The Charisma Myth Olivia Fox Cabane 2013-03-26 What if charisma could be taught? The charisma myth is the idea that charisma is a fundamental, inborn quality—you either have it (Bill Clinton, Steve Jobs, Oprah) or you don't. But that's simply not true, as Olivia Fox Cabane reveals. Charismatic behaviors can be learned and perfected by anyone. Drawing on techniques she originally developed for Harvard and MIT, Cabane breaks charisma down into its components. Becoming more charismatic doesn't mean transforming your fundamental personality. It's about adopting a series of specific practices that fit in with the personality you already have. The Charisma Myth shows you how to become more influential, more persuasive, and more inspiring.

I Am Malala Malala Yousafzai 2014-11-13 *Winner of the 2014 Nobel Peace Prize* In 2009 Malala Yousafzai began writing a blog on BBC Urdu about life in the Swat Valley as the Taliban gained control, at times banning girls from attending school. When her identity was discovered, Malala began to appear in both Pakistani and international media, advocating the freedom to pursue education for all. In October 2012, gunmen boarded Malala's school bus and shot her in the face, a bullet passing through her head and into her shoulder. Remarkably, Malala survived the shooting. At a very young age, Malala Yousafzai has become a worldwide symbol of courage and hope. Her shooting has sparked a wave of solidarity across Pakistan, not to mention globally, for the right to education, freedom from terror and female emancipation.

What Works in Girls' Education Gene B Sperling 2015-09-29 Hard-headed evidence on why the returns from investing in girls are so high that no nation or family can afford not to educate their girls. Gene Sperling, author of the seminal 2004 report published by the Council on Foreign Relations, and Rebecca Winthrop, director of the Center for Universal Education, have written this definitive book on the importance of girls' education. As Malala Yousafzai expresses in her foreword, the idea that any child could be denied an education due to poverty, custom, the law, or terrorist threats is just wrong and unimaginable. More than 1,000 studies have provided evidence that high-quality girls' education around the world leads to wide-ranging returns: Better outcomes in economic areas of growth and incomes Reduced rates of infant and maternal mortality Reduced rates of child marriage Reduced rates of the incidence of HIV/AIDS and malaria Increased agricultural productivity Increased resilience to natural disasters Women's empowerment What Works in Girls' Education is a compelling work for both concerned global citizens, and any academic, expert, nongovernmental organization (NGO) staff member, policymaker, or journalist seeking to dive into the evidence and policies on girls' education.

Struggles of the Church Girl Winessa Smith 2007 When I first experienced being called a Church Girl, I thought it simply meant I was an honorable girl because I attended church. Until one day when I was having a conversation with my high school classmate's father. We were discussing the different kinds of women who attend church. First he began to share with me about the places he would go to when he wanted a fast woman. He told me when he wanted a fast woman, he didn't go to the bars or to the streets. He said, " Oh, no, it was easier to snag a "Church Girl." We had this conversation over 25 years ago, and I was so angry and disturbed how he stigmatized Church Girls as being easy fast women. After this conversation, I was determined to change this negative image about Church Girls.

Geographies of Girlhood Pamela J. Bettis 2005-03-23 *Geographies of Girlhood: Identities In-Between* explores how adolescent girls come to understand themselves as female in this culture, particularly during a time when they are learning what it means to be a woman and their identities are in-between that of child and adult, girl and woman. It illuminates the everyday realities of adolescent girls and the real issues that concern them, rather than what adult researchers think is important to adolescent girls. The contributing authors take seriously what girls have to say about themselves and the places and discursive spaces that they inhabit daily. Rather than focusing on girls in the classroom, the book explores adolescent female identity in a myriad of kid-defined spaces both in-between the formal design of schooling, as well as outside its purview--from bedrooms to school hallways to the Internet to discourses of cheerleading, race, sexuality, and ablebodiness. These are the geographies of girlhood, the important sites of identity construction for girls and young women. This book is situated within the fledgling field of Girls Studies. All chapters are based on field research with adolescent girls and young women; hence, the voices of girls themselves are primary in every chapter. All of the authors in the text use the notion of liminality to theorize the in-between spaces and places of schools that are central to how adolescent girls construct a sense of self. The focus of the book on the fluidity of femininity highlights the importance of race, class, sexual orientation, and other salient features of personal identity in discussions of how girls construct gendered identities in different ways. *Geographies of Girlhood: Identities In-Between* challenges scholars, professionals, and students concerned with gender issues to take seriously the everyday concerns of adolescent girls. It is recommended as a text for education, sociology, and women's studies courses that address these issues.

