

The Politics Of Sex And Religion A Case History In The Development Of Doctrine 19621984

Retelling U.S. Religious History
- Thomas A. Tweed 2023-09-01
This collection marks a turning point in the study of the history of American religions. In challenging the dominant paradigm, Thomas A. Tweed and his coauthors propose nothing less than a reshaping of the way that American religious history is understood, studied, and taught. The range of these essays is extraordinary. They analyze sexual pleasure, colonization, gender, and interreligious exchange. The narrators position themselves in a number of geographical sites, including the Canadian border, the American West, and the Deep South. And they discuss a

wide range of groups, from Pueblo Indians and Russian Orthodox to Japanese Buddhists and Southern Baptists.

Humanae Vitae, 50 Years

Later - Charles J. Chaput 2019

"Experts representing a variety of disciplines including history, culture, theology, medicine, law, and psychology reflect upon the Catholic Church's teachings on marriage and licit methods for the regulation of births, on the occasion of the 50th anniversary of the papal document *Humanae vitae*.

The Catholic Moral Tradition

Today - Charles E. Curran

1999-04-05

The Catholic tradition has always tried to explain its theology in a coherent and systematic way, but the great changes and tensions existing within Catholic moral theology today have made it difficult to develop systematic approaches to what was once called fundamental moral theology. Now a leading scholar active in this field for forty years offers a synthesis of Catholic moral theology set in the context of the broader Catholic tradition and the significant developments that have occurred since the Second Vatican Council. Charles E. Curran's succinct, coherent account of his wide-ranging work in Catholic moral theology points out agreements, disagreements, and changes in significant aspects of the Catholic moral tradition. His systematic approach explores major topics in a logical development: the ecclesiological foundation and stance of moral theology; the person as moral subject and agent; virtues, principles and norms; conscience and decision

making; and the role of the church as a teacher of morality. Curran's work condenses and organizes a large amount of material to show that the Catholic theological tradition is in dialogue with contemporary life and thought while remaining conscious of its rich history. Of great interest to theologians for its broad synthetic scope, this book is also a thorough introduction to the Catholic moral tradition for students and interested readers, including non-Catholics.

The Good News of the Body -
Lisa Isherwood 2000

God has assumed a significant role in the sex lives of believers. It is God who decrees which types of sexual expression are permitted, and which forbidden. Through the Church, a patriarchal sexual landscape has been enacted to control sexual bodies which exerts its influence even in our secular culture. *The Good News of the Body* is a wide-ranging anthology on feminist sexual theology. Noting that

Jesus, while being declared divine, took human form, the volume questions what happens when the flesh, rather than the Word, is placed at the center of theological reflection. What happens when women's bodies form the incarnational starting point for sexual politics and theology?

Contributors, including Rosemary Ruether, Mary Hunt, and Melissa Raphael, examine such topics as the possibility of a Roman Catholic approach to sexuality bringing together the three aspects of Christian love of eros, philia, and agape; Jewish sexual and mystical teaching; the de-sexing of the disabled; erotic celibacy; human sexuality and the concept of the goddess; and the sometimes surprisingly similar conclusions about contraception reached by feminists and popes.

Transformational Leadership - Sanders, Annmarie, IHM 2015-09-01

Faith and Leadership - Michael P. Riccards 2012-04-19

This volume is the first major

study of the papacy as a

managerial structure that has evolved over two thousand years. Special emphasis is placed on the environments in which the Church functioned and in which it had to reach uneasy compromises. The volume is both scholarly and very readable.

Crossings and Dwellings - Kyle B. Roberts 2017-07-31

In Restored Jesuits, Women Religious, American Experience, 1814-2014, Kyle Roberts and Stephen Schloesser, S.J., bring together new scholarship that explores the work and experiences of Jesuits and their women religious collaborators in North America over two centuries.

