Sex Education Randy Engel 2016-03-31 Proves why classroom sex education is always wrong and always harmful; that it destroys modesty; awakens the passions; promotes sexual activity and fosters acceptance of sexual sins. Shows where it comes from; who promotes it; that it is all-pervasive. Gives the Church's position; that sex education is the right and duty of parents only; which may be delegated to others; but never usurped! A must for parents; teachers and priests.

Doing Sex Education Bonnie Trudell 2017-06-26 Originally published in 1993. This book takes the reader inside the contested issue of sex education by examining how a sexuality curriculum is actually taught to a ninth-grade health class and how it impacts on both the teacher and students. Drawing on observations and interviews with teachers, students, and other school personnel to capture the complexity and tension of lived classroom culture, this volume illustrates the dynamic, complex, and sometimes contradictory processes by which traditional versions of appropriate sexual behaviour and gender relations are legitimated as well as contested. The book describes in detail the classroom knowledge that is produced by the interactions between gendered, raced and classed students and teacher, the planned curriculum, and the social organisation of the school and community. The book also tackles the broader issues of how sex education should be taught and even whether it should be taught at all.

South African Drama and Theatre from Pre-colonial Times to the 1990s: An Alternative Reading Mzo Sirayi 2012 Mzo Sirayi has embarked on a highly impressive and daring enterprise with the unflinching boldness of a scholar who is driven by a passionate pursuit to set the record straight. He manages to pull no punches and make no apologies by being true to his convictions, especially within the context of a new South Africa. The book adopts a largely historicized, critical and analytical perspective, which

This new and authoritative book is an excellent addition to the few existing books on black South African drama and theatre. In Changing Times Martin P. Levine 1997-08-18 The HIV/AIDS epidemic has been a major catastrophe for gay communities. In less than two decades, the disease has profoundly changed the lives of gay men and lesbians. Not just a biological and viral agent, HIV has become an opportunistic social invader, reshaping communities and the distribution of wealth, altering the social careers of gay professionals and the patterns of entry into gay and lesbian life, and giving birth to groups like ACT UP and Queer Nation. The distinguished contributors to this volume discuss the ways HIV/AIDS has changed collective and individual identities, as well as lives, of gay men and lesbians, and how these alterations have changed our perceptions of the epidemic. They cover such topics as the impact of the epidemic on small towns, cultural barriers to AIDS prevention, gay youth and intergenerational relations, and the roles of lesbians in AIDS organizations. This collection provides compelling insights into the new communities among gay men and lesbians and the new kinds of identities and relationships that are emerging from the social and cultural ferment engendered by HIV/AIDS.

In Their Own Words: Selected Writings by Journalists on

Mongolia, 1997-1999 Part 1g David South, Editor-in-Chief In their own words compiles by theme the vast number of stories and features by journalists on Mongolia's transition experience from 1997 to 1999. A rich and unusual resource for a developing country, this book offers the reader a one-stop snapshot of how a country handles the wrenching social, political, cultural, economic and environmental challenges of changing from one political and economic system to another. An excellent resource for scholars of austerity crises and for those seeking understanding on how to plot a path out of an austerity crisis. In particular, the collection of articles and stories show the impact austerity has on people and their lives. Unadorned by backward-looking historical narratives, these are accounts fizzing with the energy of the moment: a first draft of a tough time for most Mongolians.

Musically Speaking Dr. Ruth K. Westheimer 2013-03-25 "Music, I have come to realize, is for me a kind of golden thread running through my life. It has helped maintain my connection with the past that otherwise might have been severed by catastrophe and time. I am often asked—indeed, I often wonder myself—why it is that I should always have had such joie de vivre in the face of the losses and dislocations I had to endure in my early years. The answer I always gave was that the warmth and security of my early childhood had a remarkable power and influence. This is certainly true. But now I have realized that there is another part to the answer. And that is music."—from the introduction Who among us does not have a song that triggers vivid memories—of jubilation, of belonging, of sorrow, of love? In *Musically Speaking*, Dr. Ruth K. Westheimer, one of America's most beloved personalities, has written a warm and contemplative book about