Building Communities of Engaged Readers Teresa Cremin 2014-06-20 Reading for pleasure urgently requires a higher profile to raise attainment and increase children's engagement as self-motivated and socially interactive readers. Building Communities of Engaged Readers highlights the concept of 'Reading Teachers' who are not only knowledgeable about texts for children, but are aware of their own reading identities and prepared to share their enthusiasm and understanding of what being a reader means. Sharing the processes of reading with young readers is an innovative approach to developing new generations of readers. Examining the interplay between the 'will and the skill' to read, the book distinctively details a reading for pleasure pedagogy and demonstrates that reader engagement is strongly influenced by relationships between children, teachers, families and communities. Importantly it provides compelling evidence that reciprocal reading communities in school encompass: a shared concept of what it means to be a reader in the 21st century; considerable teacher and child knowledge of children's literature and other texts; pedagogic practices which acknowledge and develop diverse reader identities; spontaneous 'inside-text talk' on the part of all members; a shift in the focus of control and new social spaces that encourage choice and children's rights as readers. Written by experts in the literacy field and illustrated throughout with examples from the project schools, it is essential reading for all those concerned with improving young people's enjoyment of and attainment in reading.

England's Schools Elain Harwood 2015-04-01 For most of us, school was our first detailed experience of a building outside the homes of our parents, friends and relations. Many people react emotionally when their old school, charged with so many memories, is closed or demolished. Not all school buildings are worthy of designation, but many are major local landmarks and demonstrate an important part of our society's evolution. This book aims to raise awareness of the wide range of school buildings built in England from the Reformation to the Millennium, and discusses which buildings may be worthy of greater appreciation and preservation. It summarises the development of schools and analyses how social attitudes have been expressed in their architecture and planning. Finally, it looks at the adaptation of older schools to modern needs and new uses for schools around the country, drawing on examples of best practice from Historic Building Inspectors and Advisers.

Pushout Monique Morris 2018-01-16 The "powerful" (Michelle Alexander) exploration of the harsh and harmful experiences confronting Black girls in schools, and how we can instead orient schools toward their flourishing On the day fifteen-year-old Diamond from the Bay Area stopped going to school, she was expelled for lashing out at peers who constantly harassed and teased her for something everyone on the staff had missed: she was being trafficked for sex. After months on the run, she was arrested and sent to a detention center for violating a court order to attend school. In a work that Lisa Delpit calls "imperative reading," Monique W. Morris chronicles the experiences of Black girls across the country whose complex lives are misunderstood, highly judged—by teachers, administrators, and the justice system—and degraded by the very institutions charged with helping them flourish. Painting "a chilling picture of the plight of black girls and women today" (The Atlantic), Morris exposes a world of confined potential and supports the rising movement to challenge the policies, practices, and cultural illiteracy that push countless students out of school and into unhealthy, unstable, and often unsafe futures. At a moment when Black girls are the fastest growing population in the juvenile justice system,

Pushout is truly a book “for everyone who cares about children” (Washington Post). Book cover photograph by Brittsense/brittsense.com.

Taking a tough-love approach, and in her signature straight-shooting style, Patti will show you how to fix what needs to be fixed, reach your core, and identify who you are and what you want in a partner. She uses a three-part common-sense formula: • Getting Over What? Assess your dating weaknesses, recognize what's not working, and adjust your expectations. Delve into your personal history and past relationships, and pinpoint the issues that have been holding you back. • Almost Over It Fine-tune your attitude, your look, and your behavior to maximize your dating chances. Novak lays out strategies to help you deal with the brutal dating monsters you find along the way. • Over It Learn the do's and don'ts of the first date, the second date, and beyond. Whether you're new to the dating scene, divorced and looking, or just trying to reach that second date, Get Over Yourself! will help you get the love you've always wanted and deserve.

