Straight Expectations Peggy Cryden, LMFT 2017-05-18 Ever since they were young, Peggy Cryden noticed her children's gender expression did not correspond with society's expectations of their biological gender. In this moving and honest memoir, Peggy details the experiences and challenges of raising both a gay son and a gay, transgender son and shares her family's journey of adversity and growth, which has helped inform her work as a psychotherapist. Beginning with her own unconventional upbringing and personal relationships, the second half of the book follows her children from birth to adulthood and through their numerous experiences including coming out, depression, hate crime, relationships, school and various aspects to do with transitioning (legal, physical, medical, social) as well as their appearances in the media as a family. This book is insightful, charming and thought-provoking, and through levity and humour, offers a positive approach to parenting outside of convention.

Performing Place in French and Italian Queer Documentary Film Oliver Brett 2018-10-11 This book explores the space of queer documentary through the modernist optic of Marcel Proust's 'lieu factice' (artificial place), a perspective that problematizes the location of place in a post-postmodern world with a dispersed sense of the real. The practice of queer documentary in France and Italy, from the beginning of the new millennium onwards, is seen to re-write the coherence of 'place' through a range of emerging queer realities. Proposing the post-queer as a way of contending with the spatial dynamics of these contexts, analysis of key texts positions place as mourned, conceded and intersectional. The performance of place as agency is considered through the notional film, the radical archive of documentary, the enactment of politics, queer indeterminacy and a phenomenology of the object, the frame and queer mobility. The central themes of family, gender, dis/location, in/visibility and re/presentation question blind investment in the integrity of being emplaced.

Trans Narratives Ana Horvat 2021-09-30 Recently, "trans" has taken on a number of important theoretical and critical meanings inside and outside the academy. As a prefix, "trans" can attach itself to other words to express or describe movement and change, as it does in the terms "transnational" or "transmedia." Trans is also an adjective when it is part of a word that signifies an identity or expression. Trans has worked as an adjective to destabilize established ideas about gender as it makes new senses of what gender can mean for trans people. Much of the study of life writing is about the study of identity and the possibilities for lives that stories of identity make possible. In that spirit, *Trans Narratives: trans, transmedia, transnational* represents an opportunity for critical work about life writing by trans people to be featured, as it seeks to interrogate the idea of trans in multiple registers, bringing a prefix to the center of the current field of life-writing studies. It aims to understand through life writing and its theory what trans means when we talk about identities and bodies, and to understand better what the critical terms transmedia and transnational can mean for the field of life writing. The Chapters in this book were originally published as a special issue of *a/b: Auto/Biography Studies*.

Transgender Aaron Devor 2019-02-15 This book provides a crucial resource for readers who are investigating trans issues. It takes a diverse and historic approach, focusing on more than one idea or one experience of trans identity or trans history. *Transgender: A Reference Handbook* is a go-to resource about the transgender experience. The book takes contemporary as well as historic aspects into consideration. It looks at ancient indigenous cultures that honored third, fourth, and fifth gender identities as well as more contemporary ideas of what "transgender" means. Notably, it focuses not only on Western medical ideas of gender affirmation but on cultural diversity surrounding the topic. This book will primarily serve as a reference guide and jumping off point for further research for those seeking information about what it means to be transgender. While a reference book, it contains original work that may be cited in addition to the encyclopedia itself. In particular, the perspectives section of the book includes writings from some of the world's foremost trans writers, activists, artists, and historians.

Southern Comfort Dan Collins 2017-10-23 "Based on the documentary, *Southern comfort* follows the last year of Robert Eads, a transgender man in Georgia, as he is diagnosed with ovarian cancer. He surrounds himself with his chosen family, who are predominantly transgender, as they share monthly potluck meals. Like any family, they have their own trials and tribulations, but ultimately they all seek acceptance for who they are in their own skin"--Page 4 of cover.

