The Unmaking of Arab Socialism Ali Kadri 2016-10-01 Conditions of malnutrition, conflict, or a combination of both characterize many Arab countries, but this was not always so. As in much of the developing world, the immediate post-independence period represented an age of hope and relative prosperity. But imperialism did not sleep while these countries developed, and it soon intervened to destroy these post-independence achievements. The two principal defeats and losses of territory to Israel in 1967 and 1973, as well as the others that followed, left in their wake more than the destruction of assets and the loss of human lives: the Arab World lost its ideology of resistance. The Unmaking of Arab Socialism is an attempt to understand the reasons for Arab world's developmental descent from the pinnacle of Arab socialism to its present desolate conditions through an examination of the post-colonial histories of Egypt, Syria, and Iraq.

From Trafficking to Terror Pardis Mahdavi 2013-10-15 A panic surrounds human trafficking and terrorism. The socially constructed 'war on terror' and 'war on trafficking' are linked through discourses that not only combine the two, but help promote an anti-Muslim sentiment. Using ethnographic data and stories, From Trafficking to Terror presents the need to challenge the trafficking and terror paradigm, and rethink approaches to the large scale challenges these discourses have created. This book is ideal for courses on gender, labor, migration, human rights and globalization.

Ryszard Kapuscinski Artur Domsławski 2012-07-10 Reporting from such varied locations as postcolonial Africa, revolutionary Iran, the military dictatorships of Latin America and Soviet Russia, the Polish journalist and writer Ryszard Kapuściński was one of the most influential eyewitness journalists of the twentieth century. During the Cold War, he was a dauntless investigator as well as a towering literary talent, and books such as *The Emperor* and *Travels with Herodotus* founded the new genre of 'literary reportage'. It was an achievement that brought him global renown, not to mention the uninvited attentions of the CIA. In this definitive biography, Artur Domsławski shines a new light on the personal relationships of this intensely charismatic, deeply private man, examining the intractable issue at the heart of Kapuściński's life and work: the relationship and tension between journalism and literature. In researching this book, Domsławski, himself an award-winning foreign correspondent, enjoyed unprecedented access to Kapuściński's private papers. The result traces his mentor's footsteps through Africa and Latin America, delves into files and archives that Kapuściński himself examined, and records conversations with the people that he talked to in the course of his own investigations. Ryszard Kapuściński is a meticulous, riveting portrait of a complex man of intense curiosity living at the heart of dangerous times.

Hyphen Pardis Mahdavi 2021-06-03 *Object Lessons* is a series of short, beautifully designed books about the hidden lives of ordinary things. To hyphenate or not to hyphenate has been a central point of controversy since before the imprinting of the first Gutenberg Bible. And yet, the hyphen has persisted, bringing and bridging new words and concepts. *Hyphen* follows the story of the hyphen from antiquity—"Hyphen" is derived from an ancient Greek word meaning "to tie together"—to the present, but also uncovers the politics of the hyphen and the role it plays in creating identities. The journey of this humble piece of connective punctuation reveals the quiet power of an orthographic concept to speak to the travails of hyphenated individuals all over the world. *Hyphen* is ultimately a compelling story about the powerful ways that language and identity intertwine. Mahdavi—herself a hyphenated Iranian-American—weaves in her own experiences struggling to find a sense of self amidst feelings of betwixt and between. Through stories of the author and three other individuals, *Hyphen* collectively considers how to navigate, articulate, and empower new identities. *Object Lessons* is published in partnership with an essay series in *The Atlantic*.

Human Rights at the Intersections Anthony Tirado Chase 2023-01-26 "At a time when states are increasingly hostile to the international rights regime, human rights activists have turned to non-state and sub-state actors to begin the implementation of human rights law. This complicates the conventional analysis of relationships between local actors, global norms, and cosmopolitanism. The contributions in this open access collection examine the "lived realities of human rights" and critically engage with debates on localism and cosmopolitanism, weaving insights from social sciences, humanities, and medicine into a broader call for interdisciplinary scholarship informed by practice. Chapters draw together theoretical frameworks on localism and cosmopolitanism, with case studies ranging from the #MeToo movement and Black Lives Matter to the human rights implications of Covid-19. Overall, the contributors argue that much of the work to be done centres on how human rights approaches can be better integrated across local and global institutions and better targeted towards grassroots-informed structural reform"--

