[Kingdom Ethics, 2nd ed. - David P. Gushee 2016-07-06](#)

"Kingdom Ethics is arguably the most significant and comprehensive Christian ethics textbook of our time." — Michelle A. Clifton-Soderstrom, North Park Theological Seminary Christian churches across the spectrum, and Christian ethics as an academic discipline, are often guilty of evading what Jesus actually said about moral life, focusing instead on other biblical texts or traditions. This evasion of Jesus has seriously malformed Christian moral witness—which Jesus said is tested by whether we put his words "into practice." David Gushee and Glen Stassen's Kingdom Ethics is the leading Christian introductory ethics textbook for the twenty-first century. Solidly rooted in Scripture—and uniquely focusing on Jesus's teachings in the Sermon on the Mount—the book has offered students, pastors, and other readers a comprehensive and challenging framework for Christian ethical thought. Writing to recenter Christian ethics in Jesus Christ, Gushee and Stassen focus on the meaning of the Kingdom of God, perennial themes of moral authority and moral norms, and all the issues raised by the Sermon on the Mount—such as life and death, sexual and gender ethics, love and justice, truth telling, and politics. This second edition of Kingdom Ethics is substantially revised by Gushee and features enhanced and updated treatments of all major contemporary ethical issues—including updated data and examples, a more global perspective, gender-inclusive language, a clearer focus on methodology, discussion questions for every chapter, and a detailed new glossary. Kingdom Ethics is for readers anywhere wanting a robust, comprehensive understanding of Christian ethics that is founded on the concrete teachings of Jesus and will equip them for further exploration into the field.

**Philosophical Foundations of Children's and Family Law - Elizabeth Brake 2018**

This collection is the first of its kind to examine the ethical foundations of family law. Topics include the value of marriage, the scope of parental control rights, the protection of children's interests, and the role of religious freedom in the legal attitude to family relationships.

**American Book Publishing Record - 2000-07**

**Ethical Contexts and Theoretical Issues - Santiago Sia 2009-12-14**

Ethics has become a particularly relevant topic for discussion and a subject for serious study. It has a very long tradition, of course; but nowadays one hears frequently of the need, because of abuses or concerns, to formulate and adopt ethical codes in various areas or professions. This book aims to make a philosophical contribution to the discussions and debates on the topic. Compared to the traditional approach to the philosophical study of ethics, however, this book adopts a different strategy. It shows that such ethical thinking, in the concrete particulars, originates in various academic and professional contexts, among others. But inasmuch as theoretical issues require wider and more intensive attention, it argues that ethical thinking needs to be pursued further and that it can be aided by philosophical investigations. In its concluding chapters the book presents an alternative foundation for ethical decision-making. Philosophically grounded, it moves away from an individualistic ethical perspective to a relational one that has been shaped through dialogue with the various contexts in which ethical thinking arises.

[The Art of Permanence - Tim Swick 2017-09-25](#)

Mate selection is the second most important decision we make in life! This decision determines whether our life will be blessed and full of joy or if it will be a painful calamity. If it is a calamity, then it will bring disastrous effects on us, our mate, our children, and our extended family and friends. Who can best guide us through this decision? Parents frequently convey to their children that the only criteria for success in mate selection and marriage are money and education. Parents want their children to excel in marriage, but they give their children no specialized training or emphasis on preparing their lives and being the kind of person who can secure a godly mate and maintain a permanent, lasting relationship. I see churches striving to attract youths and young adults to the church. I see churches challenging youths to be exceptional in their faithfulness to Jesus. I want to see churches teaching teenagers and young adults to be intimate with one another while maintaining sexual purity. I want to see churches teaching youths how to build the skills that will make them an excellent mate and future parent. I want to see churches teaching youths and young adults how to find healing for the pains that are destroying their lives. I see churches teaching that God demands holiness, and I want to see them teaching that holiness is the most enjoyable, beneficial, and only lifestyle that can and will bring permanence to all of our relationships, including marriage.