Becoming a Visible Man Jamison Green 2004 A transsexual activist offers insights into the challenges of gender dysphoria. Born with a female body, and in a lesbian parent relationship prior to sex reassignment surgery, the author explores how we know our sex and discusses the complexities of the answer for those whose sex and gender are mismatched, examining medical options, psychosocial and legal implications, and media representations of "transpeople."

Doing Cisgender Vs. Doing Transgender Austin Haney Johnson 2013 Trans men have been the subject of many empirical studies in recent years

that focus primarily on their engagement with masculinity within interaction. By highlighting the experiences of trans men, researchers argue that the persistent and often invisible experiences of gender inequality, specifically those of cisgender women, are made more visible. While scholars studying trans men in these scenarios categorize these interactions under the general heading of doing gender, I argue that these studies highlight experiences of doing cisgender, defined in this paper as individuals' accomplishment of gender within interaction according to cisnormative standards. However, the generalized moniker of doing gender is complicit in the marginalization of trans individuals' experiences of gender because it marks the dominant gender identification, cis, as the unnamed norm and eclipses trans-specific experiences of gender. While understanding how trans people do cisgender is an important contribution to the literature, I argue that doing cisgender is one component of trans people's experience of doing gender. My primary contention in this paper is that trans people also do transgender; that is, they are held accountable to transnormative standards that police and enforce the medical/legal/social access to trans as an identity category. To illustrate the differences between doing cisgender and doing transgender, I conduct a qualitative content analysis of nine documentary films featuring trans men, highlighting instances in the films of trans men doing cisgender and doing transgender..

Transgender History Susan Stryker 2009-01-07 Covering American transgender history from the mid-twentieth century to today, *Transgender History* takes a chronological approach to the subject of transgender history, with each chapter covering major movements, writings, and events. Chapters cover the transsexual and transvestite communities in the years following World War II; trans radicalism and social change, which spanned from 1966 with the publication of *The Transsexual Phenomenon*, and lasted through the early 1970s; the mid-'70s to 1990-the era of identity politics and the changes witnessed in trans circles through these years; and the gender issues witnessed through the '90s and '00s. *Transgender History* includes informative sidebars highlighting quotes from major texts and speeches in transgender history and brief biographies of key players, plus excerpts from transgender memoirs and discussion of treatments of transgenderism in popular culture.

Mobile Subjects Aren Z. Aizura 2018-11-23 The first famous transgender person in the United States, Christine Jorgensen, traveled to Denmark for gender reassignment surgery in 1952. Jorgensen became famous during the ascent of postwar dreams about the possibilities for technology to transform humanity and the world. In *Mobile Subjects* Aren Z. Aizura examines transgender narratives within global health and tourism economies from 1952 to the present. Drawing on an archive of trans memoirs and documentaries as well as ethnographic fieldwork with trans people obtaining gender reassignment surgery in Thailand, Aizura maps the uneven use of medical protocols to show how national and regional health care systems and labor economies contribute to and limit transnational mobility. Aizura positions transgender travel as a form of biomedical tourism, examining how understandings of race, gender, and aesthetics shape global cosmetic surgery cultures and how economic and racially stratified marketing and care work create the ideal transgender subject as an implicitly white, global citizen. In so doing, he shows how understandings of travel and mobility depend on the historical architectures of colonialism and contemporary patterns of global consumption and labor.

Neither Kuldeep Sinha 2015-07-12 They say, 'congratulations, it is a girl' or 'It is a boy'...often these are the first words uttered when a baby is born. These utterances are based on the genitals visible between the newly born's legs. From then onwards the infant's fate is sealed and his or her training starts in earnest. A boy is given a Toy like Guns, Cars, Tanks, and construction Kits and Girls are given Dolls, kitchen sets or sewing kits etc. Society even decides which colors the baby wears- blue for a boy or pink for a girl.. This gender related differences continue throughout the child's upbringing eventually resulting in an adult who has been trained to behave in a strictly feminine or masculine manners. Anyone who does not conform is labeled as 'Weirdo'. However where as child's sex is decided on the basis of the organs between the legs, its gender identity (self identification as male or female) is decided by the several complex factors which have still not been understood by the medical profession. This is what transsexualism