Crossroads of European Histories R. A. Stradling 2006-01-01 This publication contains thirty-five papers written by European historians in relation to five key periods in European history: the year of revolutions 1848, the Balkan wars of 1912-13, the search for peace in 1919, the end of the Second World War and the beginning of the Cold War in 1945, and the events of 1989-90 in central and eastern Europe. The papers are drawn from five conferences organised by the Council of Europe based on the principles of Recommendation Rec (2001) 15 on European history teaching. They consider events based on the concept of 'multiperspectivity' which seeks to facilitate an open approach to historical debate based on critical analysis of different perspectives of historical developments, often involving controversial and sensitive issues. This publication is complemented by two related titles: a teaching manual and a DVD of original documents.

Passionate Uprisings Pardis Mahdavi 2009 Investigates the emerging, new sexual culture of Iranian youth, in which sexuality represents freedom and engaging in sex can be considered political activism.

Days of Revolution Mary Elaine Hegland 2013-10-30 Outside of Shiraz in the Fars Province of southwestern Iran lies "Aliabad." Mary Hegland arrived in this then-small agricultural village of several thousand people in the summer of 1978, unaware of the momentous changes that would sweep this town and this country in the months ahead. She became the only American researcher to witness the Islamic Revolution firsthand over her eighteen-month stay. *Days of Revolution* offers an insider's view of how regular people were drawn into, experienced, and influenced the 1979 Revolution and its aftermath. Conventional wisdom assumes Shi'a religious ideology fueled the revolutionary movement. But Hegland counters that the Revolution spread through much more pragmatic concerns: growing inequality, lack of development and employment opportunities, government corruption. Local expectations of leaders and the political process—expectations developed from their experience with traditional kinship-based factions—guided local villagers' attitudes and decision-making, and they often adopted the religious justifications for Revolution only after joining the uprising. Sharing stories of conflict and revolution alongside in-depth interviews, the book sheds new light on this critical historical moment. Returning to Aliabad decades later, *Days of Revolution* closes with a view of the village and revolution thirty years on. Over the course of several visits between 2003 and 2008, Mary Hegland investigates the lasting effects of the Revolution on the local political factions and in individual lives. As Iran remains front-page news, this intimate look at the country's recent history and its people has never been more timely or critical for understanding the critical interplay of local and global politics in Iran.

Gridlock Pardis Mahdavi 2011-04-13 The images of human trafficking are all too often reduced to media tales of helpless young women taken by heavily accented, dark-skinned captors—but the reality is a far cry from this stereotype. In the Middle East, Dubai has been accused of being a

hotbed of trafficking. Pardis Mahdavi, however, draws a more complicated and more personal picture of this city filled with migrants. Not all migrant workers are trapped, tricked, and abused. Like anyone else, they make choices to better their lives, though the risk of ending up in bad situations is high. Legislators hoping to combat human trafficking focus heavily on women and sex work, but there is real potential for abuse of both male and female migrants in a variety of areas of employment—whether on the street, in a field, at a restaurant, or at someone's house. Gridlock explores how migrants' actual experiences in Dubai contrast with the typical discussions—and global moral panic—about human trafficking. Mahdavi powerfully contrasts migrants' own stories with interviews with U.S. policy makers, revealing the gaping disconnect between policies on human trafficking and the realities of forced labor and migration in the Persian Gulf. To work toward solving this global problem, we need to be honest about what trafficking is—and is not—and to finally get past the stereotypes about trafficked persons so we can really understand the challenges migrant workers are living through every day.

Last Scene Underground Roxanne Varzi 2015-10-21 Leili could not have imagined that arriving late to Islamic morals class would change the course of her life. Gathering in the cafes of Tehran, these young college students come together to create an underground play that will wake up their generation. Their dangerous discoveries ultimately lead to finding themselves. The Iranian Political Language Yadullah Shahibzadeh 2015-10-14 In this detailed study of modern Iran, Yadullah Shahibzadeh examines changes in people's understanding of politics and democracy. The book aims to overcome the shortcomings of traditional historiography by challenging the monopoly of intellectuals' perspectives and demonstrating the intellectual and political agency of the ordinary people.

Producing Inclusive Feminist Knowledge Akosua Adomako Ampofo 2021-09-17 In the global South there is potential for politics to marginalize the diverse perspectives of subaltern communities. Exploring ongoing and new feminist dialogues in the global South, this book examines the ways in which dominant epistemologies are challenged, unique identities formed, and the implications for the global feminist agenda.

