The Politics of Elite Culture Abner Cohen 2023-11-10 This title focuses on the dramatic process underlying the development of cultural mystique in the articulation of elite organization. The symbolic beliefs and practices involved act to reconcile, camouflage, or mystify a major contradiction in the development and functioning of elite groups, a contradiction between their universalistic functions and particularistic interests, between their duties to serve wider publics and their simultaneous endeavor to promote their own sectional power. Concentrating on the detailed, experimental study of one power elite within a modern small-scale nation-state--Sierra Leone--Cohen analyzes these processes. But his findings are systematically worked out within a general, cross-cultural comparative perspective, and he thereby further develops his earlier formulations about the instrumental functions of culture in political organization. Culture is analyzed in terms of symbolic forms, symbolic functions, and dramaturgical techniques. Politico-cultural causation is explored as it operates in chains of dramatic performances on different levels of social organization. Familiar, everyday symbolic events are taken out of their ordinary ideological sequences and, as Brecht would put it, thrown into crisis by showing their involvement in major power struggles. This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1981.

**Safety Planning with Battered Women** Jill Davies 1998 Safety Planning with Battered Women introduces a new model of "woman-defined" advocacy that is designed to bridge the gap that sometimes occurs between a battered woman's perspective and a victim advocate's perception. Created to improve service delivery to women who are victims of domestic violence, this new model emphasizes placing attention on the victim's assessment of the risk in a violent relationship and in her decision making. Authors Jill Davies, Eleanor Lyon, and Diane Monti-Catania strive to help advocates better understand battered women's decisions, including the decision to remain in an abusive relationship; to improve advocacy for victims with varying cultural backgrounds and experiences; and to provide advocates with assistance in redesigning their services, so they may better meet the needs of battered women. Since there are no quick fixes to the problems encountered in cases of domestic violence, it is vital that victims be provided with a real understanding of their options and the opportunity to implement those safety plans they deem most feasible. Safety

Planning with Battered Women helps advocates tailor alternatives that will enhance the safety of battered women based on the individual realities of battered women. This book is both enlightening and highly practical and is a must read for anyone working with domestic violence victims. By introducing a woman-defined model and offering a new approach to advocacy, Safety Planning with Battered Women will compel readers to reexamine current approaches and examine the future provision of services to domestic violence victims, making it a valuable resource for students, researchers, academics, professionals, and practitioners.

*A Vindication of the Rights of Woman* Mary Wollstonecraft 2022-10-14 Writing in an age when the call for the rights of man had brought revolution to America and France, Mary Wollstonecraft produced her own declaration of female independence in 1792. Passionate and forthright, *A Vindication of*

the Rights of Woman attacked the prevailing view of docile, decorative femininity, and instead laid out the principles of emancipation: an equal education for girls and boys, an end to prejudice, and for women to become defined by their profession, not their partner. Mary Wollstonecraft's work was received with a mixture of admiration and outrage. Hugh Walpole called her "a hyena in petticoats." Yet it established her as the mother of modern feminism.

**The 48 Laws of Power** Robert Greene 2000-09-01 Amoral, cunning, ruthless, and instructive, this multi-million-copy New York Times bestseller is the definitive manual for anyone interested in gaining, observing, or defending against ultimate control - from the author of *The Laws of Human Nature*. In the book that *People* magazine proclaimed "beguiling" and "fascinating," Robert Greene and Joost Elffers have distilled three thousand years of the history of power into 48 essential laws by drawing from the philosophies of Machiavelli, Sun Tzu, and Carl Von Clausewitz and also from the lives of figures ranging from Henry Kissinger to P.T. Barnum. Some laws teach the need for prudence ("Law 1: Never Outshine the Master"), others teach the value of confidence ("Law 28: Enter Action with Boldness"), and many recommend absolute self-preservation ("Law 15: Crush Your Enemy Totally"). Every law, though, has one thing in common: an interest in total domination. In a bold and arresting two-color package, *The 48 Laws of Power* is ideal whether your aim is conquest, self-defense, or simply to understand the rules of the game.

