The Seven Laws of Seduction - Troy Francis 2017-06-10

The Seven Laws of Seduction is a simple, step-by-step guide that gives men everything they need to know about how to attract, seduce and sleep with multiple women. Are you the kind of guy who has trouble relating to women but who longs to find a girlfriend? Or maybe you're in a relationship that is no longer working, but you're afraid to leave, believing that you don't have any other options. Or you are envious of your 'natural' friends who seem to have no trouble in picking up cute girls for one-night stands? Perhaps you are a seasoned 'player' looking for new, cutting edge perspectives. Maybe you've read other seduction guides and found them lacking, and you simply don't have the time or the inclination to sift through dubious information online, or attend costly seminars and bootcamps - If so, then The Seven Laws of Attraction is for you. I'm Troy Francis, and over the last decade I've made the transformation from loser with women to Lothario. From being a guy too shy to even look at an attractive girl, the last ten years have seen me embark on a journey that has spanned the globe, during which I have become friends with an exclusive clique of the world's foremost seducers and playboys, meeting and bedding multiple women of all nationalities along the way. How did my fortunes change so radically? Because I discovered The Seven Laws of Seduction - closely-guarded secrets of female psychology and how to leverage it that are known and applied by every international ladies man, but which are rarely revealed to the general public. The Seven Laws of Seduction is packed with killer information designed to hardwire the knowledge of the world's greatest pick-up artists and alpha playboys directly into your brain in a fraction of the time it took for me to internalise it. In the book you will learn: * How to bring out your true, alpha self, revealing the raw masculinity that women crave * How to achieve a sense of limitless abundance that will draw women to you like a magnet * How to meet women every day in places you would never have thought it possible * How to create opportunities to meet that drop-dead gorgeous girl * How to significantly reduce your fear of approaching * The two seduction models: one-tier and two-tier. Know which one you're in and how to get the result you want in each. * How a lot of conventional PUA thinking is wrong and how going with what you know in the moment will yield massive results * How to leverage masculine-feminine polarity to get her tingling with excitement * How your approach in itself can create huge attraction in the girl * How to create a force field around you enabling you to withstand even the highest degree of social pressure * Mind-control techniques to crush your fear of rejection * Why 'leagues' don't really exist and that you can attract much hotter women than you currently think * The special techniques you need to know to pull women effortlessly in clubs * How to heat up your interactions with women so they sizzle with sexual tension * How you can get a girl so excited with direct sexual references that she is literally begging to sleep with you *

Exactly what to do on a first date to get the girl to come home with you for sex* How having a certifiably insane degree of self-love will cause women to chase you The book presents a clear and logical system for meeting and attracting the hottest women imaginable with a practical, user-friendly layout. Each chapter describes and explains one of the Seven Laws in detail and also includes - * A real-life example from my own life that illustrates and explains the relevant concepts presented, and shows exactly what is possible for an ordinary guy to achieve * A list of Core Principles - essentially a cheat-sheet, summarising the content that precedes it * Exercises to motivate you and get you out there practicing what you have learned. These techniques WILL skyrocket your success.

Hindi Film Songs and the Cinema - Anna Morcom 2017-07-05

Since their beginnings in the 1930s, Hindi films and film songs have dominated Indian public culture in India, and have also made their presence felt strongly in many global contexts. Hindi film songs have been described on the one hand as highly standardized and on the other as highly eclectic. Anna Morcom addresses many of the paradoxes, eccentricities and myths of not just Hindi film songs but also of Hindi cinema by analysing film songs in cinematic context. While the presence of songs in Hindi films is commonly dismissed as purely commercial this book demonstrates that in terms of the production process, musical style, and commercial life, it is most powerfully the parent film that shapes and defines the film songs and their success rather than the other way round. While they constitute India's still foremost genre of popular music, film songs are also situational, dramatic sequences, inherently multi-media in style and conception. This book is uniquely grounded in detailed musical and visual analysis of Hindi film songs, song sequences and films as well as a wealth of ethnographic material from the Hindi film and music industries. Its findings lead to highly novel ways of viewing Hindi film songs, their key role in Hindi cinema, and how this affects their wider life in India and across the globe. It will be indispensable to scholars seeking to understand both Hindi film songs and Hindi cinema. It also forms a major contribution to popular music, popular culture, film music studies and ethnomusicology, tackling pertinent issues of cultural production, (multi-)media, and the cross-cultural use of music in Hindi cinema. The book caters for both music specialists as well as a wider audience.

