Accelerando Charles Stross 2010-11-04 His most ambitious novel to date, ACCELERANDO is a multi-generational saga following a brilliant clan of 21st-century posthumans. The year is some time between 2010 and 2015. The recession has ended, but populations are ageing and the rate of tech change is accelerating dizzyingly. Manfred makes his living from spreading ideas around, putting people in touch with one another and leaving a spray of technologies in his wake. He lives at the cutting edge of intelligence amplification technology, but even Manfred can take on too much. And when his pet robot cat picks up some interesting information from the SETI data, his world - and the world of his descendants - is turned on its head.

Everything I Never Told You Celeste Ng 2014-08-14 'There is much here that might impress Pulitzer and Man Booker judges...Ng brilliantly depicts the destruction that parents can inflict on their children and on each other' Mark Lawson, Guardian Lydia is the favourite child of Marilyn and James Lee; a girl who inherited her mother's bright blue eyes and her father's jet-black hair. Her parents are determined that Lydia will fulfill the dreams they were unable to pursue - in Marilyn's case that her daughter become a doctor rather than a homemaker, in James's case that Lydia be popular at school, a girl with a busy social life and the centre of every party. But Lydia is under pressures that have nothing to do with growing up in 1970s small town Ohio. Her father is an American born of first-generation Chinese immigrants, and his ethnicity, and hers, make them conspicuous in any setting. When Lydia's body is found in the local lake, James is consumed by guilt and sets out on a reckless path that may destroy his marriage. Marilyn, devastated and vengeful, is determined to make someone accountable, no matter what the cost. Lydia's older brother, Nathan, is convinced that local bad boy Jack is somehow involved. But it's the youngest in the family - Hannah - who observes far more than anyone realises and who may be the only one who knows what really happened. And if you loved Everything I Never Told You, don't miss Celeste Ng's second novel Little Fires Everywhere What readers are saying: 'Devastating...A truly tragic but devastatingly well written book' 'Ng is a true craftsman. I implore you to read this. Also my favourite ending of a novel so far this year' 'This is the best book I have read this year' 'Really enjoyed this book, deeply moving, sad and thought provoking'

Rapture of the Nerds Cory Doctorow 2013-04-12 At the dusk of the twenty-first century, Welsh technophobe Huw is one of the billion or so hominids left on Earth, living in a preserve at the bottom of a gravity well. The rest have emigrated, uploading their consciousness to a vast cloud that fogs the inner solar system with a dust of molecular machinery, and occasionally spams Earth with plans for cataclysmically disruptive technologies. Wary of anything more sophisticated than his bicycle, Huw jumps at the chance to attend tech jury service and defend the Earth from the scum of the post-singularity patent office. But his long-awaited stint is cut short when he becomes infected with an itchy technovirus, and unwittingly becomes the last hope of the entire universe.

The Somatizing Child Elsa G. Shapiro 2012-12-06 In the spring of 1982, we began our collaboration while on sabbatical in Jerusalem. Working together at Hadassah Medical Center, we discovered that we had overlapping and complementary interests. The wonderful surroundings combined with a warm friendship nourished the development of this book. E. G. S.'s interest in neuropsychology, cognitive function, and diagnostic classification and A. A. R.'s interest in the development of normal sexual behavior, incest and its consequences for psychopathology, and psychoanalytic thought provided a broad perspective on the field of somatoform disorders. For E. G. S., Lawrence A. Lockman, a faculty member in pediatric neurology at the University of Minnesota who has a great interest in these cases, was particularly helpful. Many of the ideas on case management came from his admonitions to the house staff on rounds regarding proper management

of patients and families. When we began to write the book in the fall of 1984, two students of E. G. S:s became involved. Norman Cohen, then a post doc, was very interested in pain and biofeedback, having worked extensively in the Pain Clinic at the University of Minnesota Hospitals. He was seeing many of the children in the clinic who required biofeedback and was especially interested in those with headache. He agreed to write the chapter on headache.

Jane Eyre Golden Classics 2020-10-21 Initially published under the pseudonym Currer Bell in 1847, Charlotte Brontë's *Jane Eyre* erupted onto the English literary scene, immediately winning the devotion of many of the world's most renowned writers, including William Makepeace Thackeray, who declared it a work "of great genius." Widely regarded as a revolutionary novel, Brontë's masterpiece introduced the world to a radical new type of heroine, one whose defiant virtue and moral courage departed sharply from the more acquiescent and malleable female characters of the day. Passionate, dramatic, and surprisingly modern, *Jane Eyre* endures as one of the world's most beloved novels.