the role music has played in her life and the ineradicable traces it has left on her thoughts, emotions, her very being. In this memoir through song, Dr. Ruth invites us to share her story from a uniquely musical perspective. By the time she was thirty, Ruth Westheimer had lived in five countries, each with a distinctive musical culture, each with a different hold on her sensibility. For the first ten years of her life, the comforting melodies of childhood helped drown out the anthems of Nazism to be heard elsewhere in her native Germany; as an adolescent refugee in Switzerland, she came to be aware that, however loudly she sang the patriotic songs of the land that gave her shelter, she could never truly be at home there. Present at the creation of the modern state of Israel, she sang and danced to the new music of a new nation; as a young woman eagerly absorbing all that Paris had to offer in the way of romance and worldliness in the early 1950s, the songs of Edith Piaf, Mouloudji, and Yves Montand were her tutors. An almost accidental emigration to America brought new challenges and new stability, as she became a wife, mother, and professional; tremendous and unforeseen celebrity came later, and with it the giddy opportunity to indulge her love of music as never before. Always, the classical repertoire of Mozart, Haydn, Beethoven, and Brahms has drawn Westheimer to a German culture that has belonged—and not belonged—to her throughout her life. And always, the music of the Jewish tradition has given her strength and comfort beyond words. Affording a view of Dr. Ruth from a rare private vantage point, *Musically Speaking* offers wondrous testimony to the resilience of the human spirit. This is a book full of color, verve, humor, and wisdom, unfolding gracefully through the beloved music of the Jewish holidays, the lullabies of childhood, the songs that sustained an orphan and roused the courage of a young woman, the melodies that enable a widow grieving for her husband to recall, from deep within the years of love, companionship, and happiness.

Queer in the Choir Room Michelle Parke 2014-10-14 These new essays examine the many ways that issues of gender and sexuality intersect with other identities and practices--including race, religion, disability, music and education--on the Fox hit program Glee. With gender and sexuality concerns at the crux, the authors tackle such specific aspects of the show as the coming out narrative, Glee fandom and fan fiction, representation of sex education, and the intersection of Broadway music and queerness. The aim of these essays is to open up a dialogue about Glee--which is often dismissed by critics and fans alike--and to reveal how scholars are critically engaging with the show around issues of gender and sexuality.

The Song Is Ended... Kenneth C. Gardner Jr. 2011-05-31 Chris Cockburn was one of the lucky Americans who grew up in a small town in the Midwest between the end of the Korean War and the assassination of JFK, ten years filled with school, Initiation, football, Homecoming, dances, detention, basketball, tournaments, proms, yearbooks, class rings, class night, and graduation. Time marked by family, funerals, best friends, worst enemies, late nights, first dates, first loves, going steady, break-ups, and moving on. A time of hot cars, car clubs, twenty-five cent gas, radios, deejays, drive-ins, hangouts, movies, hunting, swimming, roller skating, picnics, rumbles, after-school jobs, baseball, and comic books. Small triumphs, helplessness, tragic and comic events, all combined to mold a teenagers life, a life underscored by the rhythm of rock-n-roll. A time when, as the poet said, To be young was very heaven.

2009 Popular Culture and the Future of Politics examines changes in popular culture and political culture in the United States, particularly in terms of progressive change. Because it provides overviews of theory along with concrete examples of politics and textual / content analyses of multiple cultural productions across media, it is ideal for courses that seek to be relevant to contemporary changes in popular culture, particularly in view of post-9/11 developments in identity politics and domestic and foreign policy.

