and *One Plus One*. Single mom Jess Davis is a data and statistics wizard, but no amount of number crunching can convince her to step back into the dating world. Raised by her grandparents—who now help raise her seven-year-old daughter, Juno—Jess has been left behind too often to feel comfortable letting anyone in. After all, her father's never been around, her hard-partying mother disappeared when she was six, and her ex decided he wasn't "father material" before Juno was even born. Jess holds her loved ones close, but working constantly to stay afloat is hard...and lonely. But then Jess hears about GeneticAlly, a buzzy new DNA-based matchmaking company that's predicted to change dating forever. Finding a soulmate through DNA? The reliability of numbers: This Jess understands. At least she thought she did, until her test shows an unheard-of 98% compatibility with another subject in the database: GeneticAlly's founder, Dr. River Pena. This is one number she can't wrap her head around, because she already knows Dr. Pena. The stuck-up, stubborn man is without a doubt not her soulmate. But GeneticAlly has a proposition: Get to know him and we'll pay you. Jess—who is barely making ends meet—is in no position to turn it down, despite her skepticism about the project and her dislike for River. As the pair are dragged from one event to the next as the "Diamond" pairing that could make GeneticAlly a mint in stock prices, Jess begins to realize that there might be more to the scientist—and the science behind a soulmate—than she thought. Funny, warm, and full of heart, *The Soulmate Equation* proves that the delicate balance between fate and choice can never be calculated.
