*Protecting Innocence* - Diane Obbema 2015-01-16

Every parent wants to protect their child from harm, but is there a way to prepare young children to be safe from sexual abuse without frightening them or damaging their innocence?

Detective Diane Obbema, a 30-year veteran of law enforcement, offers critical choices that parents can make to fortify the protective boundaries around their children in her new book, *Protecting*

*Innocence*. According to statistics, 93% of child victims know their molester, with most never telling anyone about their victimization.

Understanding that children are most vulnerable to sexual assault between the ages of 7 and 13, Detective Obbema draws from her specialized training and investigation of hundreds of child sexual assault cases to give parents the skills they need to navigate this sensitive topic with their children before they reach this vulnerable age group and are

approached by a molester. This book will help you ...\* Make critical choices for protective boundaries around your child. \* Be comfortable in parent-child conversations about private parts. \* Teach respect for their bodies and to expect respect from others.\* Ease your child's fears and build stronger confidence.\* Recognize red flags indicating inappropriate interest in your child. \* Understand a child's heart and mind when pressured by someone. \* Build a trust that encourages your child to confide in you.\* Learn 10 ways to be a more approachable parent. Detective Obbema also gives parents insight on how molesters operate by providing glimpses of what transpires in the interrogation room. By using illustrations from her real-life cases, she makes a powerful impression on parents to help them understand what happens inside a child's heart and mind when pressured by an offender. Parents learn where children are vulnerable to molesters and practical steps to thwart potential

exploitation. Parents learn the power they have to foster respect for the human body within the home, and what negative influences they will need to confront. Protecting Innocence offers actual scripts for parent-child conversations to help parents feel comfortable in addressing topics many of them avoid. These dialogs teach the child proper names for intimate parts, what touches are okay and not okay, how to be assertive in uncomfortable situations, how to recognize and respond to internal feelings that warn of danger, and understanding good vs. bad secrets. These conversations help build a foundation of trust and openness between parent and child. This greater security gives a child confidence to talk with his or her parent any time... about anything.

WHY CASTRATION WON'T

WORK Many times, you will hear people say, "Why don't we

just castrate all the sex offenders? That will do the job." But, in fact, it won't, for some very simple reasons. First, long-term studies have already shown that, in spite of all the media hype, most convicted sex offenders (up to 75% of them) do not re-offend. (Hanson, 1999). To castrate them is a waste of time. Secondly, most children are not molested by them. Most children are molested by someone they know and trust: like a friendly neighbor, down the street, or a school teacher, volunteer in some youth group or at the church. Often, unfortunately, by a relative in the family, be that an older brother, cousin, an inlaw or step-parent. Because none of them have been caught, we don't call them "sex offenders" and, as a result, 'castrating all the sex offenders' won't get them. They will still be left just as free as before. There is a better answer. Records now show that when convicted sex offenders are given exactly the kind of treatment and counseling in that is described

in this book, re-offense rates are cut by 60%. (Alexander 1999). It is not terribly complicated. It isn't just a lot of theories. It is just simple, blunt honesty: making men face the reality of what they are doing, and how it is also wrecking their own lives, then training them in the steps it takes to stop doing so. That is what does it, right there. Here is the book that tells it all. In ten chapters, I relate how it happened that I became a child molester and got over it. That was almost 20 years ago now and I remain re-offense free, with no further convictions or arrests. The lessons from it that you can use to protect your children are given at the end of each chapter. If you follow them, your child will be safer than ever before. Steps that sex offenders can take to earn their way back into the community and a prescription for the healing of America conclude the work. The readers' resources section includes a listing of further books, journals, websites, referral agencies and self-recovery

organizations that may also be of use to those who want more information. Fully indexed, the book will be a useful guide in all future child sex abuse trials. If you have any questions, write me at:

**Protecting Your Child from Predators** - Beth EdD

Robinson 2019-08-06

Even good parents often underestimate the dangers their children face. Research indicates that one in four females and one in six males are sexually abused before age 18. In most cases, the enemy is not a faceless stranger; it's someone you know and trust--a neighbor, a coach, or even a family member. This book provides practical steps to ensure you're doing all you can to reduce the risks of abuse. But since you cannot be with your children 24/7, it goes beyond what you can do as a parent to teach you how to increase your child's own awareness and strategies in the face of potential dangers--without making them fearful.

Dr. Robinson, whose decades-

long practice focuses on abused and endangered children, calls on her own case studies to show age-appropriate conversation starters for parents, teaching them how to ask the right questions and provide the right boundaries. This book will help you move from fear to confidence on this heavy topic that is just too important to ignore.

**Online Child Sexual Abuse -**

Elena Martellozzo 2013-06-17  
Online Child Sexual Abuse: Grooming, Policing and Child Protection in a Multi-Media World addresses the complex, multi-faceted and, at times, counter-intuitive relationships between online grooming behaviours, risk assessment, police practices, and the actual danger of subsequent abuse in the physical world. Online child sexual abuse has become a high profile and important issue in public life. When children are victims, there is clearly intense public and political interest and concern. Sex offenders are society's most reviled deviants and the object of seemingly undifferentiated public fear and loathing. This may be evidenced in ongoing efforts to advance legislation, develop

police tactics and to educate children and their carers to engage with multi-media and the internet safely.

Understanding how sex offenders use the internet and how the police and the government are responding to their behaviour is central to the development of preventative measures. Based on extensive ethnographic research conducted with the police and a specialist paedophile unit, here Elena Marellozzo presents an informed analysis of online child sexual abuse: of the patterns and characteristics of online grooming, and of the challenges and techniques that characterize its policing. Connecting theory, research and practice in the field of policing, social policy, victimology and criminology, this book adds significantly to our understanding and knowledge of the problem of online child sexual abuse, the way in which victims are targeted and how this phenomenon is, and might be, policed.