Catholics and Contraception - Leslie Woodcock Tentler 2018-09-05

As Americans rethought sex in the twentieth century, the Catholic Church's teachings on the divisive issue of contraception in marriage were in many ways central. In a fascinating history, Leslie Woodcock Tentler traces changing attitudes: from the

Doctrine 19621984

late nineteenth century, when religious leaders of every variety were largely united in their opposition to contraception; to the 1920s, when distillations of Freud and the works of family planning reformers like Margaret Sanger began to reach a popular audience; to the Depression years, during which even conservative Protestant denominations quietly dropped prohibitions against marital birth control. Catholics and Contraception carefully examines the intimate dilemmas of pastoral counseling in matters of sexual conduct. Tentler makes it clear that uneasy negotiations were always necessary between clerical and lay authority. As the Catholic Church found itself isolated in its strictures against contraception—and the object of damaging rhetoric in the public debate over legal birth control—support of the Church's teachings on contraception became a mark of Catholic identity, for better and for worse. Tentler draws on evidence from pastoral

literature, sermons, Doctrine 19621984

writings, private correspondence, and interviews with fifty-six priests ordained between 1938 and 1968, concluding, "the recent history of American Catholicism... can only be understood by taking birth control into account."

John Paul II and Moral Theology - Charles E. Curran 1998

A collection of articles that survey contemporary papal teaching on moral theology, dealing specifically with economics, gender, sexuality and life issues.

Sixty Years of Moral Theology -

Curran, Charles E. 2020

Following the model of the

previous volumes, Charles

Curran has gathered here

fourteen articles relating to

three areas in moral theology:

I. Vatican II and Its Aftermath.

II. Humane Vitae and Its

Aftermath. III. Subsequent

Developments

A Realist's Church -

Sexing the Church - Aline H.

"A wonderful book that gives us a fresh angle of vision on modern Roman Catholic teaching about sex, marriage, gender relationships, and reproduction. After reading *Sexing the Church*, few will doubt the extent to which Catholic teaching about the law of nature owes no small debt to history and culture." -- Richard B. Miller, Poynter Center for the Study of Ethics and American Institutions

"...Catholic attitudes about women in the priesthood... display [a] contradiction between egalitarian and subordinationist views.... Women are denied access to the 'eucharistic' priesthood because allowing them in would upset the redemptive order. Why is it, then, that imagery from the created order (women as mothers, brides, virgins) is often used to describe the redemptive 'mystery' that connects Christ with the Church? Why is the Church 'sexed' female?... This sexing of the Church is more than just an example of how

Catholic morality; it also reveals tensions in the complex patterns of Catholic reasoning about marriage, reproduction, and church authority. In a surprising way, it challenges the order enforced by the Catholic ethics of marriage and reproduction." -- from Chapter One The regulation of human sexuality in contemporary Catholicism, a topic that monopolizes public conversation about the Catholic Church, is also a central concern of Catholic theological discussions of religious ethics. Aline H. Kalbian traces the history of the connection between moral theology and sexual ethics as it applies to the concern for order in official teachings on marriage, reproduction, and sex. She explores order as it is reflected in the theology of marriage, the 20th-century challenge to that order in the debates on contraception and assisted reproduction, and the way attitudes about gender in Catholicism connect theological and moral order

with ecclesiastical order.

Doctor Ferdinand Peeters -

Karl van den Broeck
2021-04-06

The story of doctor Ferdinand Peeters (1918-1998) and his role in the development of the pill has held Belgium in thrall for almost a decade. It is time to introduce the real father of the contraceptive pill to the rest of the world. After years of research, Belgian journalist Karl van den Broeck concluded that not the American Gregory Pincus was the inventor of the pill. His prototype had so many adverse effects that it wasn't a viable option in the long term. It was the Belgian doctor Ferdinand Peeters who, in 1959-1960, created the first clinically applicable contraceptive pill: Anovlar. It was this pill that set the standard for all future pills to follow. Ferdinand - Nand - Peeters was a devout Catholic and during an audience with pope John XXIII, he urged that the church should sanction the use of the Pill. But when Paul VI decided in 1968 that birth control other than the practice

remain forbidden, doctor Peeters didn't breathe a word about his role in the development of the pill. Even his family was barely aware of it. In *The Real Father of the Pill*, Karl van den Broeck tells the long hidden story behind this invention, a story of innovation and threats, of grateful women and papal ambivalence. With this book doctor Peeters is finally given the recognition he deserves. This book includes the documentary *The Real Father of the Pill*. More information can be found in the book.

