**Men Trapped in Men's Bodies** - Anne A. Lawrence 2012-12-09

There are few topics in sex research as compelling and confounding to researchers, clinicians, and the general public as that of transsexualism. Upending normative notions of gender, eroticism, and identity, it poses significant scientific and clinical challenges. The book addresses a fascinating and largely unexplored topic within the study of transsexualism: The feelings and desires of conventionally masculine men who are attracted to women yet want to become women themselves. Through a collection and discussion of vivid first-person narratives, the book provides an in-depth examination of these men's unusual propensity to be sexually aroused by the thought of themselves as women and how these men's sexual feelings influence their decisions to seek or undergo sex reassignment. These narratives about autogynephilia by autogynephilic male-to-female (MtF) transsexuals provide the first comprehensive documentation of the erotic ideation that underlies the most common form of MtF transsexualism. The narratives provide empirical evidence for Blanchard's theory of MtF transsexual motivation, and thus are of interest to researchers and theorists studying the phenomenology of MtF transsexualism. The narratives are likely to be eye-opening to psychologists, psychiatrists, physicians, and other professionals who work with MtF transsexuals: Most clinicians probably do not fully appreciate the erotic underpinnings of their clients' condition. A better understanding of their clients' autogynephilic feelings and motivations would enable these professionals to provide more empathetic and effective clinical care.

**Genderqueer and Non-Binary Genders** - Christina Richards 2017-12-13

This book addresses the emerging field of genderqueer or non-binary genders - that is, individuals who do not identify as male or female. It considers theoretical, research, practice, and activist perspectives; and outlines a basis for good practice when working with non-binary individuals. The first section provides an overview of historical, legal and academic aspects of this phenomenon. The second section explores how psychotherapeutic, psychological and psychiatric theory and practice are adapting to a non-binary model of gender, and the third section considers the body related aspects, from endocrinology to surgery. This work will appeal to a wide readership, from practitioners working with non-binary individuals - including psychologists, surgeons, social workers, nurses, psychiatrists, endocrinologists, psychotherapists and counselors, lawyers, and healthcare workers - to researchers interested in the study of gender identities, to students and gender activists.

**Transgender Care** - Gianna E. Israel 1997

By empowering clients to be well-informed medical consumers and by delivering care providers from the straitjacket of inadequate diagnostic standards and stereotypes, this book sets out to transform the nature of transgender care. In an accessible style, the authors discuss the key mental health issues, with much attention to the vexed relationship between professionals and clients. They propose a new professional role; that of "Gender Specialist." Chapters 3, 4, and 5 provide definitive information (in the context of consulting health professionals) on hormone administration, aesthetic surgery, and genital reassignment surgery. Chapter 6 takes up the little-examined issue of HIV and AIDS among transgender people. There is also a chapter devoted to issues of transgender people of color, as well as a chapter on transgender adolescents. The book contains a wealth of practical information and accounts of people's experiences about coming out to one's employer or to one's friends or spouse. Several essays spell out the legal rights of transgender people with regard to insurance, work, marriage, and the use of rest rooms. The second part of the book consists of thirteen essays on a range of controversial topics. They include three personal stories of transgender life, one essay on the new academic field of Transgender Studies, two essays on legal rights, three essays on medical issues, and two essays on the origins and possible resolution of the conflicts between therapist and client. The authors have also provided useful listings of organizations, centers, and Web sites. The book has been reviewed by a national committee of professionals and consumers, some of

whose members have contributed the essays in the second part of the book. Author note: Gianna E. Israel has been in private practice as a Gender Specialist since 1988. She has worked with over one thousand transgendered men and women, and is also a member of the transgender community. She is a founding member of the board of the American Education Gender Information Service (AEGIS). Donald E. Tarver II, M.D., is a San Francisco psychiatrist working in public mental health and a private practice. He is Medical Director of New Leaf--a multiservice agency serving the mental health, substance abuse recovery, HIV/AIDS, and social service needs of the lesbian, gay, bisexual, and transgender communities.

