**Harlem World** - Jonathan Mael 2023-09-12

"Hip hop music is one of America's true home-grown art forms and certainly one of her most significant cultural exports, with local hip hop scenes now thriving worldwide. The birth of hip hop music is commonly dated to the release of the Sugarhill Gang's classic track "Rapper's Delight," which was the first rap song to make the Billboard Top 40 list (peaking at #36 in January 1980.) Currently, much credit goes to the Bronx for the "invention" of hip hop: the Universal Hip Hop Museum just broke ground there. This book is the untold history of how Harlem helped ignite the revolution that changed music and American culture"--

**After This** - Claire Bidwell Smith 2015-04-28

In After This, acclaimed author, and therapist Claire Bidwell Smith confronts the question she encounters every day in private practice—what happens after we die? In an exploration of the afterlife that is part personal, part prescriptive—Smith invites us on her journey into the unknown. She wonders: How do we grieve our loved ones without proof that they live on? Will we ever see them again? Can they see us now, even though they are gone? Chronicling our steps along the path that bridges this world and the next, Smith undergoes past-life regressions and sessions with mediums and psychics and immerses

herself in the ceremonies of organized religion and the rigor of scientific experiments to try and find the answers. Drawing on both her personal losses, recounted in her memoir *The Rules of Inheritance*, as well as her background working in hospice as a bereavement counselor, Smith attempts to show how exploring the afterlife can have a positive impact on the grief process.

**The 48 Laws of Power** - Robert Greene 2000-09-01

Amoral, cunning, ruthless, and instructive, this multi-million-copy New York Times bestseller is the definitive manual for anyone interested in gaining, observing, or defending against ultimate control – from the author of *The Laws of Human Nature*. In the book that *People* magazine proclaimed “beguiling” and “fascinating,” Robert Greene and Joost Elffers have distilled three thousand years of the history of power into 48 essential laws by drawing from the philosophies of Machiavelli, Sun Tzu, and Carl Von Clausewitz and also from the lives of figures ranging from Henry Kissinger to P.T. Barnum. Some laws teach the need for prudence (“Law 1: Never Outshine the Master”), others teach the value of confidence (“Law 28: Enter Action with Boldness”), and many recommend absolute self-preservation (“Law 15: Crush Your Enemy Totally”). Every law, though, has one thing in common: an interest in total domination. In a bold and arresting two-color package, *The 48 Laws of Power* is ideal whether your aim is conquest, self-defense, or simply to understand the rules of the game.

**The Charisma Myth** - Olivia Fox Cabane 2013-03-26

What if charisma could be taught? The charisma myth is the idea that charisma is a fundamental, inborn quality—you either have it (Bill Clinton, Steve Jobs, Oprah) or you don't. But that's simply not true, as Olivia Fox Cabane reveals. Charismatic behaviors can be learned and perfected by anyone. Drawing on techniques she originally developed for Harvard and MIT, Cabane breaks charisma down into its components. Becoming more charismatic doesn't mean transforming your fundamental personality. It's about adopting a series of specific practices that fit in with the personality you already have. *The Charisma Myth* shows you how to become more influential, more persuasive, and more inspiring.

**To my crush** - Brendon Thutso 2019-10-15

This book is a concoction of the poet's thoughts on a person they have an unquenchable crush on. The poet is not a very direct person and uses metaphors, riddles, and many other language tricks to embody what they intend to say. In the poem, “The Dream”, the poet talks about watching the earth flood as he sits at the brink of the cumulonimbus, but as he continues through the poem it unravels to the reader that the poet is not talking about the real flood or cumulonimbus, instead the poet uses all those meteorological terms as a way to censor their language. In many other poems like “imagine”, the poet expresses their love and admiration for their crush and the things they wish they could do together. contact: brentee01@gmail.com (author)