Women and Politics in Iran: Veiling, Unveiling and Reveiling Hamideh Sedghi 2014-05-14 Why were urban women veiled in the early 1900s, unveiled from 1936 to 1979, and reveiled after the 1979 revolution? This question forms the basis of Hamideh Sedghi's original and unprecedented contribution to politics and Middle Eastern studies. Using primary and secondary sources, Sedghi offers new knowledge on women's agency in relation to state power. In this rigorous analysis she places contention over women at the centre of the political struggle between secular and religious forces and demonstrates that control over women's identities, sexuality, and labor has been central to the consolidation of state power. Sedghi links politics and culture with economics to present an integrated analysis of the private and public lives of different classes of women and their modes of resistance to state power.

Gridlock Pardis Mahdavi 2011-04-13 Gridlock explores how migrant workers' actual experiences in Dubai contrast with the typical discussions—and global moral panic—about human trafficking.

"Off the Straight Path" Elyse Semerdjian 2008-12-08 The legal treatment of sexual behavior is a subject that receives little scholarly attention in the field of Middle East women's studies. Important questions about the relationship between sexuality and the law and about the societies enforcing that relationship are rarely addressed in the current literature. Elyse Semerdjian's "Off the Straight Path" takes a bold step toward filling that gap by offering a fascinating look at the historical progression of the treatment of illicit sex under Islamic law. Semerdjian provides a comprehensive review of the concept of zina, i.e., sexual indiscretion, by exploring the diverse interpretation of zina crime as presented in a variety of sources from the Qur'an and hadith to legal literature. She then delves into the history of legal responses to zina within the specific community of Aleppo, Syria. Drawing on a wealth of shari'a court records, Semerdjian provides a realistic view of Syrian society during the Ottoman period. With vivid detail, she describes specific women's lives and experiences as their cases are presented before the court. Semerdjian argues that the actual treatment of zina crimes in the courts differs substantially from sentences prescribed by codified Islamic jurisprudence. In contrast to the violent corporal punishments dictated in the Islamic legal code, the courts often punished crimes of sexual indiscretion with nonviolent sentences, such as removal from the community. Employing exceptional insight, "Off the Straight Path" presents a powerful challenge to the traditional view of Islamic law, enabling a richer understanding of Islamic society.

After the Arab Spring John R. Bradley 2012-01-03 From the author of the book that uniquely predicted the Egyptian revolution, a new message about the Middle East: everything we're told about the Arab Spring is wrong. When popular revolutions erupted in Tunisia and Egypt, the West assumed that democracy and pluralism would triumph. Greatly praised author and foreign correspondent John R. Bradley draws on his extensive firsthand knowledge of the region's cultures and societies to show how Islamists will fill the power vacuum in the wake of the revolutions. This vivid and timely book gives an original analysis of the new Tunisia, Egypt, Syria, Yemen, Libya, and Bahrain by highlighting the dramatic spread of Saudi-funded Wahhabi ideology, inter-tribal rivalries, and Sunni-Shia divisions. Bradley gives a boots on the ground look at how the revolutions were first ignited and the major players behind them, and shows how the local population participated in and responded to the uprisings. In Tunisia he witnesses secularists under violent attack and in Egypt observes radical Islamists taking control of the streets. He illuminates the ancient sectarian strife shaking Bahrain, fierce civil war pitching tribe against tribe in Libya and Yemen, and ethnic divisions threatening to tear apart Syria and Iran. Taking it one step further, Bradley offers a comprehensive look at how across countries, liberal, progressive voices that first rallied the Arab masses were drowned out by the slogans of the better-organized and more popular radical Islamists. With the in-depth knowledge of a local and the keen perspective of a seasoned reporter, After the Arab Spring offers a piercing analysis of what the empowerment of Islamism bodes for the future of the Middle East and the impact on the West.

