Is your relationship going completely different from the way you want it to be? Have you been unhappy for a long time and finally want to change your situation? Then this guide is exactly what you need! A relationship crisis is not the end of a relationship. You can still save your relationship with this book if you have the will. Your own attitude is as important as the techniques I will give you in this book. If you don't feel the urge to change something inside, you shouldn't force it. In this book we will first look at the typical causes of a relationship crisis. This will be the basis for moving forward and saving our own relationship in real life. If we do not know the causes of our problem, we cannot treat it. In retrospect we will go deeper into the

matter and look at the different techniques with which you can quickly and easily save your relationship. Take as much time as you need to read it. In many cases it can be helpful to read through a chapter a second time instead of just skimming it once. This way you can make sure that you really understand it and take most of it with you. Notes on specific topics can also be particularly helpful while reading. Especially if you feel you are missing something important, you should take notes while reading so that you can use it in practice afterwards. It won't help you if you understand everything in theory, but you are unable to apply it.

Woodson Merrell, M.D., Chairman of the Department of Integrative Medicine at Beth Israel Medical Center. Although stress impacts everyone, men are particularly vulnerable. According to social scientist Dr. Thomas Joiner, "Males experience higher mortality rates than females at all stages of life from conception to old age." Diamond, best-selling author of *Surviving Male Menopause* and the *Irritable Male Syndrome*, teaches men and women four simple, yet effective, practices that can be used to prevent stress-related problems all of us face in this fast-paced, often chaotic world. In Part I of the book, Diamond describes the hazards and blessings of being male, why perpetual stress is deadly, the science behind energy healing, and "the ultimate power tool" for guys who want their lives to work. In Part II, he details the four energy healing tools Diamond believes to be the most effective and scientifically sound: Earthing, Heart-Coherence, Attachment Love, and Emotional Freedom Techniques (EFT). In Part

III, he applies the tools to the most pressing problems men face today including: Irritable Male Syndrome (IMS), male-type depression, chronic pain, sexual dysfunction and loss of desire, Andropause (male menopause) and age-related issues, and the stresses related to our economic and ecological transition. Both men and women will be interested in getting answers to the following questions: Is Irritable Male Syndrome (IMS) undermining your health and relationship? How can you treat depression without talk therapy or drugs? Which simple Energy Healing Tool can you use to relieve shoulder, neck, and back pain? What are the best tools for reducing inflammation and improving sleep? How can you keep Andropause (male menopause) from ruining your sex life? Could you and your partner be going through "double menopause?" Why do men frighten women and why do women shame men? Which tools should you use to best insure that a relationship lasts a lifetime? This is How Your Marriage Ends - Matthew Fray 2022-03-31

'The man who coaches husbands on how to avoid divorce' The New York Times 'One husband's confession you might be tempted to hand to your other half next time he does something infuriating' Daily Mail 'Could genuinely help save a few rocky marriages' Literary Review One night during his divorce, after one too many vodkas and a phone-in-therapist's advice to 'journal his feelings,' Matthew Fray started a blog. As he tried to piece together how his ex-wife went from adoring to angry he realised that even though he was a decent guy, he was kind of a bad husband. From the raw, uncomfortable and darkly humorous stories he shared about the lessons he's learned from his failed marriage

comes this strangely hopeful guide to saving relationships. This is How Your Marriage Ends offers immediately actionable advice to help readers identify toxic behaviour patterns in their own lives, and break them out of the cycles of dysfunction that ruin relationships. This is a must-read for people in any stage of a relationship, whether it's near the beginning or nearing the end. Good people can be bad partners - here's how to ensure that isn't you.