**Get Over Yourself!** Patti Novak 2008-12-30 True love doesn't just happen, notes professional matchmaker Patti Novak. You have to work for it-and want it. Forget eight-minute speed dates or online dating sites with twenty-page questionnaires that promise a scientifically calculated perfect match. The fact that you both like golf, stamp collecting, and pizza with anchovies is great, but it won't mean a thing if you don't feel that zing. But before there can be sparks, there have to be dates. And before the first date, you need to get over yourself! Taking a tough-love approach, and in her signature straight-shooting style, Patti will show you how to fix what needs to be fixed, reach your core, and identify who you are and what you want in a partner. She uses a three-part common-sense formula: • Getting Over What? Assess your dating weaknesses, recognize what's not working, and adjust your expectations. Delve into your personal history and past relationships, and pinpoint the issues that have been holding you back. • Almost Over It Fine-tune your attitude, your look, and your behavior to maximize your dating chances. Novak lays out strategies to help you deal with the brutal dating monsters you find along the way. • Over It Learn the do's and don'ts of the first date, the second date, and beyond. Remember, it's not a job interview or therapy session. Pretend you're meeting a new friend, not a prospective husband or wife. Finding your one and only isn't about having the right shoes or a flat stomach. It's about being true to yourself, being vulnerable, and being ready for love. Whether you're new to the dating scene, divorced and looking, or just trying to reach that second date, Get Over Yourself! will help you get the love you've always wanted and deserve.

**Suffer Less in Life and Work** Vincent Dodd 2023-01-31 It can seem we are more divided than ever in many aspects of life, and we too often still feel empty while pushing ourselves to keep up. Suffer Less in Life & Work explores many facets of our relationships with ourselves and others and provides tools to help ease this division and brings a clearer level of understanding and grace. When you consider what makes up our life: emotions,

relationships, concerns, expectations, harsh realities, and even politics, how can there not be some suffering? Though these subjects are wide and deep, the author breaks each down and shares from his 34 years of front-line public service experiences and his personal life observations what is adding to our difficulties. He then follows with solution-based concepts and easy daily applicable tools to tame these daily life stressors. The Author writes: I am periodically asked, "With all of the tragedy and death you have seen, why do you laugh so often?" Sometimes the question is worded slightly differently, which slightly changes my answer, "With all the tragedy and death you have seen, how can you always be so happy?" My answer to the first question is because life is hard; and yet, life is also an amazing and unfortunately short but powerful journey. So yes, I do find the good, the humor, and the laughter as often as I can. My answer to the slightly differently worded question is the same, but it starts with, "I am not always happy...." I have seen inside of us, including myself, that there is a dark place between alive and dead that we sometimes fall into for a period. That place is emptiness, loneliness, paralyzing fear, anxiety, depression, anger, resentment, jealousy, even blame, and many addictions. It is my hope that we do not have to stay in that undead but not alive place for long. We arrive there when our feelings or perceptions, and sometimes the actual reality of our life, hit a difficult span of more bad than good. This causes the rough to cover more of our spirit than the light of goodness can illuminate. In this day and time, that unalive place is happening to us all too often. We do have valid reasons to feel overwhelmed, depressed, anxious, and to question human and social behaviors. But you are alive, and unless chronic or severe, these painful, aware, and sensitive human experiences have the potential to enrich our lives. It requires a cautious balance. As pressures mount, this can be difficult, but acknowledging how tough and scary it all can be at times is a great healthy start.

Adaptive Preferences and Women's Empowerment Serene J. Khader 2011-09-08 Khader offers a deliberative perfectionist approach to identifying and responding to adaptive preferences-- deprived people's preferences that perpetuate their deprivation. She argues that adaptive preferences are deficits in flourishing that are causally related to deprivation and claims that intervention aimed at transforming them is compatible with respect for persons and cultures.

