Minefields of the Heart - Sue Diaz 2010-07-01

How do combat veterans and their loved ones bridge the divide that war, by its very nature, creates between them? How does someone who has fought in a war come home, especially after a tour of duty marked by near-daily mortar attacks, enemy fire, and roadside bombs? With a journalist's eye and a mother's warmth, Sue Diaz asks these questions as she chronicles the two deployments to Iraq of her son, Sgt. Roman Diaz, from the perspective of the home front. Sergeant Diaz's second deployment put him south of Baghdad in the region aptly termed the Triangle of Death. There his platoon experienced extraordinarily heavy casualties during the height of the Iraqi insurgency. That unit has

since become the focus of considerable media attention following events that made headlines in the summer of 2006: an insurgent attack at a remote outpost on three of their own—one killed at the scene, the other two kidnapped, their bodies found days later; and a terrible war crime committed against an Iraqi family by four soldiers from First Platoon. *Minefields of the Heart* adds a very personal dimension to the larger story of this Bravo Company platoon from the 101st Airborne's 502nd Infantry Regiment, a unit known since World War II as the “Black Heart Brigade.” Diaz recounts the emotional rollercoaster her family and other soldiers' families experience during and after deployment. She explores this terrain not only

through stories of her son's and family's experiences connected to the Iraq War, but also by insights she's gained from other veterans' accounts—from what she calls “the box” that soldiers returning from any war carry within. This added layer gives her narrative broader meaning, bringing home the impact of war in general on those who fight and on those who love them. *Minefields of the Heart* is a story of innocence lost, understanding gained, and hope reaffirmed. In addition to veterans and their families, this book will appeal to anyone who wants to understand war's impact on individuals as well as on the fabric of our society.

Continuing Bonds - Dennis Klass 2014-05-12

First published in 1996. This new book gives voice to an emerging consensus among bereavement scholars that our understanding of the grief process needs to be expanded. The dominant 20th century model holds that the function of grief and mourning is to cut bonds with the deceased, thereby freeing the survivor to reinvest in new relationships in the present. Pathological grief has been defined in terms of

Downloaded from

holding on to the deceased. Close examination reveals that this model is based more on the cultural values of modernity than on any substantial data of what people actually do. Presenting data from several populations, 22 authors - among the most respected in their fields - demonstrate that the health resolution of grief enables one to maintain a continuing bond with the deceased. Despite cultural disapproval and lack of validation by professionals, survivors find places for the dead in their on-going lives and even in their communities. Such bonds are not denial: the deceased can provide resources for enriched functioning in the present. Chapters examine widows and widowers, bereaved children, parents and siblings, and a population previously excluded from bereavement research: adoptees and their birth parents. Bereavement in Japanese culture is also discussed, as are meanings and implications of this new model of grief. Opening new areas of research and scholarly dialogue, this work provides the basis

for significant developments in clinical practice in the field.

[The Other Mothers](#) - Katherine Faulkner
2023-12-05

The author of the “twisty, fast-paced” (The Sunday Times, London) Greenwich Park returns with a fresh and deftly paced thriller about murder, class, and motherhood in an exclusive London community. When a young nanny is found dead in mysterious circumstances, new mom, Tash, is intrigued. She has been searching for a story to launch her career as a freelance journalist. But she has also been searching for something else—new friends to help her

navigate motherhood. She sees them at her son's new playgroup. The other mothers. A group of sleek, sophisticated women who live in a neighborhood of tree-lined avenues and stunning houses. The sort of mothers Tash herself would like to be. When the mothers welcome her into their circle, Tash discovers the kind of life she has always dreamt of—their elegant London townhouses a far cry from her cramped basement flat and endless bills. She is quickly swept up into their wealthy world via coffees, cocktails, and playdates. But when another young woman is found dead, it's clear there's much more to the community than meets the eye. The more Tash investigates, the more she's led uncomfortably close to the other mothers. Are these women really her friends? Or is there another, more dangerous reason why she has been so quickly accepted into their exclusive world? Who, exactly, is investigating who?

The Year of Magical Thinking - Joan Didion 2005

[In this book, the author] explores an intensely personal yet universal experience: a portrait of a marriage - and a life, in good times and bad - that will speak to anyone who has ever loved a husband or wife or child. Several days before Christmas 2003, John Gregory Dunne and Joan Didion saw their only daughter, Quintana, fall ill with what seemed at first flu, then pneumonia, then complete septic shock. She was put into an induced coma and placed on life support. Days later - the night before New Year's Eve - the Dunes were just sitting down to dinner after visiting the hospital when John Gregory Dunne suffered a massive and fatal coronary. In a second, this close, symbiotic partnership of forty years was over. Four weeks later, their daughter pulled through. Two months after that, arriving at LAX, she collapsed and underwent six hours

of brain surgery at UCLA Medical Center to relieve a massive hematoma. This ... book is Didion's attempt to make sense of the "weeks and then months that cut loose any fixed idea I ever had about death, about illness ... about marriage and children and memory ... about the shallowness of sanity, about life itself."--Jacket.

