One Year with Dicky - Elizabeth Aguilar
2015-09-18

Dicky and Lizzie, despite being in their sixties and living alone for almost twenty years, become intertwined -- something which they both acknowledge as destined by God. Conservative Lizzie grew up in a household where sex wasn't mentioned in polite conversations, while modern Dicky's outlook on the matter was the opposite. Every day, Dicky sends Lizzie text messages of sexual jokes, making their budding friendship turbulent. But after months, their daily text messages slowly chip away the rough edges of their relationship to sculpt a beautiful friendship in which each is unable to let a day pass without missing the other. Then a sudden event plunges Dicky into depression, and he shuts himself away. Will it be the end of Dicky and Lizzie?

Media Messages - Linda Holtzman 2014-03-15
The new edition of this widely acclaimed book reveals how the popular media contributes to widespread myths and misunderstanding about cultural diversity. Along with updated media examples, expanded theories and analysis, this edition explores even more deeply the coverage of race in two chapters, discusses more broadly how men and boys are depicted in the media and socialized, and how class issues have become even more visible during the Great Recession of the 21st century and the Occupy movements.

Sex and the Office - Julie Berebitsky 2012-03-27
In this engaging book—the first to historicize our understanding of sexual harassment in the workplace—Julie Berebitsky explores how Americans' attitudes toward sexuality and gender in the office have changed from the 1860s, when women first took jobs as clerks in the U.S. Treasury office, to the present. Berebitsky recounts the actual experiences of female and male office workers; draws on archival sources ranging from the records of investigators looking for waste in government offices during World War II to the personal papers of Cosmopolitan editor Helen Gurley Brown and Ms. magazine founder Gloria

Steinem; and explores how popular sources—including cartoons, advertisements, advice guides, and a wide array of fictional accounts—have represented wanted and unwelcome romantic and sexual advances. By giving sex in the office a history, she provides valuable insights into the nature and meaning of sexual harassment today.

New Connectivities in China - Pui-lam Law
2012-03-30

The fast diffusion of information and communication technologies (ICTs) in China has brought forth new forms of connection among the Chinese and has changed their social lives. Virtual networks have been developed and in turn have led to the formation of networks in the actual world. This collection explores the resultant complications in the relationship between virtual, actual, and local interactions. It discusses various aspects of the implications of the new connectivities on these three types of interactions in China. The topics examined include: the possibility of the development of civil society in China, the implications for the migrant workers in the south, the challenge posed to the traditional social order, and the relationship between the new connectivities and the Chinese social context.

[The Messages of Its Walls and Fields](#) - Katharine Thornton 2010

The Messages of its Walls and Fields seeks to understand the culture of each decade of the School's development. The focus is on the boys themselves, but Katharine Thornton also evaluates the policies of succeeding Councils of Governors and the achievements of the thirteen Headmasters who have led Saints from 1847 to 2009. The curriculum story is here, the context for advocating sport, the emergence of the external activities of the co-curriculum, the values of a Saints' education, the background to each building project, the economy of the

School, drama and the arts, science and new laboratories, the ambience of stone, trees and green lawn at the heart of a Saints' experience. St Peter's College graduates have made significant contributions to the life of South Australia, in the professions, in social values, in politics, in sport and in the arts. The history of South Australia must include a knowledge of this School. Sex and the Internet - Al Cooper 2013-08-21
First Published in 2002. Routledge is an imprint of Taylor & Francis, an informa company.

The Internet for Women - Rye Senjen 1996
The authors set out to demystify the Internet and put it into a context that makes it relevant and accessible to as many women as possible. It is for women who are just starting to explore the possibilities of the Internet, as well as seasoned users. Technological explanations have been kept to a minimum as they are rarely necessary in order to use a particular Internet service successfully. The book contains 'how to' advice on using the most common Internet services, as well as information you will need to get Internet access. The book also covers topics not covered in more general books on the Internet: gender issues, pornography, sexual harassment, anonymity, privacy and security. To put the Internet into a more women-centred perspective the authors have included a chapter that introduces our computing foremothers and describes how some women have already begun to make the Internet an integral part of their lives.