The Goodbye Girl - Noreen Capili 2017-11-01

Lahat tayo nagmamahal. Pero hindi lahat, minamahal. 'Yung iba, niloloko, sinasaktan, iniwan. May ibang binubulungan ng "I love you." May ibang tinatanong ng "Will you marry me?" At may iba na sinasabihan ng "Goodbye." Ito ay para sa lahat ng nagmahal, pero nasaktan at naiwan . . . para sa mga nagpapaalam. Para sa mga Goodbye Girl. The Goodbye Girl is a compilation of short, witty, and heartwarming essays about heartache, heartbreak, and moving on. Noringai introduces readers to the five types of "goodbye girl": the invisible girl, the other girl, the heartbroken girl, the bitter girl, and finally, the new girl. It is her hope that readers can "find comfort, hope, and even humor in every story," and make them realize that what they are feeling "may be universal, but it's just temporary."

Indian classical music has long been fascinating to Western audiences, most prominently since the Beatles' sessions with Ravi Shankar in the 1960s. Stardom in Contemporary Hindi Cinema - Aysha Iqbal Viswamohan 2020-01-03

In this book, film scholars, anthropologists, and critics discuss star-making in the contemporary Hindi-language film industry in India, also known as "Bollywood." Drawing on theories of stardom, globalization, transnationalism, gender, and new media studies, the chapters explore contemporary Hindi film celebrity. With the rise of social media and India's increased engagement in the global economy, Hindi film stars are forging their identities not just through their on-screen images and magazine and advertising appearances, but also through an array of media platforms, product endorsements, setting fashion trends, and involvement in social causes. Focusing on some of the best-known Indian stars since the late 1990s, the book discusses the multiplying avenues for forging a star identity, the strategies industry outsiders adopt to become stars, and the contradictions and conflicts that such star-making produces. It addresses questions such as: What traits of contemporary stars have contributed most to longevity and success in the industry? How has filmmaking technology and practice altered the nature of stardom? How has the manufacture of celebrity altered with the recent appearance of commodity culture in India and the rise of a hyper-connected global economy? By doing so, it describes a distinct moment in India and in the world in which stars and stardom are drawn more closely than ever into the vital events of global culture. Hindi films and their stars are part of the national and global entertainment circuits that are bigger and more competitive than ever. As such, this is a timely book creates opportunities for examining stardom in other industries and provides fruitful cross-cultural perspectives on star identities today. "Grounded in rigorous scholarship as well as a palpable love of Hindi cinema, this collection of 19 essays on a dizzying array of contemporary

Hindi film stars makes for an informative, thought-provoking, illuminating, and most of all, a joyful read. Pushing boundaries of not only global Star Studies but also film theory as a whole, this de-colonised and de-colonising volume is a must read for film scholars, students and cinephiles!" Dr. Sunny Singh, Senior Lecturer - Creative Writing and English Literature, Sir John Cass School of Art, Architecture & Design, London Metropolitan University "A wide-ranging overview of Hindi cinema's filmi firmament today, focussing on its most intriguing and brightest-burning stars. The variety of approaches to stardom and celebrity by both established and upcoming scholars reveals a web of interconnecting stories and concerns that provide fascinating new insights into the workings of today's Hindi film industry, while shining fresh light on contemporary India and the world we live in." Professor Rosie Thomas, Centre for Research and Education in Arts and Media (CREAM), College of Design, Creative and Digital Industries, University of Westminster