is all about. Gender identity is the sense that one feels for a particular sex not only biologically but also psychologically and socially. It is an extremely subjective entity which is independent of one's biological sex. Quite apart from the biological sex that we are born with (determined by the genitals), all of us possess a gender identity. Transsexualism is a form of gender identity disorder (Gender dysphoria) in which a person with a particular anatomical sexual differentiation is convinced that he or she is actually a member of opposite sex. This conviction which is accompanied by a profound hatred for the individuals own sexual characteristics, is absolute, overwhelming and incongruent between the biological sex and gender identity and it is the most extreme form of gender dysphoria. The novel ' NEITHER' highlights the need for flexible norms and attitude of the society in general and also framing of Laws pertaining to human rights to accept and accommodate them as human being for their dignified existence. NEITHER also attempts to explain chronologically how this transsexualism might have taken place during the course of many incarnations in the life and life after death of a person before he is born again. 'Neither' is just not an experience but a journey which has no destination, 'Neither' is a pain which has no relief, 'Neither' is a narration which is difficult to understand, 'Neither' talks about the 'Normal' with abnormality, 'Neither' has many interpretations but very few solutions. For me 'Neither' is a miracle which unearthed many mysteries of human kind. Authoring 'Neither' was a discovery of the evolution of another human sexuality not many people might be familiar with. -Author

Gay and Lesbian Rights in the United States Walter L. Williams 2003 An anthology of primary documents for high-school and college students who are studying or debating the issues of gay and lesbian rights in America, dating from colonial times to the present.

Between the Sheets, in the Streets Chris Holmlund 1997 From film festivals to university campuses, from private homes to first-run theaters, people everywhere are viewing and discussing gay, lesbian, queer, bisexual, and transgender films and videos. Between the Sheets, In the Streets considers these videos and films, testifying to the unavoidable connections between sexuality (the sheets) and activism (the streets) for all who identify as gay, lesbian, or queer in the 1990s. This first collection of essays to focus exclusively on queer, lesbian, and gay documentary argues that documentary films and videos speak with a sense of political and social urgency, acting as testaments to the importance of reclaiming history and asserting the importance of these points of view. Among the topics discussed are representations of young queers on such shows as MTV's The Real World; pre-Stonewall films; portrayals of lesbians and aging; video activism in Oregon and the South; and the works of Derek Jarman, Su Friedrich, Cheryl Dunye, and Sadie Benning. A range of films and videos is examined, including Strangers in Good Company, Paris Is Burning, Juggling Gender, Silverlake Life, and Without You I'm Nothing.

Shimmering Images Eliza Steinbock 2019-03-22 In Shimmering Images Eliza Steinbock traces how cinema offers alternative ways to understand gender transitions through a specific aesthetics of change. Drawing on Barthes's idea of the "shimmer" and Foucault's notion of sex as a mirage, the author shows how sex and gender can appear mirage-like on film, an effect they label shimmering. Steinbock applies the concept of shimmering—which delineates change in its emergent form as well as the qualities of transforming bodies, images, and affects—to analyses of films that span time and genre. These include examinations of the fantastic and phantasmagorical shimmerings of sex change in Georges Méliès's nineteenth-century trick films and Lili Elbe's 1931 autobiographical writings and photomontage in Man into Woman. Steinbock also explores more recent documentaries, science fiction, and pornographic and experimental films. Presenting a cinematic philosophy of transgender embodiment that demonstrates how shimmering images mediate transitioning, Steinbock not only offers a corrective to the gender binary orientation of feminist film theory; they open up new means to understand trans ontologies and epistemologies as emergent, affective, and processual.

Transgender Communication Studies Jamie C. Capuzza 2015-02-05 Transgender Communication Studies: Histories, Trends, and Trajectories brings scholarship in transgender studies to the forefront of the communication discipline. Leland Spencer and Jamie Capuzza provide a broad foundation

The collection also looks to the future of transgender research with suggestions and directives for continued work. This comprehensive study inspires critical thinking about gender identity and transgender lives from within the vocabularies and methodologies of communication studies.