**Virginia Prince** - Richard Ekins 2006-02-07

Discover the influence of controversial writer Virginia Prince—friend, counselor, philosopher, and publicist for the cross-dressing community Virginia Prince: Pioneer of Transgendering documents the life and work of Virginia Prince, whose writings on transvestites and transsexuals influenced the thinking of an entire generation. This unique book gathers and updates her most important—and hard-to-find—articles that chronicle the development of her philosophy over a twenty-year period and provide insight into her role in the creation of a transgender community. The book includes a photo essay by acclaimed photographer Mariette Pathy Allen, a portrait of Virginia at age 92 from Richard F. Docter, and a foreword by celebrated transgender activist, historian, and scholar Susan Stryker. A staunch promoter of heterosexual transvestism since the late 1950s, Virginia Prince has had a powerful impact on the transgender community. She was the first person to establish a systematic organizational structure that provided a safe setting for transvestites and transsexuals to “come out,” and her advocacy of a “transgenderist” position since the late 1960s constituted a major conceptual and identity innovation. These articles focus on issues of sex, sexuality, and gender and serve as a foundation for what later became “transgender studies” in the 1990s. “The world that we live in is highly polarized and highly stereotyped into femininity and masculinity. What I would like to have you think about is the word in the middle-humanity. A man who wants to look after babies is only being a human being in dealing with young offspring. It has nothing to do with his being a male and not a female, and that is the problem in this area of sex and gender. This high degree of polarization in our society leads to all kinds of confusion in our culture. We must learn that being a person is more important than being either man or woman, male or female.” —Virginia Prince, “Sex vs. Gender” Virginia Prince: Pioneer of Transgendering is an invaluable resource for academics working in the field of transgender studies and an important historical document for members of the transgender community.

**Respect and Equality** - Stephen Whittle 2012-08-21

In this fascinating work, theoretical discussions of sex, sexuality, gender and law, and an extensive range of primary and secondary research materials, are combined to provide an insightful analysis into the inadequacies of current law.

**Ftm** - Aaron Devor 2016-08-29

In this ground-breaking study, Aaron Devor provides a compassionate, intimate, and incisive look at the life experiences of forty-five trans men. Emerging into 21st-century political and social conversations, questions persist. Who are they? How do they come to know themselves as men? What do they do about it? How do their families respond? Who are their lovers? What does it mean for everyone else? To answer these and other questions, Devor spent years compiling in-depth interviews and researching the lives of transsexual and transgender people. Here, he traces the everyday and significant events that coalesce into trans identities, culminating in gender and sex transformations. Using trans men's own words as illustrations, Devor looks at how childhood, adolescence, and adult experiences with family members, peers, and lovers work to shape and clarify their images of themselves as men. With a new introduction, Devor positions the volume in twenty-first century debates of identity politics and community-building and provides a window into his own self-exploration as a result of his research.

**Whipping Girl** - Julia Serano 2016-03-08

This classic manifesto is “a foundational text for anyone hoping to understand transgender politics and culture in the U.S. today.” (NPR) \*Named as one of 100 Best Non-Fiction Books of All Time by Ms. Magazine\* In Whipping Girl, biologist and trans activist Julia Serano shares her experiences and insights—both pre- and post-transition—to reveal the ways in which fear, suspicion, and dismissiveness toward femininity shape our attitudes toward trans women, as well as gender and sexuality as a whole. Serano's well-honed arguments and pioneering advocacy stem from her ability to bridge the gap between the often-disparate biological and social perspectives on gender. In this provocative manifesto, she exposes how deep-rooted the cultural belief is that femininity is frivolous, weak, and passive. In addition to debunking popular misconceptions about being transgender, Serano makes the case that today's feminists and transgender activists must work to embrace and empower femininity—in all of its wondrous forms.