**God Made All of Me** - Justin S. Holcomb 2015-08-21  
*God Made All of Me* by Justin and Lindsey Holcomb is an invaluable resource and beautifully illustrated story to help families talk about sensitive issues with two- to eight-year-old children. Because the private parts of

our bodies are private, home is the ideal environment for a child to learn about his or her body and how it should be treated by others—without conveying a message of shame. Through carefully written language and relatable storytelling, *God Made All of Me* helps parents navigate discussion that can so easily be warped into confusion, embarrassment, and secrecy. Instead of instilling a message that their bodies are shameful—which can often prevent children from recognizing and reporting sexual abuse—Justin and Lindsey Holcomb equip parents to build a first line of defense against sexual abuse in the safety of their own homes. This helpful guide starts from the fundamental truth that God created everything and applies that truth—the doctrine of creation—to kids and their bodies. With the help of *God Made All of Me*, parents and caregivers can begin conversations with boys and girls about their bodies, helping kids understand the

difference between the appropriate and inappropriate touch of others. This life-changing resource shows readers how to establish the foundation for a healthy bond with their children to meet increasing challenges of sexuality, which they will inevitably confront in childhood and adolescence. By teaching their children how to establish body and health boundaries, parents are imparting invaluable skills for their kids to express thoughts and feelings. *God Made All of Me* is the first children's book written by Rid of My Disgrace authors, Justin and Lindsey Holcomb. Parents of young children themselves, the Holcombs are profoundly aware of the dangers kids face, and they regularly counsel victims of sexual abuse. Explore *God Made All of Me* and find encouragement, clear guidance, and the tools necessary to facilitate open conversations about how your children can protect their bodies, an important step in keeping them as safe as

possible.

Tackling Child Sexual Abuse - Sarah Nelson 2016-06-08

This bracing book makes a forceful case for reinvigorating our efforts to address and prevent childhood sexual abuse. In recent years, Sarah Nelson argues, the fight against childhood sexual abuse has been complacent, or even fearful. She attacks the causes of this head-on, reassessing backlashes like that surrounding the "satanic panic" and arguing that policy makers, practitioners, and academics have a duty to move beyond such problems and address the real issue. To that end, she proposes new models for child-centered, perpetrator-focused protection, community

prevention, and working with survivor-offenders. Sure to be controversial, Preventing Child Sexual Abuse will challenge—and galvanize—the field.

Protecting Your Children From Sexual Predators - Dr. Leigh Baker 2002-04-17

Predators are everywhere and they can strike at any time—and they come in all shapes and sizes. More than 1.2 million families will report child sexual abuse by the end of this year. Research suggests that many hundreds of thousands more boys and girls from all backgrounds and of all ages may experience abuse that is not reported. To keep your family from becoming part of these frightening statistics, you must read this invaluable book. Protecting Your Children from Sexual Predators details everything you need to know and everything you need to do to keep your child safe. You will learn how to identify potential sexual predators, how to recognize the signs of the grooming behaviors that come before the actual act of sexual

abuse, and how to arm your children with the necessary skills to prevent abuse. Sexual predators commit the most heinous acts against the more defenseless members of our society. They often are disguised as harmless and caring people; they may interact with your children as their baby-sitters, youth group leaders, clergy, teachers, coaches, neighbors, medical professionals, and family members. What these predators hold in common is their ability to earn the trust of both the children they attack and their parents. In Protecting Your Children from Sexual Predators, Dr. Leigh Baker gives you the unique opportunity to meet these predators up close and to examine: \* The ten most common characteristics they display, such as refusal to take responsibility for their actions, sense of entitlement, and the need for power and control. \* How they lead their victims through the five stages of sexual abuse. \* The four types of personalities they commonly

exhibit. \* How female sexual predators can gain access to your child. \* The ways that juveniles offend against other children. \* How sexual predators travel the Internet and the many ways that they can harm your child through cyberspace. \* How baby-sitting can pose a danger to your child if you don't take the necessary steps to ensure safety. \* How to use the sex offender registry to prevent known predators from gaining access to your child. By allowing parents to identify sexual predators before their children are harmed, Dr. Baker takes the battle to end sexual abuse to the only front where it can ever truly be won: the home front. *Technical, Business, and Legal Dimensions of Protecting Children from Pornography on the Internet* - Institute of Medicine 2002-03-29  
In response to a mandate from Congress in conjunction with the Protection of Children from Sexual Predators Act of 1998, the Computer Science and Telecommunications Board (CSTB) and the Board on

Children, Youth, and Families of the National Research Council (NRC) and the Institute of Medicine established the Committee to Study Tools and Strategies for Protecting Kids from Pornography and Their Applicability to Other Inappropriate Internet Content. To collect input and to disseminate useful information to the nation on this question, the committee held two public workshops. On December 13, 2000, in Washington, D.C., the committee convened a workshop to focus on nontechnical strategies that could be effective in a broad range of settings (e.g., home, school, libraries) in which young people might be online. This workshop brought together researchers, educators, policy makers, and other key stakeholders to consider and discuss these approaches and to identify some of the benefits and limitations of various nontechnical strategies. The December workshop is summarized in *Nontechnical Strategies to Reduce Children's*

Exposure to Inappropriate Material on the Internet: Summary of a Workshop. The second workshop was held on March 7, 2001, in Redwood City, California. This second workshop focused on some of the technical, business, and legal factors that affect how one might choose to protect kids from pornography on the Internet. The present report provides, in the form of edited transcripts, the presentations at that workshop.

All parents face the same challenges when it comes to their children's safety: whom to trust, whom to distrust, what to believe, what to doubt, what to fear, and what not to fear.