**Interpersonal Communication - Julia T. Wood 1999**

This best-selling text by a leading voice in the field offers a distinct

alternative to existing textbooks for the introductory course in interpersonal communication. This theoretically unified but pragmatic introduction to the concepts, principles, and skills of interpersonal communication in a multicultural society. This text consistently integrates ethics and issues of social diversity into coverage of both discussions and mastery of skills, and it shows how interpersonal communication theory and skills pertain to students' daily encounters with others. With unparalleled attention to social diversity and an emphasis on theories, research, and skills that are anchored in the field of communication, the new edition integrates Web and CD-ROM technology to provide interactive learning experiences for today's digital classroom.

A Community of Character - Stanley Hauerwas 1991-01-31

Selected by Christianity Today as one of the 100 most important books on religion of the twentieth century. Leading theological ethicist Stanley Hauerwas shows how discussions of Christology and the authority of scripture involve questions about what kind of community the church must be to rightly tell the stories of God. He challenges the dominant assumption of contemporary Christian social ethics that there is a special relation between Christianity and some form of liberal democratic social system.

Ethical Issues in Interpersonal Communication - Elaine E. Englehardt 2001

This interdisciplinary text integrates current and classical articles, critical thinking questions, and case studies into a unique anthology that focuses on the discipline of ethics and how it interacts with key aspects of human communication. Organized around major concepts in interpersonal communication, such as the self, dyads/friendships, intimate relationships, marriage, and family.

**The British National Bibliography** - Arthur James Wells 2003

*Everyday Greed: Analysis and Appraisal* - Michael S. Pritchard 2021-07-30

This collection examines how greed should be understood and appraised. Roundly condemned by virtually all religions, greed receives mixed appraisals in the domains of business and economics. The volume examines these mixed appraisals and how they fare in light of their implications for greed in our everyday world. Greed in children is uniformly criticized by parents, other adults, and even children's peers. However, in adulthood, greed is commended by some as essential to profit-seeking in business and for offering the greatest promise in promoting economic prosperity for everyone. Those who advocate a more permissive position on greed in the adult world typically concede that some constraints on greed are needed. However, the supporting literature offers little analysis of what greed is (as distinct from, for example, the effort to meet modest needs, or the pursuit of ordinary self-interested ends). It offers little clarification of what sorts of constraints on greed are needed. Nor is careful attention given to difficulties children might have in making a transition without moral loss from regarding greed as inappropriate to its later qualified acceptance. Through a secular approach, this book attempts to make significant inroads in remedying these shortcomings.

**Fundamentals of Nursing E-Book** - Barbara L Yoost 2019-01-23

Yoost and Crawford's Fundamentals of Nursing is back for a second-edition encore! The text that made its name by focusing on simple language and active learning continues its focus on helping you truly understand, apply, and retain important nursing information and concepts. Using a warm and conversational style, this new second edition guides you towards a basic understanding of the nursing profession and then logically progresses through the nursing process and into the safe and systematic methods of applying care. Each chapter features realistic and complex case studies and critical thinking exercises woven throughout the content to help you continually apply what you've learned to actual patient care. A conceptual care mapping approach — created by Yoost and Crawford themselves — further your ability to make clinical judgments and synthesize knowledge as you develop plans of care after analyzing and clustering related patient assessment data. All of this paired with a wealth of student-friendly learning features and clinically-focused content offers up a fundamentally different — and effective — way for you to easily master the fundamentals of nursing. UNIQUE! Warm, friendly writing style slows down the pace of information to give readers time to critically think and master all fundamental concepts and skills. UNIQUE! Building block approach groups topics and concepts together thematically, in the order needed for readers to build their knowledge. UNIQUE! Objective-driven approach presents clearly