Song of a Captive Bird Jasmin Darznik 2018-02-13 LOS ANGELES TIMES BESTSELLER • A spellbinding debut novel about the trailblazing Iranian poet Forugh Farrokhzad, who defied society's expectations to find her voice and her destiny "A complex and beautiful rendering of [a] vanished country and its scattered people, a reminder of the power and purpose of art, and an ode to female creativity under a patriarchy that repeatedly tries to snuff it out."—The New York Times Book Review (Editors' Choice) All through her childhood in Tehran, Forugh Farrokhzad is told that Persian daughters should be quiet and modest. She is taught only to obey, but she always finds ways to rebel—gossiping with her sister among the fragrant roses of her mother's walled garden, venturing to the forbidden rooftop to roughhouse with her three brothers, writing poems to impress her strict, disapproving father, and sneaking out to flirt with a teenage paramour over café glacé. During the summer of 1950, Forugh's passion for poetry takes flight—and tradition seeks to clip her wings. Forced into a suffocating marriage, Forugh runs away and falls into an affair that fuels her desire to write and to achieve freedom and independence. Forugh's poems are considered both scandalous and brilliant; she is heralded by some as a national treasure, vilified by others as a demon influenced by the West. She perseveres, finding love with a notorious filmmaker and living by her own rules—at enormous cost. But the power of her writing only grows stronger amid the upheaval of the Iranian revolution. Inspired by Forugh Farrokhzad's verse, letters, films, and interviews—and including original translations of her poems—this haunting novel uses the lens of fiction to capture the tenacity, spirit, and conflicting desires of a brave woman who represents the birth of feminism in Iran—and who continues to inspire generations of women around the world. Praise for *Song of a Captive Bird* "If poetry is emotion rendered incendiary, then Forugh Farrokhzad was made of fire. . . . *Song of a Captive Bird* is an unsparing account of the necessity and consequences of speaking out."—BookPage "Sometimes, simply choosing whom to love is a political act."—Vogue "Forugh Farrokhzad's short life brimmed with controversy and rebellion . . . This feminist icon inspired Darznik's imaginative debut."—Ms.

Subverted Sue Ellen Browder 2015-07-01 Contraception and abortion were not originally part of the 1960s women's movement. How did the women's movement, which fought for equal opportunity for women in education and the workplace, and the sexual revolution, which reduced women to ambitious sex objects, become so united? In *Subverted*, Sue Ellen Browder documents for the first time how it all happened, in her own life and in the life of an entire country. Trained at the University of Missouri School of Journalism to be an investigative journalist, Browder unwittingly betrayed her true calling and became a propagandist for sexual liberation. As a long-time freelance writer for *Cosmopolitan* magazine, she wrote pieces meant to soft-sell unmarried sex, contraception, and abortion as the single woman's path to personal fulfillment. She did not realize until much later that propagandists higher and cleverer than herself were influencing her thinking and her personal choices as they subverted the women's movement. The thirst for truth, integrity, and justice for women that led Browder into journalism in the first place eventually led her to find forgiveness and freedom in the place she least expected to find them. Her in-depth research, her probing analysis, and her honest self-reflection set the record straight and illumine a way forward for others who have suffered from the unholy alliance between the women's movement and the sexual revolution.

Censoring An Iranian Love Story Shahriar Mandanipour 2023-02-16 An incredibly imaginative yet always charming love story set in contemporary Iran that crackles with wit, verve and social comment 'A brilliant novel about the complexities of writing and publishing in Iran' *Guardian* 'Rich and riveting' *Irish Times* 'This important, timely novel is sharp, playful and zesty with life' *Daily Mail* 'A meditation on the interplay of life and art, reality and fiction' *New York Times* 'Mandanipour's writing is exuberant, bonhomous, clever... powerful' *New Yorker* Sara falls in love with Dara through secret messages hidden in code in the pages of books that have been outlawed, but then something quite extraordinary and unexpected happens. Through adeptly handled asides to the reader, as well as anecdotes, codes and metaphors, and cheeky references to the wonderfully rich Iranian literary heritage, the novel builds to offer a revealing yet often playful and hopeful comment on the pressures of writing within the tightly prescribed Islamic regime, pressures that naturally are heightened where affairs of the heart are concerned.

Democracy on the Precipice Zygmunt Bauman 2012-01-01 Democracy is well-established and soundly practiced in most European countries. But despite unprecedented progress, there is growing dissatisfaction with the state of democracy and deepening mistrust of democratic institutions; a situation exacerbated by the economic crisis. Are Europe's democracies really under threat? Has the traditional model of European democracy exhausted its potential? A broad consensus is forming as to the urgent need to examine the origins of the crisis and to explore visions and strategies which could contribute to rebuilding confidence in democracy. As Europe's guardian of democracy, human rights and the rule of law, the Council of Europe is committed to exploring the state and practice of European democracy, as well as identifying new challenges and anticipating future trends. In order to facilitate this reflection, the Council of Europe held a series of Democracy Debates with the participation of renowned specialists working in a variety of backgrounds and disciplines. This publication presents the eight Democracy Debate lectures. Each presentation analyses a specific aspect of democracy today, placing the issues not only in their political context but also addressing the historical, technological and communication dimensions. The authors make proposals on ways to improve democratic governance and offer their predictions on how democracy in Europe may evolve. Together, the presentations contribute to improving our understanding of democracy today and to recognising the ways it could be protected and strengthened.