Hindi Filmī Git - Alison E. Arnold 1991

This study traces the musical development of the Hindi film song from the beginning of Indian sound film in 1931 to the present day, with an emphasis on the years 1931-55. Based largely on fieldwork carried out within the Bombay film industry in 1982-83, this dissertation addresses questions that relate to musical as well as cultural, social, historical, and technological aspects of this popular song genre. The study examines the unique role of Hindi film song both in Indian musical culture--as an integral component of the commercial Hindi film and as the major form of native, mass-mediated popular music--and in Indian culture and society in general. It further explores the cultural, historical, and musical forces that have combined to produce this extraordinarily popular music. The organization of chapters reflects a chronological approach to the history of Hindi film song. The first chapter deals with the transition from silent to sound film. Film sound production in the 1930s, the subject of Chapter 2, includes discussion of the new roles of film music director, film actor-singer and film musician, and the film studio structure, in addition to musical analysis of early Hindi film songs. Chapter 3 focuses on the revolutionary changeover from actor-singer to playback singer, enabled by technological advances. The fourth chapter describes the transition from film studios to independent film producers in the 1940s-early 1950s, with the establishment of 'formulas' and the emergence of an identifiable mainstream Hindi film song form, and also surveys the film gawwali/, bhajan, gazal, folk song, and thumri/. Chapter 5 turns to post Indian Independence (1947) developments: the 'golden age of melody,' the expansion of the film orchestra, the increasingly eclectic film song composition, and the impact of technology and commercialization. Chapter 6 summarizes the changes that have taken place since the mid 1950s, including the rise of a 'parallel' or 'New Wave' cinema. The last chapter draws together the particular combination of musical, historical, and cultural forces behind the creation and production of Hindi film song, and assesses the role of this popular music in 20th-century Indian music, culture, and society.

Non-Stop India - Mark Tully 2011-10

Non-Stop India By Mark Tully Jugaar can loosely be translated as muddling through, or making do. This is undoubtedly a valuable talent and has seen India through numerous crises which could have destabilised a country that is less adaptable - four wars, for example. But while jugaar can be seen to have served India well in the past, it has a downside. It has led to a dangerous complacency, the belief that as India has muddled through so many times before, there is no need for urgency in tackling the problems it faces. In Non Stop India veteran journalist Mark Tully draws on his unmatched knowledge of India, garnered from thirty years of living in, and reporting from, the country, to examine how this approach impacts on her much-touted prospects of becoming an economic super-power. From Maoist conflicts to huge industrial houses; from the Tiger project to farmer suicides; from the Ramayana to the remote valleys of the north-east, Tully examines India's myriad negotiations with modernity and her prospects for the next century and beyond. Today, India is likely to become one of the major economies of the twenty-first century. But many unresolved questions remain about the sustainability of such growth and its effect on the stability of the nation. Veteran journalist Mark Tully draws on thirty years of reporting India and travels the length and breadth of the country to find the answers. Have the changes had any impact on the poor and marginalised? How can the development of the country's creaking infrastructure be speeded up to match its huge advances in technology and industry? With a gift for finding the human stories behind the headlines, he looks at the pressing concerns in different areas of life such

as governance, business, spirituality and ecology. In revealing interviews with captains of industry and subsistence farmers, politicians and Dalits, spiritual leaders and bandits, Mark Tully captures the voices of the nation. From the survival of India's languages and the protection of wildlife, to the nation's thriving industries and colourful public affairs, Non-Stop India is a testament to India's vibrant history and incredible potential, offering an unforgettable portrait of this emerging superpower at a pivotal moment of its history. About The Author Sir Mark Tully was born in Calcutta, India in 1935. He was the Chief of Bureau, BBC, New Delhi for twenty-two years, was knighted in the New Year's Honours list in 2002 and was awarded the Padma Bhushan in 2005. Today, his distinguished broadcasting career includes being the regular presenter of the contemplative BBC Radio 4 programme Something Understood. His books include No Full Stops in India, The Heart of India, India in Slow Motion (with his partner and colleague Gillian Wright), and India's Unending Journey. He lives in New Delhi.

The Man's Guide to Women - John Gottman 2016-02-02

A great "philosopher" once said, "Trying to understand women is like trying to smell the color 9." But the fact is, men can understand women to their great benefit. All they need is the right teacher. And arguably there is no better teacher than John Gottman, PhD, a world-renowned relationships researcher and author of the bestselling 7 principles of Making Marriage Work. His new book, written with wife Julie Gottman, a clinical psychologist, and Doug Abrams and Rachel Carlton Abrams, MD, is based on 40 years of scientific study, much of it gleaned from the Gottman's popular couple's workshops and the "love lab" at the University of Washington. It's written primarily for men because new research suggests that it is the man in a relationship who wields the most influence to make it great or screw it up beyond repair. The Man's Guide to Women offers the science-based answers to the question: What do women really want in a man? The book explains the hallmarks of manhood that most women find attractive, and helps men hone those skills to be the man she desires.