Gestures Vilém Flusser 2014-06-01 Throughout his career, the influential new media theorist Vilém Flusser kept the idea of gesture in mind: that people express their being in the world through a sweeping range of movements. He reconsiders familiar actions—from speaking and painting to smoking and telephoning—in terms of particular movement, opening a surprising new perspective on the ways we share and preserve meaning. A gesture may or may not be linked to specialized apparatus, though its form crucially affects the person who makes it. These essays, published here as a collection in English for the first time, were written over roughly a half century and reflect both an eclectic array of interests and a durable commitment to phenomenological thought. Defining gesture as “a movement of the body or of a tool attached to the body for which there is no satisfactory causal explanation,” Flusser moves around the topic from diverse points of view, angles, and distances: at times he zooms in on a modest, ordinary movement such as taking a photograph, shaving, or listening to music; at others, he pulls back to look at something as vast and varied as human “making,” embracing everything from the fashioning of simple tools to mass manufacturing. But whatever the gesture, Flusser analyzes it as the expression of a particular form of consciousness, that is, as a particular relationship between the world and the one who gestures.

Pirate Cinema Cory Doctorow 2013-06-14 When Trent McCauley's obsession for making movies by reassembling footage from popular films causes his home's internet to be cut off, it nearly destroys his family. Shamed, Trent runs away to London. A new bill threatens to criminalize even harmless internet creativity. Things look bad, but the powers-that-be haven't entirely reckoned with the power of a gripping movie to change people's minds...

The Falling Machine Andrew Mayer 2011-06-21 This new steampunk series opens in 1880, when women aren't allowed to vote, much less dress up in a costume and fight crime. But twenty year-old socialite Sarah Stanton still dreams of becoming a hero. Her opportunity arrives in tragedy when the leader of the Society of Paragons, New York's greatest team of gentlemen adventurers, is murdered right before her eyes. To uncover the truth behind the assassination, Sarah joins forces with the amazing mechanical man known as The Automaton. Together they unmask a conspiracy at the heart of the Paragons that reveals the world of heroes and high-society is built on a crumbling foundation of greed and lies. When Sarah comes face to face with the megalomaniacal villain behind the murder, she must discover if she has the courage to sacrifice her life of privilege and save her

clockwork friend. From the Trade Paperback edition.

The Day of the Triffids John Wyndham 2010-07-01 The classic postapocalyptic thriller with “all the reality of a vividly realized nightmare” (The Times, London). Triffids are odd, interesting little plants that grow in everyone’s garden. Triffids are no more than mere curiosities—until an event occurs that alters human life forever. What seems to be a spectacular meteor shower turns into a bizarre, green inferno that blinds everyone and renders humankind helpless. What follows is even stranger: spores from the inferno cause the triffids to suddenly take on a life of their own. They become large, crawling vegetation, with the ability to uproot and roam about the country, attacking humans and inflicting pain and agony. William Masen somehow managed to escape being blinded in the inferno, and now after leaving the hospital, he is one of the few survivors who can see. And he may be the only one who can save his species from chaos and eventual extinction . . . With more than a million copies sold, *The Day of the Triffids* is a landmark of speculative fiction, and “an outstanding and entertaining novel” (Library Journal). “A thoroughly English apocalypse, it rivals H. G. Wells in conveying how the everyday invaded by the alien would feel. No wonder Stephen King admires Wyndham so much.” —Ramsey Campbell, author of *The Overnight* “One of my all-time favorite novels. It’s absolutely convincing, full of little telling details, and that sweet, warm sensation of horror and mystery.” —Joe R. Lansdale, author of *Edge of Dark Water*

The Fountainhead Reference Guide Emre Gurgun 2019-10-10 This Reference Guide takes the form of a Fountainhead Encyclopedia with several independent sections: a complete character dictionary; a dictionary of relationships between characters; a lexicon of the book’s buildings and media outlets; a catalogue of the novel’s various groups and associations; a timeline of the book’s events; a classification of Ayn Rand’s symbols; and a directory of the Fountainhead’s locations. Besides organizing most of the Fountainhead’s facts logically, this Reference Guide also provides a table of Ayn Rand’s fiction & nonfiction, a spreadsheet of works by Objectivist Intellectuals, and a glossary of architectural terms. It also analyzes some of the book’s themes with reference to plot-specifics. So that Fountainhead scholars can cite neutral book facts to support their intellectual - hopefully objectivist - positions.

The Story Book of Science Jean Henri Fabre 2013-03-01 Fabre had many scholarly achievements. He was a popular teacher, physicist, chemist, and botanist. However, he is probably best known for his findings in the field of entomology, the study of insects, and is considered by many to be the father of modern entomology. Much of his enduring popularity is due to his marvelous teaching ability and his manner of writing about the lives of insects in biographical form.

Hard Times illustrated Charles Dickens 2021-08-18 *Hard Times illustrated* Charles Dickens - *Hard Times: For These Times* (commonly known as *Hard Times*) is the tenth novel by Charles Dickens, first published in 1854. The book surveys English society and satirises the social and economic conditions of the era. "Now, what I want is, Facts. . . . Facts alone are wanted in life." Thus begins Superintendent Mr. Gradgrind—a wealthy, retired merchant—addressing a group of young students at his school in the industrial town of Coketown, England. A rigid man of fact, rational self-interest and realities, he not only teaches his pupils according to the utilitarian principles, but also raises his children with the same philosophy. When they grow up, as their lives begin to turn chaotic, they reproach their father for their upbringing. Will Mr. Gradgrind realize his flaws and become a humble man? Satirizing the laissez-faire system, Dickens' *Hard Times* lays bare the wide gap between the rich and the poor. Criticizing the materialistic world, this Victorian novel throws light on the value of emotions and the human heart. It has undergone several film and theatre adaptations.