The Egyptians Jack Shenker 2016-01-21 From award-winning journalist Jack Shenker, *The Egyptians* is the essential book about Egypt and radical politics. In early 2011, Cairo's Tahrir Square briefly commanded the attention of the world. Half a decade later, the international media has largely moved on from Egypt's explosive cycles of revolution and counter-revolution - but the Arab World's most populous nation remains as volatile as ever, its turmoil intimately bound up with forms of authoritarian power and grassroots resistance that stretch right across the globe. In *The Egyptians: A Radical Story*, Jack Shenker uncovers the roots of the uprising that succeeded in toppling Hosni Mubarak, one of the Middle East's most entrenched dictators, and explores a country now divided between two irreconcilable political orders. Challenging conventional analyses that depict contemporary Egypt as a battle between Islamists and secular forces, *The Egyptians* illuminates other, far more important fault lines: the far-flung communities waging war against transnational corporations, the men and women fighting to subvert long-established gender norms, the workers dramatically seizing control of their own factories, and the cultural producers (novelists, graffiti artists and illicit bedroom DJs) appropriating public space in defiance of their repressive and increasingly violent western-backed regime. Situating the Egyptian revolution in its proper context - not as an isolated event, but as an ongoing popular struggle against a certain model of state authority and economic exclusion that is replicated in different forms around the world - *The Egyptians* explains why the events of the past five years have proved so threatening to elites both inside Egypt and abroad. As Egypt's rulers seek to eliminate all forms of dissent, seeded within the rebellious politics of Egypt's young generation are big ideas about democracy, sovereignty, social justice and resistance that could yet change the world.

The Cambridge History of Terrorism Richard English 2021-05-20 An accessible, authoritative history of terrorism, offering systematic analyses of key themes, problems and case studies from terrorism's long past.

Political Aesthetics of Global Protest Pnina Werbner 2014-07-30 From Egypt to India, and from Botswana to London, worker, youth and middle class rebellions have taken on the political and bureaucratic status quo. When most people can no longer earn a decent wage, they pit themselves against the privilege of small, wealthy and often corrupt elites. A remarkable feature of the protests from the Arab Spring onwards has been the salience of images, songs, videos, humour, satire and dramatic performances. This collection explores the central role the aesthetic played in energising the massive mobilisations of young people, the disaffected, the middle classes and the apolitical silent majority. Discover how it fuelled solidarities and alliances among democrats, workers, trade unions, civil rights activists and opposition parties.

Passionate Uprisings Pardis Mahdavi 2019-10-08 There is perhaps no place in the world today where the stakes of partying and having sex are higher than in present-day Iran. Drinking and dancing can lead to arrest by the morality police and a punishment of up to 70 lashes. Consequences for sex outside of marriage can be even more severe—up to 84 lashes, or even public execution. But even under the threat of such harsh punishment, a sexual revolution is taking place. Iranian youth continually risk personal safety to meet friends, date, and, ultimately, to have sex. In the absence of any option for overt political dissent, young people have become part of a self-proclaimed revolution in which they are using their bodies to make social and political statements. Sex has become both a source of freedom and an act of political rebellion. With unprecedented access inside turn-of-the-century Iran, Pardis Mahdavi offers a firsthand look at the daily lives of Iranian youth. They are given a voice as she tells the stories of their intertwined quests for sexual freedom, political reform, and a better future—but not a future without risk. The sexual revolution is also leading to increased levels of abortion, HIV/AIDS, sexually transmitted diseases, and ongoing emotional troubles and mental illnesses, with worrying implications for Iranian youth and Iranian society at large. *Passionate Uprisings* is a fascinating, ground-breaking, and personal look into a society that is poorly understood—if it is understood at all—by the majority of Westerners today. Mahdavi's narrative provides not only an invaluable insight into the real lives of much of Iran's population, but shows how sexual politics and the youth culture could even destabilize the current regime and change the course of Iranian politics.