DOUBLE MINORITY - Jeannie Wong Salomon
2023-03-06

In her memoir, Jeannie recalls her childhood years in Hong Kong and how it shaped her view as a mom, wife, and professional in America in her later years. As she grew up and became a professional, she realized that she was often seen as a "minority" because of her ethnicity and gender by Americans. Despite having laws to prohibit prejudice and discrimination, they still exist. Jeannie believes the only way to eradicate them is at the heart level. She shares vulnerably about her journey balancing family, children, work, and being a wife. She applies her knowledge of Chinese tradition and Christian

values to her non-profit organization, working toward a prejudice-free and discrimination-free next generation. Jeannie strives to be an agent of change in race relations. She is helping many young Asian Americans find their ethnic identity in this polarized climate through their initiative, "Asian American Connections".

A Girl With A Book and Other Plays - Nick Wood
2017-03-02

A topical collection of new plays by popular UK playwright Nick Wood 'I am not a lone voice, I am many.' Malala Yousafzai A Girl with a Book and Other Plays brings together four plays for young people by acclaimed playwright Nick Wood. Topical and wide-ranging, they concern refugees, friendship, loss and courage. 'You know those sentences that start I'm not sexist/racist/homophobic and the speaker sticks in the word 'but' and goes on to prove that's exactly what they are?' The title play, A Girl with a Book is an honest response to the story of Malala Yousafzai, who was shot by the Taliban. Produced many times in Germany and the UK,

the play raises serious questions about the West's complex relationship with and attitudes to the Muslim world. 'a journey into empathy and imagination...' Stephen Lowe Plays Nick Wood's poignant political drama A Girl with a Book is based on the true story of Nobel Peace Prize-Winner Malala Yousafza. In 2012, gunmen stopped a bus in Pakistan and shot three young girls. Their crime? Wanting to go to school. Knowing nothing about the situation, able to offer little more than outrage, the writer is forced out from behind his desk and in the search for answers to help him tell the story of a brave young woman's fight for girls' education, but when his research uncovers attitudes at odds with his liberal convictions he has to face what he learns about himself. Achieving international acclaim after its opening in Hamburg, A Girl with a Book examines Malala's story through a series of questions - Wood asks how a girl who wanted to go to school could become such a target. create their own den up on the Knoll, a secret place for heroes. The only problem is, winter is setting in and Eddie won't come down. She has odd bits and pieces in her bag, which have stories attached to them. Mia is searching for her sister, Sofia, can they help? Dream of White Horses: Paul wants two things - to find out whether his father's death was an accident or not. He climbs the same cliff, to discover what happened to his father, and a great deal about himself. '...invites us to better understand Malala, her father, and her kinsmen.' On Religion '...a journey into empathy and imagination coolly and cleanly done. A crucially important tale well told with great humanity.' Stephen Lowe, playwright '...there's plenty of scope here for schools, colleges and youth theatre groups. The title play... has a cast of one... The remaining three

plays use larger casts and explore asylum seeking, friendship, loss and courage.' Susan Elkin, The Stage

Still Here with Me - Suzanne Sjöqvist 2007

A collection of stories by young people who have faced the death of a parent. Each child and adolescent creates a picture of their journey through grief with compassion and insight.

The Lost Night - Rachel Howard 2005

A deeply moving story of one woman's search for truth and meaning in the aftermath of her father's unsolved murder. On the night of June 22, 1986, ten-year-old Rachel Howard woke to a disturbing sight: pools of blood on the hallway carpet and a glimpse of her father clutching his stabbed throat. Stan Howard died minutes later, and his bizarre small-town murder was never solved. Rachel's father was thirty-two, a laid-back, handsome man who loved the music of Rod Stewart and had no known enemies. Faced with her family's shock, Rachel decided she would cope the only way she knew how: By keeping

silent and trying to pretend the murder had never happened. Now, seventeen years later and recently engaged, Rachel attempts to uncover for herself what happened that night. Finally reconnecting with her father's family, she sorts through her relatives' memories of his death and presses the less-than-helpful detectives. Still bewildered, she seeks the only other two people present at the murder: her former stepmother and stepbrother, neither of whom she has seen since her father's funeral. The result is a tender portrait of a father and a keen investigation of memory, truth, and how a family moves on from a tragedy for which they may never find answers. "Homicide has lifelong effects for its secondary victims, and educating people to that fact is an essential part of the battle for victims' rights. The genres of True Crime and Memoir both need more books like *The Lost Night*. Rachel's memoir is important and enlightening. She is very brave for taking on the telling of this story. --Jeanine Cummins, author of *A Rip in*

Heaven "From the first page to the last, I read Rachel Howard's spellbinding memoir of murder and its harrowing aftermath with my heart in my mouth. A riveting exploration of grief, suspicion, and the tangled ties that make up the modern family, her need to uncover the identity of the person responsible for the vicious stabbing death of her beloved, but flawed father compels her on a brave, emotional quest for the truth. I turned the pages late into the night, eager to follow Howard as she pursued the next clue and the next, as well as to discover how she would come to terms with her terrible loss. A clear-sighted writer, willing to admit to the gaps in fact and memory that will always remain, the true triumph of her story is the hard-won, if uneasy truce she ultimately establishes with the past." --Anna Cypra Oliver, author of *Assembling My Father: A Daughter's Detective Story*