The Sentiment of the Sword Richard Francis Burton 2022-09-15 "The Sentiment of the Sword" is a historical book on the art of sword fighting by the British explorer, writer and soldier Sir Francis Burton. He describes the history of the blade from its use by ancient civilizations to more recent times, of which he states that, "Our great-grandfathers wore swords by their sides, and all gentlemen learned to use them." Burton draws on his experiences as a soldier and his travels to many parts of the world, including Asia, Africa, and the Americas.

Roadside Picnic Boris Strugatsky 2014-06-26 Red Schuhart is a stalker, one of those strange misfits who are compelled by some unknown force to venture illegally into the Zone and, in spite of the extreme danger, collect the mysterious artefacts that the alien visitors left scattered around. His life is dominated by the Zone and the thriving black market in the alien products. Even the nature of his daughter has been determined by the Zone. And it is for her that Red makes his last, tragic foray into the hazardous and hostile depths.

The Nowhere Emporium Ross MacKenzie 2015-03-05 When the mysterious Nowhere Emporium arrives in Glasgow, orphan Daniel Holmes stumbles upon it quite by accident. Before long, the 'shop from nowhere' -- and its owner, Mr Silver -- draw Daniel into a breathtaking world of magic and enchantment. Recruited as Mr Silver's apprentice, Daniel learns the secrets of the Emporium's vast labyrinth of passageways and rooms -- rooms that contain wonders beyond anything Daniel has ever imagined. But when Mr Silver disappears, and a shadow from the past threatens everything, the Emporium and all its wonders begin to crumble. Can Daniel save his home, and his new friends, before the Nowhere Emporium is destroyed forever? Scottish Children's Book Award winner Ross MacKenzie unleashes a riot of imagination, colour and fantasy in this astonishing adventure, perfect for fans of Philip Pullman, Corneila Funke and Neil Gaiman.

Boxing Kasia Boddy 2013-06-01 Boxing is one of the oldest and most exciting of sports: its bruising and bloody confrontations have permeated Western culture since 3000 BC. During that period, there has hardly been a time in which young men, and sometimes women, did not raise their gloved or naked fists to one other. Throughout this history, potters, sculptors, painters, poets, novelists, cartoonists, song-writers, photographers and film-makers have been there to record and make sense of it all. In her encyclopaedic investigation, Kasia Boddy sheds new light on an elemental sports and struggle for dominance whose weapons are nothing more than fists. Boddy examines the shifting social, political and cultural resonances of this most visceral of sports, and shows how from Daniel Mendoza to Mike Tyson, boxers have embodied and enacted our anxieties about race, ethnicity, gender and sexuality. Looking afresh at everything from neoclassical sculpture to hip-hop lyrics, Boxing explores the way in which the history of boxing has intersected with the history of mass media, from cinema to radio to pay-per-view. The book also offers an intriguing new perspective on the work of such diverse figures as Henry Fielding, Spike Lee, Charlie Chaplin, Philip Roth, James Joyce, Mae West, Bertolt Brecht, and Charles Dickens. An all-encompassing study, Boxing ultimately reveals to us just how and why boxing has mattered so much to so many.

THE WAVES Virginia Woolf 2017-12-06 The book is Virginia Woolf's most experimental novel, first published in 1931. It consists of soliloquies spoken by the book's six characters: Bernard, Susan, Rhoda, Neville, Jinny, and Louis. Also important is Percival, the seventh character, though readers never hear him speak through his own voice. The monologues that span the characters' lives are broken up by nine brief third-person interludes detailing a coastal scene at varying stages in a day from sunrise to sunset. As the six characters or "voices" alternately speak, Woolf explores concepts

of individuality, self, and community. Each character is distinct, yet together they compose a gestalt about a silent central consciousness. Bernard is a story-teller, always seeking some elusive and apt phrase Louis is an outsider, who seeks acceptance and success; Neville desires love, seeking out a series of men, each of whom become the present object of his transcendent love; Jinny is a socialite, whose Weltanschauung corresponds to her physical, corporeal beauty; Susan flees the city, in preference for the countryside, where she grapples with the thrills and doubts of motherhood; and Rhoda is riddled with self-doubt and anxiety, always rejecting and indicting human compromise, always seeking out solitude. Percival is the god-like but morally flawed hero of the other six, who dies midway through the novel on an imperialist quest in British-dominated colonial India. Although Percival never speaks through a monologue of his own in *The Waves*, readers learn about him in detail as the other six characters repeatedly describe and reflect on him throughout the book. The novel follows its six narrators from childhood through adulthood.

Adeline Virginia Woolf (25 January 1882 - 28 March 1941) was an English writer who is considered one of the foremost modernists of the twentieth century and a pioneer in the use of stream of consciousness as a narrative device.