What's Left? - Mary Jo Weaver
1999

"What's Left? employs a thoroughly in-house approach in which self-identified liberal Catholics examine various facets of liberal Catholicism.... this book explores some of the most prominent threads of leftist Catholic aspiration and dissent." --Choice
What's Left? is the most comprehensive study to date of liberal American Catholics in the generation following the

(1962-65). The main features of liberal American Catholicism--feminist theology and practice, contested issues of sexual conduct, new social locations of academic theology, liturgy, spirituality, ministry, race and ethnicity, and public Catholicism--are presented here in their historical and social contexts.

Vatican II - Melissa J. Wilde 2018-06-05
On an otherwise ordinary Sunday morning in 1964, millions of Roman Catholics around the world experienced history. For the first time in centuries, they attended masses that were conducted mostly in their native tongues. This occasion marked only the first of many profound changes to emanate from the Second Vatican Council (1962-1965). Known popularly as Vatican II, it would soon give rise to the most far-reaching religious transformation since the Reformation. In this

groundbreaking work of cultural and historical sociology, Melissa Wilde offers a new explanation for this revolutionary transformation of the Church. Drawing on newly available sources--including a collection of interviews with the Council's key bishops and cardinals, and primary documents from the Vatican Secret Archive that have never before been seen by researchers--Wilde demonstrates that the pronouncements of the Council were not merely reflections of papal will, but the product of a dramatic confrontation between progressives and conservatives that began during the first days of the Council. The outcome of this confrontation was determined by a number of factors: the Church's decline in Latin America; its competition and dialogue with other faiths, particularly Protestantism, in northern Europe and North America; and progressive clerics' deep belief in the holiness of compromise and their penchant for consensus

building. Wilde's account will fascinate not only those interested in Vatican II but anyone who wants to understand the social underpinnings of religious change.

Abortion, Conscience and Democracy - Mark R. MacGuigan 1994-01-10

Few issues have polarized Canadians and Americans as much as the abortion debate. In this thoughtful and thought-provoking reflection on the implications the law on abortion has on democracy, Mark MacGuigan brings a much-needed perspective to this controversial subject. Few people are as well qualified to do so: MacGuigan is a former law professor, minister of justice and attorney general of Canada, a Catholic, and a federal appellate-court judge. Distinguishing carefully between morality and the law, MacGuigan includes a history of the criminal law, the Catholic Church's views, and the often-ignored roles of individual conscience, freedom and responsibility in

Doctrine 1962-1984

democracy. He reviews the essential debate, important case histories, and the evolving social perspectives that have attached themselves to discussions of abortion. he also includes chapters on the related issues of contraception and euthanasia. MacGuigan refers to a wide range of influential and international documents and judgements: papal encyclicals, the Wolfenden Report, Roe vs. Wade, a ruling in a case that involved Dr. Henry Morgentaler, and numerous other sources. With great candour, MacGuigan also explores how his own attitude and position have changed to the point where he now opposes any legislation limiting abortion before viability. Those who are seeking clarity of the issues and those who want to uncloud the rhetoric and the arguments should not miss reading this important work.

Catholic Moral Theology in the United States - Charles E. Curran 2008-04-11

In this magisterial volume Charles E. Curran surveys the historical development of Catholic moral theology in the United States from its 19th century roots to the present day. He begins by tracing the

development of ~~pre-Vatican II~~ ^{Doctrine, 1962-1984} moral theology that, with the exception of social ethics, had the limited purpose of training future confessors to know what actions are sinful and the degree of sinfulness. Curran then explores and illuminates the post-Vatican II era with chapters on the effect of the Council on the scope and substance of moral theology, the impact of *Humanae vitae*, Pope Paul VI's encyclical condemning artificial contraception, fundamental moral theology, sexuality and marriage, bioethics, and social ethics. Curran's perspective is unique: For nearly 50 years, he has been a major influence on the development of the field and has witnessed first-hand the dramatic increase in the number and diversity of moral theologians in the academy and the Church. No one is more qualified to write this first and only comprehensive history of Catholic moral theology in the United States.