The Death of Childhood Victor Strasburger 2019-04-16 Written by an international expert on the effects of media on children, *The Death of Childhood* provides a fascinating—and sobering—look at what it means to grow up in America today. Following in the footsteps of Neil Postman, Marie Winn, and Mary Pipher, this riveting and heart-breaking book is an obituary to childhood, exploring its origins and tracing its progress to what could be its bitter end in the early 21st century—if we don't act now to resuscitate it. No longer are we raising children in the idyllic world that many of today's grandparents and parents remember—a world filled with kick-the-can, unsupervised bike adventures and dog-walking, and the freedom to explore. Now, thanks to the Internet, new technology, and social networking, the complexion of childhood has changed and there are no adult “secrets” anymore—the answer to every question exists a fingertip's reach away in cyberspace. It's not just technology and media that are changing, childhood is also suffering the effects of underfunded schools, inattentive parents, a plethora of guns, and a hostile society. Despite all of that, this book shows that there is hope, and offers solutions to restore the charm and innocence of childhood.

storytelling for an age group largely ignored by TV executives ... and creates one of the most-loved television franchises of all time. Includes fabulous behind-the-scenes photos and stories for Degrassi fans Linda Schuyler, co-creator and executive producer of the long-running Degrassi series, shares her personal stories about the grit and determination necessary to make it as a woman entrepreneur in the burgeoning independent Canadian television industry of the early 1980s. After surviving a near-fatal car accident in 1968, Linda found her life continuing to veer in unexpected directions, ultimately leading her to use her innate abilities as an educator to become a successful storyteller and businesswoman. Linda's deep fondness for teenagers has made her a champion for adolescents. In *The Mother of All Degrassi*, she shares her strong belief that television is all about story, and good story is all about making the political personal. Through anecdotes and introspection — and some great behind-the-scenes stories for Degrassi fans — Linda examines her philosophy to dream big, think small, meet life head-on, and always keep an open heart.

Feeling Like a Number One Steve Binnie 2016-01-08 1980 was an important year for *Top of the Pops*: it was the year it began to transform from a light entertainment show into essential viewing for pop music aficionados. The transition didn't happen overnight, but when a Musicians' Union strike forced the programme off air for the whole of June and July, producer Michael Hurll took the opportunity to restructure the show. As a result the latter half of 1980 was often bizarre, occasionally quite grim, but always fascinating as Hurll threw all sorts of new formats at the screen to see what would stick. This transitional year is documented here. Hopefully you will find it a breathtaking rollercoaster of good and bad decisions made in the pursuit of television excellence. Or maybe it will just inspire you to dig out some old records you'd forgotten. Either's good.

Serious Adverse Events Celia Farber 2023-03-23 "Farber [is] a lucid and courageous witness to the power-play behind the first 'scamdemic,' . . . [Her] work is journalism at its best—solid, lucid, and humane, attacking wrongs that few dare touch, and thereby helping right them." —Mark Crispin Miller, bestselling author and professor of media studies at NYU On April 23, 1984, in a packed press conference room in Washington, DC, the secretary of health and human services declared, "The probable cause of AIDS has

been found.” By the next day, “probable” had fallen away, and the novel retrovirus later named HIV became forever lodged in global consciousness as “the AIDS virus.” Celia Farber, then an intrepid young reporter for SPIN magazine, was the only journalist to question the official narrative and dig into the science of AIDS. She reported on the “evidence” that was being continually cited and repeated by health officials and the press, the deadliness of AZT, and Dr. Fauci’s trials on children, infants, and pregnant mothers. Throughout, Faber’s reportage was largely ignored. She was maligned, maliciously attacked, and ultimately canceled. Now, forty years after her original reporting, Farber’s *Serious Adverse Events: An Uncensored History of AIDS* is reissued with a new foreword by Mark Crispin Miller, shining much-needed light on her groundbreaking work once again. More relevant than ever, this book serves as an essential foundation to understanding its catastrophic sequel: COVID-19. *Serious Adverse Events* makes clear that the tactics employed at the height of HIV/AIDS—the fearmongering, cancel culture, and “woke” takeover of science, medicine, and journalism—persist today. The response to COVID-19 isn’t new: it is a well-trod and dangerous path in the social landscape. “Groundbreaking work.”—Bob Guccione, Jr., founder of SPIN magazine “Farber’s research give context to the Covid catastrophe which she all but predicted. Despite the medical cartel’s brutal crusade to silence and vilify her, Farber never compromised. . . I’m happy she has lived to experience her own utter vindication. I also love her writing style.”—Robert F. Kennedy Jr.
