## **Sex in the Museum** - Sarah Forbes 2016-04-05

Sarah Forbes was in graduate school when she stumbled upon a museum dedicated to . . . sex. The anthropology student hesitated when her boyfriend suggested she apply for a job, but apply she did, and it wasn't long before a part-time position at New York's MUSEUM OF SEX led to a gig as the museum's curator. That was over twelve years ago. Now Sarah—a married mother of two—proudly sports her title as Curator of Sex. In *SEX IN THE MUSEUM*, Sarah invites readers to travel from suburban garages where men and women build sex machines, to factories that make sex toys, to labyrinthine archives of erotica collectors. Escorting us in to the hidden world of sex, illuminating the never-talked-about communities and eccentricities of our sexual subcultures, and telling her own personal story of a decade at The Museum of Sex, Sarah asks readers to grapple with the same questions she did: when it comes to sex, what is good, bad, deviant, normal? Do such terms even apply? If everyone has sexual secrets, is it possible to really know another person and be known by them? And importantly, in our hyper-sexualized world, is it still possible to fall in love?

## **Visual Shock** - Michael Kammen 2009-04-22

In this lively narrative, award-winning author Michael Kammen presents a fascinating analysis of cutting-edge art and artists and their unique ability to both delight and provoke us. He illuminates America's obsession with public memorials and the changing role of art and museums in our society. From Thomas Eakins's 1875 masterpiece *The Gross Clinic*, (considered "too big, bold, and gory" when first exhibited) to the bitter disputes about Maya Lin's Vietnam War Memorial, this is an eye-opening account of American art and the battles and controversies that it has ignited.

## *Frommer's? Irreverent Guide to Manhattan* -

Ethan Wolff 2004-03-25

Looking for a travel guide that goes where other guides fear to tread? One that rides roughshod

over ad-copy puffery to smartly deliver the real scoop on a destination's sites and attractions? One that dares to be honest, hip, and fun? Look no more. Frommer's Irreverent Travel Guides are wickedly irreverent, unabashedly honest, and downright hilarious, and provide an insider's perspective on which attractions are overrated tourist traps and which are the secret gems that locals love. You'll get the lowdown on restaurants, lodging, and shopping, and even find out what the locals think of you. "Like being taken around by a savvy local," said the New York Times. "Hipper and savvier than other guides," concurred Diversion magazine. Never shy about confronting the issues, the Irreverents are guides to real travel in the real world.

Frommer's Irreverent Guide to Manhattan is as brash and ballsy as the Big Apple itself. You'll get the straight scoop on old chestnuts like the Empire State Building, as well as the skinny on new hotspots such as the sleek "neo-lounges" on the Lower East Side. With the Irreverent Guide, you'll become as mobile as the locals: a dim sum brunch in a bustling Chinatown banquet hall is just a subway ride away from a soul-food dinner in Harlem. Discover one of the city's secret bargains: the free ride on the Staten Island Ferry past the Statue of Liberty. In the Irreverent Guide to Manhattan, the gloriously decadent City that Never Sleeps is made both manageable and deliciously fun—whether you choose to pursue the high life at the model hangouts and caviar bars or get down with the low life at Punjabi tandoor delis and cheesy karaoke bars.

**World Made Sexy** - Paul Rutherford 2007-08-11

The cult of eroticism is a pervasive force in modern society, affecting almost every aspect of our daily lives. In this book, Paul Rutherford argues that this phenomenon is a product of one of the major commercial and political enterprises of the twentieth and twenty-first centuries: the creation of desire - for sex, for wealth, and for entertainment. A World Made Sexy examines museum exhibitions, art, books, magazines, films, and television to explore the popular rise of eroticism in America and across the developed world. Starting with a brief foray into the history of pornography, Rutherford goes on to explore a sexual liberation movement shaped by the ideas of Marx and Freud, the erotic styles of Salvador Dali and pop art, the pioneering use of publicity as erotica by Playboy and other media, and the growing concerns of cultural critics over the emergence of a regime of stimulation. In one case study, Rutherford pairs James Bond and Madonna in order to examine the link between sex and aggression. He details how television advertising after 1980 constructed a theatre of the libido to entice the buying public, and concludes by situating the cultivation of eroticism in the wider context of Michel Foucault's views on social power and governmentality, and specifically how they relate to sexuality, during the modern era. A World Made Sexy is about power and pleasure, emancipation and domination, and the relationship between the personal passions and social controls that have crafted desire.

**Paris, Capital of Fashion** - Valerie Steele  
2019-09-05

Paris, Capital of Fashion accompanies a major exhibition at The Museum at FIT, New York's only museum dedicated solely to the art of fashion. This lavishly-illustrated book is edited by MFIT's director and chief curator, Valerie Steele, also the author of the acclaimed Paris Fashion: A Cultural History. This new book opens with an important essay on how and why Paris became famous as the international "capital of fashion." Steele traces how the mythic "aura" of Paris fashion was constructed over generations, as the splendour of the court at Versailles came to be echoed by the spectacle of the haute couture. Yet Paris has faced repeated challenges from other fashion capitals, especially London, Milan, and New York. Essays by Christopher Breward, David Gilbert, Grazia d'Annunzio, and Antonia Finnane place Paris within a broader global narrative, while Sophie Kurkdjian investigates the cultural value of the Parisian couture, and Agnès Rocomora explores the online imagery of the chic Parisienne. As The New Yorker recently put it, Paris is "the most glamorous and competitive of the world's fashion capitals." No other city has been branded "Fashion" as Paris has. By opening the study of Paris fashion to new approaches, this book explains why Paris still retains its position as the world's undisputed fashion capital.

*The Ballad of Sexual Dependency* - Nan Goldin  
1986

Goldin charts the loss of innocence through barrooms and parties on the social periphery of New York's East Village and through the harrowing worlds of drugs and prostitution. "The Ballad of Sexual Dependency is a visual diary chronicling the struggle for intimacy and understanding between friends, and lovers--collectively described by Nan Goldin as her "tribe." Her work describes a world that is visceral, charged, and seething with life . . . . As Goldin writes: "Real memory, which these pictures trigger, is an invocation of the color, smell, sound, and physical presence, the density and flavor of life."

*Museums, Sexuality, and Gender Activism* -  
Joshua G. Adair 2020-01-23

Museums, Sexuality, and Gender Activism examines the role of exhibitionary institutions in representing LGBTQ+ people, cisgender women, and nonbinary individuals. Considering recent gender and sexuality-related developments through a critical lens, the volume contributes significantly to the growing body of activist writing on this topic. Building on Gender, Sexuality and Museums and featuring work from established voices, as well as newcomers, this volume offers risky and exciting articles from around the world. Chapters cover diverse topics, including transgender representation, erasure, and activism; two-spirit people, indigeneity, and museums; third genders; gender and sexuality in heritage sites and historic homes; temporary exhibitions on gender and sexuality; museum representations of HIV/AIDS; interventions to increase queer visibility and inclusion in galleries; LGBTQ+ staff alliances; and museums, gender ambiguity, and the disruption of binaries. Several chapters focus on areas outside the US and Europe, while others explore central topics through the perspectives of racial and ethnic minorities. Containing contributions that engage in sustained critique of current policies, theory, and practice, *Museums, Sexuality, and Gender Activism* is essential reading for those studying

museums, women and gender, sexuality, culture, history, heritage, art, media, and anthropology.

The book will also spark interest among museum practitioners, public archivists, and scholars researching related topics.