Schoolgirls Peggy Orenstein 1994 "In 1990, the American Association of University Women conducted a ground-breaking poll that highlighted how, as young girls reach adolescence, their self-esteem plummets. The conclusion of the study (an investigation that involved over three thousand girls and boys between the ages of nine and fifteen and cut across ethnic and regional lines) was alarming: there is a crisis in this country regarding the way we educate our daughters." "In spite of the changes in women's roles in society - and in the lives of their own mothers - many American girls still fall into traditional patterns of low self-image and self-censorship. Girls begin first grade with the same levels of skill and ambition as boys, but, all too often, by the time they reach high school their doubts have crowded out their dreams. They emerge from adolescence with reduced expectations of life, and much less confidence in themselves and in their abilities than boys have. In *SchoolGirls*, journalist Peggy Orenstein presents the human

side of the study's disturbing statistics, using an accessible, narrative approach to explore the influences of home, school, and society on adolescent female self-esteem and the difference between how boys and girls are raised to think about themselves." "Through detailed and lively anecdotes - obtained during a year spent with eighth graders at two California schools, as well as interviews with their parents and teachers - Orenstein brings to life the AAUW's profoundly important findings. At Weston Middle School, we meet Lisa, who believes a girl's weight is more important than her intelligence; Suzy, who decides she is "too cute to be a lawyer"; and Evie, who proclaims herself to be a feminist yet tolerates sexual harassment by a popular boy. At Audubon Middle School, however, where the predominantly African-American and Latina girls struggle with pressures forced upon them by their gender, race, and low socioeconomic status, we meet LaRhonda and April, whose confidence in themselves outside the classroom clashes inside its walls with a hidden curriculum designed to "subdue them into disengaged silence." Marta, a Latina almost unnoticed by her teachers and overprotected by her parents, considers undergoing a sexually abusive gang initiation rite in order to gain some measure of acceptance." "An essential read for everyone concerned about gender equity, *SchoolGirls* shows how the media and our educational system are shortchanging our children. It is a book that can inspire us to change the way we treat girls and the way we educate girls: ultimately, this is a book with the potential to improve the status of women in this country."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. Modern Romance Aziz Ansari 2015-06-16 The #1 New York Times Bestseller "An engaging look at the often head-scratching, frequently infuriating mating behaviors that shape our love lives." —Refinery 29 A hilarious, thoughtful, and in-depth exploration of the pleasures and perils of modern romance from Aziz Ansari, the star of *Master of None* and one of this generation's sharpest comedic voices At some point, every one of us embarks on a journey to find love. We meet people, date, get into and out of relationships, all with the hope of finding someone with whom we share a deep connection. This seems standard now, but it's wildly different from what people did even just decades ago. Single people today have more romantic

options than at any point in human history. With technology, our abilities to connect with and sort through these options are staggering. So why are so many people frustrated? Some of our problems are unique to our time. "Why did this guy just text me an emoji of a pizza?" "Should I go out with this girl even though she listed Combos as one of her favorite snack foods? Combos?!" "My girlfriend just got a message from some dude named Nathan. Who's Nathan? Did he just send her a photo of his penis? Should I check just to be sure?" But the transformation of our romantic lives can't be explained by technology alone. In a short period of time, the whole culture of finding love has changed dramatically. A few decades ago, people would find a decent person who lived in their neighborhood. Their families would meet and, after deciding neither party seemed like a murderer, they would get married and soon have a kid, all by the time they were twenty-four. Today, people marry later than ever and spend years of their lives on a quest to find the perfect person, a soul mate. For years, Aziz Ansari has been aiming his comic insight at modern romance, but for *Modern Romance*, the book, he decided he needed to take things to another level. He teamed up with NYU sociologist Eric Klinenberg and designed a massive research project, including hundreds of interviews and focus groups conducted everywhere from Tokyo to Buenos Aires to Wichita. They analyzed behavioral data and surveys and created their own online research forum on Reddit, which drew thousands of messages. They enlisted the world's leading social scientists, including Andrew Cherlin, Eli Finkel, Helen Fisher, Sheena Iyengar, Barry Schwartz, Sherry Turkle, and Robb Willer. The result is unlike any social science or humor book we've seen before. In *Modern Romance*, Ansari combines his irreverent humor with cutting-edge social science to give us an unforgettable tour of our new romantic world.

Engines of Privilege David Kynaston 2019-07-11 'Thoroughly researched and written with such calm authority, yet makes you want to scream with righteous indignation' John O'Farrell Britain's private, fee-paying schools are institutions where children from affluent families have their privileges further entrenched through a high-quality, richly-resourced education. Engines of Privilege contends that, in a society that mouths the virtues of equality of opportunity, of fairness and of social cohesion, the educational apartheid separating private schools from our state schools deploys our national educational resources unfairly; blocks social mobility; reproduces privilege down the generations; and underpins a damaging democratic deficit in our society. Francis Green and David Kynaston carefully examine options for change, while drawing on the valuable lessons of history. Clear, vigorous prose is combined with forensic analysis to powerful effect, illuminating the painful contrast between the importance of private schools in British society and the near-absence of serious, policy-shaping debate.
