

Homosexual Act Actors Identities

Making Sense of Pain: Critical and Interdisciplinary Perspectives - Jane Fernandez
2020-05-18

This conference proceeding provides an attempt to extend the conversation on pain; the boundaries of the word pain are characteristically blurred by connotations of suffering and trauma. The variety of papers in this collection transgress these boundaries knowingly, inviting a more expansive rather than narrow definition of pain.

Toward Equity in Health - Barbara C. Wallace, PhD 2007-11-26

This essential collection presents a state-of-the-art framework for how workers in public health and related disciplines should conceptualize health disparities and how they should be addressed worldwide. The contributors, who are leading public health professionals, educators, and practitioners in complimentary fields advance new evidence-based models designed to mobilize and educate the next generation of research and practice. The resulting chapters articulate new theory, procedures, and policies; the legacy of racism; community-based participatory research; new internet technology; training community workers and educators; closing the education and health gap; and addressing the needs of special populations.

Toward Equity in Health is an essential book for all who are working toward global health equity-whether in health education, health promotion, disease prevention, public health, the health care delivery system, or patient- and population level health.

The Course of Gay and Lesbian Lives - Bertram J. Cohler 2000-08

The authors argue that there is little support for assuming that homosexuality has a biological basis. Recognizing the many pathways that lead to same-gender sexual orientation, the authors conclude that the cause is much less important than understanding the meaning of being homosexual.

Homosexual Acts, Actors, and Identities - Lon G.

Nungesser 1983

In a purely biological sense, there is no such thing as a homosexual, simply homosexual acts and actors. Sexual preference is rooted not in genetics but rather in the social, psychological, and political context in which we live, and is derived mainly from how we perceive ourselves and those around us.

Stigma and Sexual Orientation - Society for the Psychological Study of Lesbian and Gay Issues 1998

Sponsored by the Society for the Psychological Study of Lesbian and Gay Issues, Division 44 of the American Psychological Association.

Queer Youth Suicide, Culture and Identity - Rob Cover 2016-05-23

Despite increasing tolerance, legal protections against homophobia, and anti-discrimination policies throughout much of the western world, suicide attempts by queer youth remain relatively high. For over twenty years, research into queer youth suicide has debated reasons and risks, although it has also often reiterated assumptions about sexual identity and youth vulnerability. Understanding the cultural context in which suicide becomes a necessary escape from living an unliveable life is the key to queer youth suicide prevention. This book uses cultural theory to outline some of the ways in which queer youth suicide is perceived in popular culture, media and research. It highlights how the ways in which we think about queer youth suicide have changed over time and some of the benefits and limitations of current thinking on the topic. Focusing on identity, *Queer Youth Suicide, Culture and Identity* also investigates why queer young men continue to attempt suicide. Drawing on approaches from queer theory, cultural studies and sociology, it explores how sexual identity formation, sexual shame and discrepancies in community belonging and exclusions are implicated in the reasons why some queer youth are resilient while others are vulnerable and at risk of suicide. As such, it will appeal to scholars of sociology, media studies,

queer theory and social theory with interests in youth, gender and sexuality, and suicidology.

Deviance and Identity - John Lofland
2002-12-31

The sociology of deviance was in its heyday when Prentice-Hall published this book in 1969. John Lofland traces the field from pre-World War II to the late sixties and pioneers the application of "grounded theory" to the study of deviant behavior. In his new prologue, Joel Best writes, "More than thirty years after the book first appeared, we have no better synthesis of the labeling approach."

Hate Crimes - Gregory M. Herek 1992

Although victimization of lesbians and gay men is not a new problem, its severity appears to be increasing. After several decades of denial and neglect, the problem of anti-gay violence has begun to receive some measure of societal recognition and response. Not only the lesbian and gay male communit.

Psychological Perspectives on Lesbian, Gay, and Bisexual Experiences - Linda Garnets 2003

This book provides an overview of current thought about the psychological issues affecting lesbians, bisexuals, and gay men.

Not in Front of the Audience - Nicholas de Jongh
1992-03-26

First published in 1992. Routledge is an imprint of Taylor & Francis, an informa company.

At the Edge of Being: The Aporia of Pain - Heather McKenzie 2020-10-12

The Triumphant Juan Rana - Peter E. Thompson
2006-01-01

In *The Triumphant Juan Rana*, Peter E. Thompson examines the actor's sexuality both on and off the stage and demonstrates that his homosexuality was tolerated, even understood and applauded, by the public.