Precarious Lives Shahram Khosravi 2017-03-07 Drawing on extensive ethnographic engagement with youth in Tehran and Isfahan as well as with migrant workers in rural areas, Shahram Khosravi weaves a tapestry from individual stories, government reports, statistics, and cultural analysis to depict how Iranians react to the experience of precarity and the possibility of hope.

The Iran Primer Robin B. Wright 2010 A comprehensive but concise overview of Iran's politics, economy, military, foreign policy, and nuclear program. The volume chronicles U.S.-Iran relations under six American presidents and probes five options for dealing with Iran. Organized thematically, this book provides top-level briefings by 50 top experts on Iran (both Iranian and Western authors) and is a practical and accessible "go-to" resource for practitioners, policymakers, academics, and students, as well as a fascinating wealth of information for anyone interested in understanding Iran's pivotal role in world politics.

Taking Power John Foran 2005-11-17 *Taking Power* analyzes the causes behind some three dozen revolutions in the Third World between 1910 and the present. It advances a theory that seeks to integrate the political, economic, and cultural factors that brought these revolutions about, and links structural theorizing with original ideas on culture and agency. It attempts to explain why so few revolutions have succeeded, while so many have failed. The book is divided into chapters that treat particular sets of revolutions including the great social revolutions of Mexico 1910, China 1949, Cuba 1959, Iran 1979, and Nicaragua 1979, the anticolonial revolutions in Algeria, Vietnam, Angola, Mozambique, and Zimbabwe from the 1940s to the 1970s, and the failed revolutionary attempts in El Salvador, Peru, and elsewhere. It closes with speculation about the future of revolutions in an age of globalization, with special attention to Chiapas, the post-September 11 world, and the global justice movement.

Internal Diversity Sonja Moghaddari 2019-12-03 This book explores the interrelation between diversity in migrants' internal relations and their experience of inequality in local and global contexts. Taking the case of Hamburg-based Iranians, it traces evaluation processes in ties between professionals - artists and entrepreneurs - since the 1930s, examining migrants' potential to act upon hierarchical structures. Building on long-term ethnographic fieldwork and archival work, the book centers on differentiation, combining a diversity study with a focus on locality, with a transnational migration study, analysing strategies of capital creation and anthropological value theory. The analysis of migrants' agency tackles questions of independence and cooperation in kinship, associations, transnational entrepreneurship and cultural events within the context of the position of Germany and Iran in the global politico-economic landscape. This material will be of interest to scholars and students of anthropology, sociology, migration, urbanism and Iranian studies, as well as Iranian-Germans and those interested in the entanglement of global and local power relations.

Temporary Marriage in Iran Claudia Yaghoobi 2020-01-30 An examination of temporary marriage, or *sigheh*, in Iran through the representation of women within modern novels, short stories and cinema.

Fire in the Minds of Men James H. Billington 1999 This book traces the origins of a faith--perhaps the faith of the century. Modern revolutionaries are believers, no less committed and intense than were Christians or Muslims of an earlier era. What is new is the belief that a perfect secular order will emerge from forcible overthrow of traditional authority. This inherently implausible idea energized Europe in the nineteenth century, and became the most pronounced ideological export of the West to the rest of the world in the twentieth century. Billington is interested in revolutionaries--the innovative creators of a new tradition. His historical frame extends from the waning of the French Revolution in the late eighteenth century to the beginnings of the Russian Revolution in the early twentieth century. The theater was Europe of the industrial era; the main stage was the journalistic offices within great cities such as Paris, Berlin, London, and St. Petersburg. Billington claims with considerable evidence that revolutionary ideologies were shaped as much by the occultism and proto-romanticism of Germany as the critical rationalism of the French Enlightenment. The conversion of social theory to political practice was essentially the work of three Russian revolutions: in 1905, March 1917, and November 1917. Events in the outer rim of the European world brought discussions about revolution out of the school rooms and press rooms of Paris and Berlin into the halls of power. Despite his hard realism about the adverse practical consequences of revolutionary dogma, Billington appreciates the identity of its best sponsors, people who preached social justice transcending traditional national, ethnic, and gender boundaries. When this book originally appeared *The New Republic* hailed it as "remarkable, learned and lively," while *The New Yorker* noted that Billington "pays great attention to the lives and emotions of individuals and this makes his book absorbing." It is an invaluable work of history and contribution to our understanding of political life.