Mobile Communication and Greater China - Wai-chi Rodney Chu 2012

This edited volume examines mobile phone use in China. Unlike most studies on ICT development in China this book argues for the importance of the cultural realm as captured in mobile phone usage in reflecting the normative basis and struggle of the people. It stresses how the mobile phone is in fact an important means by which one can understand a rapidly changing China. A key concern of the book is to assert the uniqueness of China's experience in mobile phone usage. This uniqueness is encapsulated by the phrase 'riding the double juggernaut', in that

Chinese society is exposed to a rapid process of industrialization and cyberization in a short period of time. The contributors maintain that such density of experience under a compressed period when the society has a thick cultural heritage of its own and yet is still under a dictating rule all come together to provide a unique situation in China. .

The Consolations of Humor and Other Folklore Essays - Elliott Oring 2023-11-01

The Consolations of Humor and Other Folklore Essays unfolds as a series of questions, commentaries, and criticisms of the analysis, interpretation, and explanation of folklore. Can we confidently regard jokes as the catharsis of sexual and aggressive impulses? What is the basis for characterizing a joke as Jewish or Scottish or Japanese? What do we really know about "dirty jokes"? How is a text or behavior constructed so that it is perceived as humorous? Can we get a computer to reliably recognize jokes? What is the relevance of memetics and a Darwinian paradigm to understanding folklore change over time? Can we identify laws operating in the realm of folklore? How can the marginalization, extinction, or continuity of traditions be explained? In the course of addressing these questions, Elliott Oring identifies some fundamental problems, brings new evidence and observations to the discussion, and proffers some original and startling insights. While recognizing the study of jokes and other forms of folklore as a humanistic endeavor, Oring believes in the relevance of a scientific perspective to the enterprise. He values clear definitions, tests of hypotheses and theories, empirical evidence, experiment, and the search for laws. Written in a sophisticated yet accessible style, *The Consolations of Humor and Other Folklore Essays* stimulates both scholars and students alike and contributes to the creation of a more robust folkloristics in the twenty-first century.

Communication Technology - Everett M. Rogers 1986-06-11

The industrial nations of the world have become Information Societies. Advanced technologies have created a communication revolution, and the individual, through the advent of computers, has become an active participant in this process. The "human" aspect, therefore, is as important

as technologically advanced media systems in understanding communication technology. The flagship book in the Series in Communication Technology & Society, *Communication Technology* introduces the history and uses of the new technologies and examines basic issues posed by interactive media in areas that affect intellectual, organization, and social life. Author and series co-editor Everett M. Rogers defines the field of communication technology with its major implications for researchers, students, and practitioners in an age of ever more advanced information exchange.

Media Messages and Public Health - Amy Jordan 2010-11

Media Messages and Public Health addresses the full range of methodological and conceptual issues involved in content analysis research, specifically focused on public health-related messages and behaviors. Uniquely tailored to the challenges faced by content researchers interested in the study of public health topics, coverage includes: Conceptual and methodological foundations involved in the practice of content analysis research used to examine public health issues. Measurement challenges posed by the broad range of media. Use of content analysis across multiple media types. The potential for individual differences in audience interpretation of message content. Case studies that examine public health issues in the media to illustrate the decisions that are made when developing content analysis studies. The volume concludes with a set of guidelines for optimal content analysis research, and suggests ways in which the field can accommodate new technologies and new ways of using media. Developed for researchers in communication, media, and public health, this unique resource demonstrates how the variety of decisions researchers make along the way allows the exploration of traditions, assumptions and implications for each varying alternative and ultimately advances the science of content analysis research.

Gender and Humor - Delia Chiaro 2014-05-09

In the mid-seventies, both gender studies and humor studies emerged as new disciplines, with scholars from various fields undertaking research in these areas. The first publications that emerged in the field of gender studies came

out of disciplines such as philosophy, history, and literature, while early works in the area of humor studies initially concentrated on language, linguistics, and psychology. Since then, both fields have flourished, but largely independently. This book draws together and focuses the work of scholars from diverse disciplines on intersections of gender and humor, giving voice to approaches in disciplines such as film, television, literature, linguistics, translation studies, and popular culture.