The Health of Sexual Minorities - Ilan H. Meyer 2007-03-12

This is the first concise handbook on Lesbian, Gay, Bisexual and Transgender (LGBT) health in the past few years. It breaks the myths, breaks the silence, and breaks new ground on this subject. This resource offers a multidimensional picture of LGBT health across clinical and social disciplines to give readers a full and nuanced understanding of these diverse populations. It contains real-world matters of definition and

self-definition, meticulous analyses of stressor and health outcomes, a extensive coverage of research methodology concerns, and critical insights into the sociopolitical context of LGBT individuals' health and lives.

Hate Crimes - Kevin Berrill 1991

Invisible Families - Mignon Moore 2011-10-17
Mignon R. Moore brings to light the family life of a group that has been largely invisible—gay women of color—in a book that challenges long-standing ideas about racial identity, family formation, and motherhood. Drawing from interviews and surveys of one hundred black gay women in New York City, *Invisible Families* explores the ways that race and class have influenced how these women understand their sexual orientation, find partners, and form families. In particular, the study looks at the ways in which the past experiences of women who came of age in the 1960s and 1970s shape their thinking, and have structured their lives in communities that are not always accepting of their openly gay status. Overturning generalizations about lesbian families derived largely from research focused on white, middle-class feminists, *Invisible Families* reveals experiences within black American and Caribbean communities as it asks how people with multiple stigmatized identities imagine and construct an individual and collective sense of self.

Encyclopedia of Homosexuality - Wayne R. Dynes 2016-03-22

First published in 1990, *The Encyclopedia of Homosexuality* brings together a collection of outstanding articles that were, at the time of this book's original publication, classic, pioneering, and recent. Together, the two volumes provide scholarship on male and female homosexuality and bisexuality, and, reaching beyond questions of physical sexuality, they examine the effects of homophilia and homophobia on literature, art, religion, science, law, philosophy, society, and history. Many of the writings were considered to be controversial, and often contradictory, at that time, and refer to issues and difficulties that still exist today. This volume contains entries from M-Z.

Acting Out - Lynda Hart 1993

Both a critical account of contemporary feminist
Downloaded from
legacy.opendemocracy.net on 2021-05-02

performance and illustration of its depth and diversity, *Acting Out* is essential reading for anyone interested in feminist theory, sexual difference, queer theory, or the politics of contemporary performance. Contributors include Philip Auslander, C. Carr, Kate Davy, Joyce Devlin, Elin Diamond, Jill Dolan, Hillary Harris, Lynda Hart, Lynda M. Hill, Julie Malnig, Vivian M. Patraka, Peggy Phelan, Janelle Reinelt, Sandra L. Richards, Amy Robinson, Judy C. Rosenthal, Rebecca Schneider, Raewyn Whyte, and Yvonne Yarbro-Bejarano.

The Homosexual(ity) of law - Leslie Moran
2002-11-01

First published in 1996. Routledge is an imprint of Taylor & Francis, an informa company.

Social Perspectives in Lesbian and Gay Studies - Peter M. Nardi 2013-09-13

This comprehensive reader brings a social science perspective to an area hitherto dominated by the humanities. Through it, students will be able to follow the story of how sociology has come to engage with gay and lesbian issues from the 1950s to the present, from the earliest research on the underground worlds of gay men to the emergence of queer theory in the 1990s. Bringing together classic readings and the best work of younger scholars from all parts of the English-speaking world, this reader will be an invaluable resource for courses at undergraduate and graduate level in all areas of the sociology of sexuality and gender.

Separate sections cover: * theoretical foundations * identity and community making * institutions and social change * challenges for the future. Each section begins with an

introduction giving readers a brief guide to the readings in that section, contextualises them and relates them to one another and the book ends with an afterword by Ken Plummer summing up the present state of play and looking forward to the future.

The Lesbian and Gay Movement and the State - David Paternotte 2016-03-03

By analyzing the relationship between lesbian and gay movements and the state, this groundbreaking book addresses two interconnected issues: to what extent is the lesbian and gay movement influenced by the state and, to a lesser extent, whether the lesbian and gay movement has somehow influenced the state, for instance by altering forms of sexual regulation. Given the diversity in national trajectories, this book covers fifteen countries. This enables the volume to shed light on different kinds of relationships between these groups and the state, as well as on the way they have evolved in recent decades. *The Lesbian and Gay Movement and the State: Comparative Insights into a Transformed Relationship* fills an important gap in the literature on lesbian and gay activism. However, this book also provides important and innovative insights into broader issues in international political science, public policy and comparative politics, as well as issues in social movement studies. These include the role of the state in constructing citizen identities, the heteronormative way in which many traditional citizen entitlements and benefits were constructed, state - civil society relations, judicial activism, the impact of federalism, and the increasing globalization of sexual identities.