Crossing the Gulf Pardis Mahdavi 2016-04-27 The lines between what constitutes migration and what constitutes human trafficking are messy at best. State policies rarely acknowledge the lived experiences of migrants, and too often the laws and policies meant to protect individuals ultimately increase the challenges faced by migrants and their kin. In some cases, the laws themselves lead to illegality or statelessness, particularly for migrant mothers and their children. *Crossing the Gulf* tells the stories of the intimate lives of migrants in the Gulf cities of Dubai, Abu Dhabi, and Kuwait City. Pardis Mahdavi reveals the interconnections between migration and emotion, between family and state policy, and shows how migrants can be both mobilized and immobilized by their family relationships and the bonds of love they share across borders. The result is an absorbing and literally moving ethnography that illuminates the mutually reinforcing and constitutive forces that impact the lives of migrants and their loved ones—and how profoundly migrants are underserved by policies that more often lead to their illegality, statelessness, deportation, detention, and abuse than to their aid.

Hyphen Pardis Mahdavi 2021-06-03 *Object Lessons* is a series of short, beautifully designed books about the hidden lives of ordinary things. To hyphenate or not to hyphenate has been a central point of controversy since before the imprinting of the first Gutenberg Bible. And yet, the hyphen has persisted, bringing and bridging new words and concepts. *Hyphen* follows the story of the hyphen from antiquity—"Hyphen" is derived from an ancient Greek word meaning "to tie together" -to the present, but also uncovers the politics of the hyphen and the role it plays in creating identities. The journey of this humble piece of connective punctuation reveals the quiet power of an orthographic concept to speak to the travails of hyphenated individuals all over the world. *Hyphen* is ultimately a compelling story about the powerful ways that language and identity intertwine. Mahdavi herself a hyphenated Iranian-American weaves in her own experiences struggling to find a sense of self amidst feelings of betwixt and between. Through stories of the author and three other individuals, *Hyphen* collectively considers how to navigate, articulate, and empower new identities. *Object Lessons* is published in partnership with an essay series in *The Atlantic*.

Book of Queens Pardis Mahdavi 2023-08-22 The untold story of generations of Middle Eastern freedom fighters—horsewomen who safeguarded an ancient breed of Caspian horse—and their efforts to defend their homelands from the Taliban and others seeking to destroy them. "A breathtaking book that revisits nearly one hundred years of Iranian history, highlighting the power and beauty of women who refuse to be subdued." —Alison Hawthorne Deming, author of *A Woven World* *Book of Queens* reaches back centuries to the Persian Empire and a woman disguised as a man, facing an invading army, protected only by light armor and the stallion she sat astride. Mahdavi draws a thread from past to present: from her fearless Iranian grandmother, who guided survivors of domestic violence to independent mountain colonies in Afghanistan where the women, led by a general named Mina, became their country's first line of defense from marauding warlords. To the female warriors who helped train and breed the horses used by US Green Berets when they touched down in October 2001, with a mission but insufficient intelligence on the ground—women whose

contributions were then forgotten. Pardis Mahdavi chases the legacy of Caspian horses and the women whose lives are saved by them, drawing on decades of research, newly-discovered diaries, and exclusive military sources. Among those intersecting stories is that of American Louise Firouz, who helped bring the breed back from the brink of extinction, connecting Virginia traders to British royals to the son of the Shah. Firouz's life is forever changed when she meets Mahdavi's own family, who run an unusual smuggling operation in addition to raising horses in a wild bid for freedom. *Book of Queens* is an epic tale of hidden women whose communal knowledge was instrumental in saving an animal as ancient as civilization, and who were the genesis of their own liberation.

The Lonely War Nazila Fathi 2014-10-14 As a nine-year-old Tehrani schoolgirl during the Iranian Revolution, Nazila Fathi watched her country change before her eyes. The revolutionaries—most of them poor, uneducated, and radicalized—seized jobs, housing, and positions of power, transforming Iranian society practically overnight. But this socioeconomic revolution had an unintended effect. As Fathi shows, the forces unleashed in 1979 inadvertently created a robust Iranian middle class, one that today hungers for more personal freedoms and a renewed relationship with the outside world. And unless an international confrontation allows Iranian leaders to justify an internal crackdown, this internal pressure for reform will soon set the country on a more stable track. In *The Lonely War*, Fathi describes Iran's awakening alongside her own, revealing how moderates are retaking the country—and how foreign powers can aid their progress.