**Gender-Sensitive Approaches for the Extractive Industry in Peru** Bernie Ward 2010-11-11 Large amounts of development assistance in the form of infrastructure and social programs are annually made available to communities across Peru due the presence of extractive industry companies. These investments however do not always achieve the social development impact anticipated. As one company pointed out: our company has invested millions of dollars in social programs in our neighboring communities, however the indicators for child malnutrition and maternal health have seen no noticeable improvement . Communities base their support or rejection for extractive industry operations by weighing up the benefits against the risks; where the risk-benefit balance sheet does not look positive, conflict is likely. Companies, and the governments who benefit from their tax revenues, therefore work hard to reduce risks and increase benefits for communities: but this report confirms an overlooked aspect of the development outcomes: men are capturing more of the benefits and these are not necessarily reaching the wider family; whereas it is the women and children who experience more of the risks that arise from the presence of extractive industry projects. The impact on women could be significantly improved by taking simple steps with little additional effort or cost disaggregating data by sex, strengthening consultations with women, investigating issues of risk to women, improving women s access to benefits. Additionally this report challenges the development industry (those non-governmental organizations, community-based organizations, universities, research centers, think tanks, funders, foundations and training organizations for whom the development of theories and practices to alleviate poverty is a primary objective.) to work more closely with local government and companies, sharing its knowledge on thematic issues such as gender (and other areas such as Rights-Based Approaches or Community-Driven Development) and on programs (such as maternal health, bi-lingual education, or productive chain development) to achieve what the NGOs, civil society and local government have within their mandates to deliver, and what the EI sector seeks.

Counselling for Maternal and Newborn Health Care World Health Organization 2010 The main aim of this practical Handbook is to strengthen counselling and communication skills of skilled attendants (SAs) and other health providers, helping them to effectively discuss with women, families and communities the key issues surrounding pregnancy, childbirth, postpartum, postnatal and post-abortion care. Counselling for Maternal and Newborn Health Care is divided into three main sections. Part 1 is an introduction which describes the aims and objectives and the general layout of the Handbook. Part 2 describes the counselling process and outlines the six key steps to effective counselling. It explores the counselling context and factors that influence this context including the socio-economic, gender, and cultural environment. A series of guiding principles is introduced and specific counselling skills are outlined. Part 3 focuses on different maternal and newborn health topics, including general care in the home during pregnancy; birth and emergency planning; danger signs in pregnancy; post-abortion care; support during labor; postnatal care of the mother and newborn; family planning counselling; breastfeeding; women with HIV/AIDS; death and bereavement; women and violence; linking with the community. Each Session contains specific aims and objectives, clearly outlining the skills that will be developed and corresponding learning outcomes. Practical activities have been designed to encourage reflection, provoke discussions, build skills and ensure the local relevance of information. There is a review at the end of each session to ensure the SAs have understood the key points before they progress to subsequent sessions.

**Remaking Manhood** Mark C. Greene 2016-04-19 Remaking Manhood is a collection of Good Men Project Executive Editor Mark Greene's most popular articles on American culture, relationships, family and fatherhood. It is a timely and balanced look at the life affirming changes emerging from within the modern men's movement. "This is writing that unites men rather than dividing or exploiting them. It speaks to the very best part of men and asks them to bring that part to the fore-as fathers, as sons, as brothers, as husbands, as friends, as lovers, and as citizens of life." -Michael Rowe, author of Other Men's Sons "Read this book, but don't mistake it as a defense of men. Remaking Manhood is going to be considered a go-to piece of literature on the new "Male Revolution."" -Jason Grant, CityDadsGroup.com "Mark interweaves his own deeply personal stories with a salient and powerful deconstruction of manhood in America." -Lisa Hickey, CEO, Good Men Project

The Guyde Howie Reith 2016-11-19 The Guyde is the most comprehensive men's dating and self-improvement book ever written, designed to be everything you need to transform into the most confident version of yourself. There are no lines or routines; instead you'll find exercises and information to improve your self-esteem, social skills, and other elements integral to social success. Everything in these pages is backed with scientific evidence, and when I say scientific evidence, I mean cited peer-reviewed literature, not pop evolutionary psychology or the "law of attraction." You won't be reading anecdotes telling you about my "successes" or opinions; you'll be learning the practical steps necessary for the specific changes you want to manifest in your life. The Guyde is divided into four sections: Part I - Psychology Part I focuses on the internal elements of social interaction. How do you overcome your toxic self-limiting beliefs that keep you from being authentic with people? How do you overcome your fears? How can you stay motivated to make your changes? You will learn clinically effective approaches to all of these and more. Part II - Social Skills For many men, the biggest barrier between themselves and social success is a lack of social skills and awareness. In Part II, you'll learn how to shore up this weakness. You will learn how to listen, banter, share stories, and assert yourself with others. You'll learn how to improve your body language and vocal tonality to project confidence and charisma. Part III - Physical Attractiveness Part III will teach you how to improve your physical features. The first two chapters detail the most clinically effective approaches to diet and exercise. We'll also discuss the basics of fashion and how to dress to impress. Master Part III, and when you go out, you will turn heads. Part IV - Dating The final portion of The Guyde deals with dating, in this version, in a heterosexual male context. You'll learn the best places to meet potential dates, how to flirt, and how to ask someone out. You'll learn how to plan brag-worthy romantic evenings and how to address problems like rude cancellations and "ghosting." You'll learn how to interact physically while being sensitive to your date's wishes, as well as how to perform better in bed. You'll learn why relationships fail and how to avoid the pitfalls most couples fall into, and you'll come to understand a bit about what it's like to date from a woman's perspective, including many of the cultural factors they face that most men don't understand. The Guyde is a labor of love. I wrote it to be everything I wish I'd known when I was younger, the sorts of things that turned my life around for the better. I hope it does the same for you.

