Chains of Babylon - Daryl J. Maeda 2009

In *Chains of Babylon*, Daryl J. Maeda presents a cultural history of Asian

American activism in the late 1960s and early 1970s, showing how the

movement created the category of "Asian American" to join Asians of

many ethnicities in racial solidarity. Drawing on the Black Power and

antiwar movements, Asian American radicals argued that all Asians in

the United States should resist assimilation and band together to oppose

racism within the country and imperialism abroad. As revealed in

Maeda's in-depth work, the Asian American movement contended that

people of all Asian ethnicities in the United States shared a common

relationship to oppression and exploitation with each other and with

other nonwhite peoples. In the early stages of the civil rights era, the

possibility of assimilation was held out to Asian Americans under a model

minority myth. Maeda insists that it was only in the disruption of that

myth for both African Americans and Asian Americans in the 1960s and

1970s that the full Asian American culture and movement he describes

could emerge. Maeda challenges accounts of the post-1968 era as

hopelessly divisive by examining how racial and cultural identity enabled

Asian Americans to see eye-to-eye with and support other groups of color

in their campaigns for social justice. Asian American opposition to the

war in Vietnam, unlike that of the broader antiwar movement, was

predicated on understanding it as a racial, specifically anti-Asian

genocide. Throughout he argues that cultural critiques of racism and

imperialism, the twin "chains of Babylon" of the title, informed the

construction of a multiethnic Asian American identity committed to

interracial and transnational solidarity.

Asian American Literature in Transition, 1930-1965: Volume 2 - Victor

Bascara 2021-06-17

Leading scholars provide illuminating and engaging perspectives on a

long neglected, yet incredibly eventful, period (1930-1965) of Asian

American literature.

Sexual Naturalization - Susan Koshy 2004

Situating her discussion within the context of the history of

antimiscegenation regulation in the United States and its construction of

power relations and racial meaning, Koshy (English and Asian American

studies, U. of Illinois at Urbana-Champaign) conducts close readings of

narratives of white-Asian miscegenation in order to track the shifts in

racial and sexual ideologies encoded in the texts. Paying particular

attention to the differences in the way Asian man/white woman dyads

and white man/Asian woman dyads signified differing representations of

Asian assimilability, she looks at John Luther Long's *Madame Butterfly*,

D. W. Griffith's film *Broken Blossoms*, the writings of Filipino American

Carlos Bulosan, and *Wife and Jasmine* by Indian American Bharati

Mukherjee.

Uncoupling American Empire - Yu-Fang Cho 2014-01-06

A cultural studies consideration of marriage and those considered

"deviant" in the nineteenth-century American imagination. A radical

revision of the politics of race and sexuality within racial capitalism,

Uncoupling American Empire provides an original cultural genealogy of

how the institutionalization of marriage shaped imagined relationships

among working people who were seen as sexually deviant in nineteenth-

century U.S. imperial cultures. Departing from the longstanding focus on

domesticity as a middle-class white women's imaginary construct of

home, nation, and empire, this book foregrounds the relationship

between marriage and subjects marked by slavery, prostitution,

indentured labor, and colonialism through tracing overlooked linkages

among the period's fiction texts, journalistic accounts, pictorial

illustrations, and missionary narratives. Yu-Fang Cho's feminist

intersectional approaches illuminate the complex web of social difference

that uneven access to marriage has historically produced; the cumulative

effects of the ironic—and indeed cynical—promise of freedom, equality,

and inclusion through sexual conformity; and the central role that

cultural imagination plays in forging alternative relations among

minoritized subjects. Yu-Fang Cho is Associate Professor of English and

Women's, Gender, and Sexuality Studies, and a founding member of the

Asian/Asian American Studies Program at Miami University of Ohio.

[The Oxford Handbook of Feminist Philosophy](#) - Ásta 2021

This exciting new Handbook offers a comprehensive overview of the

contemporary state of the field in feminist philosophy. The editors'

introduction and forty-five essays cover feminist critical engagements

with philosophy and adjacent scholarly fields, as well as feminist

approaches to current debates and crises across the world. Authors

cover topics ranging from the ways in which feminist philosophy attends

to other systems of oppression, and the gendered, racialized, and classed

assumptions embedded in philosophical concepts, to feminist

perspectives on prominent subfields of philosophy. The first section

contains chapters that explore feminist philosophical engagement with

mainstream and marginalized histories and traditions, while the second

section parses feminist philosophy's contributions to numerous

philosophical subfields, for example metaphysics and bioethics. A third

section explores what feminist philosophy can illuminate about crucial

moral and political issues of identity, gender, the body, autonomy,

prisons, among numerous others. The Handbook concludes with the

field's engagement with other theories and movements, including trans

studies, queer theory, critical race, theory, postcolonial theory, and

decolonial theory. The volume provides a rigorous but accessible

resource for students and scholars who are interested in feminist

philosophy, and how feminist philosophers situate their work in relation

to the philosophical mainstream and other disciplines. Above all it aims

to showcase the rich diversity of subject matter, approach, and method

among feminist philosophers.