*Gender Dysphoria and Disorders of Sex Development* - Baudewijntje P.C. Kreukels 2013-07-01

This book provides a state of the art review on the care and treatment of and current scientific knowledge on gender dysphoria (GD) and disorders of sex development (DSD). The book elucidates the history, the present situation, and the newest developments and future perspectives in both research on GD and DSD and the clinical management of individuals with GD and DSD of all ages. With contributions from a selection of leading scientists and established clinicians in the field of GD and DSD, this is a unique and comprehensive book focusing on the etiology and developmental trajectories of GD and DSD regarding gender identity development, psychiatric comorbidity, classification dilemmas, ethical dilemmas in treatment, influences of societal stigmatization, and discussion of the medical and psychological implications and outcomes of treatment, and providing treatment guidelines for individuals with GD and DSD (distinct guidelines each for children, adolescents, and adults). By presenting not only an historic overview and the current state of the art, but also challenges for the future, the book aims to demonstrate the need for further research and to stimulate the development and improvement of the clinical care of individuals with GD and DSD.

*FTM: Female-to-male Transsexuals in Society* - Holly Devor 1997

FTM: Female-to-Male Transsexuals in Society provides a compassionate, intimate, and incisive look at the life experiences of forty-five female-to-male transsexuals. Until now, little has been known about these individuals, and questions persist about them. Who are they? How do they come to know themselves as transsexual? What do they do about it? How do their families cope? Who loves them? What does it mean for the rest of us? To answer these and other questions, Holly Devor spent many years compiling in-depth interviews and researching the lives of transsexual and transgendered people, many of whom became her friends. She traces the everyday and significant events that coalesce in transsexual identity, culminating in gender and sex transformation. After an introduction which grounds the discussion in historical and theoretical contexts, the author takes a life course approach to understanding female-to-male transsexualism. Using her subjects' own words as illustrations, Devor looks at how childhood, adolescent, and adult experiences with family members, peers, and lovers work to shape and clarify female-to-male transsexuals' images of themselves as people who should be men.

Transsexuality - 2000

This report from the Evangelical Alliance is intended to inform the public about the subject of transsexuality and its complex practical, pastoral, and theological consequences for the Church. The book offers suggested guidelines for how a Christian response to transsexual people might work in practice.

Transgender and HIV - Walter O Bocking 2014-02-25

Deliver effective services to this growing population! This volume presents the first collection of reports on the impact of HIV/AIDS on the transgender community worldwide. It includes a thorough description of the unique HIV risks of transgender people and exposes their largely neglected health and social service needs. This unique book also reports on the first generation of prevention interventions targeting this community, discusses guidelines for providing sex reassignment services to HIV-positive transsexuals, and encourages collaboration between communities at risk, researchers, and people in the helping professions. The social stigma faced by this population adds to their risk of HIV infection. Low self-esteem, rejection, neglect, employment discrimination, disenfranchisement, and a desire for acceptance and validation are all

contributing factors. Yet, as the editors point out, “On the positive side, the transgender community has been able to mobilize and empower itself, and has found a voice that no longer can be ignored. We call on transgender and nontransgender people alike to work together to advance HIV prevention and promote our sexual health.” In Transgender and HIV you'll encounter: extensive discussions of the health, social service, and HIV prevention needs of the transgender community tips on how to work with marginalized communities in an empowering way explorations of the sexuality of both male-to-female and female-to-male transsexuals first-ever findings on sex reassignment surgery on HIV-positive individuals guidelines for surgery on HIV-positive transsexuals Transgender and HIV provides much-needed and often-requested information on HIV prevalence, risks, prevention, and care for this increasingly visible community.