*Models* Mark Manson 2017-09-11 "You can become irresistibly attractive to women without changing who you are." So says Mark Manson, superstar blogger and author of the international bestseller, *The Subtle Art of Not Giving A F\*ck*, a self help book that packs a punch. Mark brings the same approach to teaching men what they need to know about attracting women. In *Models* he shows us how much it sucks trying to attract women using the tricks and tactics recommended by other books. Instead, he says, men need to focus on seduction as an emotional process not a physical or social one. What matters is the intention, the motivation, the authenticity. To improve your dating life you must improve your emotional life - how you feel about yourself and how you express yourself to others. Funny, irreverent and confronting, *Models* is a mature and honest guide on how a man can attract women by giving up the bullsh\*t and becoming an honest broker. "A detailed guide to modern sexual ethics" Sydney Morning Herald "There's nothing subtle about Mark Manson. He's crude and vulgar and doesn't give a f\*ck . . . He's as painfully honest as he is outrageously funny"

*A Woman's Thoughts about Women* Dinah Maria Mulock Craik 1864

**(A)Typical Woman** Abigail Dodds 2019-01-17 A Woman Through and Through In a culture that can belittle womanhood on the one hand—making it irrelevant—and glorify it on the other—making it everything—it’s hard to know what it really means to be a woman. But when we understand womanhood through the lens of Scripture, we see that we need a bigger category for what God has called “woman.” This book breathes fresh air into our womanhood, reminding us what life in Christ—as a woman—looks like. When we see that we are women in all we do, we can be at peace with how God has created us, recognizing womanhood as an essential part of Christ’s mission and work.

*The Girl Who Sang to the Buffalo* Kent Nerburn 2013-11-01 A haunting dream that will not relent pulls author Kent Nerburn back into the hidden world of Native America, where dreams have meaning, animals are teachers, and the “old ones” still have powers beyond our understanding. In this moving narrative, we travel through the lands of the Lakota and the Ojibwe, where we encounter a strange little girl with an unnerving connection to the past, a forgotten asylum that history has tried to hide, and the complex, unforgettable characters we have come to know from *Neither Wolf nor Dog* and *The Wolf at Twilight*. Part history, part mystery, part spiritual journey and teaching story, *The Girl Who Sang to the Buffalo* is filled with the profound insight into humanity and Native American culture we have come to expect from Nerburn’s journeys. As the American Indian College Fund has stated, once you have encountered Nerburn’s stirring evocations of America’s high plains and incisive insights into the human heart, “you can never look at the world, or at people, the same way again.”

**The Charisma Myth** Olivia Fox Cabane 2013-03-26 What if charisma could be taught? The charisma myth is the idea that charisma is a fundamental, inborn quality—you either have it (Bill Clinton, Steve Jobs, Oprah) or you don't. But that's simply not true, as Olivia Fox Cabane reveals. Charismatic behaviors can be learned and perfected by anyone. Drawing on techniques she originally developed for Harvard and MIT, Cabane breaks charisma down into its components. Becoming more charismatic doesn't mean transforming your fundamental personality. It's about adopting a series of specific practices that fit in with the personality you already have. The Charisma Myth shows you how to become more influential, more persuasive, and more inspiring.

**Parenting Matters** National Academies of Sciences, Engineering, and Medicine 2016-12-21 Decades of research have demonstrated that the parent-child dyad and the environment of the family—which includes all primary caregivers—are at the foundation of children's well-being and healthy development. From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. Parenting Matters identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States.