[The Cambridge History of the American Novel](#) - Leonard Cassuto

An authoritative and lively account of the development of the genre, by leading experts in the field.

Repetition and Race - Amy Cynthia Tang 2016

Repetition and Race explores the literary forms and critical frameworks occasioned by the widespread institutionalization of liberal multiculturalism by turning to the exemplary case of Asian American literature. Whether beheld as "model minorities" or objects of "racist love," Asian Americans have long inhabited the uneasy terrain of institutional embrace that characterizes the official antiracism of our contemporary moment. Repetition and Race argues that Asian American literature registers and responds to this historical context through formal structures of repetition. Forwarding a new, dialectical conception of repetition that draws together progress and return, motion and stasis, agency and subjection, creativity and compulsion, this book reinterprets the political grammar of four forms of repetition central to minority discourse: trauma, pastiche, intertextuality, and self-reflexivity. Working against narratives of multicultural triumph, the book shows how texts by Theresa Cha, Susan Choi, Karen Tei Yamashita, Chang-rae Lee, and Maxine Hong Kingston use structures of repetition to foreground moments of social and aesthetic impasse, suspension, or hesitation rather than instances of reversal or resolution. Reading Asian American texts for the way they allegorize and negotiate, rather than resolve, key tensions animating Asian American culture, Repetition and Race maps both the penetrating reach of liberal multiculturalism's disciplinary formations and an expanded field of cultural politics for minority literature.

Sexual Naturalization - Susan Koshy 2022

Sexual Naturalization offers compelling new insights into the racialized constitution of American nationality. In the first major interdisciplinary study of Asian-white miscegenation from the late nineteenth to the end of the twentieth century, Koshy traces the shifting gender and racial hierarchies produced by antimiscegenation laws, and their role in shaping cultural norms. Not only did these laws foster the reproduction of the United States as a white nation, they were paralleled by extraterritorial privileges that facilitated the sexual access of white American men to Asian women overseas. Miscegenation laws thus turned sex acts into race acts and engendered new meanings for both. Koshy argues that the cultural work performed by narratives of white-Asian miscegenation dramatically transformed the landscape of desire in the United States, inventing new objects and relations of desire that established a powerful hold over U.S. culture, a capture of imaginative space that was out of all proportion to the actual numbers of Asian residents.

Racial Ambiguity in Asian American Culture - Jennifer Ann Ho

2015-05-12

The sheer diversity of the Asian American populace makes them an ambiguous racial category. Indeed, the 2010 U.S. Census lists twenty-four Asian-ethnic groups, lumping together under one heading people with dramatically different historical backgrounds and cultures. In *Racial Ambiguity in Asian American Culture*, Jennifer Ann Ho shines a light on the hybrid and indeterminate aspects of race, revealing ambiguity to be paramount to a more nuanced understanding both of race and of what it means to be Asian American. Exploring a variety of subjects and cultural artifacts, Ho reveals how Asian American subjects evince a deep racial ambiguity that unmoors the concept of race from any fixed or finite understanding. For example, the book examines the racial ambiguity of Japanese American nisei Yoshiko Nakamura deLeon, who during World War II underwent an abrupt transition from being an enemy alien to an assimilating American, via the Mixed Marriage Policy of 1942. It looks at the blogs of Korean, Taiwanese, and Vietnamese Americans who were adopted as children by white American families and have conflicted feelings about their "honorary white" status. And it discusses Tiger Woods, the most famous mixed-race Asian American, whose description of himself as "Cablinasian"—reflecting his background as Black, Asian, Caucasian, and Native American—perfectly captures the ambiguity of racial classifications. Race is an abstraction that we treat as concrete, a construct that reflects only our desires, fears, and anxieties. Jennifer Ho demonstrates in *Racial Ambiguity in Asian American Culture* that seeing race as ambiguous puts us one step closer to a potential antidote to racism.

What Is Asian American Biblical Hermeneutics? Reading the New Testament - Tat-siong Benny Liew 2007-12-31

"Liew is one of the most articulate, creative and sophisticated biblical scholars in North America. What Is Asian American Biblical Hermeneutics? has not caused me to question that judgment. A set of provocative questions, arguments, issues, and problems, the book opens a window onto what it means for human beings to try to negotiate a rather complex contemporary world, with evidence of increasingly blurred but also thick ideological and social-cultural boundaries and overlapping but also recognizable and isolable identity formations. That Liew does this by using and bringing together the category "Asian American" and the phenomenon of the reading of "the Bible" as sharp analytical wedge is all the more fascinating. This impressive book represents the collapse of the center and a major shift in orientation to the peripheries. It is a major achievement and a major challenge."