**When Harry Became Sally** - Ryan T. Anderson 2018-02-20

Can a boy be “trapped” in a girl’s body? Can modern medicine “reassign” sex? Is our sex “assigned” to us in the first place? What is the most loving response to a person experiencing a conflicted sense of gender? What should our law say on matters of “gender identity”? When Harry Became Sally provides thoughtful answers to questions arising from our transgender moment. Drawing on the best insights from biology, psychology, and philosophy, Ryan Anderson offers a nuanced view of human embodiment, a balanced approach to public policy on gender identity, and a sober assessment of the human costs of getting human nature wrong. This book exposes the contrast between the media’s sunny depiction of gender fluidity and the often sad reality of living with gender dysphoria. It gives a voice to people who tried to “transition” by changing their bodies, and found themselves no better off. Especially troubling are the stories told by adults who were encouraged to transition as children but later regretted subjecting themselves to those drastic procedures. As Anderson shows, the most beneficial therapies focus on helping people accept themselves and live in harmony with their bodies. This understanding is vital for parents with children in schools where counselors may steer a child toward transitioning behind their backs. Everyone has something at stake in the controversies over transgender ideology, when misguided “antidiscrimination” policies allow biological men into women’s restrooms and penalize Americans who hold to the truth about human nature. Anderson offers a strategy for pushing back with principle and prudence, compassion and grace.

*Transgender Jurisprudence* - Andrew N. Sharpe 2002-01

This work aims to move beyond liberal law reform to interrogate the transgender/law relation in a sustained and critical manner. Its concern is to map contemporary legal regulation of transgender bodies within a common law tradition. The specific focus is upon ideas of transgender that define the terms of this regime.

Second Skins - Jay Prosser 1998-04-07

Do we need bodies for sex? Is gender in the head or in the body? In Second Skins Jay Prosser reveals the powerful drive that leads men and women literally to shed their skins and--in flesh and head--to cross the boundary of sex. Telling their story is not merely an act that comes after the fact, it's a force of its own that makes it impossible to forget that stories of identity inhabit autobiographical bodies. In this stunning first extensive study of transsexual autobiography, Jay Prosser examines the exchanges between body and narrative that constitute the phenomenon of transsexuality. Showing how transsexuality's somatic transitions are spurred and enabled by the formal transitions of narrative, Prosser uncovers a narrative tradition for transsexual bodies. Sex change is a plot--and thus appropriately transsexuals make for adept and absorbing authors. In reading the transsexual plot through transsexuals' own recounting, Prosser not only gives us a new and more accurate rendition of transsexuality. His book suggests transsexuality, with its extraordinary conjunctions of body and narrative, as an identity story that transitions across the body/language divide that currently stalls poststructuralist thought. The form and approach of Second Skins works to cross other important and parallel divides. In addition to analyzing transsexual textual accounts, the book includes some 30 photographic portraits of transsexuals-- poignant attempts by transsexuals to present themselves unmediated to the world except by the camera. And the author does not shy from exposure himself. Interjecting the personal into his theoretical discussion and close textual work throughout the book, Prosser reads and writes his own body, his purpose in that stylistic crossing to stake out transsexuality--and hence this very book--as his own body's narrative.

**Trans Bodies, Trans Selves** - Laura Erickson-Schroth 2014

This is a groundbreaking, personal, and informative guide for the transgender population, covering health, legal issues, cultural and social questions, history, theory, and more. It is a place for transgender and gender-questioning people, their partners and families, students, professors, and guidance counselors, to look for up-to-date information on transgender life.

Transgender Health - Benjamin Vincent 2018-06-21

The number of people coming out as transgender continues to rise, and this book shows healthcare and medical practitioners how to deliver excellent primary and secondary care to gender diverse patients. This guide provides accessible and practical advice on tailoring the social and ethical aspects of practice to the needs of each individual. Beyond setting out how clinical procedures should work for gender reassignment, it explains how to use language and pronouns in a respectful way, provides information on transgender services and resources, and offers insights into the challenges commonly faced by transgender people in both medical and social contexts. Based on cutting edge research and the lived experience of the author as a non-binary person, this is essential reading for all those working to meet the needs of transgender people in healthcare settings.

