Media and Crime in the U.S. -
Yvonne Jewkes 2017-07-27

The rise of mobile and social media means that everyday crime news is now more immediate, more visual, and more democratically produced than ever. Offering new and innovative ways of understanding the relationship between media and crime, *Media and Crime in the U.S.* critically examines the influence of media coverage of crimes on culture and identity in the United States and across the globe. With comprehensive coverage of the theories, research, and key issues, acclaimed author Yvonne Jewkes and award-winning professor Travis Linnemann have come together to shed light on some of the most troubling questions surrounding media and crime

today. The free open-access Student Study site at study.sagepub.com/jewkesus features web quizzes, web resources, and more. Instructors, sign in at study.sagepub.com/jewkesus for additional resources!

Jane Doe No More - M.

William Phelps 2012-09-06

In 1993, Donna Palomba was raped by a masked assailant in her own home. Yet, her story is more than a victim's tale of physical and emotional recovery. It is a story of one woman's hunt for justice while fending off attacks by institutions designed to defend and protect her—the police department, the local government, and a community clinging to an outrageous claim that Donna had invented the crime to cover up a sexual affair. From the night of the

attack, the botched crime scene investigation, and the abuse as authorities attempted to close the case by discrediting her, Donna was left as a victim with no name and no identity. Meanwhile, there was one courageous detective, later to become chief of police, who broke a cops' code of silence in the name of justice. As they fought on, a legal battle ensued after the Waterbury Police Department—now with media support—refused to let go of its allegations against her and admit wrongdoing. Finally, after eleven years of struggle, Donna learned the identity of her attacker from the chief of police, who explained that the DNA from the rape kit taken a decade ago had turned up a shocking match. In 2007, Donna Palomba was the subject of a special two-hour Dateline episode about her case. Suddenly, she was Jane Doe no more, launching the Jane Doe No More organization and becoming a promoter of the rights of women and victims of sexual assault. With

the help of crime investigator and author M. William Phelps, this is her story.

Good Kids, Bad City - Kyle Swenson 2019-02-12
From award-winning investigative journalist Kyle Swenson, *Good Kids, Bad City* is the true story of the longest wrongful imprisonment in the United States to end in exoneration, and a critical social and political history of Cleveland, the city that

convicted them. In the early 1970s, three African-American men—Wiley Bridgeman, Kwame Ajamu, and Rickey Jackson—were accused and convicted of the brutal robbery and murder of a man outside of a convenience store in Cleveland, Ohio. The prosecution’s case, which resulted in a combined 106 years in prison for the three men, rested on the more-than-questionable testimony of a pre-teen, Ed Vernon. The actual murderer was never found. Almost four decades later, Vernon recanted his testimony, and Wiley, Kwame, and Rickey were released. But while their exoneration may have ended one of American history’s most disgraceful miscarriages of justice, the corruption and decay of the city responsible for their imprisonment remain on trial. Interweaving the dramatic details of the case with Cleveland’s history—one that, to this day, is fraught with systemic discrimination and racial tension—Swenson reveals how this outrage

occurred and why. *Good Kids, Bad City* is a work of astonishing empathy and insight: an immersive exploration of race in America, the struggling Midwest, and how lost lives can be recovered.

[Trumponomics](#) - Stephen Moore 2018-10-30

Donald Trump promised the American people a transformative change in economic policy after eight years of stagnation under Obama. But he didn’t adopt a conventional left or right economic agenda. His is a new economic populism that combines some conventional Republican ideas—tax cuts, deregulation, more power to the states—with more traditional Democratic issues such as trade protectionism and infrastructure spending. It also mixes in important populist issues such as immigration reform, pressuring the Europeans to pay for more of their own defense, and

keeping America first. In Trumponomics, conservative economists Stephen Moore and Arthur B. Laffer offer a well-informed defense of the president's approach to trade, taxes, employment, infrastructure, and other economic policies. Moore and Laffer worked as senior economic advisors to Donald Trump in 2016. They traveled with him, frequently met with his political and economic teams, worked on his speeches, and represented him as surrogates. They are currently members of the Trump Advisory Council and still meet with him regularly. In Trumponomics, they offer an insider's view on how Trump operates in public and behind closed doors, his priorities and passions, and his greatest attributes and liabilities. Trump is betting his presidency that he can create an economic revival in America's industrial heartland. Can he really bring jobs back to the rust belt? Can he cut taxes and bring the debt down? Above all, does he have the personal discipline, the

vision, the right team, and the right strategy to pull off his ambitious economic goals? Moore and Laffer believe that he can pull it off and that Trumponomics will usher in a new era of prosperity for all Americans.

Colonial Origins of the American Constitution - Donald S. Lutz 1998

Presents 80 documents selected to reflect Eric Voegelin's theory that in Western civilization basic political symbolizations tend to be variants of the original symbolization of Judeo-Christian religious tradition. These documents demonstrate the continuity of symbols preceding the writing of the Constitution and all contain a number of basic symbols such as: a constitution as higher law, popular sovereignty, legislative supremacy, the deliberative process, and a virtuous people.