—Vincent L. Wimbush, Claremont Graduate University "A groundbreaking achievement! Dr. Liew uses his amazing breadth of scholarship to challenge Eurocentrism in biblical studies and secularism in Asian American studies at once. Like *Gender Trouble*, *The Future of an Illusion*, and other original work, this book will become a classic in Asian American biblical hermeneutics, setting the terms of debate for years to come. After Liew, reading the New Testament will never be the same again."—Kwok Pui-lan, Episcopal Divinity School, Cambridge, Massachusetts This is the first single-authored book on Asian American biblical interpretation. It covers all of the major genres within the New Testament and broadens biblical hermeneutics to cover not only the biblical texts, but also Asian American literature and current films and events like genome research and September 11. Despite its range, the book is organized around three foci: methodology (the distinguishing characteristics or sensibilities of Asian American biblical hermeneutics), community (the politics of inclusion and exclusion), and agency. The work intentionally affirms Asian America as a panethnic coalition while acknowledging the differences within it. In other words, it attempts to balance Asian American panethnicity and heterogeneity, or coalition building and identity politics.

Keywords for Asian American Studies - Cathy J. Schlund-Vials 2015-05-08

Introduces key terms, research frameworks, debates, and histories for Asian American Studies Born out of the Civil Rights and Third World Liberation movements of the 1960s and 1970s, Asian American Studies has grown significantly over the past four decades, both as a distinct field of inquiry and as a potent site of critique. Characterized by transnational, trans-Pacific, and trans-hemispheric considerations of race, ethnicity, migration, immigration, gender, sexuality, and class, this multidisciplinary field engages with a set of concepts profoundly shaped by past and present histories of racialization and social formation. The keywords included in this collection are central to social sciences, humanities, and cultural studies and reflect the ways in which Asian American Studies has transformed scholarly discourses, research agendas, and pedagogical frameworks. Spanning multiple histories, numerous migrations, and diverse populations, *Keywords for Asian American Studies* reconsiders and recalibrates the ever-shifting borders of Asian American studies as a distinctly interdisciplinary field. Visit keywords.nyupress.org for online essays, teaching resources, and more.

Sport and South Asian Diasporas - Stanley Thangaraj 2015-10-14

This original collection demonstrates the importance of sporting practices, spaces and leisure affiliations to understanding issues around identity, (post-) migration, diaspora and transnationalism for global South Asian populations. The chapters provide a critical (re-) examination of the roles that sport plays within and in relation to South Asian groups in the diaspora, and raises a series of pertinent questions regarding the multifarious relationships between sport and South

Asianness. The chapters range across a wide variety of disciplines, regions, sports and identifications. They are in conversation with each other while showing the particularity of each diasporic context and relationship to sport. The book encompasses a number of global contexts from the "homeland" (India, Pakistan, Afghanistan) to the diaspora (Fiji, Norway, the US, the UK), and addresses a broad range of sporting contexts, including basketball, boxing, cricket, cycling, field hockey, soccer and golf. The chapters combine a range of qualitative methods, including ethnography, auto-ethnography, participant observation, memoir, interview and textual analysis (film, television and print media). This collection comprises the latest cutting edge research in the field, and will be essential reading for scholars and students both of sport and South Asian diasporas. This book was published as a special issue of South Asian Popular Culture.

Asian American Athletes in Sport and Society - C. Richard King
2014-10-24

For more than a century, sporting spectacles, media coverage, and popular audiences have staged athletics in black and white. Commercial, media, and academic accounts have routinely erased, excluded, ignored, and otherwise made absent the Asian American presence in sport. This book seeks to redress this pattern of neglect, presenting a comprehensive perspective on the history and significance of Asian American athletes, coaches, and teams in North America. The contributors interrogate the sociocultural contexts in which Asian Americans lived and played, detailing the articulations of power and possibility, difference and identity, representation and remembrance that have shaped the means and meanings of Asian Americans playing sport in North America. This volume will be of interest to students and scholars of the Asian American experience, ethnic relations, and the history of sport.

Transnational Matrilineage - Silvia Schultersmandl 2009

Transnational Matrilineage offers a novel approach to Asian American literature, including texts by Maxine Hong Kingston, Amy Tan, Mei Ng, Nora Okja Keller and Vineeta Vijayaragahavan, with particular attention to depictions of transnational solidarity (that is the sense of community between women of different cultures or cultural affiliations) between Asian-born mothers and their American-born daughters. While focusing on the mother-daughter conflicts these texts portray, this book also contributes to ongoing debates in transnational feminism by scrutinizing

the representation of Asia in Asian American literature.

Asian American Literature in Transition, 1996-2020: Volume 4 - Betsy Huang 2021-06-17