Gender Confirmation Surgery - Loren S. Schechter 2020-01-31

Gender confirming surgery represents one of many therapies for individuals with gender dysphoria and can be pivotal in allowing individuals to become their true selves. An emerging field, this text represents a continuing evolution of surgical techniques, as well as a framework around which surgical therapies are based. Providing a fundamental understanding of the surgical principles while also recognizing the fast-paced nature of the advances in technique, Gender Confirmation Surgery touches upon the challenges and complexities in the surgical care of transgender individuals, featuring detailed sections for transwomen and transmen surgeries, non-surgical options, and establishing educational programs. Written as a guide primarily for surgeons in plastics, urology, and gynecology, this book can also appeal to primary care practitioners, mental health professionals, and endocrinologists. By representing an evolution of technique and advances in the field, Gender Confirmation Surgery offers a framework around which practitioners can familiarize themselves with gender surgery.

Reclaiming Genders - Stephen Whittle 2016-10-06

This collection of essays is an interdisciplinary work bringing together an internationally acclaimed group of transgender writers. Informed by both academic and street experiences, it considers the practical issues faced in changing the world view of gender as well as the limitations of queer, feminism and post-modernism. In a wide-ranging set of contributions, it addresses our engendered places now and what we can aim for in the future. It evaluates the mechanisms we can use to galvanize both the micro theories of

gender as a personal experience of oppression and the macro theories of gender as a site of social regulation. The collection aims to take identity politics and reclaim identity for the self.

**Man Into Woman** - Lili Elbe 2020-02-20

In 1930 Danish artist Einar Wegener underwent a series of surgeries to live as Lili Ilse Elvenes (more commonly known as Lili Elbe). Her life story, *Fra Mand til Kvinde* (From Man to Woman), published in Copenhagen in 1931, is the first popular full-length (auto)biographical narrative of a subject who undergoes genital transformation surgery (*Genitalumwandlung*). In *Man Into Woman: A Comparative Scholarly Edition*, Pamela L. Caughie and Sabine Meyer present the full text of the 1933 American edition of Elbe's work with comprehensive notes on textual and paratextual variants across the four published editions in three languages. This edition also includes a substantial scholarly introduction which situates the historical and intellectual context of Elbe's work, as well as new essays on the work by leading scholars in transgender studies and modernist literature, and critical coverage of the 2015 biopic, *The Danish Girl*. This print edition has a digital companion: the Lili Elbe Digital Archive ([www.lilielbe.org](http://www.lilielbe.org)). Launched on July 6, 2019, to commemorate the 100th anniversary of the founding of Magnus Hirschfeld's Institute for Sexual Science (Institut für Sexualwissenschaft) where Lili Elbe was initially examined, the Lili Elbe Digital Archive hosts the German typescript and all four editions of this narrative published in Danish, German, and English between 1931 and 1933, with English translations of the Danish edition and the typescript. Many letters from archives and contemporaneous articles noted in this print edition may be found in the digital archive.

*Sex Change, Social Change* - Viviane Namaste 2011

*Sex Change, Social Change: Reflections on Identity, Institutions, and Imperialism* provides readers with an authoritative introduction to contemporary transsexual politics in Canadian and Québécois contexts. Through different case studies relating to the law, human rights, health care, and prostitution, Dr. Namaste exposes readers to the complex issues involved in how transsexual politics and feminism interrelate. Written in accessible language, and including interviews, essays, and political speeches, *Sex Change, Social Change* will appeal to academics and to activists in the community, as well as to the general reader. The second edition has been thoroughly updated with five new chapters and includes new commentary on the readings from the first edition. All royalties from the sale of this book go to PASAN (Prisoners' HIV/AIDS Support Action Network), in particular their emergency fund that provides modest amounts of money to prisoners upon their release. These funds enable people to secure housing, go to a job interview, and/or replace their identity documents.
