33 ways to make her miss you - Celine Claire 2022-02-14

Being apart from the lady you like can be one of the difficult things you ever have to do. So how do you make sure that the girl misses you while you're gone? This e-book gives you up to 50 ways to make her miss you. Tip number one. Minimize the amount of time you spend together If you want the girl to miss you when you're apart from one another, then you can't spend too much of your free time with her. You should hang out with her enough to make her see how awesome, fun, and interesting you are, but not so much that she starts to take you for granted or feels like you've run out of things to say to each other. Make an effort to see her once or twice a week, but ensure that she's not the only to-do on your social calendar, or she'll start to think that she can have you whenever she wants. Tip number two. Limit your phone time with her If you and the girl you are interested in talk on the phone, ensure that you keep your conversations relatively short so she doesn't assume you have nothing better to do than to talk to her all the time. You can talk to her to set up plans or to see how she's doing for some few minutes, but you shouldn't let the conversation drag on so long that you've run out of things to say. To keep her interested, you want her to feel like she can never run out of things to say to you once you meet. Don't tell her everything that you're thinking or everything that's happening in your life over the phone. Save some of it for when you actually meet her in-person. Philosophy in Ovid, Ovid as Philosopher - Gareth Williams 2022

"This volume contains sixteen essays on various aspects of Ovid's engagement with philosophical trends and topics. Ovid has long been celebrated for the versatility of his poetic imagination, the diversity of his generic experimentation throughout his long career, and his intimate engagement with the Greco-Roman literary tradition that precedes him; but what of his engagement with the philosophical tradition? Ovid's close familiarity with philosophical ideas and with specific philosophical texts has long been recognized, perhaps most prominently in the Pythagorean, Platonic, Empedoclean, and Lucretian shades that color his *Metamorphoses*. This philosophical component, however, has often been perceived as a feature subordinate to Ovid's larger literary agenda; and because of the controlling influence conceded to that literary impulse, readings of the philosophical dimension have often focused on the perceived distortion, ironizing, or parodying of philosophical sources and ideas. This book counters this tendency by (i) considering Ovid's seriousness of engagement with, and his possible critique of, the philosophical writings that inform his works; (ii) questioning the feasibility of separating out the categories of the "philosophical" and the "literary" in the first place; (iii) exploring the ways in which Ovid may offer unusual, controversial, or provocative reactions to received philosophical ideas; and (iv) investigating the case to be made for viewing the Ovidian corpus not just as a body of writings that are often philosophically inflected, but also as texts that may themselves be read as philosophically adventurous and experimental"--

The Bone Vault - Linda Fairstein 2011-05-05

Following the critically acclaimed and top ten Best Seller *The Deadhouse*, Linda Fairstein now takes us behind the scenes of some of New York's magnificent and mysterious institutions in her most electrifying Alexandra Cooper thriller yet. *The Bone Vault* begins in the glorious Temple of Dendur at the Metropolitan Museum of Art, where wealthy donors have gathered to hear plans for a controversial new exhibit. An uneasy mix of scholarship and showbiz. The exhibition has raised fierce opposition from some of the museum's elite: IMAX time trips and Rembrandt refrigerator magnets have no place for them at the Met. Assistant DA Alex Cooper, off duty for the evening, observes the proceedings with bemused interest until the Met director suddenly pulls her aside: the body of a young researcher has been found in an ancient Egyptian sarcophagus. Teaming up with cops Mike Chapman and Mercer Wallace, Alex must penetrate the silent sentinels comprising New York's museum society, investigating not only at the Met but also at the Museum of Natural History and the Cloisters, to find a killer. Atmospheric, chilling, and shot through with procedural authenticity.