Gender is not a fact. A critical assessment of Judith Butler's view Dext Rose 2017-01-02 Essay from the year 2015 in the subject Women Studies / Gender Studies, grade: A, , language: English, abstract: A critical assessment of the view of Judith Butler that gender is not a fact, using the relevant examples, including documentaries and other academic sources. The politics of gender continues to facilitate complex discourse of why, when and how gender is constructed and has attracted a plethora of theories. With third wave feminism being more inclusive of gender diversity the idea of gender as a social construct became a popular argument, as explored by Judith Butler in her book 'Gender Trouble. Butler looks at a new way of approaching sex and gender construct, as opposed to the traditional heterosexualized notion of masculinity and femininity. Like many other scholars, theorists and feminists such as Michel Foucault, Audre Lorde and Adrienne Rich, Butler presents the argument that gender should be seen as fluid and adapt to our behavior and mannerisms at different times and in different situations rather than a rigid definition of who we are as gendered beings. Butler's entire argument of gender is centered on the idea of deconstructing the historical definition of gender, so as to move toward a more inclusive and equal society; one where we are not limited to feminine and masculine constructs. While many argue that gender is a biological, biosocial construct that is influenced by nature, work by Butler and other theorists, as well as the lived experiences of different human beings from various cultures, support the idea that gender is indeed not a fact but rather a socially constructed theory.

Trans Britain Ms Christine Burns 2018-01-25 Over the last five years, transgender people have seemed to burst into the public eye: Time declared 2014 a 'trans tipping point', while American Vogue named 2015 'the year of trans visibility'. From our television screens to the ballot box,

transgender people have suddenly become part of the zeitgeist. This apparently overnight emergence, though, is just the latest stage in a long and varied history. The renown of Paris Lees and Hari Nef has its roots in the efforts of those who struggled for equality before them, but were met with indifference – and often outright hostility – from mainstream society. *Trans Britain* chronicles this journey in the words of those who were there to witness a marginalised community grow into the visible phenomenon we recognise today: activists, film-makers, broadcasters, parents, an actress, a rock musician and a priest, among many others. Here is everything you always wanted to know about the background of the trans community, but never knew how to ask.

As Nature Made Him John Colapinto 2013-03-05 NEW YORK TIMES BESTSELLER “We should aspire to Colapinto's stellar journalist example: listening carefully to the circumstances of those who are different rather than demanding that they conform to our own.” —Washington Post The true story about the "twins case" and a riveting exploration of medical arrogance, misguided science, societal confusion, gender differences, and one man's ultimate triumph In 1967, after a twin baby boy suffered a botched circumcision, his family agreed to a radical treatment that would alter his gender. The case would become one of the most famous in modern medicine—and a total failure. The boy's uninjured brother, raised as a boy, provided to the experiment the perfect matched control. *As Nature Made Him* tells the extraordinary story of David Reimer, who, when finally informed of his medical history, made the decision to live as a male. Writing with uncommon intelligence, insight, and compassion, John Colapinto sets the historical and medical context for the case, exposing the thirty-year-long scientific feud between Dr. John Money and his fellow sex researcher, Dr. Milton Diamond—a rivalry over the nature/nurture debate whose very bitterness finally brought the truth to light. A macabre tale of medical arrogance, it is first and foremost a human drama of one man's—and one family's—amazing survival in the face of terrible odds.

Fine: A Comic About Gender Rhea Ewing 2022-04-05 Washington Post • 10 Best Graphic Novels of 2022 A vibrant and informative debut with “great documentary power” (Alison Bechdel), *Fine* is an elegantly illustrated celebration of the transgender community. As graphic artist Rhea Ewing neared college graduation in 2012, they became consumed by the question: What is gender? This obsession sparked a quest in which they eagerly approached both friends and strangers in their quiet Midwest town for interviews to turn into comics. A decade later, this project exploded into a sweeping portrait of the intricacies of gender expression with interviewees from all over the country. Questions such as “How do you Identify” produced fiercely honest stories of dealing with adolescence, taking hormones, changing pronouns—and how these experiences can differ, often drastically, depending on culture, race, and religion. Amidst beautifully rendered scenes emerges Ewing’s own story of growing up in rural Kentucky, grappling with their identity as a teenager, and ultimately finding themselves through art—and by creating something this very fine. Tender and wise, inclusive and inviting, *Fine* is an indispensable account for anyone eager to define gender in their own terms.