defined, numbered objectives that coordinate with all content and then wrap up with Objective Summaries. UNIQUE! Active learning activities are incorporated throughout every chapter to help readers learn to apply chapter content to broader nursing concepts and realistic patient scenarios. UNIQUE! Conceptual care mapping is taught and used throughout the text in conjunction with the Conceptual Care Map Creator. UNIQUE! Emphasis on QSEN reinforces the Quality and Safety Education for Nurses competencies, including: patient-centered care, teamwork and collaboration, evidence-based practice, quality improvement, safety, and informatics. Special feature boxes cover the areas of: diversity consideration, evidence-based practice, informatics, patient education, healthy literacy, health assessment questions, interprofessional collaboration and delegation, ethical and legal practice, home care considerations, safe practice alerts, QSEN, critical thinking exercises, and nursing care guidelines. NEW! Interprofessional collaboration and delegation content appears throughout the text along with new IPE activities that are integrated into the Evolve resources. NEW & UNIQUE! Review and exam questions tied to learning objectives use a building-block style approach that starts at lower Bloom's taxonomy levels in early chapters and builds to more complex levels as readers acquire more knowledge. NEW! Emphasis on assignment and delegation covers the differences between them and how and when they're appropriate for an RN. NEW! Content on complementary therapies has been integrated throughout the text to reflect the changes to the NCLEX exam. NEW! Additional information has been added in the areas of HCAHPS, Health Literacy, Patient Education, Drugs of Abuse, Zika, Ebola, and more.

**Engendering Psychology** - Florence Denmark 2016-01-08

Engendering Psychology's treatment of issues is based solidly on scientific evidence and presented in a balanced manner. The text combines a developmental and topical approach. Denmark, Rabinowitz, and Sechzer explore the concept of gender as a social construction across the lines of race, ethnicity, class, age, and sexual orientation, pulling from the exciting new scholarship that has emerged over the last few years. Thoughtful discussion questions emphasize critical thinking skills, as well as encourage students to open a dialogue with both their professors and their peers. This text will help readers understand the concept of gender as a social construct in contrast to the concept of sex, which denotes biological differences. Upon completing this text, readers will have a deeper understanding of women and the knowledge that "woman" is a diverse and multifaceted category.

**Exploring Communication Ethics** - Pat Arneson 2007

Innovative in its approach and content, Exploring Communication Ethics: Interviews with Influential Scholars in the Field enlivens the study of human communication ethics by presenting interviews conducted with nine communication ethics scholars along with an advanced literature review. The interviews provide accessible and insightful discussions of the philosophical and theoretical issues central to communication ethics, revealing insights about the scholars' experiences and thought processes unavailable elsewhere. This book is written for upper-level undergraduate students, graduate students, and faculty members interested in communication ethics from the perspective of human communication and rhetorical studies, philosophy, and sociology.

**Books in Print Supplement** - 2002

**Forthcoming Books** - Rose Arny 2000

Relationships - Robert A. Hinde St John's College, University of Cambridge. 2015-01-28

This volume on close relationships in adulthood discusses the central issues in the field and points the way towards the construction of an integrated body of knowledge about human relationships. The self, interactions, relationships and groups are treated as dynamic processes in dialectical relations with each other and with the socio-cultural structure of norms, values, beliefs and institutions.; Early chapters introduce aspects of the self relevant to the dynamics of interactions and relationships: Intrapsychic Processes Of Cognition And Emotion Are Emphasized. These Are followed by chapters discussing the principle characteristics of relationships. Seven further chapters focus on the processes involved in the dynamics of relationships, and later chapters synthesize previous ones in discussions of love and friendship, and the nature of relationship change. The focus throughout the text is on current work and current controversy, placed against a background of knowledge that has been built up in recent decades.

Family Violence Across the Lifespan - Ola W. Barnett 2010-12-14

The most comprehensive research-based text on family violence - now more accessible and visually inviting than ever before Streamlined and updated throughout with state-of-the-art information, this Third Edition of the authors' bestselling book gives readers an accessible introduction to the methodology, etiology, prevalence, treatment, and prevention of family violence. Research from experts in the fields of psychology,

sociology, criminology, and social welfare informs the book's broad coverage of current viewpoints and debates within the field. Organized chronologically, chapters cover child physical, sexual, and emotional abuse; abused and abusive adolescents; courtship violence and date rape; spouse abuse, battered women, and batterers; and elder abuse.