Theorizing Backlash - Anita M. Superson 2002
Contrary to the popular belief that feminism has gained a foothold in the many disciplines of the academy, the essays collected in *Theorizing Backlash* argue that feminism is still actively resisted in mainstream academia. Contributors to this volume consider the professional, philosophical, and personal backlashes against feminist thought, and reflect upon their ramifications. The conclusion is that the disdain and irrational resentment of feminism, even in higher education, amounts to a backlash against progress.

Social Media in Southeast Turkey - Elisabetta Costa 2016-02-29

This book presents an ethnographic study of social media in Mardin, a medium-sized town located in the Kurdish region of Turkey. The town is inhabited mainly by Sunni Muslim Arabs and Kurds, and has been transformed in recent years by urbanisation. Elisabetta Costa uses her 15 months of ethnographic research to explain why public-facing social media is more conservative than offline life. Yet, at the same time, social media has opened up unprecedented possibilities for private communications between genders and in relationships among young people - Costa reveals new worlds of intimacy, love and romance. She also discovers that, when viewed from the perspective of people's everyday lives, political participation on social media looks very different to how it is portrayed in studies of political postings separated from their original complex, and highly socialised, context. neoliberalism and political events.

Messages from a Misfit - Elizabeth Andrews 2002-09

Messages from a Misfit tells the story of Emily Winters' college debut through intimate emails sent to fellow misfit, Jacy Ryan. Profoundly unpopular amidst her new granola munching deadhead counterparts, Emily arrives on campus at the University of Vermont only to find herself with a case of hysterical laryngitis and a roommate who can't stand her. As her college years progress, and her college majors change, so does Emily. Whether she is pondering the existence of an afterlife or coming to grips with a caffeine addiction, her friendship with Jacy keeps everything in perspective. With an irreverent, and at times humorously peculiar take on life, Emily will make you laugh out loud while she supervises volatile chemical reactions in lab, considers moving to a commune, and avoids lovesick campus security guards. So read on, and commiserate for, laugh at, and accept Emily for who she is. It may make you rethink the way you write email.

Global Criminology - K. Jaishankar 2013-03-25
Global criminology is an emerging field covering international and transnational crimes that have not traditionally been the focus of mainstream criminology or criminal justice. Global Criminology: Crime and Victimization in a Globalized Era is a collection of rigorously peer-reviewed papers presented at the First International Conference of the South Asian Society of Criminology and Victimology (SASCV) that took place in Jaipur, India in 2011. Using a global yardstick as the basis for measurement, the fundamental goal of the conference was to determine criminological similarities and differences in different regions. Four dominant themes emerged at the conference: Terrorism. In a topic that operates at the intersection of international law, international politics, crime, and victimization, some questions remain unanswered. Is terrorism a crime issue or a national defense issue? Should terrorists be treated as war criminals, soldiers, or civil criminals? How can international efforts and

local efforts work together to defeat terrorism?
Cyber Crimes and Victimization. Cyber space provides anonymity, immediate availability, and global access. Cyber offenders easily abuse these open routes. As cyber space develops, cyber-crime develops and grows. To achieve better cyber security, global criminologists must explore cyber-crimes from a variety of perspectives, including law, the motivation of offenders, and the impact on victims.
Marginality and Social Exclusion. Globalization is manifest in the fast transition of people between places, societies, social classes, and cultures. Known social constructions are destroyed for new ones, and marginalized people are excluded from important material, social, and human resources. This section examines how we can provide inclusion for marginalized

individuals in the global era and protect them from victimization. Theoretical and Practical Models of Criminal Victimization. The process of globalization, as mentioned above, creates new elements of victimization. But globalization can also become an opportunity for confronting and defeating victimization through improved sharing of knowledge and increased understanding of the humanity of the weak. The emerging global criminology comprises diversity of attitudes, explanations, and perspectives. The editors of this volume recognize that in the global village, there is room for solid contributions to the field of criminology and criminal justice. This collection is a move in this direction. It is hoped that these articles will help to expand the boundaries of criminology, criminal justice, and victimology with a view towards reducing crime worldwide.