Body, Gender, and Sexuality in Latin American Cinema: Insurgent Skin Juli A. Kroll 2022-08-01 *Insurgent Skin: Body, Gender, and Sexuality in Latin American Cinema* argues that twenty-first century Latin American cinema about lesbian, feminist, intersex, and transgender themes is revolutionary because it disrupts heteronormative and binary representation and explores new, queer signifying modes. Grounded in feminist and queer theory, *Insurgent Skin* conjugates film phenomenology and theories of affect and embodiment to analyze a spectrum of Latin American films. The first chapters explore queer signifying in Argentinean director Lucrecia Martel’s *Salta* trilogy and the lesbian utopia of Albertina Carri’s *Las hijas del fuego* (2018). Next, the book discusses the female body as uncanny absence in Tatiana Huezo’s documentary *Tempestad* (2016), a film about gendered violence in Mexico. Chapter Five focuses on intersex films and the establishing of queer solidarity and an intersex gaze. The last chapter examines transgender embodiment in the Chilean film *Una mujer fantástica* (2017) and Brazilian documentary *Bixa Travesty* (2018).

Born as biologically female, Nathan spends his formative years facing questions without answers, social ostracism from his peers, and incomprehension from his family--because from as early as he can remember, he knows he has been born in the wrong body. But, as his family comes to recognize, a physical identity is harder to change than a piece of clothing or a haircut. So from the moment he is at last supplied with a professional term for his self-diagnosis--"gender dysphoria"--he is able to leave behind his complicated psychological history, the challenges of his self-harming, and his struggles with sexual identity, and begin the difficult process of claiming his true self. Trans New York Peter Bussian 2020-06-02 A visually stunning, landmark photography book of transgender New Yorkers, complete with thought-provoking and revealing interviews that honor the transgender community and the courage it takes to find oneself and defy societal norms. A growing portion of the LGBTQ+ community identifies as transgender; they are fathers and mothers, sons and daughters; actors, writers, singers, and politicians; young, old, black, white, Latinx, and Asian; farmers, suburbanites, and New Yorkers. But trans people today face the same challenges that gay people faced in the 1980s, often forced to the periphery of society by prejudice and fear and subject to a lack of legal representation, workplace harassment, and insufficient healthcare. And while an increasing amount of people report that they personally know a transgender person, trans people still contend with the stigma, violence, and discrimination that accompanies a lack of representation and a lack of visibility. After traveling the world as a documentary photographer, Peter Bussian returned home to New York City and decided to focus his lens on his transgender neighbors. He met with people who identify as trans, genderqueer, or gender nonbinary, and often their significant others, friends, or family members. His photos capture them on the streets of New York and at their favorite haunts. The result is intimate access to a population all-too-often underrepresented or

misrepresented in popular media. In his stunning, expertly shot photos and accompanying interviews of fifty New Yorkers, we see the power of individuality, the raw and complex expressions of identity that New York City welcomes, and joyful, poignant journeys toward self-acceptance. One of the first books of its kind and a visual tour de force, *Trans New York* gives rare and remarkable insights into the journey of transition, combats misconceptions and stereotypes, and celebrates the autonomous articulation of sexuality, gender, and self that New York, in all of its beauty, honesty, and compassion, welcomes.

Ethnomusicology of the Closet: (Con)Figuring Transgender-Hijra Identity Through Documentary Filmmaking Jeffrey Roy 2015 This ethnography is situated in transgender and hijra communities primarily within and surrounding the Mumbai and Lucknow metropolitan areas of India. This study of contemporary and current trans-hijra music and dance practices follows three primary guiding questions: (1) In what ways do individual musical talent and versatility contribute to representations of (the transitioning) self?; (2) In what ways are these representations tied to the hijra ghara na (household, literally 'of the house'), socialization and izzat ('respect'; see Reddy 2005), and other organizational motifs in hijra culture?; and (3) How are these representations tied to the emergence of LGBTIQ pehcha n ('identity') politics, and (changing) conceptions of gender and sexuality in a larger societal scale? Owing to my own frame of reference, and to the complex dynamics of desire permeating issues of identity in trans-hijra cultures, this dissertation employs a queer approach to documentary filmmaking as a research method. Accordingly, I investigate how queer (American) perspectives and ethnographic methodologies are tied to the creation and/or contestation of trans-hijra pehcha n, as well as (the creation of) the field itself. As part of a larger effort to expound on what I call "queer ethnomusicological filmmaking," I argue that queerly documenting trans-hijra performance participates in and alongside the (con)figuration of trans-hijra pehcha n by performatively engaging in key identity-forming processes, amplifying voices on a global LGBTIQ platform, and reconstituting preexisting tropes of the hijra through a lens of transgender respectability, talent, and professionalism. While some scholars have investigated hijras, little English-language scholarship exists on the music and dance practices of these communities. This dissertation represents an effort to fill this void, building partly upon the survey work of Nazir Ali Jairazbhoy (1988 [1963]) and Anna Morcom (2013), and contributing new visual ethnomusicological material alongside the ethnographic works of Gayatri Reddy (2005), among others. The timeliness of this research is also supported by the April 2014 recognition of the "Third Gender" community by the Indian Supreme Court, a bill that was introduced by a project participant, Laxmi Narayan Tripathi. In exploring the connections between hijra music and identity, this dissertation represents and engages with current discourses surrounding issues of gender, sexuality, and identity in India's emerging LGBTIQ landscape.

The Pink Line Mark Gevisser 2021-06-08 One of TIME's 100 Must-Read Books of 2020. Longlisted for the 2021 Rathbones Folio Prize. "[Mark] Gevisser is clear-eyed and wise enough to have a sharp sense of how tough the struggle has been, and how hard it will be now for those who have not succeeded in finding shelter from prejudice." --Colm Tóibín, *The Guardian* A groundbreaking look at how the issues of sexuality and gender identity divide and unite the world today More than seven years in the making, Mark Gevisser's *The Pink Line: Journeys Across the World's Queer Frontiers* is an exploration of how the conversation around sexual orientation and gender identity has come to divide—and describe—the world in an entirely new way over the first two decades of the twenty-first century. No social movement has brought change so quickly and with such dramatically mixed results. While same-sex marriage and gender transition are celebrated in some parts of the world, laws are being strengthened to criminalize homosexuality and gender nonconformity in others. As new globalized queer identities are adopted by people across the world—thanks to the digital

revolution—fresh culture wars have emerged. A new Pink Line, Gevisser argues, has been drawn across the globe, and he takes readers to its frontiers. Between sensitive and sometimes startling profiles of the queer folk he's encountered along the Pink Line, Gevisser offers sharp analytical chapters exploring identity politics, religion, gender ideology, capitalism, human rights, moral panics, geopolitics, and what he calls "the new transgender culture wars." His subjects include a Ugandan refugee in flight to Canada, a trans woman fighting for custody of her child in Moscow, a lesbian couple campaigning for marriage equality in Mexico, genderqueer high schoolers coming of age in Michigan, a gay Israeli-Palestinian couple searching for common ground, and a community of kothis—"women's hearts in men's bodies"—who run a temple in an Indian fishing village. What results is a moving and multifaceted picture of the world today, and the queer people defining it. Eye-opening, heartfelt, expertly researched, and compellingly narrated, *The Pink Line* is a monumental—and urgent—journey of unprecedented scope into twenty-first-century identity, seen through the border posts along the world's new LGBTQ+ frontiers.
